Section 11-103.6 A. The State Board of Education shall adopt curricular standards for instruction of students in the public schools of this state that are necessary to ensure there is attainment of desired levels of competencies in a variety of areas to include language, mathematics, science, social studies and communication. All students shall gain literacy at the elementary and secondary levels through a core curriculum. Students must develop skills in reading, writing, speaking, computing and critical thinking. They also must learn about cultures and environments - their own and those of others with whom they share the earth. Students, therefore, must study social studies, literature, languages, the arts, mathematics and science. Such curricula shall provide for the teaching of a hands-on career exploration program in cooperation with vocational-technical education schools. The core curriculum shall be designed to teach the competencies for which students shall be tested as provided in Section 1210.508 of this

title, and shall be designed to prepare all students for employment and/or post secondary education. It is the intent of the Oklahoma Legislature that Oklahoma history be included in the social studies core curriculum for purposes of this section.

~~B. Beginning with the 2002-2003 school year, in order to graduate from a public high school accredited by the State Board of Education, students shall complete the following core curriculum units at the secondary level:~~

~~at the comprehensive high school or at a vocational-technical school; and~~

~~4. Social Studies - 3 units, to consist of 1 unit of United States History, 1/2 to 1 unit of United States Government, 1/2 unit of Oklahoma History, and 1/2 to 1 unit from the following social studies electives - World History (which is required to qualify for the diploma of honor as provided for in Section 11-103.2 of this title), Geography, Economics, Anthropology, Psychology, or Sociology.~~

~~For purposes of this section, a "unit" means a Carnegie Unit as defined by the North Central Association's Commission on Schools.~~

~~C. The State Board of Education shall adopt a plan to ensure that rigor is maintained in the content, teaching methodology, level of expectations for student achievement, and application of learning in all the courses specified in subsection B of this section. The State Board of Education shall allow as much option at the local district level as is possible without diminishing the rigor or undermining the intent of providing these courses. Local options may include, but shall not be limited to, comparable courses taken by concurrent enrollment or advanced placement, and comparable courses bearing different titles. Credit for the courses required in subsection B of this section shall be given when such courses are taken in the seventh or eighth grades if the teachers are certified to teach the courses at the intermediate or secondary level and the required course rigor is maintained.~~

~~D. As a condition of receiving accreditation from the State Board of Education, all students in grades nine through twelve shall enroll in a minimum of six periods, or the equivalent in block scheduling, of rigorous academic and/or rigorous vocational courses each day, which may include arts, vocal and instrumental music, speech classes, and physical education classes.~~

~~E.~~ The State Board of Education shall provide an option for high school graduation based upon attainment of the desired levels of competencies as required in tests pursuant to the provisions of Section 1210.508 of this title. Such option shall be in lieu of the amount of course credits earned.

~~F.~~ C. The State Board of Education shall prescribe, adopt and approve a promotion system based on the attainment by students of specified levels of competencies in each area of the core curriculum. Provided, however, that children who have individualized education plans pursuant to the Individuals with Disabilities Education Act (IDEA), P.L.
