Multiply the number of mills levied for general fund purposes above the fifteen (15) mills required to support Foundation Aid pursuant to division (1) of subparagraph b of paragraph 1 of this subsection, not including the county four-mill levy, by the remainder of subparagraph b of this paragraph. The product shall be the Salary Incentive Aid of the district.

C. Until the 1996-97 school year, any school district with a membership that is at least one and one-half percent (1 1/2%) greater than the highest average daily membership of the preceding two (2) years of the school district shall receive a midterm supplement in State Aid to be determined as follows:

Data used for the calculation for the midterm supplement shall be that which is reported on the Accrediting Report of the school district and received by the State Department of Education by October 15th of the school year for which the midterm supplement is to be paid as compared to the average daily membership for the higher of the two (2) preceding years.

The data contained in the Accrediting Report for all qualifying school districts shall be audited by the State Department of Education. If a district does not qualify for a midterm supplement using the Accrediting Report data they may request an audit of the data by the State Department of Education. If, based on the post-audit data, the district is entitled to receive a midterm supplement, or if any school district's post-audit midterm supplement calculation differs from the amount of the supplement paid, the State Department of Education shall adjust the district's State Aid payments during the remainder of the school year for which the midterm supplement was paid in order to reconcile the supplement with the post-audit calculation.

2. Pupils shall not be included in the membership calculation if such pupils are enrolled for the current year in a grade level which was not taught in that school district during the preceding school year.

3. School districts which have been involved in any annexation or consolidation with other school districts during the school year for which the midterm supplement is to be calculated, or in the preceding school year, shall qualify for midterm growth as if annexed or consolidated membership had been enrolled in the current district for the preceding two (2) years.

If the funds received pursuant to the provisions of Section 18-112.2 of this title are less than the funds to be received pursuant to the provisions of this subsection, the midterm supplement shall be the difference between these two amounts.

5. Any district which qualifies for a midterm supplement shall have deducted from the supplement an amount equal to the amount of carryover in the district's general fund as of June 30 of the preceding fiscal year that is in excess of the standards set out in subsection F of this section.

6. If funds appropriated to the State Board of Education for the purpose of paying the midterm supplement in State Aid are not sufficient to fully fund the amount determined by this subsection, each school district which qualifies for such funding shall receive a proportionate reduction in funding.

D. For the 1996-97 school year, any school district with membership that is greater than the average daily membership of the preceding two (2) years of the school district shall receive a midterm supplement in State Aid to be determined as follows:

1. For each additional pupil in membership which equals or exceeds one and one-half percent (1 1/2%) increase over the highest average daily membership of the preceding two (2) years, the district shall receive funding to be determined as follows:

- a. multiply each additional pupil in membership as provided in this paragraph by the Base Foundation Support Level for the current school year, and
- b. multiply each additional pupil in membership as provided in this paragraph by the Incentive Aid guaranteed for the current school year times twenty (20), and
- c. sum the products of subparagraphs a and b of this paragraph.

2. The amount required to fund all additional pupils in membership as calculated in paragraph 1 of this subsection shall be subtracted from the amount appropriated to the State Board of

Education for the purpose of paying the midterm supplement in State Aid for the 1996-97 school year. The remaining amount shall be distributed to districts as determined in paragraph 3 of this subsection.

3. For each additional pupil in membership under one and one-half percent (1 1/2%) increase over the highest average daily membership of the preceding two (2) years, the district shall receive midterm supplement funding to be determined as follows:

- a. divide the remaining amount of appropriated funds as determined in paragraph 2 of this subsection by the additional pupils in membership which did not qualify for funding based on the criteria set forth in paragraph 1 of this subsection,
- b. the resulting product shall be the per pupil amount to be distributed to the district.

The amount calculated in paragraph 1 and paragraph 3 of this subsection shall be the total midterm supplement to be distributed to each qualifying school district.

Current school year data used for the calculation for the midterm supplement as provided for in this subsection shall be that which is reported on the Accrediting Report for the school district and received by the State Department of Education by October 15 of the school year for which the midterm supplement is to be paid.

The data contained in the Accrediting Report for all qualifying school districts shall be audited by the State Department of Education. If a district does not qualify for a midterm supplement using the Accrediting Report data, it may request an audit of the data by the State Department of Education no later than January 20 of that same year. If, based on the post-audit data, the district is entitled to receive a midterm supplement, the State Department of Education shall include the school district in the allocation of midterm supplement funding.

The midterm supplement shall be allocated to qualifying school districts with payments beginning the month following the month in which the audit is completed and shall be paid each month thereafter for the remainder of the fiscal year. Each monthly payment shall be approximately equal in amount.

4. Pupils shall not be included in the average daily membership calculation if such pupils are enrolled for the current year in a grade level which was not taught in the school district during the preceding school year.

5. School districts which have been involved in any annexation or consolidation with other school districts during the school year for which the midterm supplement is to be calculated, or in the preceding school year, shall qualify for midterm growth as if annexed or consolidated membership had been enrolled in the current district for the preceding year.

6. For any district qualifying for the midterm supplement, if the funds received pursuant to the provisions of Section 18-112.2 of this title are in excess of the funds to be received pursuant to the provisions of this subsection, the district shall receive no midterm supplement. If the funds received pursuant to the provisions of Section 18-112.2 of this title are less than the funds to be received pursuant to the provisions of this subsection, the midterm supplement shall be the difference between these two amounts.

7. Any district which qualifies for a midterm supplement shall have deducted from the supplement an amount equal to the amount of carryover in the district's general fund as of June 30 of the preceding fiscal year that is in excess of the standards set out in subsection F of this section.

8. If funds appropriated to the State Board of Education for the purpose of paying for student growth as provided for in this subsection are not sufficient to fully fund the amount determined by the provisions of this subsection, each school district which qualifies for such funding shall receive a proportionate reduction in funding.

9. By June 30, 1998, the State Department of Education shall develop and all school districts shall have implemented a student identification system which is consistent with the provisions of subsections C and D of Section 3111 of Title 74 of the Oklahoma Statutes. The student identification system shall be used specifically for the purpose of reporting enrollment data by school sites and by school districts, the administration of the Oklahoma School Testing Program Act, the collection of appropriate and necessary data pursuant to the Oklahoma Educational Indicators Program, determining student enrollment, establishing a mobility rate or allocation of State Aid Formula and mid-year adjustments in funding for student growth. Upon request of the local board of education, it shall be the duty of the county assessor to certify to the Director of Finance of the State Department of Education the net assessed valuation of the property upon which taxes were determined uncollectible.
