Section 17-105. (1) (a) Any member who has attained age fifty-five (55) or who has completed thirty (30) years of creditable service, as defined in Section 17-101 of this title, or for any person who initially became a member prior to July 1, 1992, regardless of whether there were breaks in service after July 1, 1992, whose age and number of years of creditable service total eighty (80) may be retired upon filing a written application for such retirement. Such a retirement date will also apply to any person who became a member of the sending system as defined in this act, prior to July 1, 1992, regardless of whether there were breaks in service after July 1, 1992. Any person who became a member after June 30, 1992, whose age and number of years of creditable service total ninety (90) may be retired upon filing a written application for such retirement. The application shall be filed on the form provided by the Board of Trustees for this purpose, not less than thirty (30) days nor more than ninety (90) days before the date of retirement.

(b) An individual who becomes a member of the Teachers' Retirement System after July 1, 1967, shall be employed by the public schools, state colleges or universities of Oklahoma for a minimum of five (5) years and be a contributing member of the Teachers' Retirement System of Oklahoma for a minimum of five (5) years to qualify for monthly retirement benefits from the Teachers' Retirement System of Oklahoma.

(c) Any member with five (5) or more years of Oklahoma teaching service and whose accumulated contributions during such period have not been withdrawn shall be given an indefinite extension of membership beginning with the sixth year following his or her last contributing membership and shall become eligible to apply for retirement and be retired upon attaining age fifty-five (55).

(d) Members currently teaching in the public schools of Oklahoma past the fiscal year during which age seventy (70) was attained and who have not retired shall be granted the privilege of making up the five percent (5%) contributions, plus interest, for the years taught after age seventy (70). Such member shall be given an indefinite extension of membership and be eligible to retire upon the filing of proper application for retirement as hereinbefore provided.

(2) An unclassified optional member who has retired or who retires at sixty-two (62) years of age or older or whose retirement is because of disability shall have his or her minimum retirement benefits calculated on an average salary of Five Thousand Three Hundred Fifty Dollars (\$5,350.00) or, if a larger monthly allowance would result, an amount arrived at pursuant to application of the formula prescribed herein.

(3) No member shall receive a lesser retirement benefit than he or she would have received under the law in effect at the time he or she retired. Any individual under the Teachers' Retirement System, who through error in stating the title of the position which he or she held, may, at the discretion of the Board of Trustees, be changed from the nonclassified optional group to the classified group for the purpose of calculating retirement benefits.

Any individual regardless of residence, who has a minimum of ten (10) years of teaching in Oklahoma schools prior to July 1, 1943, or who taught in Oklahoma schools prior to 1934 and thereafter taught a minimum of ten (10) years and who does not qualify under the present retirement System, or who has a minimum of thirty (30) years of teaching in Oklahoma schools and has reached seventy (70) years of age prior to July 1, 1984, and is not otherwise eligible to receive any benefits from the retirement system shall receive a minimum of One Hundred Fifty Dollars (\$150.00) per month in retirement benefits from the Teachers' Retirement System of Oklahoma plus any general increase in benefits for annuitants as may be provided hereafter by the Legislature. Each individual must apply to the Teachers' Retirement System for such benefit and provide evidence to the Teachers' Retirement System that the service was actually rendered. The surviving spouse of any person who made application for the benefit provided for by this paragraph during his or her lifetime but did not receive said benefit may submit an application to the System for payment of said benefit for those months during the lifetime of the deceased person that he or she was eligible for but did not receive the benefit. Upon approval of the application by the Board of Trustees, the benefit shall be paid to the surviving spouse in one lump sum.

(4) The value of each year of prior service is the total monthly retirement benefit divided by the number of years of creditable service.

(5) Upon application of a member who is actively engaged in teaching in Oklahoma or his or her employer, any member who has been a contributing member for ten (10) years may be retired by the Board of Trustees not less than thirty (30) days nor more than ninety (90) days subsequent to the execution and filing thereof, on a disability retirement allowance, provided that it is found by the Board of Trustees after medical examination of such member by a duly qualified physician that such member is mentally or physically incapacitated for further performance of duty, that such incapacity is likely to be permanent, and that such member should be retired. The Board of Trustees shall give due consideration to the conclusions and recommendations in the certified written report of the Medical Board of the Teachers' Retirement System regarding the

disability application of such member. If a member is determined to be eligible for disability benefits pursuant to the Social Security System, then such determination shall entitle the member to the authorized disability retirement allowance provided by law. For members who are not eligible for disability benefits pursuant to the Social Security System, the Board of Trustees shall apply the same standard for which provision is made in the first two sentences of this subsection for determining the eligibility of a person for such disability benefits in making a determination of eligibility for disability benefits as authorized by this subsection.

(6) (a) A member who at the time of retirement has been found to be permanently physically or mentally incapacitated to teach school shall receive a minimum monthly retirement payment for life or until such time as the member may be found to be recovered to the point where he or she may return to teaching. Any member retired before July 1, 1992 shall be eligible to receive the monthly retirement allowance herein provided, but such payment shall not begin until the first payment due him or her after July 1, 1992, and shall not be retroactive. The Board of Trustees is empowered to make such rules and regulations as it considers proper to preserve equity in retirements under this provision, which shall include a provision to protect the rights of the member's spouse.

(b) A member who has qualified for retirement benefits under disability retirement shall have the total monthly payment deducted from his or her accumulated contributions plus interest earned and any money remaining in the member's account after the above deductions at the death of the member shall be paid in a lump sum to the beneficiary or to the estate of the member. Provided, if the deceased disabled member had thirty (30) years or more of creditable service and the death occurred after June 30, 1981, and death occurred prior to the disabled member receiving twelve monthly retirement payments, a surviving spouse may elect to receive the retirement benefit to which the deceased member would have been entitled at the time of death under the Option 2 Plan of Retirement provided for in subsection (8) of this section in lieu of the death benefit provided for in this subsection and in subsection (12) of this section.

(c) Once each year the Board of Trustees may require any disabled annuitant who has not yet attained the age of sixty (60) years to undergo a medical examination, such examination to be made at the place of residence for said disabled annuitant or other place mutually agreed upon by a physician or physicians designated by the Board of Trustees. Should any disabled annuitant who has not yet attained the age of sixty (60) years refuse to submit to at least one medical examination in any such year by a physician or physicians designated by the Board of Trustees his or her allowance may be discontinued until he or she submits to such examination.

(d) Should the Medical Board report and certify to the Board of Trustees that such disabled annuitant is engaged in or is able to engage in a gainful occupation paying more than the difference between his or her retirement allowance and the average final compensation, and should the Board of Trustees concur in such report then the amount of his or her pension shall be reduced to an amount

which, together with his or her retirement allowance and that amount earnable by him or her, shall equal the amount of his or her average final compensation. Should his or her earning capacity be later increased, the amount of his or her pension may be further modified, provided the new pension shall not exceed that amount of the pension originally granted nor an amount, which when added to the amount earnable by the member, together with his or her annuity, equals the amount of his or her average final compensation.

(e) Should a disabled annuitant be restored to active service, his or her disability retirement allowance shall cease and he or she shall again become a member of the Teachers' Retirement System and shall make regular contributions as required under this article. The unused portion of his or her accumulated contributions shall be reestablished to his or her credit in the Teachers' Savings Fund. Any such prior service certificates on the basis of which his or her service was computed at the time of his or her retirement shall be restored to full force and effect.

(7) Should a member before retirement under Section 1-101 et seq. of this title make application for withdrawal duly filed with the Board of Trustees and approved by it, not earlier than four (4) months after the date of termination of such service as a teacher, the contribution standing to the credit of his or her individual account in the Teachers' Savings Fund shall be paid to him or her or, in the event of his or her death before retirement, shall be paid to such person or persons as he or she shall have nominated by written designation, duly executed and filed with the Board of Trustees; provided, however, if there be no designated beneficiary surviving upon such death, such contributions shall be paid to his or her administrators, executors, or assigns, together with interest as hereinafter provided. In lieu of a lump-sum settlement at the death of the member, the amount of money the member has on deposit in the Teachers' Savings Fund and the money the member has on deposit in the Teachers' Deposit Fund may be paid in monthly payments to a designated beneficiary, who must be the spouse, under the Maximum or Option 1 Plan of Retirement providing the monthly payment shall be not less than Twenty-five Dollars (\$25.00) per month. The monthly payment shall be the actuarial equivalent of the amount becoming due at the member's death based on the sex of the spouse and the age the spouse has attained at the last birthday prior to the member's death. Provided further, if there be no designated beneficiary surviving upon such death, and the contributions standing to the credit of such member do not exceed Two Hundred Dollars (\$200.00), no part of such contributions shall be subject to the payment of any expense of the last illness or funeral of the deceased member or any expense of administration of the estate of such deceased and the Board of Trustees, upon satisfactory proof of the death of such member and of the name or names of the person or persons who would be entitled to receive such contributions under the laws of descent and distribution of the state, may authorize the payment of accumulated contributions to such person or persons. A member terminating his or her membership by withdrawal after June 30, 2003, shall have the interest computed at a rate of interest determined by the Board of Trustees and paid to him or her subject to the following schedule:

(a) If termination occurs within sixteen (16) years from the date membership began, fifty percent (50%) of such interest accumulations shall be paid.

(b) With at least sixteen (16) but less than twenty-one (21) years of membership, sixty percent (60%) of such interest accumulations shall be paid.

(c) With at least twenty-one (21) but less than twenty-six (26) years of membership, seventy-five percent (75%) of such interest accumulations shall be paid.

(d) With at least twenty-six (26) years of membership, ninety percent (90%) of such interest accumulations shall be paid.

In case of death of an active member, the interest shall be calculated and restored to the member's account and paid to his or her beneficiary.

(8) (a) In lieu of his or her retirement allowance payable throughout life for such an amount as determined under this section, the member may select a retirement allowance for a reduced amount payable under any of the following options the present value of which is the actuarial equivalent thereof.

(b) A member may select the option under which he or she desires to retire at the end of the school year in which he or she attains age seventy (70) and said option shall be binding and cannot be changed. Provided further that if a member retires before age seventy (70), no election of an option shall be effective in case an annuitant dies before the first payment due under such option has been received.

(c) The first payment of any benefit selected shall be made on the first day of the month following approval of the retirement by the Board of Trustees. If the named designated beneficiary under Option 2 or 3 dies at any time after the member's retirement date, but before the death of the member, the member shall return to the retirement benefit, including any post retirement benefit increases the member would have received had the member not selected Option 2 or 3 of this subsection. The benefit shall be determined at the date of death of the designated beneficiary or July 1, 1994, whichever is later. This increase shall become effective the first day of the month following the date of death of the designated beneficiary or July 1, 1994, whichever is later, and shall be payable for the member's remaining lifetime. The member shall notify the Teachers' Retirement System of Oklahoma of the death of the designated beneficiary in writing. In the absence of said written notice being filed by the member notifying the Teachers' Retirement System of Oklahoma of the death of the designated beneficiary within six (6) months of the date of death, nothing in this subsection shall require the Teachers' Retirement System of Oklahoma to pay more than six (6) months of retrospective benefits increase.

Option 1. If he or she dies before he or she has received in annuity payments the present value of his or her annuity as it was

at the time of his or her retirement, the balance shall be paid to his or her legal representatives or to such person as he or she shall nominate by written designation duly acknowledged and filed with the Board of Trustees at the time of his or her retirement; or

Option 2. A member takes a reduced retirement allowance for life. Upon the death of the member the payments shall continue to the member's designated beneficiary for the life of the beneficiary. The written designation of the beneficiary must be duly acknowledged and filed with the Board of Trustees at the time of the member's retirement and cannot be changed after the effective date of the member's retirement; or

Option 3. A member receives a reduced retirement allowance for life. Upon the death of the member one-half (1/2) of the retirement allowance paid the member shall be continued throughout the life of the designated beneficiary. A written designation of a beneficiary must be duly acknowledged and filed with the Board of Trustees at the time of the member's retirement and cannot be changed after the effective date of the member's retirement; or

Option 4. Some other benefit or benefits shall be paid either to the member or to such person or persons as he or she shall nominate, provided such other benefit or benefits, together with the reduced retirement allowance, shall be certified by the actuary to be of equivalent actuarial value to his or her retirement allowance and shall be approved by the Board of Trustees; or

Option 5. A member receives a reduced retirement allowance for life. If the member dies within twenty-five (25) years from the date of commencement of the retirement payments, such payments shall be continued to the beneficiary of the member during the balance of the twenty-five-year period. The written designation of the beneficiary, who must be a spouse, shall be duly acknowledged and filed with the Board of Trustees at the time of the member's retirement.

(d) Provided that Option 2 and Option 3 shall not be available if the member's expected benefit is less than fifty percent (50%) of the lump-sum actuarial equivalent and the designated beneficiary is not the spouse of the member.

(9) The governing board of any "public school", as that term is defined in Section 17-101 of this title, is hereby authorized and empowered to pay additional retirement allowances or compensation to any person who was in the employ of such public school for not less than seven (7) school years preceding the date of his or her retirement. Payments so made shall be a proper charge against the current appropriation or appropriations of any such public school for salaries for the fiscal year in which such payments are made. Such payments shall be made in regular monthly installments in such amounts as the governing board of any such public school, in its judgment, shall determine to be reasonable and appropriate in view of the length and type of service rendered by any such person to such public school by which such person was employed at the time of retirement. All such additional payments shall be uniform, based upon the length of service and the type of services performed, to

persons formerly employed by such public school who have retired or been retired in accordance with the provisions of Section 1-101 et seq. of this title.

The governing board of any such public school may adopt rules and regulations of general application outlining the terms and conditions under which such additional retirement benefits shall be paid, and all decisions of such board shall be final.

(10) In addition to the teachers' retirement herein provided, teachers may voluntarily avail themselves of the Federal Social Security Program upon a district basis.

(11) ~~For those members who joined the System prior to July 1, 1992, upon~~ Upon the death of an in-service member, the System shall pay to the designated beneficiary of the member or, if there is no designated beneficiary or if the designated beneficiary predeceases the member, to the estate of the member, the sum of Eighteen Thousand Dollars (\$18,000.00) as a death benefit. Provided, if the deceased member had ten (10) years or more of creditable service and the death occurred after February 1, 1985, the member's designated beneficiary may elect to receive the retirement benefit to which the deceased member would have been entitled at the time of death under the Option 2 plan of retirement in lieu of the death benefit provided for in this subsection. Provided further, the option provided in this subsection is only available when the member has designated one individual as the designated beneficiary.

(12) Upon the death of an annuitant who has contributed to the System, the retirement system shall pay to the designated beneficiary of the annuitant or, if there is no designated beneficiary or if the designated beneficiary predeceases the annuitant, to the estate of the annuitant, the sum of Five Thousand Dollars (\$5,000.00) as a death benefit. The benefit payable pursuant to this subsection shall be deemed, for purposes of federal income taxation, as life insurance proceeds and not as a death benefit if the Internal Revenue Service approves this provision pursuant to a private letter ruling request which shall be submitted by the board of trustees of the System for that purpose.

(13) Upon the death of a member who dies leaving no living beneficiary or having designated his or her estate as beneficiary, the System may pay any applicable death benefit, unpaid contributions, or unpaid benefit which may be subject to probate, in an amount of Five Thousand Dollars (\$5,000.00) or less, without the intervention of the probate court or probate procedure pursuant to Section 1 et seq. of Title 58 of the Oklahoma Statutes.

3. A written agreement or agreements signed by all claiming heirs of the deceased member which provides that the claiming heirs release, discharge and hold harmless the System from any and all liability, obligations and costs which it may incur as a result of making a payment to any of the deceased member's heirs;

 5. Proof that all debts of the deceased member, including payment of last sickness, hospital, medical, death, funeral and burial expenses have been paid or provided for.

(b) The Executive Director of the System shall retain complete discretion in determining which requests for probate waiver may be granted or denied, for any reason. Should the System have any question as to the validity of any document presented by the claiming heirs, or as to any statement or assertion contained therein, the probate requirement provided for in Section 1 et seq. of Title 58 of the Oklahoma Statutes, shall not be waived.

(c) After paying any death benefits or unpaid contributions to any claiming heirs as provided pursuant to this subsection, the System is discharged and released from any and all liability, obligation and costs to the same extent as if the System had dealt with a personal representative of the deceased member. The System is not required to inquire into the truth of any matter specified in this subsection or into the payment of any estate tax liability.

(14) Upon the death of a retired member, the benefit payment for the month in which the retired member died, if not previously paid, shall be made to the beneficiary of the member or to the member's estate if there is no beneficiary. The Board of Trustees shall manage those monies not specifically allocated to the investment managers. The monies of the System allocated to the investment managers shall be actively managed by the investment managers, which may include selling investments and realizing losses if such action is considered advantageous to longer term return maximization. G. The Board of Trustees shall compile a quarterly financial report of all the funds of the System on a fiscal year basis. The report shall be compiled pursuant to uniform reporting standards prescribed by the Oklahoma State Pension Commission for all state retirement systems. 2. Using an actuarial assumption regarding cost-of-living adjustments for the System of two percent (2%) annually;

3. That relies upon the use of appropriate preretirement, postretirement and disability retirement information using generational projections taken from the RP-2000 Mortality Tables, published by the Society of Actuaries;

4. Which accurately and completely summarizes all sources of system assets, other than employee contributions, which shall include, but not be limited to, the total of all employer contributions, any dedicated tax or fee revenue of whatever kind or however denominated, and the total amount of any other source of revenue which accrues to the System, other than return on investments, such as federal monies used for the purpose of making employer contributions; and

5. Using an assumption that the unfunded actuarial accrued liabilities of the System are amortized over a period of thirty (30) years, in a manner consistent with the Governmental Accounting Standards Board Statement Number 25.

I. The Board of Trustees shall adopt a cost of living adjustment actuarial assumption in its annual actuarial valuation report.

Effective January 1, 1991, the member will receive such service upon payment of the amount determined by the Board of Trustees pursuant to Section 17-116.8 of this title. Such contributions shall be credited in the regular manner, and the period for which said contributions were paid shall be counted as creditable years of service and allocated to the period during which the military service was rendered, except that the period for which contributions were paid must have been continuous and shall be credited in the aggregate, regardless of fiscal year limitations. Notwithstanding any provision herein to the contrary, contributions, benefits and service credit with respect to qualified military service as defined by Section 414(u) of the Internal Revenue Code of 1986, shall be provided in accordance with Section 414(u) of the Internal Revenue Code.

The member may file for retirement when otherwise eligible for retirement as provided by Section 17-105 of this title. Conditioned upon receiving a favorable determination letter or private letter ruling from the Internal Revenue Service, the eligible absence and participation continuation in the Teachers' Retirement System of Oklahoma pursuant to this subsection shall be increased to twelve (12) years. The Teachers' Retirement System of Oklahoma shall make any necessary efforts in obtaining an Internal Revenue Service determination letter or private letter ruling concerning such increase.

For purposes of this subsection, creditable service transferred from the Oklahoma Public Employees Retirement System shall include service authorized under paragraph (f) of subsection (2) of Section 913 of Title 74 of the Oklahoma Statutes as amended from time to time. Members who retire prior to July 1, 1993, shall have their monthly benefit adjusted to include all services accrued under paragraph (f) of subsection (2) of Section 913 of Title 74 of the Oklahoma Statutes. Provided however, any adjustment of existing retirement benefits caused by reason of inclusion of such service authorized under paragraph (f) of subsection (2) of Section 913 of Title 74 of the Oklahoma Statutes shall not affect any retirement benefit paid prior to July 1, 1993.

L. 1. An active member of the Teachers' Retirement System of Oklahoma may receive credit for those years of service accumulated by the member while a member of the Oklahoma Public Employees Retirement System if:

- c. the member is not receiving or eligible to receive retirement credit or benefits from said service in any other public retirement system, notwithstanding the years of service sought to be transferred under this subsection.

Members electing to take advantage of the transfer authorized by this subsection who are receiving or eligible to receive retirement credit or benefits from said service in any other public retirement system shall have all service credit with the Oklahoma Public Employees Retirement System canceled which is not transferred to the

Teachers' Retirement System of Oklahoma or used as a cash offset in such a transfer pursuant to subparagraph d of paragraph 2 of this subsection. Service credit transferred to the Teachers' Retirement System of Oklahoma under this subsection shall also be canceled with the Oklahoma Public Employees Retirement System.

2. For purposes of this subsection, the "sending system" shall mean the Oklahoma Public Employees Retirement System. The "receiving system" shall mean the Teachers' Retirement System of Oklahoma.

- a. Within thirty (30) days notification of an intent to transfer is received by the sending system, the sending system shall, according to its own rules and regulations:
 - (1) for members who have accrued at least eight (8) years of credited service with the sending system, determine the present value of the member's earned benefits attributable to the years of service sought to be transferred, discounted according to the member's age at the time of transfer and computed as of the earliest age at which the member would be able to retire. Said computation shall assume an unreduced benefit and be computed using interest and mortality assumptions consistent with the actuarial assumptions adopted by the Board of Trustees for purposes of preparing the annual actuarial evaluation, but shall not make any projections regarding future salary. For employees who have accrued at least eight (8) years of credited service, the sending system shall use the product of this calculation for purposes of determining the transfer fee to be paid by the employee under subparagraph c of this paragraph so long as it is greater than the product of the calculation in division (2) of this subparagraph, and
 - (2) determine the sum of the employee and employer contributions applicable to the years of service sought to be transferred plus interest consistent with the actuarial assumptions adopted by the Board of Trustees for purposes of preparing the annual actuarial evaluation. For all non-vested members, and for members who have accrued at least eight (8) years of credited service, if the product of this calculation is greater than the product of the calculation in division (1) of this subparagraph, the sending system shall use the product of this calculation for purposes of determining the amount to be transferred by the sending system under subparagraph c of this paragraph and any transfer fee to be paid by the member under subparagraph d of this paragraph.

- b. Within thirty (30) days notification of an intent to transfer is received by the receiving system, the receiving system shall determine, according to the system's own rules and regulations, the present value of the member's incremental projected benefits discounted according to the member's age at the time of the transfer. Incremental projected benefits shall be the difference between the projected benefit said member would receive without transferring the service credit and the projected benefit after transfer of service credit computed as of the earliest age at which the member would be able to retire. Said computation shall assume an unreduced benefit and be computed using interest, salary projections and mortality assumptions consistent with the actuarial assumptions adopted by the Board of Trustees for purposes of preparing the annual actuarial evaluation.
- c. The sending system shall, within sixty (60) days from the date notification of an intent to transfer is received by the sending system, transfer to the receiving system the amount determined in subparagraph a of this paragraph. Except if the cost as calculated under subparagraph a of this paragraph is greater than the actuarial value of the incremental benefit in the receiving system, as established in subparagraph b of this paragraph, the sending system shall send the receiving system an amount equal to the actuarial value of the incremental projected benefit in the receiving system.
- d. In order to receive the credit provided for in paragraph 1 of this subsection, if the cost of the actuarial value of the incremental benefit to the receiving system is greater than the cost as calculated under subparagraph a of this paragraph for the same years of service to the sending system as established in subparagraphs a and b of this paragraph, the employee shall elect to:
 - (1) pay any difference to receive full credit for the years sought to be transferred, or
 - (2) receive prorated service credit for only the amount received from the Oklahoma Public Employees Retirement System pursuant to this subsection.

Such an election shall be made in writing, filed with the System prior to receiving the credit provided for in paragraph 1 of this subsection, and shall be irrevocable.

 - (1) a firefighter who performs firefighting services for the Oklahoma Military Department prior to July 1, 2002, and who makes an election in writing on a form prescribed for this purpose by the System not later than December 31, 2002, shall be entitled to receive a retirement benefit based upon two and one-half percent (2 1/2%) of the final average compensation of the member multiplied by the number of years of service as a firefighter with the Oklahoma Military Department on or after July 1, 2002. The election authorized by this subdivision shall be irrevocable once the election is filed with the System,
 - (2) a firefighter who performs firefighting services for the Oklahoma Military Department prior to July 1, 2002, and who makes the election in division (1) of this subparagraph may also make an election in writing on a form prescribed for this purpose by the System not later than December 31, 2002, to receive a retirement benefit based upon two and one-half percent (2 1/2%) of the final average compensation of the member multiplied by the number of years of service as a firefighter with the Oklahoma Military Department prior to July 1, 2002. The election authorized by this subdivision shall be irrevocable once the election is filed with the System. Retirement benefits shall be calculated based upon the two and one-half percent (2 1/2%) multiplier upon payment being made pursuant to Section 913.5 of this title.

(9) Upon death of a retirant, there shall be paid to his beneficiary an amount equal to the excess, if any, of his accumulated contributions over the sum of all retirement benefit payments made.

(10) Such annual retirement benefits shall be paid in equal monthly installments, except that the Board may provide for the payment of retirement benefits which total less than Two Hundred Forty Dollars (\$240.00) a year on other than a monthly basis.

(11) Pursuant to the rules established by the Board, a retiree receiving monthly benefits from the System may authorize warrant deductions for any products currently offered to active state employees through the Employees Benefits Council, provided that product is offered to state retirees as a group and has a minimum participation of five hundred state retirees. The System has no responsibility for the marketing, enrolling or administration of such products, but shall retain a processing fee of two percent (2%) of the gross deductions for the products. Retirement benefit deductions shall be made for membership dues for any statewide association for which payroll deductions are authorized pursuant to subsection B of Section 7.10 of Title 62 of the Oklahoma Statutes for retired members of any state-supported retirement system, upon proper authorization given by the member to the board from which the member or beneficiary is currently receiving retirement benefits.

B. A member shall be considered disabled if such member qualifies for the payment of Social Security disability benefits, or the payment of benefits pursuant to the Railroad Retirement Act of 1974, Section 231 et seq. of Title 45 of the United States Code, and shall be eligible for benefits hereunder upon proof of such disability, provided such member is an active regularly scheduled employee with a participating employer at the time of injury or inception of illness or disease resulting in subsequent certification of eligibility for Social Security disability benefits by reason of such injury, illness or disease, providing such disability is certified by the Social Security Administration within one (1) year after the last date physically on the job and after completion of at least eight (8) years of participating service or combined prior and participating service or resulting in subsequent certification of eligibility of disability by the Railroad Retirement Board providing such certification is made by the Railroad Retirement Board within one (1) year after the last date physically on the job and after completion of at least eight (8) years of participating service or combined prior and participating service. The member shall submit to the Retirement System the Social Security Award Notice or the Railroad Retirement Award Notice certifying the date of entitlement for disability benefits, as issued by the Social Security Administration, Department of Health and Human Services or the Railroad Retirement Board. Disability benefits shall become effective on the date of entitlement as established by the Social Security Administration or the Railroad Retirement Board, but not before the first day of the month following removal from the payroll, whichever is later, and final approval by the Retirement System. Benefits shall be based upon length of service and compensation as of the date of disability, without actuarial reduction because of commencement prior to the normal retirement date. The only optional form of benefit payment available for disability benefits is Option A as provided for in Section 918 of this title. Option A must be elected in accordance with the provisions of Section 918 of this title. Benefit payments shall cease upon the member's recovery from disability prior to the normal retirement date. Future benefits, if any, shall be paid based upon length of service and compensation as of the date of disability. In the event that disability ceases and the member returns to employment within the System credited service to the date

of disability shall be restored, and future benefits shall be determined accordingly.

C. A member who incurred a disability pursuant to subsection B of this section on or after July 1, 1999, and who has retired from the System with an early retirement benefit pending certification from the Social Security Administration or the Railroad Retirement Board shall receive a retirement benefit not less than the disability retirement benefit provided by subsection B of this section once the System receives a Social Security Award Notice or a Railroad Retirement Award Notice pursuant to subsection B of this section and a completed Application for Disability Benefits. In addition, such member shall receive the difference, if any, between the early retirement benefit and the disability benefit from the date the Social Security Administration or the Railroad Retirement Board establishes disability entitlement.

D. Any actively participating member of the System on or after July 1, 1998, except for those employees provided in subparagraph (e) of paragraph (14) of Section 902 of this title, whose employment is less than full-time, shall have his or her final average compensation calculated on an annualized basis using his or her hourly wage subject to the maximum compensation limits; provided, however, any such member who has at least three (3) years of full-time employment during the last ten (10) years immediately preceding termination or retirement shall not be eligible for the annualization provisions contained herein. The Board of Trustees shall promulgate such administrative rules as are necessary to implement the provisions of this subsection.

SECTION 25. AMENDATORY 74 O.S. 2001, Section 917, as last amended by Section 19, Chapter 406, O.S.L. 2003 (74 O.S. Supp. 2003, Section 917), is amended to read as follows:

Section 917. (1) Upon termination of employment with a participating employer, not followed by employment with such participating employer, or another participating employer, within four (4) calendar months, the member shall be paid an amount equal to the amount of money he or she has paid into the System upon the filing of the proper application with the System. Payment of these accumulated contributions may be made in less than four (4) calendar months only in the event that a member is not eligible to elect a vested benefit pursuant to this section and said member is terminally ill, as evidenced by a physician's certification that the member is not expected to live beyond four (4) months.

(2) If such member has completed eight (8) years of credited service at date of termination or if the member is a legislative session employee of the Legislature or if the employee is a session employee employed by the Legislative Service Bureau, four (4) years of credited service at date of termination, he may elect a vested benefit in lieu of receiving his accumulated contributions. The amount of the vested benefit shall commence at the normal retirement date and shall be paid monthly during the lifetime of the retirant with the last payment made on the last day of the month in which death occurs.

(3) Upon death before the normal or early retirement date of a member who has elected a vested benefit, his accumulated contributions shall be paid to his beneficiary unless the spouse of the deceased member elects monthly benefits as provided for in Section 918 of this title.

(4) Upon death after the normal or early retirement date of a retirant who elected a vested benefit without an option, the excess, if any, of his accumulated contributions over the sum of all payments of the vested benefit made to date of death shall be paid to his beneficiary.

(5) If a former employee, who meets the eligibility requirements for membership, returns to employment after the expiration of four (4) calendar months following the termination of his employment and the employee has withdrawn his accumulated contributions, he may pay to the System the sum of the accumulated contributions he has withdrawn plus interest of not to exceed ten percent (10%), as determined by the Board, and shall receive the same benefits as if he had never withdrawn his contributions. No member shall be permitted to take advantage of the payback for restoration of creditable service more than one time. If a member, who has elected a vested benefit, or a reemployed member, who has not withdrawn the member's contributions, again becomes an employee of a participating employer, the period of absence shall not be counted as a break in service; however, the period of absence shall not be credited.

(6) Prior to January 1, 1991, members, who at the time of employment were ineligible for membership into the System due to their age, shall receive benefits for the period of ineligibility if the employer and employee contributions are paid the System for that ineligible period. No interest shall be paid on a payback of this type. However, effective January 1, 1991, to receive benefits, the member shall pay the amount determined by the Board pursuant to Section 913.5 of this title.

(7) When any error in calculation or participation coverage to a prior or current employee exists, it shall be the responsibility of the participating employer which made the error to pay the amount determined by the Board pursuant to Section 913.5 of this title. This obligation of the participating employer to pay the amount due pursuant to this section shall be considered a current obligation of the employer until the amount is paid in full, regardless of the dates of the periods of service.

(8) Upon application to the Board and payment as determined by the Board, a member of the System may receive service credit for those years of service that the member was eligible to receive service credit from the Teachers' Retirement System of Oklahoma. To receive the service credit, the member shall pay the amount determined by the Board pursuant to Section 913.5 of this title.

(9) Upon the death of a retired member, the benefit payment for the month in which the retired member died, if not previously paid, shall be made to the beneficiary estate of the member or to the member's estate beneficiary if there is no beneficiary estate. Such

benefit payment shall be made in an amount equal to a full monthly benefit payment regardless of the day of the month in which the retired member died.

(10) Subject to the provisions of Sections 918 and 918.1 of this title, if there are two or more beneficiaries designated by the member, upon the member's death, the System shall pay any applicable benefits to any of the beneficiaries that have completed all required paperwork regardless of whether or not all beneficiaries have completed such paperwork.

SECTION 26. AMENDATORY 74 O.S. 2001, Section 920, as amended by Section 9, Chapter 486, O.S.L. 2003 (74 O.S. Supp. 2003, Section 920), is amended to read as follows:

Section 920. (1) Effective July 1, 1994, every state agency which is a participating employer shall contribute to the System an amount equal to eleven and one-half percent (11 1/2%) of the monthly compensation of each member, but not in excess of Forty Thousand Dollars (\$40,000.00).

(2) Effective July 1, 1995, every state agency which is a participating employer shall contribute to the System an amount equal to eleven and one-half percent (11 1/2%) of the monthly compensation of each member, not to exceed the allowable annual compensation as defined in paragraph (9) of Section 902 of this title.

(6) The Board shall certify, on or before July 15 of each year, to the Office of State Finance in the case of the state and to the retirement coordinator for each participating employer an actuarially determined estimate of the rate of contribution which will be required, together with all accumulated contributions and other assets of the System, to be paid by each such participating employer to pay all liabilities which shall exist or accrue under the System, including amortization of the past service cost over a period of not to exceed forty (40) years from June 30, 1987, and the cost of administration of the System, as determined by the Board, upon recommendation of the actuary.

(7) The Office of State Finance and the Governor shall include in the budget and in the budget request for appropriations the sum required to satisfy the state's obligation under this section as certified by the Board and shall present the same to the Legislature for allowance and appropriation.

(8) Each other participating employer shall appropriate and pay to the System a sum sufficient to satisfy the obligation under this section as certified by the Board.

(9) Each participating employer is hereby authorized to pay the employer's contribution from the same fund that the compensation for which said contribution is paid from or from any other funds available to it for such purpose.

(10) Forfeitures arising from severance of employment, death or for any other reason may not be applied to increase the benefits any member would otherwise receive under the System's law. However, forfeitures may be used to reduce an employer's contribution.

Section 920A. A. Any county, county hospital, city or town, conservation district or any public or private trust in which a county, city or town participates and is the primary beneficiary, which is a participating employer and any eligible employee shall contribute to the System. The total employer and employee contributions shall be based on the allowable annual compensation as defined in ~~subsection~~ paragraph (9) of Section 902 of this title. Except as provided for in this section, the employer shall not pay for the employee any of the employee contribution to the System.

B. For the fiscal ~~years~~ year ending ~~June 30, 2004,~~ June 30, 2005, ~~and June 30, 2006,~~ the total employer and employee contributions shall equal thirteen and one-half percent (13 1/2%) of the allowable monthly compensation of each member; provided, however, each participating employer listed in this section may set the amount of the employer and employee contribution to equal thirteen and one-half percent (13 1/2%) of the allowable monthly compensation of each member for compensation as provided in

~~subsection paragraph~~ (9) of Section 902 of this title; provided, the employer contribution shall not exceed ten percent (10%) and the employee contribution shall not exceed eight and one-half percent (8 1/2%).

E. Each participating employer pursuant to the provisions of this section may pick up under the provisions of Section 414(h) (2)

of the Internal Revenue Code of 1986 and pay the contribution which the member is required by law to make to the System for all compensation earned after December 31, 1989. Although the contributions so picked up are designated as member contributions, such contributions shall be treated as contributions being paid by the participating employer in lieu of contributions by the member in determining tax treatment under the Internal Revenue Code of 1986 and such picked up contributions shall not be includable in the gross income of the member until such amounts are distributed or made available to the member or the beneficiary of the member. The member, by the terms of this System, shall not have any option to choose to receive the contributions so picked up directly and the picked up contributions must be paid by the participating employer to the System.

F. Member contributions which are picked up shall be treated in the same manner and to the same extent as member contributions made prior to the date on which member contributions were picked up by the participating employer. Member contributions so picked up shall be included in gross salary for purposes of determining benefits and contributions under the System.

G. The participating employer shall pay the member contributions from the same source of funds used in paying salary to the member, by effecting an equal cash reduction in gross salary of the member.

SECTION 28. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 920B of Title 74, unless there is created a duplication in numbering, reads as follows:

All participating employers shall remit to the System all required retirement contributions due on a monthly basis. For non-state agency employers, all required employer and employee contributions and supporting documentation are due and must be received by the System on or before the fifteenth day of the month following the month for which the contributions are due. For state agency employers, all required employer and employee contributions and supporting documentation are due and must be received by the System on or before the fifteenth day following the last day of the payroll period for which said contributions are due. Employer and employee contributions remitted to the System after thirty (30) days from the above due dates shall be subject to a monthly late charge of one and one-half percent (1.5%) of the unpaid balance to be paid by the employer to the System.

SECTION 29. AMENDATORY 74 O.S. 2001, Section 923, is amended to read as follows:

Section 923. A. Except as otherwise provided by this section, no alteration, amendment, or repeal of this act shall affect the then existing rights of members and beneficiaries, but shall be effective only as to rights which would otherwise accrue hereunder as a result of services rendered by an employee after such alteration, amendment, or repeal. Any annuity, benefits, fund, property, or rights created by or accruing to any person under the provisions of this act shall not be subject to execution,

garnishment or attachment, or any other process or claim whatsoever, and shall be unassignable, except as specifically provided by Section 901 et seq. of this title. Notwithstanding the foregoing, the Board of Trustees may offset any benefits of a member or beneficiary to pay a judgment or settlement against a member or beneficiary for a crime involving the System, for a fraud or breach of the member's fiduciary duty to the System, or for funds or monies incorrectly paid to a member or a beneficiary, provided such offset is in accordance with the requirements of Section 401(a)(13) of the Internal Revenue Code of 1986. The offset applies to any benefits which may otherwise be payable to a member or beneficiary from any plan or fund which is administered by the Board of Trustees.

B. 1. The provisions of subsection A of this section shall not apply to a qualified domestic order as provided pursuant to this subsection.

2. 3. For purposes of the payment of marital property, to qualify as an alternate payee, a spouse or former spouse must have been married to the related member for a period of not less than thirty (30) continuous months immediately preceding the commencement of the proceedings from which the qualified domestic order issues.

4. A qualified domestic order is valid and binding on the State Board and the related member only if it meets the requirements of this subsection.

5. A qualified domestic order shall clearly specify:

- c. the number of payments or period to which such order applies,
- d. the characterization of the benefit as to marital property rights or child support, and

- a. does not require the System to provide any type or form of benefit, or any option not otherwise provided under state law as relates to the System,
- b. does not require the System to provide increased benefits, and
- c. does not require the payment of benefits to an alternate payee which are required to be paid to another alternate payee pursuant to another order previously determined to be a qualified domestic order or an order recognized by the System as a valid order prior to the effective date of this act.

7. A qualified domestic order shall not require payment of benefits to an alternate payee prior to the actual retirement date or withdrawal of the related member and shall not attach to or require the payment of any amount of benefits related to a deferred compensation plan or program authorized by Section 1701 et seq. of this title.

8. The obligation of the System to pay an alternate payee pursuant to a qualified domestic order shall cease upon the death of the related member.

9. This subsection shall not be subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), 29 U.S.C.A. Section 1001 et seq., as amended from time to time, or rules and regulations promulgated thereunder, and court cases interpreting said act.

10. The Oklahoma Public Employees Retirement System Board of Trustees shall promulgate such rules as are necessary to implement the provisions of this subsection.

11. An alternate payee who has acquired beneficiary rights pursuant to a valid qualified domestic order must fully comply with all provisions of the rules promulgated by the Board pursuant to this subsection in order to continue receiving his or her benefit.

SECTION 30. NEW LAW A new section of law not to be codified in the Oklahoma Statutes reads as follows:

On or before November 1, 2004, the Oklahoma Public Employees Retirement System shall conduct a study pursuant to this section. The study shall focus on the creation of a deferred retirement option plan within the System for all active and future members of the System. The study shall include recommendations concerning any necessary changes to the employer and employee contributions that will be needed to pay for the deferred retirement option plan. The Oklahoma Public Employees Retirement System shall issue a report based on the findings of the study and shall include any recommendations for the implementation of a deferred retirement option plan.
