13 BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

14 SECTION 1. AMENDATORY 68 O.S. 2001, Section 1001, as
15 last amended by Section 1, Chapter 443, O.S.L. 2010 (68 O.S. Supp.
16 2010, Section 1001), is amended to read as follows:

17 Section 1001. A. There is hereby levied upon the production of
18 asphalt, ores bearing lead, zinc, jack, ~~gold, silver~~ and copper a
19 tax equal to three-fourths of one percent (3/4 of 1%) on the gross
20 value thereof.

21 B. 1. Effective January 1, 1999, through June 30, 2013, except
22 as otherwise exempted pursuant to subsections D, E, F, G, H, I and J
23 of this section, there is hereby levied upon the production of oil a
24 tax as set forth in this subsection on the gross value of the

1 production of oil based on a per barrel measurement of forty-two
2 (42) U.S. gallons of two hundred thirty-one (231) cubic inches per
3 gallon, computed at a temperature of sixty (60) degrees Fahrenheit.
4 If the average price of Oklahoma oil as determined by the Oklahoma
5 Tax Commission pursuant to the provisions of paragraph 3 of this
6 subsection equals or exceeds Seventeen Dollars (\$17.00) per barrel,
7 then the tax shall be seven percent (7%). If the average price of
8 Oklahoma oil as determined by the Tax Commission pursuant to
9 paragraph 3 of this subsection is less than Seventeen Dollars
10 (\$17.00) but is equal to or exceeds Fourteen Dollars (\$14.00) per
11 barrel, then the tax shall be four percent (4%). If the average
12 price of Oklahoma oil as determined by the Tax Commission pursuant
13 to paragraph 3 of this subsection is less than Fourteen Dollars
14 (\$14.00) per barrel, then the tax shall be one percent (1%).

15 2. Effective July 1, 2013, except as otherwise exempted
16 pursuant to subsections D, E, F, G, H, I and J of this section,
17 there shall be levied upon the production of oil a tax equal to
18 seven percent (7%) of the gross value of the production of oil based
19 on a per barrel measurement of forty-two (42) U.S. gallons of two
20 hundred thirty-one (231) cubic inches per gallon, computed at a
21 temperature of sixty (60) degrees Fahrenheit.

22 3. Effective January 1, 1999, through June 30, 2013, the
23 average price of Oklahoma oil for purposes of this section shall be
24 computed by the Tax Commission based on the total value of oil

1 reported each month that is subject to the tax levied under this
2 section. At the first of each month, the Tax Commission shall
3 compute the average price paid per barrel of oil reported on the
4 monthly tax report for the most current production month on file.
5 The average price as computed by the Tax Commission shall be used to
6 determine the applicable tax rate for the third month following
7 production. Effective July 1, 2002, through June 30, 2013, the
8 average price of gas for purposes of this section shall be computed
9 by the Tax Commission based on the total value of gas reported each
10 month that is subject to the tax levied by this section. At the
11 first of each month, the Tax Commission shall compute the average
12 price paid per thousand cubic feet (mcf) of gas as reported on the
13 monthly tax report for the most current production month on file.
14 The average price as computed by the Tax Commission shall be used to
15 determine the applicable tax rate for the third month following
16 production.

17 4. Effective July 1, 2002, through June 30, 2013, except as
18 otherwise exempted pursuant to subsections D, E, F, G, H, I and J of
19 this section, there is hereby levied upon the production of gas a
20 tax as set forth in this subsection on the gross value of the
21 production of gas. If the average price of gas as determined by the
22 Tax Commission pursuant to the provisions of paragraph 3 of this
23 subsection equals or exceeds Two Dollars and ten cents (\$2.10) per
24 thousand cubic feet (mcf), then the tax shall be seven percent (7%).

1 If the average price of gas as determined by the Tax Commission
2 pursuant to the provisions of paragraph 3 of this subsection is less
3 than Two Dollars and ten cents (\$2.10) per thousand cubic feet (mcf)
4 but is equal to or exceeds One Dollar and seventy-five cents (\$1.75)
5 per thousand cubic feet (mcf), then the tax shall be four percent
6 (4%). If the average price of gas as determined by the Tax
7 Commission pursuant to the provisions of paragraph 3 of this
8 subsection is less than One Dollar and seventy-five cents (\$1.75)
9 per thousand cubic feet (mcf), then the tax shall be one percent
10 (1%).

11 5. Effective July 1, 2013, except as otherwise exempted
12 pursuant to subsections D, E, F, G, H, I and J of this section,
13 there shall be levied a tax equal to seven percent (7%) of the gross
14 value of the production of gas.

15 C. The taxes hereby levied shall also attach to, and are levied
16 on, what is known as the royalty interest, and the amount of such
17 tax shall be a lien on such interest.

18 D. 1. Except as otherwise provided in this section, any
19 incremental production attributable to the working interest owners
20 which results from an enhanced recovery project shall be exempt from
21 the gross production tax levied pursuant to this section from the
22 project beginning date until project payback is achieved for new
23 enhanced recovery projects or until project payback is achieved but
24 not to exceed a period of thirty-six (36) months for tertiary

1 enhanced recovery projects existing on July 1, 1988. This exemption
2 shall take effect July 1, 1988, and shall apply to enhanced recovery
3 projects approved or having a project beginning date prior to July
4 1, 1993. Project payback pursuant to this paragraph for enhanced
5 recovery projects qualifying for this exemption on or after July 1,
6 1990, and on or before June 30, 1993, shall be determined by
7 appropriate payback indicators which will not include any expenses
8 beyond the completion date of the well. Project payback pursuant to
9 this paragraph for enhanced recovery projects qualifying for this
10 exemption on or after October 17, 1987, and on or before June 30,
11 1990, shall be determined by appropriate payback indicators as
12 previously established and allowed by the Tax Commission for
13 projects qualifying during such period.

14 2. Except as otherwise provided in this section, for secondary
15 recovery projects approved and having a project beginning date on or
16 after July 1, 1993, and before July 1, 2000, any incremental
17 production attributable to the working interest owners which results
18 from such secondary recovery projects shall be exempt from the gross
19 production tax levied pursuant to this section from the project
20 beginning date until project payback is achieved but not to exceed a
21 period of ten (10) years. Project payback pursuant to this
22 paragraph shall be determined by appropriate payback indicators
23 which will provide for the recovery of capital expenses and fifty
24 percent (50%) of operating expenses, in determining project payback.

1 3. Except as otherwise provided in this section, for secondary
2 recovery projects approved or having an initial project beginning
3 date on or after July 1, 2000, and before July 1, ~~2012~~ 2014, any
4 incremental production attributable to the working interest owners
5 which results from such secondary recovery projects shall be exempt
6 from the gross production tax levied pursuant to this section for a
7 period not to exceed five (5) years from the initial project
8 beginning date or for a period ending upon the termination of the
9 secondary recovery process, whichever occurs first.

10 4. Except as otherwise provided in this section, for tertiary
11 recovery projects approved and having a project beginning date on or
12 after July 1, 1993, and before July 1, ~~2012~~ 2014, any incremental
13 production attributable to the working interest owners which results
14 from such tertiary recovery projects shall be exempt from the gross
15 production tax levied pursuant to this section from the project
16 beginning date until project payback is achieved, but not to exceed
17 a period of ten (10) years. Project payback pursuant to this
18 paragraph shall be determined by appropriate payback indicators
19 which will provide for the recovery of capital expenses and
20 operating expenses, excluding administrative expenses, in
21 determining project payback. The capital expenses of pipelines
22 constructed to transport carbon dioxide to a tertiary recovery
23 project shall not be included in determining project payback
24 pursuant to this paragraph.

1 5. The provisions of this subsection shall also not apply to
2 any enhanced recovery project using fresh water as the primary
3 injectant, except when using steam.

4 6. For purposes of this subsection:

- 5 a. "incremental production" means the amount of crude oil
6 or other liquid hydrocarbons which is produced during
7 an enhanced recovery project and which is in excess of
8 the base production amount of crude oil or other
9 liquid hydrocarbons. The base production amount shall
10 be the average monthly amount of production for the
11 twelve-month period immediately prior to the project
12 beginning date minus the monthly rate of production
13 decline for the project for each month beginning one
14 hundred eighty (180) days prior to the project
15 beginning date. The monthly rate of production
16 decline shall be equal to the average extrapolated
17 monthly decline rate for the twelve-month period
18 immediately prior to the project beginning date as
19 determined by the Corporation Commission based on the
20 production history of the field, its current status,
21 and sound reservoir engineering principles, and
- 22 b. "project beginning date" means the date on which the
23 injection of liquids, gases, or other matter begins on
24 an enhanced recovery project.

1 7. The Corporation Commission shall promulgate rules for the
2 qualification for this exemption which shall include, but not be
3 limited to, procedures for determining incremental production as
4 defined in subparagraph a of paragraph 6 of this subsection, and the
5 establishment of appropriate payback indicators as approved by the
6 Tax Commission for the determination of project payback for each of
7 the exemptions authorized by this subsection.

8 8. For new secondary recovery projects and tertiary recovery
9 projects approved by the Corporation Commission on or after July 1,
10 1993, and before July 1, ~~2012~~ 2014, such approval shall constitute
11 qualification for an exemption.

12 9. Any person seeking an exemption shall file an application
13 for such exemption with the Tax Commission which, upon determination
14 of qualification by the Corporation Commission, shall approve the
15 application for such exemption.

16 10. The Tax Commission may require any person requesting such
17 exemption to furnish information or records concerning the exemption
18 as is deemed necessary by the Tax Commission.

19 11. Upon the expiration of the exemption granted pursuant to
20 this subsection, the Tax Commission shall collect the gross
21 production tax levied pursuant to this section.

22 E. 1. Except as otherwise provided in this section, the
23 production of oil, gas or oil and gas from a horizontally drilled
24 well producing prior to July 1, 2011, which production commenced

1 after July 1, 2002, shall be exempt from the gross production tax
2 levied pursuant to subsection B of this section from the project
3 beginning date until project payback is achieved but not to exceed a
4 period of forty-eight (48) months commencing with the month of
5 initial production from the horizontally drilled well. For purposes
6 of subsection D of this section and this subsection, project payback
7 shall be determined as of the date of the completion of the well and
8 shall not include any expenses beyond the completion date of the
9 well, and subject to the approval of the Tax Commission.

10 2. Claims for refund for the production periods within the
11 fiscal years ending June 30, 2010, and June 30, 2011, shall be filed
12 and received by the Tax Commission no later than December 31, 2011.

13 3. For production commenced on or after July 1, 2011, and prior
14 to July 1, 2015, the tax levied pursuant to the provisions of this
15 section on the production of oil, gas or oil and gas from a
16 horizontally drilled well shall be reduced to a rate of one percent
17 (1%) for a period of forty-eight (48) months from the month of
18 initial production. The taxes collected from the production of oil
19 shall be apportioned pursuant to the provisions of paragraph 7 of
20 Section 1004 of this title. The taxes collected from the production
21 of gas shall be apportioned pursuant to the provisions of paragraph
22 4 of Section 1004 of this title.

23 4. As used in this subsection, "horizontally drilled well"
24 shall mean an oil, gas or oil and gas well drilled or recompleted in

1 a manner which encounters and subsequently produces from a
2 geological formation at an angle in excess of seventy (70) degrees
3 from vertical and which laterally penetrates a minimum of one
4 hundred fifty (150) feet into the pay zone of the formation.

5 F. 1. Except as otherwise provided by this section, the
6 severance or production of oil, gas or oil and gas from an inactive
7 well shall be exempt from the gross production tax levied pursuant
8 to subsection B of this section for a period of twenty-eight (28)
9 months from the date upon which production is reestablished. This
10 exemption shall take effect July 1, 1994, and shall apply to wells
11 for which work to reestablish or enhance production began on or
12 after July 1, 1994, and for which production is reestablished prior
13 to July 1, ~~2012~~ 2014. For all such production, a refund against
14 gross production taxes shall be issued as provided in subsection L
15 of this section.

16 2. As used in this subsection, for wells for which production
17 is reestablished prior to July 1, 1997, "inactive well" means any
18 well that has not produced oil, gas or oil and gas for a period of
19 not less than two (2) years as evidenced by the appropriate forms on
20 file with the Corporation Commission reflecting the well's status.
21 As used in this subsection, for wells for which production is
22 reestablished on or after July 1, 1997, and prior to July 1, ~~2012~~
23 2014, "inactive well" means any well that has not produced oil, gas
24 or oil and gas for a period of not less than one (1) year as

1 evidenced by the appropriate forms on file with the Corporation
2 Commission reflecting the well's status. Wells which experience
3 mechanical failure or loss of mechanical integrity, as defined by
4 the Corporation Commission, including but not limited to, casing
5 leaks, collapse of casing or loss of equipment in a wellbore, or any
6 similar event which causes cessation of production, shall also be
7 considered inactive wells.

8 G. 1. Except as otherwise provided by this section, any
9 incremental production which results from a production enhancement
10 project shall be exempt from the gross production tax levied
11 pursuant to subsection B of this section for a period of twenty-
12 eight (28) months from the date of first sale after project
13 completion of the production enhancement project. This exemption
14 shall take effect July 1, 1994, and shall apply to production
15 enhancement projects having a project beginning date on or after
16 July 1, 1994, and prior to July 1, ~~2012~~ 2014. For all such
17 production, a refund against gross production taxes shall be issued
18 as provided in subsection L of this section.

19 2. As used in this subsection:

20 a. (1) for production enhancement projects having a
21 project beginning date prior to July 1, 1997,
22 "production enhancement project" means any
23 workover as defined in this paragraph,
24

1 recompletion as defined in this paragraph, or
2 fracturing of a producing well, and

3 (2) for production enhancement projects having a
4 project beginning date on or after July 1, 1997,
5 and prior to July 1, ~~2012~~ 2014, "production
6 enhancement project" means any workover as
7 defined in this paragraph, recompletion as
8 defined in this paragraph, reentry of plugged and
9 abandoned wellbores, or addition of a well or
10 field compression,

11 b. "incremental production" means the amount of crude
12 oil, natural gas or other hydrocarbons which are
13 produced as a result of the production enhancement
14 project in excess of the base production,

15 c. "base production" means the average monthly amount of
16 production for the twelve-month period immediately
17 prior to the commencement of the project or the
18 average monthly amount of production for the twelve-
19 month period immediately prior to the commencement of
20 the project less the monthly rate of production
21 decline for the project for each month beginning one
22 hundred eighty (180) days prior to the commencement of
23 the project. The monthly rate of production decline
24 shall be equal to the average extrapolated monthly

1 decline rate for the twelve-month period immediately
2 prior to the commencement of the project based on the
3 production history of the well. If the well or wells
4 covered in the application had production for less
5 than the full twelve-month period prior to the filing
6 of the application for the production enhancement
7 project, the base production shall be the average
8 monthly production for the months during that period
9 that the well or wells produced,

- 10 d. (1) for production enhancement projects having a
11 project beginning date prior to July 1, 1997,
12 "recompletion" means any downhole operation in an
13 existing oil or gas well that is conducted to
14 establish production of oil or gas from any
15 geological interval not currently completed or
16 producing in such existing oil or gas well, and
- 17 (2) for production enhancement projects having a
18 project beginning date on or after July 1, 1997,
19 and prior to July 1, ~~2012~~ 2014, "recompletion"
20 means any downhole operation in an existing oil
21 or gas well that is conducted to establish
22 production of oil or gas from any geologic
23 interval not currently completed or producing in
24

1 such existing oil or gas well within the same or
2 a different geologic formation, and

3 e. "workover" means any downhole operation in an existing
4 oil or gas well that is designed to sustain, restore
5 or increase the production rate or ultimate recovery
6 in a geologic interval currently completed or
7 producing in the existing oil or gas well. For
8 production enhancement projects having a project
9 beginning date prior to July 1, 1997, "workover"
10 includes, but is not limited to, acidizing,
11 reperforating, fracture treating, sand/paraffin
12 removal, casing repair, squeeze cementing, or setting
13 bridge plugs to isolate water productive zones from
14 oil or gas productive zones, or any combination
15 thereof. For production enhancement projects having a
16 project beginning date on or after July 1, 1997, and
17 prior to July 1, ~~2012~~ 2014, "workover" includes, but
18 is not limited to:

- 19 (1) acidizing,

15 "Workover" shall not mean the routine maintenance,
16 routine repair, or like for like replacement of
17 downhole equipment such as rods, pumps, tubing,
18 packers, or other mechanical devices.

19 H. 1. For purposes of this subsection, "depth" means the
20 length of the maximum continuous string of drill pipe utilized
21 between the drill bit face and the drilling rig's kelly bushing.

22 2. Except as otherwise provided in subsection K of this
23 section:
