

STATE OF OKLAHOMA

2nd Session of the 48th Legislature (2002)

COMMITTEE SUBSTITUTE
FOR
HOUSE BILL NO. 2810

By: Pope (Clay)

COMMITTEE SUBSTITUTE

An Act relating to revenue and taxation; amending 68 O.S. 2001, Section 2357.25, which relates to income tax incentives for agricultural producers; modifying credits available for certain periods of time; authorizing transfer of tax credits; modifying availability of tax credits with respect to insurance premium taxes; increasing total amount of allowed credit; amending 68 O.S. 2001, Section 1001, which relates to gross production taxes; modifying time period for certain drilling activity; modifying periods of time and well depths related to exemption period; amending 68 O.S. 2001, Section 2357.4, which relates to investment tax credits; authorizing transfer of credits; imposing limitations based upon election governing ad valorem exemption; providing effective dates; and declaring an emergency.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

SECTION 1. AMENDATORY 68 O.S. 2001, Section 2357.25, is amended to read as follows:

Section 2357.25 A. There shall be allowed a credit against the tax imposed by Section 2355 of ~~Title 68 of the Oklahoma Statutes~~ this title for direct investments by Oklahoma agricultural producers in Oklahoma producer-owned agricultural processing cooperatives, Oklahoma producer-owned agricultural processing ventures, or Oklahoma producer-owned agricultural processing marketing associations created and designed to develop and advance the production, processing, handling and marketing of agricultural commodities grown, made or manufactured in Oklahoma.

1. For calendar years 1997 and 1998, the amount of the credit shall be thirty percent (30%) of the amount of the investment by the Oklahoma agricultural producer in Oklahoma producer-owned

agricultural processing cooperatives, ventures, or marketing associations.

2. For calendar ~~year~~ years 1999, and all subsequent years 2000, 2001 and 2002, the credit percentage, not to exceed thirty percent (30%), shall be adjusted annually so that the total estimate of credits does not exceed One Million Dollars (\$1,000,000.00) annually. The formula to be used for the percentage adjustment shall be thirty percent (30%) times One Million Dollars (\$1,000,000.00) divided by the credits claimed in the preceding year. In no event shall the credit be claimed more than once by a taxpayer each taxable year.

In the event the total tax credits authorized by paragraphs 1 and 2 of this section exceed One Million Dollars (\$1,000,000.00) in any calendar year, the Oklahoma Tax Commission shall permit any excess over One Million Dollars (\$1,000,000.00) but shall factor such excess into the percentage adjustment formula for subsequent years.

3. For calendar year 2003, the credit percentage, not to exceed thirty percent (30%), shall be adjusted annually so that the total estimate of credits does not exceed One Million Dollars (\$1,000,000.00). The formula to be used for the percentage adjustment shall be thirty percent (30%) times One Million Dollars (\$1,000,000.00) divided by the credits claimed in the preceding year. In no event shall the credit be claimed more than once by a taxpayer each taxable year.

In the event the total tax credits authorized by this paragraph exceed One Million Dollars (\$1,000,000.00) in calendar year 2003, the Oklahoma Tax Commission shall permit any excess over One Million Dollars (\$1,000,000.00) but shall factor such excess into the percentage adjustment formula for subsequent years.

4. For calendar year 2004, and all subsequent years, the credit percentage, not to exceed thirty percent (30%), shall be adjusted

annually so that the total estimate of credits does not exceed Two Million Dollars (\$2,000,000.00). The formula to be used for the percentage adjustment shall be thirty percent (30%) times Two Million Dollars (\$2,000,000.00) divided by the credits claimed in the preceding year. In no event shall the credit be claimed more than once by a taxpayer each taxable year.

In the event the total tax credits authorized by this paragraph exceed Two Million Dollars (\$2,000,000.00) in calendar year 2004, the Oklahoma Tax Commission shall permit any excess over Two Million Dollars (\$2,000,000.00) but shall factor such excess into the percentage adjustment formula for subsequent years.

B. If the credit allowed pursuant to this section exceeds the amount of state income taxes due or if there are no state income taxes due on the income of the taxpayer, the amount of credit allowed but not used in any taxable year may be carried forward as a credit against subsequent income tax liability for a period not exceeding six (6) years following the year in which the investment was originally made.

C. The Oklahoma Tax Commission shall have the authority to prescribe forms for purposes of claiming the credit authorized by this section. The Oklahoma Tax Commission shall be authorized to conduct an investigation of the relevant facts as may be required in order to verify the eligibility of a claimant to receive a credit for any applicable income tax year.

D. 1. For any taxable year during which a taxpayer sells or otherwise disposes of the ownership interest for which a tax credit has previously been allowed to the taxpayer or for which a tax credit will be allowed to the taxpayer for the year in which the sale or other disposition of the ownership interest is made, the taxpayer shall be required to reduce the cost of the ownership interest in the Oklahoma producer-owned agricultural processing cooperative, venture, or marketing association, as reported upon the

applicable income tax return, by the amount of the tax credit which has previously been granted or for which the taxpayer is claiming credit if the credit is allowable for the year during which the sale or other disposition is made.

2. If a taxpayer sells or otherwise disposes of an ownership interest in the Oklahoma producer-owned agricultural processing cooperative, venture, or marketing association for which the tax credit authorized by this section may be taken in a taxable year following the year in which the ownership interest in the Oklahoma producer-owned agricultural processing cooperative, venture, or marketing association is sold or otherwise disposed of, the credit authorized by this section shall be reduced to account for the prior sale or other disposition.

E. The tax credit authorized by this section shall not be available or taken for any calendar year during which the claimant of the credit received any incentive payments pursuant to the Oklahoma Quality Jobs Program Act or the Saving Quality Jobs Act. The credits authorized by this section may be transferred to a subsequent purchaser. The credits authorized by this section may be used to reduce any tax liability imposed pursuant to Section 624 or 628 of Title 36 of the Oklahoma Statutes.

F. As used in this section:

1. "Direct investment" means the payment of money in an Oklahoma producer-owned agricultural processing cooperative, venture, or marketing association or the transfer of any form of economic value, whether tangible or intangible, other than money;

2. "Oklahoma producer-owned agricultural processing cooperative" means a legal entity in the nature of a partnership or business undertaking agricultural transactions or agricultural commercial enterprises for mutual profit which are owned and controlled by Oklahoma agricultural producers. An Oklahoma producer-owned agricultural processing cooperative requires a

community of interest in the performance of the undertaking, transaction or enterprise, a right to direct and govern the policy in connection therewith and the duty, which may be altered by agreement, to share both in profit and losses. The term does not include a cooperative that provides only, and nothing more than, storage, cleaning, or transportation of agricultural commodities;

3. "Oklahoma producer-owned agricultural processing venture" means a legal entity in the nature of a corporation or company organized to invest in or operate an agricultural commodity processing facility operated primarily for the processing or production of marketable products from agricultural commodities. The term shall include a dairy operation that requires a depreciable investment of at least Two Hundred Fifty Thousand Dollars (\$250,000.00) and which produces milk from dairy cows. The term does not include a venture that provides only, and nothing more than, storage, cleaning, or transportation of agricultural commodities;

4. "Oklahoma producer-owned agricultural processing marketing association" means a legal entity owned by Oklahoma producers of agricultural commodities and organized to jointly market agricultural commodities, facilitate the marketing process and to promote and stimulate the processing, sales, and marketing of agricultural commodities. The term does not include a marketing association that provides only, and nothing more than, storage, cleaning, or transportation of agricultural commodities;

5. "Oklahoma agricultural producer" means any person who produces agricultural commodities in this state;

6. "Agricultural commodities" means a farm or ranch product, including but not limited to, wheat, corn, soybeans, cotton, timber, cattle, hogs, sheep, horses, poultry, animals of the families bovidae, cervidae and antilocapridae or birds of the ratite group produced in farming or ranching operations or a product of such crop

or livestock in its unmanufactured state such as ginned cotton, wool-dip, maple syrup, milk and eggs, or any other commodity listed under any Industry Group Number under Major Group 20 of Division D of the Standard Industrial Classification (SIC) Manual; and

7. "Dairy operation" means and includes equipment and facilities to store and prepare feed, dairy cows, milking parlors, bulk cooling tanks, buildings, and all such depreciable investment commonly utilized in the dairy industry.

G. For purposes of this section, an agricultural commodity shall be deemed to be produced within this state if it is substantially produced, by any person, partnership, company, association or corporation:

1. Authorized to do and doing business under the laws of this state;

2. Paying all taxes duly assessed; and

3. Domiciled within this state by having a location of production within this state.

SECTION 2. AMENDATORY 68 O.S. 2001, Section 1001, is amended to read as follows:

Section 1001. A. There is hereby levied upon the production of asphalt, ores bearing lead, zinc, jack, gold, silver and copper a tax equal to three-fourths of one percent ($\frac{3}{4}$ of 1%) on the gross value thereof.

B. 1. Effective January 1, 1999, through June 30, 2004, except as otherwise exempted pursuant to subsections D, E, F, G, H, I and J of this section, there is hereby levied upon the production of oil a tax as set forth in this subsection on the gross value of the production of oil based on a per barrel measurement of forty-two (42) U.S. gallons of two hundred thirty-one (231) cubic inches per gallon, computed at a temperature of sixty (60) degrees Fahrenheit. If the average price of Oklahoma oil as determined by the Oklahoma Tax Commission pursuant to the provisions of paragraph 3 of this

subsection equals or exceeds Seventeen Dollars (\$17.00) per barrel, then the tax shall be seven percent (7%). If the average price of Oklahoma oil as determined by the Tax Commission pursuant to paragraph 3 of this subsection is less than Seventeen Dollars (\$17.00) but is equal to or exceeds Fourteen Dollars (\$14.00) per barrel, then the tax shall be four percent (4%). If the average price of Oklahoma oil as determined by the Tax Commission pursuant to paragraph 3 of this subsection is less than Fourteen Dollars (\$14.00) per barrel, then the tax shall be one percent (1%).

2. Effective July 1, 2004, except as otherwise exempted pursuant to subsections D, E, F, G, H, I and J of this section, there shall be levied upon the production of oil a tax equal to seven percent (7%) of the gross value of the production of oil based on a per barrel measurement of forty-two (42) U.S. gallons of two hundred thirty-one (231) cubic inches per gallon, computed at a temperature of sixty (60) degrees Fahrenheit.

3. Effective January 1, 1999, through June 30, 2004, the average price of Oklahoma oil for purposes of this section shall be computed by the Tax Commission each month. At the first of each month, the Tax Commission shall compute the average price per barrel of sweet crude oil paid by the three largest purchasers of sweet crude oil in this state. The three largest purchasers shall be identified by the most recent annual report published by the Oklahoma Corporation Commission. The three purchasers identified shall report to the Tax Commission, on forms prescribed by the Tax Commission, the average price paid per barrel of sweet crude oil by the purchasers during the preceding calendar month.

4. Except as otherwise exempted pursuant to subsections D, E, F, G, H, I and J of this section, there shall be levied a tax equal to seven percent (7%) of the gross value of the production of gas.

C. The taxes hereby levied shall also attach to, and are levied on, what is known as the royalty interest, and the amount of such tax shall be a lien on such interest.

D. 1. Except as otherwise provided in this section, any incremental production attributable to the working interest owners which results from an enhanced recovery project shall be exempt from the gross production tax levied pursuant to this section from the project beginning date until project payback is achieved for new enhanced recovery projects or until project payback is achieved but not to exceed a period of thirty-six (36) months for tertiary enhanced recovery projects existing on July 1, 1988. This exemption shall take effect July 1, 1988, and shall apply to enhanced recovery projects approved or having a project beginning date prior to July 1, 1993. Project payback pursuant to this paragraph for enhanced recovery projects qualifying for this exemption on or after July 1, 1990, and on or before June 30, 1993, shall be determined by appropriate payback indicators which will not include any expenses beyond the completion date of the well. Project payback pursuant to this paragraph for enhanced recovery projects qualifying for this exemption on or after October 17, 1987, and on or before June 30, 1990, shall be determined by appropriate payback indicators as previously established and allowed by the Tax Commission for projects qualifying during such period.

2. Except as otherwise provided in this section, for secondary recovery projects approved and having a project beginning date on or after July 1, 1993, and before July 1, 2000, any incremental production attributable to the working interest owners which results from such secondary recovery projects shall be exempt from the gross production tax levied pursuant to this section from the project beginning date until project payback is achieved but not to exceed a period of ten (10) years. Project payback pursuant to this paragraph shall be determined by appropriate payback indicators

which will provide for the recovery of capital expenses and fifty percent (50%) of operating expenses, in determining project payback.

3. Except as otherwise provided in this section, for secondary recovery properties approved or having an initial project beginning date on or after July 1, 2000, and before July 1, 2003, any incremental production attributable to the working interest owners which results from such secondary recovery property shall be exempt from the gross production tax levied pursuant to this section for a period not to exceed five (5) years from the initial project beginning date or for a period ending upon the termination of the secondary recovery process, whichever occurs first.

4. Except as otherwise provided in this section, for tertiary recovery projects approved and having a project beginning date on or after July 1, 1993, and before July 1, 2003, any incremental production attributable to the working interest owners which results from such tertiary recovery projects shall be exempt from the gross production tax levied pursuant to this section from the project beginning date until project payback is achieved, but not to exceed a period of ten (10) years. Project payback pursuant to this paragraph shall be determined by appropriate payback indicators which will provide for the recovery of capital expenses and operating expenses, excluding administrative expenses, in determining project payback. The capital expenses of pipelines constructed to transport carbon dioxide to a tertiary recovery project shall not be included in determining project payback pursuant to this paragraph.

5. The provisions of this subsection shall also not apply to any enhanced recovery project using fresh water as the primary injectant, except when using steam.

6. For purposes of this subsection:

- a. "incremental production" means the amount of crude oil or other liquid hydrocarbons which is produced during

an enhanced recovery project and which is in excess of the base production amount of crude oil or other liquid hydrocarbons. The base production amount shall be the average monthly amount of production for the twelve-month period immediately prior to the project beginning date minus the monthly rate of production decline for the project for each month beginning one hundred eighty (180) days prior to the project beginning date. The monthly rate of production decline shall be equal to the average extrapolated monthly decline rate for the twelve-month period immediately prior to the project beginning date as determined by the Corporation Commission based on the production history of the field, its current status, and sound reservoir engineering principles, and

- b. "project beginning date" means the date on which the injection of liquids, gases, or other matter begins on an enhanced recovery project.

7. The Corporation Commission shall promulgate rules for the qualification for this exemption which shall include, but not be limited to, procedures for determining incremental production as defined in subparagraph a of paragraph 6 of this subsection, and the establishment of appropriate payback indicators as approved by the Tax Commission for the determination of project payback for each of the exemptions authorized by this subsection.

8. For new secondary recovery projects and tertiary recovery projects approved by the Corporation Commission on or after July 1, 1993, and before July 1, 2003, such approval shall constitute qualification for an exemption.

9. Any person seeking an exemption shall file an application for such exemption with the Tax Commission which, upon determination

of qualification by the Corporation Commission, shall approve the application for such exemption.

10. The Tax Commission may require any person requesting such exemption to furnish information or records concerning the exemption as is deemed necessary by the Tax Commission.

11. Upon the expiration of the exemption granted pursuant to this subsection, the Tax Commission shall collect the gross production tax levied pursuant to this section.

E. 1. Except as otherwise provided in this section, the production of oil, gas or oil and gas from a horizontally drilled well producing prior to July 1, 2003, which production commenced after July 1, 1995, shall be exempt from the gross production tax levied pursuant to subsection B of this section from the project beginning date until project payback is achieved but not to exceed a period of twenty-four (24) months commencing with the month of initial production from the horizontally drilled well. Provided, any incremental production which results from a horizontally drilled well producing prior to July 1, 1994, shall be exempt from the gross production tax levied pursuant to subsection B of this section from the project beginning date until project payback is achieved but not to exceed a period of twenty-four (24) months commencing with the month of initial production from the horizontally drilled well. For purposes of subsection D of this section and this subsection, project payback shall be determined as of the date of the completion of the well and shall not include any expenses beyond the completion date of the well, and subject to the approval of the Tax Commission.

2. As used in this subsection, "horizontally drilled well" shall mean an oil, gas or oil and gas well drilled or recompleted in a manner which encounters and subsequently produces from a geological formation at an angle in excess of seventy (70) degrees from vertical and which laterally penetrates a minimum of one hundred fifty (150) feet into the pay zone of the formation.

F. 1. Except as otherwise provided by this section, the severance or production of oil, gas or oil and gas from an inactive well shall be exempt from the gross production tax levied pursuant to subsection B of this section for a period of twenty-eight (28) months from the date upon which production is reestablished. This exemption shall take effect July 1, 1994, and shall apply to wells for which work to reestablish or enhance production began on or after July 1, 1994, and for which production is reestablished prior to July 1, 2003. For all such production, a refund against gross production taxes shall be issued as provided in subsection L of this section.

2. As used in this subsection, for wells for which production is reestablished prior to July 1, 1997, "inactive well" means any well that has not produced oil, gas or oil and gas for a period of not less than two (2) years as evidenced by the appropriate forms on file with the Corporation Commission reflecting the well's status. As used in this subsection, for wells for which production is reestablished on or after July 1, 1997, and prior to July 1, 2003, "inactive well" means any well that has not produced oil, gas or oil and gas for a period of not less than one (1) year as evidenced by the appropriate forms on file with the Corporation Commission reflecting the well's status. Wells which experience mechanical failure or loss of mechanical integrity, as defined by the Corporation Commission, including but not limited to, casing leaks, collapse of casing or loss of equipment in a wellbore, or any similar event which causes cessation of production, shall also be considered inactive wells.

G. 1. Except as otherwise provided by this section, any incremental production which results from a production enhancement project shall be exempt from the gross production tax levied pursuant to subsection B of this section for a period of twenty-eight (28) months from the date of first sale after project

completion of the production enhancement project. This exemption shall take effect July 1, 1994, and shall apply to production enhancement projects having a project beginning date on or after July 1, 1994, and prior to July 1, 2003. For all such production, a refund against gross production taxes shall be issued as provided in subsection L of this section.

2. As used in this subsection:

- a. (1) for production enhancement projects having a project beginning date prior to July 1, 1997, "production enhancement project" means any workover as defined in this paragraph, recompletion as defined in this paragraph, or fracturing of a producing well, and
- (2) for production enhancement projects having a project beginning date on or after July 1, 1997, and prior to July 1, 2003, "production enhancement project" means any workover as defined in this paragraph, recompletion as defined in this paragraph, reentry of plugged and abandoned wellbores, or addition of a well or field compression,
- b. "incremental production" means the amount of crude oil, natural gas or other hydrocarbons which are produced as a result of the production enhancement project in excess of the base production,
- c. "base production" means the average monthly amount of production for the twelve-month period immediately prior to the commencement of the project or the average monthly amount of production for the twelve-month period immediately prior to the commencement of the project less the monthly rate of production decline for the project for each month beginning one

hundred eighty (180) days prior to the commencement of the project. The monthly rate of production decline shall be equal to the average extrapolated monthly decline rate for the twelve-month period immediately prior to the commencement of the project based on the production history of the well. If the well or wells covered in the application had production for less than the full twelve-month period prior to the filing of the application for the production enhancement project, the base production shall be the average monthly production for the months during that period that the well or wells produced,

- d. (1) for production enhancement projects having a project beginning date prior to July 1, 1997, "recompletion" means any downhole operation in an existing oil or gas well that is conducted to establish production of oil or gas from any geological interval not currently completed or producing in such existing oil or gas well, and
- (2) for production enhancement projects having a project beginning date on or after July 1, 1997, and prior to July 1, 2003, "recompletion" means any downhole operation in an existing oil or gas well that is conducted to establish production of oil or gas from any geologic interval not currently completed or producing in such existing oil or gas well within the same or a different geologic formation, and
- e. "workover" means any downhole operation in an existing oil or gas well that is designed to sustain, restore or increase the production rate or ultimate recovery in a geologic interval currently completed or

producing in the existing oil or gas well. For production enhancement projects having a project beginning date prior to July 1, 1997, "workover" includes, but is not limited to, acidizing, reperforating, fracture treating, sand/paraffin removal, casing repair, squeeze cementing, or setting bridge plugs to isolate water productive zones from oil or gas productive zones, or any combination thereof. For production enhancement projects having a project beginning date on or after July 1, 1997, and prior to July 1, 2003, "workover" includes, but is not limited to:

- (1) acidizing,
- (2) reperforating,
- (3) fracture treating,
- (4) sand/paraffin/scale removal or other wellbore cleanouts,
- (5) casing repair,
- (6) squeeze cementing,
- (7) installation of compression on a well or group of wells or initial installation of artificial lifts on gas wells, including plunger lifts, rod pumps, submersible pumps and coiled tubing velocity strings,
- (8) downsizing existing tubing to reduce well loading,
- (9) downhole commingling,
- (10) bacteria treatments,
- (11) upgrading the size of pumping unit equipment,
- (12) setting bridge plugs to isolate water production zones, or
- (13) any combination thereof.

"Workover" shall not mean the routine maintenance, routine repair, or like for like replacement of downhole equipment such as rods, pumps, tubing, packers, or other mechanical devices.

H. Except as otherwise provided by this section, the production of oil, gas or oil and gas from wells spudded ~~between July 1, 1994, and June 30, 2000~~ on or after July 1, 2002, and drilled to a depth of ~~fifteen thousand (15,000)~~ ten thousand (10,000) feet or greater shall be exempt from the gross production tax levied pursuant to subsection B of this section from the date of first sales for a period of ~~twenty-eight (28)~~ sixty (60) months. For purposes of qualifying for this exemption, "depth" means the length of the maximum continuous string of drill pipe utilized between the drill bit face and the drilling rig's kelly bushing. Except as otherwise provided in subsection J of this section, the production of oil, gas or oil and gas from wells spudded ~~between July 1, 1997, and June 30, 2003~~ on or after July 1, 2002, and drilled to a depth of ~~twelve thousand five hundred (12,500)~~ ten thousand (10,000) feet or greater shall be exempt from the gross production tax levied pursuant to subsection B of this section from the date of first sales for a period of ~~twenty-eight (28)~~ sixty (60) months. For all such wells spudded, a refund against gross production taxes shall be issued as provided in subsection L of this section.

I. 1. Except as otherwise provided by this section, the production of oil, gas or oil and gas from wells spudded or reentered between July 1, 1995, and June 30, 2003, which qualify as a new discovery pursuant to this subsection shall be exempt from the gross production tax levied pursuant to subsection B of this section from the date of first sales for a period of twenty-eight (28) months. For all such wells spudded or reentered, a refund against gross production taxes shall be issued as provided in subsection L

of this section. As used in this subsection, "new discovery" means production of oil, gas or oil and gas from:

- a. (1) for wells spudded or reentered on or after July 1, 1997, a well that discovers crude oil in paying quantities that is more than one (1) mile from the nearest oil well producing from the same producing formation, and
- (2) for wells spudded or reentered on or after July 1, 1997, and prior to July 1, 2003, a well that discovers crude oil in paying quantities that is more than one (1) mile from the nearest oil well producing from the same producing interval of the same formation,
- b. (1) for wells spudded or reentered prior to July 1, 1997, a well that discovers crude oil in paying quantities beneath current production in a deeper producing formation that is more than one (1) mile from the nearest oil well producing from the same deeper producing formation, and
- (2) for wells spudded or reentered on or after July 1, 1997, and prior to July 1, 2003, a well that discovers crude oil in paying quantities beneath current production in a deeper producing interval that is more than one (1) mile from the nearest oil well producing from the same deeper producing interval,
- c. (1) for wells spudded or reentered prior to July 1, 1997, a well that discovers natural gas in paying quantities that is more than two (2) miles from the nearest gas well producing from the same producing formation, and

(2) for wells spudded or reentered on or after July 1, 1997, and prior to July 1, 2003, a well that discovers natural gas in paying quantities that is more than two (2) miles from the nearest gas well producing from the same producing interval, or

d. (1) for wells spudded or reentered prior to July 1, 1997, a well that discovers natural gas in paying quantities beneath current production in a deeper producing formation that is more than two (2) miles from the nearest gas well producing from the same deeper producing formation, and

(2) for wells spudded or reentered on and after July 1, 1997, and prior to July 1, 2003, a well that discovers natural gas in paying quantities beneath current production in a deeper producing interval that is more than two (2) miles from the nearest gas well producing from the same deeper producing interval.

2. The Corporation Commission shall deliver to the Legislature a report on the number of wells as defined by paragraph 1 of this subsection that are drilled and the amount of production from those wells. The first such report shall be delivered to the Legislature no later than February 1, 1997, and each February 1, thereafter, until the conclusion of the program.

J. Except as otherwise provided by this section, the production of oil, gas or oil and gas from any well, drilling of which is commenced after July 1, 2000, and prior to July 1, 2003, located within the boundaries of a three-dimensional seismic shoot and drilled based on three-dimensional seismic technology, shall be exempt from the gross production tax levied pursuant to subsection B of this section from the date of first sales as follows:

1. If the three-dimensional seismic shoot is shot prior to July 1, 2000, for a period of eighteen (18) months; and

2. If the three-dimensional seismic shoot is shot on or after July 1, 2000, for a period of twenty-eight (28) months.

For all such production, a refund against gross production taxes shall be issued as provided in subsection L of this section.

K. 1. The exemptions provided for in subsections F, G, H, I and J of this section shall not apply:

- a. to the severance or production of oil, upon determination by the Tax Commission that the weighted average price of Oklahoma oil exceeds Thirty Dollars (\$30.00) per barrel calculated on an annual calendar year basis,
- b. to the severance or production of oil upon which gross production taxes are paid at a rate of one percent (1%) pursuant to the provisions of subsection B of this section, and
- c. to the severance or production of gas, upon determination by the Tax Commission that the weighted average wellhead price of Oklahoma gas exceeds Three Dollars and fifty cents (\$3.50) per Million British Thermal Units (1MM BTU) calculated on an annual calendar year basis.

2. Notwithstanding the exemptions granted pursuant to subsections E, F, G, H, I and J of this section, there shall continue to be levied upon the production of petroleum or other crude or mineral oil or natural gas or casinghead gas, as provided in subsection B of this section, from any wells provided for in subsection E, F, G, H, I or J of this section, a tax equal to one percent (1%) of the gross value of the production of petroleum or other crude or mineral oil or natural gas or casinghead gas. The tax hereby levied shall be apportioned as follows:

- a. fifty percent (50%) of the sum collected shall be apportioned to the County Highway Fund as provided in paragraph 3 of subsection A and subparagraph b of paragraph 1 of subsection B of Section 1004 of this title, and
- b. fifty percent (50%) of the sum collected shall be apportioned to the appropriate school district as provided in paragraph 4 of subsection A and subparagraph c of paragraph 1 of subsection B of Section 1004 of this title.

Upon the expiration of the exemption granted pursuant to subsection E, F, G, H, I or J of this section, the provisions of this paragraph shall have no force or effect.

L. For all oil and gas production exempt from gross production taxes pursuant to subsections E, F, G, H, I and J of this section during a given fiscal year, a refund of gross production taxes shall be issued to the well operator or a designee in the amount of such gross production taxes paid during such period which shall not be claimed until after the end of such fiscal year. As used in this paragraph, a fiscal year shall be deemed to begin on July 1 of one calendar year and shall end on June 30 of the subsequent calendar year. No refunds shall be claimed or paid pursuant to the provisions of this subsection for oil production upon which a tax is paid at a rate of one percent (1%) as specified in subsection B of this section. If there are insufficient funds collected from the production of oil to satisfy the refunds claimed for oil production pursuant to subsection E, F, G, H, I or J of this section, the Tax Commission shall pay the balance of the refund claims out of the gross production taxes collected from the production of gas.

M. 1. The Corporation Commission and the Tax Commission shall promulgate joint rules for the qualification for the exemptions provided for in subsections E, F, G, H, I and J of this section and

the rules shall contain provisions for verification of any wells from which production may be qualified for the exemptions.

2. Any person requesting any exemption shall file an application for qualification for the exemption with the Corporation Commission which, upon finding that the well meets the requirements of subsection E, F, G, H, I or J of this section, shall approve the application for qualification.

3. Any person seeking an exemption shall:

- a. file an application for the exemption with the Tax Commission which, upon determination of qualification by the Corporation Commission, shall approve the application for an exemption, and
- b. provide a copy of the approved application to the remitter of the gross production tax.

4. The Tax Commission may require any person requesting an exemption to furnish necessary financial and other information or records in order to determine and justify the refund.

5. Upon the expiration of the exemption granted pursuant to subsection E, F, G, H, I or J of this section, the Tax Commission shall collect the gross production tax levied pursuant to this section. If a person who qualifies for the exemption elects to remit his or her own gross production tax during the exemption period, the first purchaser shall not be liable to withhold or remit the tax until the first day of the month following the receipt of written notification from the person who is qualified for such exemption stating that such exemption has expired and directing the first purchaser to resume tax remittance on his or her behalf.

N. All persons shall only be entitled to either the exemption granted pursuant to subsection D of this section or the exemption granted pursuant to subsection E, F, G, H, I or J of this section for each oil, gas or oil and gas well drilled or recompleted in this state. However, any person who qualifies for the exemption granted

pursuant to subsection E, F, G, H, I or J of this section shall not be prohibited from qualification for the exemption granted pursuant to subsection D of this section, if the exemption granted pursuant to subsection E, F, G, H, I or J of this section has expired.

O. The Tax Commission shall have the power to require any such person engaged in mining or the production or the purchase of such asphalt, mineral ores aforesaid, oil, or gas, or the owner of any royalty interest therein to furnish any additional information by it deemed to be necessary for the purpose of correctly computing the amount of the tax; and to examine the books, records and files of such person; and shall have power to conduct hearings and compel the attendance of witnesses, and the production of books, records and papers of any person.

P. Any person or any member of any firm or association, or any officer, official, agent or employee of any corporation who shall fail or refuse to testify; or who shall fail or refuse to produce any books, records or papers which the Tax Commission shall require; or who shall fail or refuse to furnish any other evidence or information which the Tax Commission may require; or who shall fail or refuse to answer any competent questions which may be put to him or her by the Tax Commission, touching the business, property, assets or effects of any such person relating to the gross production tax imposed by this article or exemption authorized pursuant to this section or other laws, shall be guilty of a misdemeanor, and, upon conviction thereof, shall be punished by a fine of not more than Five Hundred Dollars (\$500.00), or imprisonment in the jail of the county where such offense shall have been committed, for not more than one (1) year, or by both such fine and imprisonment; and each day of such refusal on the part of such person shall constitute a separate and distinct offense.

Q. The Tax Commission shall have the power and authority to ascertain and determine whether or not any report herein required to

be filed with it is a true and correct report of the gross products, and of the value thereof, of such person engaged in the mining or production or purchase of asphalt and ores bearing minerals aforesaid and of oil and gas. If any person has made an untrue or incorrect report of the gross production or value or volume thereof, or shall have failed or refused to make such report, the Tax Commission shall, under the rules prescribed by it, ascertain the correct amount of either, and compute the tax.

R. The payment of the taxes herein levied shall be in full, and in lieu of all taxes by the state, counties, cities, towns, school districts and other municipalities upon any property rights attached to or inherent in the right to the minerals, upon producing leases for the mining of asphalt and ores bearing lead, zinc, jack, gold, silver or copper, or for oil, or for gas, upon the mineral rights and privileges for the minerals aforesaid belonging or appertaining to land, upon the machinery, appliances and equipment used in and around any well producing oil, or gas, or any mine producing asphalt or any of the mineral ores aforesaid and actually used in the operation of such well or mine. The payment of gross production tax shall also be in lieu of all taxes upon the oil, gas, asphalt or ores bearing minerals hereinbefore mentioned during the tax year in which the same is produced, and upon any investment in any of the leases, rights, privileges, minerals or other property described herein. Any interest in the land, other than that herein enumerated, and oil in storage, asphalt and ores bearing minerals hereinbefore named, mined, produced and on hand at the date as of which property is assessed for general and ad valorem taxation for any subsequent tax year, shall be assessed and taxed as other property within the taxing district in which such property is situated at the time.

S. No equipment, material or property shall be exempt from the payment of ad valorem tax by reason of the payment of the gross

production tax except such equipment, machinery, tools, material or property as is actually necessary and being used and in use in the production of asphalt or of ores bearing lead, zinc, jack, gold, silver or copper or of oil or gas. It is expressly declared that no ice plants, hospitals, office buildings, garages, residences, gasoline extraction or absorption plants, water systems, fuel systems, rooming houses and other buildings, nor any equipment or material used in connection therewith, shall be exempt from ad valorem tax.

T. The exemption from ad valorem tax set forth in subsections R and S of this section shall continue to apply to all property from which production of oil, gas or oil and gas is exempt from gross production tax pursuant to subsection D, E, F, G, H, I or J of this section.

SECTION 3. AMENDATORY 68 O.S. 2001, Section 2357.4, is amended to read as follows:

Section 2357.4 A. For taxable years beginning after December 31, 1987, there shall be allowed a credit against the tax imposed by Section 2355 of this title for:

1. Investment in qualified depreciable property placed in service during those years for use in a manufacturing operation, as defined in Section 1352 of this title, which has received a manufacturer exemption permit pursuant to the provisions of Section 1359.2 of this title or a qualified aircraft maintenance or manufacturing facility as defined in paragraph 14 of Section 1357 of this title in this state; or

2. A net increase in the number of full-time-equivalent employees engaged in manufacturing, processing or aircraft maintenance in this state including employees engaged in support services.

B. For taxable years beginning after December 31, 1998, there shall be allowed a credit against the tax imposed by Section 2355 of this title for:

1. Investment in qualified depreciable property with a total cost equal to or greater than Forty Million Dollars (\$40,000,000.00) within three (3) years from the date of initial qualifying expenditure and placed in service in this state during those years for use in the manufacture of products described by any Industry Number contained in Division D of Part I of the Standard Industrial Classification (SIC) Manual, latest revision; or

2. A net increase in the number of full-time-equivalent employees in this state engaged in the manufacture of any goods identified by any Industry Number contained in Division D of Part I of the Standard Industrial Classification (SIC) Manual, latest revision, if the total cost of qualified depreciable property placed in service by the business entity within the state equals or exceeds Forty Million Dollars (\$40,000,000.00) within three (3) years from the date of initial qualifying expenditure.

C. The business entity may claim the credit authorized by subsection B of this section for expenditures incurred or for a net increase in the number of full-time-equivalent employees after the business entity provides proof satisfactory to the Oklahoma Tax Commission that the conditions imposed pursuant to paragraph 1 or paragraph 2 of subsection B of this section have been satisfied.

D. If a business entity fails to expend the amount required by paragraph 1 or paragraph 2 of subsection B of this section within the time required, the business entity may not claim the credit authorized by subsection B of this section, but shall be allowed to claim a credit pursuant to subsection A of this section if the requirements of subsection A of this section are met with respect to the investment in qualified depreciable property or net increase in the number of full-time-equivalent employees.

E. The credit provided for in subsection A of this section, if based upon investment in qualified depreciable property, shall not be allowed unless the investment in qualified depreciable property is at least Fifty Thousand Dollars (\$50,000.00). The credit provided for in subsection A or B of this section shall not be allowed if the applicable investment is the direct cause of a decrease in the number of full-time-equivalent employees. Qualified property shall be limited to machinery, fixtures, equipment, buildings or substantial improvements thereto, placed in service in this state during the taxable year. The taxable years for which the credit may be allowed if based upon investment in qualified depreciable property shall be measured from the year in which the qualified property is placed in service. If the credit provided for in subsection A or B of this section is calculated on the basis of the cost of the qualified property, the credit shall be allowed in each of the four (4) subsequent years. If the qualified property on which a credit has previously been allowed is acquired from a related party, the date such property is placed in service by the transferor shall be considered to be the date such property is placed in service by the transferee, for purposes of determining the aggregate number of years for which credit may be allowed.

F. The credit provided for in subsection A or B of this section, if based upon an increase in the number of full-time-equivalent employees, shall be allowed in each of the four (4) subsequent years only if the level of new employees is maintained in the subsequent year. In calculating the credit by the number of new employees, only those employees whose paid wages or salary were at least Seven Thousand Dollars (\$7,000.00) during each year the credit is claimed shall be included in the calculation. Provided, that the first year a credit is claimed for a new employee, such employee may be included in the calculation notwithstanding paid wages of less than Seven Thousand Dollars (\$7,000.00) if the employee was hired in

the last three quarters of the tax year, has wages or salary which will result in annual paid wages in excess of Seven Thousand Dollars (\$7,000.00) and the taxpayer submits an affidavit stating that the employee's position will be retained in the following tax year and will result in the payment of wages in excess of Seven Thousand Dollars (\$7,000.00). The number of new employees shall be determined by comparing the monthly average number of full-time employees subject to Oklahoma income tax withholding for the final quarter of the taxable year with the corresponding period of the prior taxable year, as substantiated by such reports as may be required by the Tax Commission.

G. The credit allowed by subsection A of this section shall be the greater amount of either:

1. One percent (1%) of the cost of the qualified property in the year the property is placed in service; or

2. Five Hundred Dollars (\$500.00) for each new employee. No credit shall be allowed in any taxable year for a net increase in the number of full-time-equivalent employees if such increase is a result of an investment in qualified depreciable property for which an income tax credit has been allowed as authorized by this section.

H. The credit allowed by subsection B of this section shall be the greater amount of either:

1. Two percent (2%) of the cost of the qualified property in the year the property is placed in service; or

2. One Thousand Dollars (\$1,000.00) for each new employee.

No credit shall be allowed in any taxable year for a net increase in the number of full-time-equivalent employees if such increase is a result of an investment in qualified depreciable property for which an income tax credit has been allowed as authorized by this section.

I. Any credits allowed but not used in any taxable year may be carried over in order to each of the four (4) years following the

year of qualification and to the extent not used in those years in order to each of the fifteen (15) years following the initial five-year period.

J. For investment occurring on or after January 1, 2003, the credits authorized by this section may be transferred to subsequent purchasers if the taxpayer makes an election for such transferable treatment as an alternative to the exemption of the personal property from ad valorem taxation pursuant to Section 6D of Article X of the Oklahoma Constitution if the exemption is approved by the people pursuant to Enrolled House Bill No. 2617 of the 2nd Session of the 48th Oklahoma Legislature. A taxpayer that makes an election to exempt the personal property from ad valorem taxation pursuant to law shall not be authorized to transfer any of the credits authorized by this section to any subsequent transferee.

SECTION 4. Sections 1 and 3 of this act shall become effective January 1, 2003.

SECTION 5. Section 2 of this act shall become effective July 1, 2002.

SECTION 6. It being immediately necessary for the preservation of the public peace, health and safety, an emergency is hereby declared to exist, by reason whereof this act shall take effect and be in full force from and after its passage and approval.
