For fiscal year 1995 and thereafter, any district which received less than twenty-five percent (25%) of the average apportionment of the monies made to school districts in this state based on average daily attendance in fiscal year 1995 shall receive an amount equal to the average daily attendance in the 1994-1995 school year multiplied by the average daily attendance apportionment within the county in which the district is located for each appropriate month, and
- b. any funds remaining unallocated following the allocation provided in subparagraph a of this paragraph shall be apportioned to the various school

districts so that each district shall first receive the cumulative total of the monthly apportionments for which it is otherwise eligible under subparagraph a of this paragraph and then an amount based upon the proportion that each district's average daily attendance bears to the total average daily attendance of those districts entitled to receive funds pursuant to this section as certified by the State Department of Education.

Each district's allocation of funds shall be remitted to the county treasurer of the county wherein the administrative headquarters of the district are located.

No district shall be eligible for the funds herein provided unless the district makes an ad valorem tax levy of fifteen (15) mills and maintains nine (9) years of instruction and pursuant to the rules of the State Board of Education, is authorized to maintain ten (10) years of instruction.
