B. If the loss experience of an insurer shows that its loss reserves, however estimated, are inadequate, the Commissioner, in writing, shall require the insurer to maintain loss reserves in an increased amount as is needed to make them adequate.

C. 1. Insurers shall not use present value discounting for computing reserves for property and casualty insurance, except for workers' compensation carriers and physicians' and hospitals' professional liability insurance written on an occurrence basis. Property and casualty insurers which elect to use present value discounting for computing reserves on physicians' and hospitals' professional liability insurance shall file initially, and thereafter annually, an actuarial opinion certifying to the adequacy of such reserves which shall include an analysis of the propriety of loss payout patterns, interest rate assumptions used in developing the discount and the adequacy of the insurer's rates. reinsurance program. In no event shall the interest rate used to compute the discounted reserves exceed the insurer's average yield on invested assets for the year, less one percent (1%).
