Section 102.1 A. In order to prevent the erection of structures dangerous to air navigation, subject to the provisions of subsections B, C and D of this section, each person shall secure from the local airport zoning authority, or in the absence of a local airport zoning authority, the Oklahoma Aeronautics ~~and Space~~ Commission, a permit for the erection, alteration, or modification of any structure the result of which would exceed the federal obstruction standards as contained in 14 CFR, Part 77. Permits from the local airport zoning authority will be required only within an airport hazard area where federal standards are exceeded and if the proposed construction is within:

D. In determining whether to issue or deny a permit, the local airport zoning authority shall consider:

E. In order to promote the health, safety and welfare of the public and to protect persons and property by promoting safety in aeronautics, the Oklahoma Aeronautics ~~and Space~~ Commission may review any structure erected, altered, or modified since January 1, 1996, in which no permit was secured from the local airport zoning authority because of the absence of a local airport authority. The Oklahoma Aeronautics ~~and Space~~ Commission shall determine whether such structures meet the requirements set forth in this section. If

the structures do not meet the requirements as set forth in this section, the Oklahoma Aeronautics ~~and Space~~ Commission may request the owners of such structure to make any necessary modifications to protect the health, safety and welfare of the public, including, but not limited to, altering, marking, mapping, or identifying such structure.
