WHEREAS, professional nursing has been demonstrated to be an indispensable component in the safety and quality of care of hospitalized patients; and

WHEREAS, the demand for registered nursing services will be greater than ever because of the aging of the American population, the continuing expansion of life-sustaining technology, and the explosive growth of home health care services; and

WHEREAS, more qualified registered nurses will be needed in the future to meet the increasingly complex needs of health care consumers in this community; and

WHEREAS, the cost-effective, safe and high-quality health care services provided by registered nurses will be an ever more important component of the United States health care delivery system in the future; and

WHEREAS, along with the American Nurses Association, the Oklahoma Nurses Association and other specialty nurses associations represented here in Oklahoma have declared the week of May 6-12, 2012, as Nurses Week with the theme "Nurses: Advocating, Leading, Caring".
