

SECTION 1. AMENDATORY 47 O.S. 2001, Section 1-104, as last amended by Section 1, Chapter 521, O.S.L. 2004 (47 O.S. Supp. 2005, Section 1-104), is amended to read as follows:

Section 1-104. Bicycle, Electric-assisted Bicycle, and Motorized Bicycle.

A. A bicycle is a device upon which any person or persons may ride, propelled solely by human power through a belt, chain, or gears, and having two or more wheels, excluding mopeds.

B. An electric-assisted bicycle is any bicycle with:

1. Two or three wheels; and
2. Fully operative pedals for human propulsion and equipped with an electric motor:
 - a. with a power output not to exceed one thousand (1,000) watts,
 - b. incapable of propelling the device at a speed of more than twenty (20) miles per hour on level ground, and
 - c. incapable of further increasing the speed of the device when human power alone is used to propel the device at a speed of twenty (20) miles per hour or more.

An electric-assisted bicycle shall meet the requirements of the Federal Motor Vehicle Safety Standards as set forth in federal regulations and shall operate in such a manner that the electric motor disengages or ceases to function when the brakes are applied.

C. A motorized bicycle is any bicycle having:

1. Fully operative pedals for propulsion by human power;
2. An automatic transmission; and
3. A combustion engine with a piston or rotor displacement of fifty cubic centimeters (50 cu cm) or less, regardless of the number of chambers in the engine, which is capable of propelling the

bicycle at a maximum design speed of not more than thirty (30) miles per hour on level ground.

D. As used in this title, the term "bicycle" shall include tricycles, quadcycles, or similar human-powered devices, electric-assisted bicycles, and motorized bicycles unless otherwise specifically indicated.

SECTION 2. AMENDATORY 47 O.S. 2001, Section 11-1205, as last amended by Section 15, Chapter 521, O.S.L. 2004 (47 O.S. Supp. 2005, Section 11-1205), is amended to read as follows:

Section 11-1205. A. Every person operating a bicycle or motorized scooter upon a roadway at less than the normal speed of traffic at the time and place and under the conditions then existing shall ride as close as is safe to the right-hand curb or edge of the roadway, except under any of the following situations:

1. When overtaking and passing another vehicle proceeding in the same direction;

2. When preparing for a left turn at an intersection or into a private road or driveway;

3. When reasonably necessary to avoid conditions and while exercising due care, including but not limited to:

a. fixed or moving objects,

b. parked or moving vehicles,

c. pedestrians or animals,

d. surface hazards, or

e. any time it is unsafe to continue along the right-hand curb or edge of the roadway; and

4. When riding in the right-turn-only lane.

B. Any person riding a bicycle or motorized scooter upon a one-way street or highway with two or more marked lanes of travel may ride as close as is safe to the left-hand curb or edge of the street or highway.

C. No person operating a bicycle or motorized scooter shall pass other vehicles between lanes of traffic traveling in the same direction.

D. Persons riding bicycles or motorized scooters upon a roadway shall not ride more than two abreast except on paths or parts of roadways set aside for the exclusive use of bicycles or motorized scooters. Persons riding two abreast shall not impede the normal and reasonable flow of traffic and, on a laned roadway, shall ride within a single lane.

SECTION 3. NEW LAW A new section of law to be codified in the Oklahoma Statutes as Section 11-1208 of Title 47, unless there is created a duplication in numbering, reads as follows:

A. When overtaking and passing a bicycle proceeding in the same direction, a person driving a motor vehicle shall exercise due care by leaving a safe distance between the motor vehicle and the bicycle of not less than three (3) feet until the motor vehicle is safely past the overtaken bicycle.

B. If a person violates the provisions of subsection A of this section and the violation results in a collision causing serious physical injury to another person, the person shall be subject to a fine of not more than Five Hundred Dollars (\$500.00).

C. If a person violates the provisions of subsection A of this section and the violation results in the death of another person, the person shall be subject to a fine of not more than One Thousand Dollars (\$1,000.00), in addition to any other penalties prescribed by law.

SECTION 4. AMENDATORY 47 O.S. 2001, Section 751, as last amended by Section 2, Chapter 189, O.S.L. 2005 (47 O.S. Supp. 2005, Section 751), is amended to read as follows:

Section 751. A. 1. Any person who operates a motor vehicle upon the public roads, highways, streets, turnpikes or other public place or upon any private road, street, alley or lane which provides access to one or more single or multi-family dwellings within this state shall be deemed to have given consent to a test or tests of such person's blood or breath, for the purpose of determining the alcohol concentration as defined in Section 756 of this title, and such person's blood, saliva or urine for determining the presence or concentration of any other intoxicating substance therein as defined in this section, if arrested for any offense arising out of acts alleged to have been committed while the person was operating

or in actual physical control of a motor vehicle upon the public roads, highways, streets, turnpikes or other public place or upon any private road, street, alley or lane which provides access to one or more single or multi-family dwellings while under the influence of alcohol or other intoxicating substance, or the combined influence of alcohol and any other intoxicating substance, or if the person is involved in a traffic accident that resulted in the immediate death or serious injury of any person and is removed from the scene of the accident to a hospital or other health care facility outside the State of Oklahoma before a law enforcement officer can effect an arrest.

2. A law enforcement officer, having reasonable grounds to believe that such person was operating or in actual physical control of a motor vehicle while under the influence may direct the administration of or administer the test or tests.

As used in this title, the term "other intoxicating substance" shall mean any controlled dangerous substance as defined in the Uniform Controlled Dangerous Substances Act and any other substance, other than alcohol, which is capable of being ingested, inhaled, injected or absorbed into the human body and is capable of adversely affecting the central nervous system, vision, hearing or other sensory or motor functions.

B. The law enforcement agency by which the arresting officer is employed may designate, in accordance with the rules of the Board of Tests for Alcohol and Drug Influence, hereinafter referred to as the Board, whether blood or breath is to be tested for the alcohol concentration thereof, and whether blood, saliva or urine is to be tested for the presence or concentration of any other intoxicating substance therein.

In the event the law enforcement agency does not designate the test to be administered, breath shall be the substance tested for alcohol concentration. Blood may also be tested to determine the alcohol concentration thereof in the event that breath cannot be tested to determine the alcohol concentration thereof because of the lack of an approved device or qualified person to administer a breath test or because such breath test for any other reason cannot be administered in accordance with the rules of the Board.

In the event the law enforcement agency does not designate the test to be administered, blood, saliva or urine shall be the substance tested for the presence or concentration of any other intoxicating substance or the combination of alcohol and any other intoxicating substance.

C. In the event the person is incapable of submitting to and successfully completing, by reason of illness or injury or other physical disability, the test to be administered, an alternate test may be administered in accordance with the rules of the Board.

D. Any person who is unconscious or otherwise incapable of refusing to submit to a test of such person's blood or breath to determine the alcohol concentration thereof, or to a test of such person's blood, saliva or urine to determine the presence or concentration of any other intoxicating substance therein, shall be deemed not to have withdrawn the consent provided by subsection A of this section, and such test may be administered as provided herein.

An unconscious person who has been issued a citation by a law enforcement officer for one of the offenses listed in subsection A of this section is arrested for purposes of this section. The arresting officer must leave a copy of the citation with the arrested person which may be accomplished by handing it to the arrested person, or by leaving it with the personal effects of the arrested party, so as to inform the unconscious person of the arrest.

Any person who has been arrested for one of the offenses listed in subsection A of this section who is unconscious or injured and who requires immediate medical treatment as determined by a treating physician may be released on the person's own recognizance for medical reasons by the arresting officer. The arresting officer who releases an arrested person on the person's own recognizance must indicate the release on the face of the citation. Any person released on his or her own recognizance for medical reasons shall remain at liberty pending the filing of charges.

E. In addition to any test designated by the arresting officer, the arrested person may also designate any additional test to be administered to determine the concentration of alcohol, or the presence or concentration of any other intoxicating substance or the combination of alcohol and any other intoxicating substance. The cost of such additional test shall be at the expense of the arrested person.

A sufficient quantity of any specimen obtained at the designation of the arrested person shall be available to the law enforcement agency employing the arresting officer. Such specimens shall be treated in accordance with the rules applicable to the specimens obtained by an arresting officer.

F. When a law enforcement officer has determined that the blood alcohol content of an individual is to be tested for the presence or concentration of alcohol, other intoxicating substance, or the combination of alcohol and any other intoxicating substance, the law enforcement officer shall inform the individual to be tested that the withdrawal of blood shall only be performed by certain medical personnel as provided for in Section 752 of this title.

SECTION 5. AMENDATORY 47 O.S. 2001, Section 752, as last amended by Section 15, Chapter 394, O.S.L. 2005 (47 O.S. Supp. 2005, Section 752), is amended to read as follows:

Section 752. A. Only a licensed medical doctor, licensed osteopathic physician, licensed chiropractic physician, registered nurse, licensed practical nurse, physician's assistant, certified by the State Board of Medical Licensure and Supervision, an employee of a hospital or other health care facility authorized by the hospital or health care facility to withdraw blood, or other qualified person authorized by the Board of Tests for Alcohol and Drug Influence acting at the request of a law enforcement officer may withdraw blood for purpose of having a determination made of its concentration of alcohol or the presence or concentration of other intoxicating substance. Only qualified persons authorized by the Board may collect breath, saliva or urine, or administer tests of breath under the provisions of this title.

B. If the person authorized to withdraw blood as specified in subsection A of this section is presented with a written statement:

1. Authorizing blood withdrawal signed by the person whose blood is to be withdrawn;

2. Signed by a duly authorized peace officer that the person whose blood is to be withdrawn has agreed to the withdrawal of blood;

3. Signed by a duly authorized peace officer that the person whose blood is to be withdrawn has been placed under arrest and that the officer has probable cause to believe that the person, while intoxicated, has operated a motor vehicle in such manner as to have caused the death or serious physical injury of another person, or the person has been involved in a traffic accident and has been removed from the scene of the accident that resulted in the death or great bodily injury, as defined in subsection B of Section 646 of Title 21 of the Oklahoma Statutes, of any person to a hospital or other health care facility outside the State of Oklahoma before the

law enforcement officer was able to effect an arrest for such offense; or

4. In the form of an order from a district court that blood be withdrawn, the person authorized to withdraw the blood and the hospital or other health care facility where the withdrawal occurs may rely on such a statement or order as evidence that the person has consented to or has been required to submit to the clinical procedure and shall not require the person to sign any additional consent or waiver form. In such a case, the person authorized to perform the procedure, the employer of such person, and the hospital or other health care facility shall not be liable in any action alleging lack of consent or lack of informed consent.

C. No person specified in subsection A of this section, no employer of such person, and no hospital or other health care facility where blood is withdrawn shall incur any civil or criminal liability as a result of the proper withdrawal of blood when acting at the request of a law enforcement officer by the provisions of Section 751 or 753 of this title, or when acting in reliance upon a signed statement or court order as provided in this section, if the act is performed in a reasonable manner according to generally accepted clinical practice. No person specified in subsection A of this section shall incur any civil or criminal liability as a result of the proper collection of breath, saliva or urine when acting at the request of a law enforcement officer under the provisions of Section 751 or 753 of this title or when acting pursuant to a court order.

D. The blood, breath, saliva or urine specimens obtained shall be tested by the appropriate test as determined by the Board, or tested by a laboratory that is exempt from the Board rules pursuant to Section 759 of this title, to determine the alcohol concentration thereof, or the presence and concentration of any other intoxicating substance which might have affected the ability of the person tested to operate a motor vehicle safely.

E. When blood is withdrawn or saliva or urine is collected for testing of its alcohol concentration or other intoxicating substance presence or concentration, at the request of a law enforcement officer, a sufficient quantity of the same specimen shall be obtained to enable the tested person, at his or her own option and expense, to have an independent analysis made of such specimen. The excess blood, saliva or urine specimen shall be retained by a laboratory approved by the Board, in accordance with the rules and regulations of the Board, or by a laboratory that is exempt from the Board rules pursuant to Section 759 of this title, for sixty (60)

days from the date of collection. At any time within that period, the tested person or his or her attorney may direct that such blood, saliva or urine specimen be sent or delivered to a laboratory of his or her own choosing and approved by the Board for an independent analysis. Neither the tested person, nor any agent of such person, shall have access to the additional blood, saliva or urine specimen prior to the completion of the independent analysis, except the analyst performing the independent analysis and agents of the analyst.

F. When a test of breath is performed for the purpose of determining the alcohol concentration thereof, except when such test is performed by means of an automated analyzer as designated by the Board, a sufficient quantity of breath, or of the alcohol content of a fixed or measured quantity of breath, shall be obtained, in accordance with the rules and regulations of the Board, to enable the tested person, at his or her own option and expense, to have an independent analysis made of such specimen. The excess specimen of breath, or of its alcohol content, shall be retained by the law enforcement agency employing the arresting officer, in accordance with the rules and regulations of the Board, for sixty (60) days from the date of collection. At any time within that period, the tested person, or his or her attorney, may direct that such specimen be sent or delivered to a laboratory of his or her own choosing and approved by the Board for an independent analysis. Neither the tested person, nor any agent of such person, shall have access to the additional specimen of breath, or of its alcohol content, prior to the completion of the independent analysis thereof, except the analyst performing the independent analysis and agents of the analyst.

G. The costs of collecting blood, breath, saliva or urine specimens for the purpose of determining the alcohol or other intoxicating substance thereof, by or at the direction of a law enforcement officer, shall be borne by the law enforcement agency employing such officer. The cost of collecting, retaining and sending or delivering to an independent laboratory the excess specimens of blood, breath, saliva or urine for independent analysis at the option of the tested person shall also be borne by such law enforcement agency. The cost of the independent analysis of such specimen of blood, breath, saliva or urine shall be borne by the tested person at whose option such analysis is performed. The tested person, or his or her agent, shall make all necessary arrangements for the performance of such independent analysis other than the forwarding or delivery of such specimen.

H. Tests of blood or breath for the purpose of determining the alcohol concentration thereof, and tests of blood, saliva or urine for the purpose of determining the presence or concentration of any other intoxicating substance therein, under the provisions of this title, whether administered by or at the direction of a law enforcement officer or administered independently, at the option of the tested person, on the excess specimen of such person's blood, breath, saliva or urine, to be considered valid and admissible in evidence under the provisions of this title, shall have been administered or performed in accordance with the rules and regulations of the Board, or performed by a laboratory that is exempt from the Board rules pursuant to Section 759 of this title.

I. Any person who has been arrested for any offense arising out of acts alleged to have been committed while the person was operating or in actual physical control of a motor vehicle while under the influence of alcohol, any other intoxicating substance or the combined influence of alcohol and any other intoxicating substance who is not requested by a law enforcement officer to submit to a test shall be entitled to have an independent test of his or her blood, breath, saliva or urine which is appropriate as determined by the Board for the purpose of determining its alcohol concentration or the presence or concentration of any other intoxicating substance therein, performed by a person of his or her own choosing who is qualified as stipulated in this section. The arrested person shall bear the responsibility for making all necessary arrangements for the administration of such independent test and for the independent analysis of any specimens obtained, and bear all costs thereof. The failure or inability of the arrested person to obtain an independent test shall not preclude the admission of other competent evidence bearing upon the question of whether such person was under the influence of alcohol, or any other intoxicating substance or the combined influence of alcohol and any other intoxicating substance.

J. Any agency or laboratory certified by the Board or any agency or laboratory that is exempt from the Board rules pursuant to Section 759 of this title, which analyses breath, blood, or urine shall make available a written report of the results of the test administered by or at the direction of the law enforcement officer to:

1. The tested person, or his or her attorney;
2. The Commissioner of Public Safety; and

3. The Fatality Analysis Reporting System (FARS) analyst of the state, upon request.

The results of the tests provided for in this title shall be admissible in civil actions.

SECTION 6. AMENDATORY 47 O.S. 2001, Section 753, is amended to read as follows:

Section 753. If a conscious person under arrest refuses to submit to testing of his or her blood or breath for the purpose of determining the alcohol concentration thereof, or to a test of his or her blood, saliva or urine for the purpose of determining the presence or concentration of any other intoxicating substance, or the combined influence of alcohol and any other intoxicating substance, none shall be given, unless the investigating officer has probable cause to believe that the person under arrest, while intoxicated, has operated the motor vehicle in such a manner as to have caused the death or serious physical injury of any other person or persons. In such event, such test otherwise authorized by law may be made in the same manner as if a search warrant had been issued for such test or tests. The sample shall be taken in a medically acceptable manner at a hospital or other suitable health care facility. The Commissioner of Public Safety, upon the receipt of a sworn report of the law enforcement officer that the officer had reasonable grounds to believe the arrested person had been driving or was in actual physical control of a motor vehicle upon the public roads, highways, streets, turnpikes or other public place of this state while under the influence of alcohol, any other intoxicating substance, or the combined influence of alcohol and any other intoxicating substance and that the person had refused to submit to the test or tests, shall revoke the license to drive and any nonresident operating privilege for a period as provided by Section 6-205.1 of this title. If the person is a resident or a nonresident without a license or permit to operate a motor vehicle in this state, the Commissioner of Public Safety shall deny to the person the issuance of a license or permit for a period as provided by Section 6-205.1 of this title subject to a review as provided in Section 754 of this title. The revocation or denial shall become effective thirty (30) days after the arrested person is given written notice thereof by the officer or by the Department as provided in Section 754 of this title.

SECTION 7. AMENDATORY 47 O.S. 2001, Section 756, is amended to read as follows:

Section 756. A. Upon the trial of any criminal action or proceeding arising out of acts alleged to have been committed by any person while driving or in actual physical control of a motor vehicle while under the influence of alcohol or any other intoxicating substance, or the combined influence of alcohol and any other intoxicating substance, evidence of the alcohol concentration in the blood or breath of the person as shown by analysis of the blood or breath of the person performed in accordance with the provisions of Sections 752 and 759 of this title or evidence of the presence or concentration of any other intoxicating substance as shown by analysis of such person's blood, breath, saliva, or urine specimens in accordance with the provisions of Sections 752 and 759 of this title is admissible. Evidence that the person has refused to submit to either of said analyses is also admissible. For the purpose of this title, when the person is under the age of twenty-one (21) years, evidence that there was, at the time of the test, any measurable quantity of alcohol is prima facie evidence that the person is under the influence of alcohol in violation of Section 11-906.4 of this title. For persons twenty-one years of age or older:

1. Evidence that there was, at the time of the test, an alcohol concentration of five-hundredths (0.05) or less is prima facie evidence that the person was not under the influence of alcohol;

2. Evidence that there was, at the time of the test, an alcohol concentration in excess of five-hundredths (0.05) but less than eight-hundredths (0.08) is relevant evidence that the person's ability to operate a motor vehicle was impaired by alcohol. However, no person shall be convicted of the offense of operating or being in actual physical control of a motor vehicle while such person's ability to operate such vehicle was impaired by alcohol solely because there was, at the time of the test, an alcohol concentration in excess of five-hundredths (0.05) but less than eight-hundredths (0.08) in the blood or breath of the person in the absence of additional evidence that such person's ability to operate such vehicle was affected by alcohol to the extent that the public health and safety was threatened or that said person had violated a state statute or local ordinance in the operation of a motor vehicle; and

3. Evidence that there was, at the time of the test, an alcohol concentration of eight-hundredths (0.08) or more shall be admitted as prima facie evidence that the person was under the influence of alcohol.

B. For purposes of this title, "alcohol concentration" means grams of alcohol per one hundred (100) milliliters of blood if the

blood was tested, or grams of alcohol per two hundred ten (210) liters of breath if the breath was tested.

C. To be admissible in a proceeding, the evidence must first be qualified by establishing that the test was administered to the person within two (2) hours after the arrest of the person.

SECTION 8. AMENDATORY 47 O.S. 2001, Section 759, as last amended by Section 1 of Enrolled House Bill No. 2154 of the 2nd Session of the 50th Oklahoma Legislature, is amended to read as follows:

Section 759. A. There is hereby re-created, to continue until July 1, 2012, in accordance with the provisions of the Oklahoma Sunset Law, the Board of Tests for Alcohol and Drug Influence to be composed of the Dean of the University of Oklahoma College of Medicine, or the Dean's designee who shall receive an appointment in writing, as Chairman, and the Commissioner of Public Safety or a designee, the Director of the Oklahoma State Bureau of Investigation or a designee, the State Commissioner of Health or a designee, the Director of the Council on Law Enforcement Education and Training or a designee, one certified peace officer who is a member of a local law enforcement agency selected by the Oklahoma Sheriffs and Peace Officers Association and one person selected by the Oklahoma Association of Chiefs of Police, as members, to serve without pay other than reimbursement of necessary and actual expenses as provided in the State Travel Reimbursement Act, Section 500.1 et seq. of Title 74 of the Oklahoma Statutes. Each designee shall receive an appointment in writing which shall become a permanent part of the records of the Board. The Board is authorized to appoint a State Director of Tests for Alcohol and Drug Influence, an Administrative Assistant to the Board, and other employees, including but not limited to persons to conduct training and provide administrative assistance as necessary for the performance of its functions, subject to available funding and authorized full-time equivalent employee limitations. The Board may expend appropriated funds for purposes consistent with Sections 751 through 761 of this title and Sections 301 through 308 of Title 3 of the Oklahoma Statutes. The Legislature shall appropriate funds to the Department of Public Safety for the support of the Board of Tests For Alcohol and Drug Influence and its employees, if any. Upon the transfer of any employees from the Alcohol Drug Countermeasures Unit of the Department of Public Safety to the Board of Tests For Alcohol and Drug Influence on July 1, 2003, all funds of the Unit appropriated and budgeted shall be transferred to the Board, and may be budgeted and expended to support the functions and personnel of the Board.

B. Collection and analysis of a person's blood, breath, saliva or urine, to be considered valid and admissible in evidence, whether performed by or at the direction of a law enforcement officer or at the request of the tested person, shall have been performed in compliance with the rules adopted by the Board of Tests for Alcohol and Drug Influence and by an individual possessing a valid permit issued by the Board for this purpose or shall have been performed by a laboratory accredited in Toxicology by the American Society of Crime Laboratory Directors/Laboratory Accreditation Board (ASCLD/LAB) or accredited by the American Board of Forensic Toxicology (ABFT).

C. The Board of Tests for Alcohol and Drug Influence is authorized to approve laboratories for the analysis, provided by the provisions of this title, of specimens of blood, breath, saliva and urine, and to administer a program for regular monitoring of such laboratories. The Board is authorized to prescribe uniform standards and conditions for, and to approve satisfactory methods, procedures, techniques, devices, equipment and records for tests and analyses and to prescribe and approve the requisite education and training for the performance of such tests and analyses. The Board shall establish standards for and ascertain the qualifications and competence of individuals to administer and conduct such tests and analyses, and to issue permits to laboratories and to individuals which shall be subject to suspension or revocation at the discretion of the Board. The Board is authorized to prescribe uniform standards, conditions, methods, procedures, techniques, devices, equipment and records for the collection, handling, retention, storage, preservation and delivery of specimens of blood, breath, saliva and urine obtained for the purpose of determining the alcohol concentration thereof or the presence or concentration of any other intoxicating substance therein. The Board may take such other actions as may be reasonably necessary or appropriate to effectuate the purposes of Sections 751 through 761 of this title and Sections 301 through 308 of Title 3 of the Oklahoma Statutes, and may adopt, amend and repeal such other rules consistent with this chapter as the Board shall determine proper. Laboratories accredited in Toxicology by the American Society of Crime Laboratory Directors/Laboratory Accreditation Board (ASCLD/LAB) or accredited by the American Board of Forensic Toxicology (ABFT) are exempt from the provisions of this subsection.

D. The Board may set rules and charge appropriate fees for operations incidental to its required duties and responsibilities.

E. There is hereby created in the State Treasury a revolving fund for the Board of Tests for Alcohol and Drug Influence to be

designated the "Board of Tests for Alcohol and Drug Influence Revolving Fund". The fund shall be a continuing fund, not subject to fiscal year limitations, and shall consist of monies received pursuant to the provisions of subsection D of this section and any funds previously deposited in the Board of Tests for Alcohol and Drug Influence Revolving Fund. All monies accruing to the credit of the fund are hereby appropriated and may be budgeted and expended by the Board of Tests for Alcohol and Drug Influence for operating expenses of the Board. Expenditures from the funds shall be made upon warrants issued by the State Treasurer against claims filed as prescribed by law with the Director of State Finance for approval and payment.

SECTION 9. REPEALER Section 78, Chapter 411, O.S.L. 2003 (47 O.S. Supp. 2005, Section 12-705), is hereby repealed.

SECTION 10. This act shall become effective July 1, 2006.

SECTION 11. It being immediately necessary for the preservation of the public peace, health and safety, an emergency is hereby declared to exist, by reason whereof this act shall take effect and be in full force from and after its passage and approval.
