

BILL SUMMARY
2nd Session of the 54th Legislature

Bill No.:	SB 1336
Version:	CS
Request Number:	
Author:	Watson
Date:	4/7/2014
Impact:	Not Required

Research Analysis

SB 1336 authorizes the Department of Environmental Quality to create administrative rules regarding permit requirements for the construction and operation of landfills. The measure also authorizes the agency to issue temporary permits for research and development activities related to landfill sites. Landfills of a certain size currently are required to develop and implement a vegetation plan to prevent erosion, control dust, and improve aesthetics; the measure allows for alternative plans that accomplish similar objectives.
