

STATE OF OKLAHOMA

2nd Session of the 46th Legislature (1998)

HOUSE BILL NO. 2743

By: Hamilton

AS INTRODUCED

An Act relating to oil and gas; amending 52 O.S.

1991, Section 149, as amended by Section 2, Chapter 315, O.S.L. 1994 (52 O.S. Supp. 1997, Section 149), which relates to the oil and gas Conservation Division; modifying the duties of the Conservation Division; modifying employment requirements for certain employees; creating employee positions; eliminating certain employee positions; removing provision relating to employment of certain employees; and declaring an emergency.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

SECTION 1. AMENDATORY 52 O.S. 1991, Section 149, as amended by Section 2, Chapter 315, O.S.L. 1994 (52 O.S. Supp. 1997, Section 149), is amended to read as follows:

Section 149. There is hereby created within the Corporation Commission of Oklahoma, herein called "Commission", a Conservation Division, the duties and functions of which, subject to the supervision and direction of the Commission, shall be to aid the Commission in the administration and performance of the powers, duties and functions of the Commission with respect to oil and gas conservation and the prevention of pollution resulting from oil and

gas production, and transportation, ~~and refining operations~~. The Conservation Division so created shall consist of the following personnel:

1. A Director of Conservation, who, in addition to the duties and functions now or hereafter prescribed for such officer in this title, shall have overall responsibility, supervision and direction of the activities of the Conservation Division and the administration and enforcement of the rules, regulations and orders of the Commission relating to oil and gas conservation and the prevention of pollution. The Director of Conservation shall be a graduate of an accredited college or university with a Bachelor's Degree and shall have five (5) years' experience in a supervisory capacity in an administrative or personnel management position;

2. A Manager of Pollution Abatement, whose duties and functions shall be to direct and supervise the activities of the Conservation Division with respect to the prevention of pollution. The Manager of Pollution Abatement shall be a graduate of an accredited college or university with a Bachelor of Science Degree in petroleum, civil or mechanical engineering, geology, environmental science or a related field and shall have at least five (5) years' practical or regulatory experience in the production of oil and gas, three (3) years of which must have been in an administrative or supervisory capacity;

3. A Manager of Field Operations, whose duties and functions shall be to direct, supervise and coordinate the activities of the district offices and all the field activities of the Conservation Division with respect to both oil and gas conservation and the prevention of pollution. The Manager of Field Operations shall be a graduate of an accredited college or university with a Bachelor of Science Degree in ~~Petroleum Engineering~~ petroleum, civil or mechanical engineering, geology, environmental science or a related field and at least five (5) years' practical or regulatory

experience in the production of oil and gas, three (3) years of which must have been in an administrative or supervisory capacity or, ~~in the alternative, shall have at least ten (10) years'~~ ~~experience in the production of oil and gas, of which five (5) years shall be in a supervisory capacity~~ an equivalent combination of education and experience, substituting one (1) additional year of qualifying experience for each year of the required degree;

4. A Deputy Director of Conservation, whose duties and functions shall be the administrative management of the various offices of the Conservation Division including, but not limited to, office services and procedures, coordinating personnel administration, processing of expense statements, budget preparation and cost accounting, procurement and use of supplies, files, records, and other professional and clerical services, computer services, with other divisions of the Commission and providing technical assistance as necessary. The Deputy Director of Conservation shall be a graduate of an accredited college or university with a ~~Bachelor's~~ Bachelor of Science Degree in petroleum, civil or mechanical engineering, geology, environmental science or a related field and shall have five (5) years' practical or regulatory experience in a the production of oil and gas, three (3) years of which must have been in an administrative or supervisory capacity ~~in an administrative or personnel management position;~~

5. A ~~Senior Engineer and a Senior Geologist~~ Manager of Technical Services, whose duties and functions shall be to ~~provide the Commission, the Director of Conservation, and~~ direct, supervise and coordinate the technical activities of the Conservation Division ~~with engineering, geological and other technical advice and assistance as needed with respect to oil and gas conservation and the, prevention of waste and prevention of pollution, including participation in hearings before the Commission or Administrative~~

~~Law Judges.~~ The ~~Senior Engineer~~ Manager of Technical Services shall be a graduate of an accredited college or university, with a Bachelor of Science Degree in ~~Petroleum Engineering~~ petroleum, civil or mechanical engineering, geology, environmental science or a related field and at least five (5) years' practical or regulatory experience as a ~~petroleum engineer.~~ The ~~Senior Geologist~~ shall be a graduate of an accredited college or university, with a Bachelor of Science Degree in ~~Geology~~ and shall have five (5) years' practical experience in petroleum geology in the production of oil and gas, three (3) years of which must have been in an administrative or supervisory capacity;

6. ~~Staff Engineers and Geologists to serve on the staff and as assistants to the Senior Engineer.~~ The ~~Staff Engineers and Geologists~~ shall be graduates of accredited colleges or universities, with Bachelor of Science Degrees in ~~Engineering or Geology,~~ as the case may be, and have a knowledge of ~~petroleum engineering or geology and its application;~~

7. District Managers, whose duties and functions shall be to supervise and direct the district offices and all field activities of the Conservation Division, including both oil and gas conservation and the prevention of pollution in the respective districts to which they are assigned. A District Manager shall be a graduate of an accredited college or university with a Bachelor of Science Degree in ~~Petroleum Engineering~~ petroleum, civil or mechanical engineering, geology, environmental science or a related field and shall have five (5) years' practical or regulatory experience in the production of oil and gas, three (3) years of which must have been in an administrative or supervisory capacity or, ~~in lieu of a college degree, shall have ten (10) years'~~ an equivalent combination of education and experience, substituting one (1) year of practical or regulatory experience in the production of

oil and gas, ~~of which five (5) years' experience shall be in a supervisory capacity~~ for each year of the required degree;

~~8.~~ 7. Assistant District Managers, whose duties and functions shall be to supervise, direct and coordinate the activities of field and office personnel and who shall be under the supervision of the District Managers. An Assistant District Manager shall be a graduate from an accredited college or university with a Bachelor of Science degree in petroleum, civil or mechanical engineering, geology, environmental science or related field and shall have ~~three (3)~~ four (4) years' practical or regulatory experience in the production of oil and gas, one (1) year of which must have been in a supervisory capacity or, in lieu of a college degree, shall have seven (7) years' an equivalent combination of education and experience, substituting one (1) year of practical or regulatory experience in the production of oil and gas of which three (3) years', experience shall be in a supervisory capacity for each year of the required degree;

~~9.~~ 8. Oil and Gas Field Inspectors, whose duties and functions, subject to the direction and supervision of the Oil and Gas ~~Inspection~~ Field Inspector Supervisor of the respective district to which they are assigned, shall be to make inspections and investigations, witness tests, and generally serve as enforcement officers and representatives of the Commission in the administration and enforcement of the rules, regulations and orders of the Commission relating to both oil and gas conservation and the prevention of pollution. An Oil and Gas Field Inspector shall ~~be a high school graduate with at least five (5)~~ have four (4) years' practical experience in oil field production and drilling operations ~~or equivalent training and experience with the Commission;~~

~~10.~~ 9. Assistant Manager of Field Operations, who under the general direction of the Manager of Field Operations, shall direct, supervise and coordinate office personnel and the activities of the

district office and other field programs. An Assistant Manager of Field Operations shall be a graduate of an accredited college or university with a Bachelor of Science Degree in ~~Petroleum Engineering~~ petroleum, civil or mechanical engineering, geology, environmental science or related fields and shall have five (5) years' practical or regulatory experience in the production of oil and gas or, ~~in lieu of a college degree, shall have ten (10) years'~~ an equivalent combination of education and experience, substituting one (1) year of practical or regulatory experience in the production of oil and gas, ~~of which five (5) years' experience shall be in a supervisory capacity~~ for each year of the required degree;

~~11.~~ 10. Oil and Gas Safety Specialist, who, under the general direction of the Assistant District Manager of the respective district to which they are assigned, shall be trained in Hydrogen Sulfide Gas control and safety and in hazardous chemical detection and shall investigate incidents of public safety concerns. An Oil and Gas Safety Specialist shall have five (5) years' regulatory experience ~~as an Oil and Gas Field Inspector with the Corporation Commission and be fully competent in well control and blowout prevention for drilling operations, in Hydrogen Sulfide control and safety and in hazardous chemical detection~~ in the production of oil and gas or a Bachelor of Science Degree in Industrial Safety and one (1) year of regulatory experience in the production of oil and gas;

~~12.~~ 11. Senior Field Inspector, who, under the general direction ~~or~~ of the Oil and Gas Field Inspector Supervisor of the respective district to which they are assigned, shall perform detailed inspections and investigations and provide expert testimony concerning the enforcement of rules of the Corporation Commission. A Senior Field Inspector shall have ~~five (5)~~ four (4) years' practical and two (2) years' regulatory experience in the production of oil and gas industry or shall have at least three (3) years'

~~experience as an Oil and Gas Field Inspector with the Corporation Commission; and~~

~~13.~~ 12. Oil and Gas Inspector Supervisor, who, under the supervision of the Assistant District Manager of the respective district to which they are assigned, shall supervise and perform field inspection activities related to tests, surveys and investigations of oil and gas production, pollution control and environmental protection. An Oil and Gas Inspector Supervisor shall ~~be a high school graduate with at least five (5)~~ have four (4) years' practical and three (3) years' regulatory experience in the production of oil field production and drilling operations or equivalent training and experience with the Commission and gas;

~~14.~~ A Senior Statistician and Assistant Statisticians, whose duties and functions shall be the procurement, compilation, analysis and preparation of reports and schedules containing statistics necessary or desirable to the administration or performance of the powers, duties and functions of the Commission and of the Conservation Division with respect to oil and gas conservation and the prevention of pollution. The Senior Statistician shall be a graduate of an accredited college or university with a Bachelor's Degree in Accounting, Business Administration, Mathematics or the sciences and at least two (2) years' experience in the processing of large volumes of data with respect to oil and gas operations. An Assistant Statistician shall have at least a high school education and an aptitude and experience in working with the tabulation of numbers; and

~~15.~~ Secretaries, who shall be qualified to accurately take and transcribe dictation and perform normal duties performed by a secretary; stenographer-clerks who shall be qualified to do typing, filing, handling of mail, and the routine clerical duties of an office; file clerks or librarians who shall be qualified to keep and

~~maintain the central files and records of the Division; and
duplicating machine operators.~~

~~The employees of the Commission who at the effective date of
this act are holding positions or performing functions corresponding
to those herein prescribed but who do not have the qualifications
required by this act for such positions or functions shall not, for
that reason, be disqualified to continue in such positions or to
perform such functions, but at such time as there is a vacancy in
such position it shall be filled by an employee having the
qualifications herein prescribed.~~

SECTION 2. It being immediately necessary for the preservation
of the public peace, health and safety, an emergency is hereby
declared to exist, by reason whereof this act shall take effect and
be in full force from and after its passage and approval.
