A. The Department of Mental Health and Substance Abuse Services shall continue pilot projects previously established for the delivery of mental health services to children and adolescents through a community-based system of care, contingent upon the availability of funds. Pilot projects shall include, but not be limited to, requirements for:

1. The active participation and assistance of:

- a. local public agencies and private child-serving agencies receiving state funds through contracts with state agencies,
- b. local offices of state agencies having health, mental health or social or other service responsibilities related to children and adolescents, and
- c. the local school district;

2. The use of comprehensive treatment plans that cross individual agency boundaries;

3. Case managers responsible for the coordination of service delivery;

4. Flexible funding to provide traditional or nontraditional services for which no other source of funding is available;

5. A coordinated database for children receiving services through the pilot project; and

6. Outcome measures to evaluate the service and cost effectiveness of the project.

Services provided under a community-based system of care may include, but shall not be limited to, case management and service coordination, counseling, day treatment, special education services, family support, health services, homebound services, respite care, residential care, transitional services, psychiatric consultation, medication, transportation and wrap-around or nontraditional services.

SECTION 2. This act shall become effective July 1, 2001.

SECTION 3. It being immediately necessary for the preservation of the public peace, health and safety, an emergency is hereby declared to exist, by reason whereof this act shall take effect and be in full force from and after its passage and approval.
