Research Analysis

The committee substitute for SB 1176 requires that if a police department is established the board of trustees appoints a chief of police. The measure restores title.

Fiscal Analysis

The measure requires a municipality to appoint a chief of police in the event a police department is established. In instances where a municipality has no police department, the provision would not apply. No measurable cost should be expected as the appointment of a chief would be a part of the costs involved with the establishment of a police department.
