SECTION 1. AMENDATORY 70 O.S. 2001, Section 1210.507, as last amended by Section 3, Chapter 289, O.S.L. 2006 (70 O.S. Supp. 2009, Section 1210.507), is amended to read as follows:

Section 1210.507 A. The State Board of Education shall promulgate rules necessary for the implementation and administration of the provisions of the Oklahoma School Testing Program Act.

B. The State Board of Education shall require school district boards of education to annually provide information to the district's students, parents of students, and the public at large about the proper meaning and use of tests administered pursuant to the provisions of the Oklahoma School Testing Program Act. The Department shall develop materials and make them available to school districts regarding the Oklahoma School Testing Program.

C. Students enrolled in an online course or program that is offered by a school district or charter school that is not the district of residence or is not located in the district of residence of the student shall be provided the opportunity to take any test required pursuant to the Oklahoma School Testing Program Act or any other test generally required of students by the school district in which the student is enrolled at an alternative testing location approved by the State Board of Education. The alternative testing locations may be at sites that are not in the school district that is offering the online course or program or the district of residence. Alternative testing locations may include technology center school sites or any other testing location selected by the school district or charter school offering the online course or program. All alternative testing locations shall be subject to testing location rules promulgated by the State Board of Education. The school district or charter school offering the online course or program shall be responsible for any cost incurred in providing an alternative testing location and any additional cost of administering a test at an alternative testing location. In order to provide alternative testing locations at geographically dispersed sites, the school district or charter school offering the online course or program shall, at a minimum, provide not less than six alternative testing locations, with at least one location in each quadrant of the state and in each of the two metropolitan areas in the state. Additional alternative testing locations may be provided by the school district or charter school offering the online course or program.

D. The State Board of Education shall seek to establish and post on the Internet a sample test item bank that will be made available to teachers and will allow them to create and deliver classroom assessments throughout the school year to check for student mastery of key concepts assessed by the criterion-referenced tests administered to students pursuant to the Oklahoma School

Testing Program Act. Subject to the availability of funds, the Board shall annually release end-of-instruction test items and make them available to the public.

~~D.~~ E. The State Board of Education shall post on the Internet criterion-referenced sample tests for each grade level and subject matter test administered to students pursuant to the Oklahoma School Testing Program Act for the purpose of communicating expectation concerning test difficulty level and format to teacher, parents and students. The Board shall maintain the sample tests on the Internet throughout the year and, as changes are made in the state academic content standards, known as the Priority Academic Student Skills Curriculum, the Board shall update the sample tests. The Board shall seek to expand the number of sample test items each year and to revise test items as needed. The sample tests shall reflect the actual test administered to students and may contain questions used on actual tests given in previous years.

~~E.~~ F. The State Board of Education shall seek to implement an electronic delivery system for all tests administered pursuant to the Oklahoma School Testing Program Act that will allow students to participate in computer-based assessments in order to expedite the delivery and use of the test results.
