Carry out continuing studies and analyses of the problems faced by communities within the state and develop such recommendations for administrative or legislative action as would appear necessary. In carrying out such studies and analyses, particular attention should be paid to the problems of regional, metropolitan, urban, suburban, rural and other areas in which economic and population factors are rapidly changing;

~~11.~~ 12. Develop and test model or demonstration programs and projects, which may include contracting to administer certain functions or services of the state for such purposes and otherwise

provide a program of practical research in the solution of community problems;
