**Fiscal Analysis**

SB1715 creates several new licenses issued by the Alcoholic Beverage Laws Enforcement (ABLE) Commission. The measure creates a Charitable Alcoholic Beverage Event License, an Annual Public Event License and a One Time Public Event License. All associated license fees are deposited into the General Revenue Fund. In addition, SB1715 also adds a \$25 annual surcharge for the Annual Public Event License, which is deposited into the ABLE Commission Revolving Fund.

According to the ABLE Commission, charities are currently allowed to purchase only one charitable event license or charitable auction license per year at a cost of \$1. SB1715 authorizes charities to purchase eight charitable event licenses per year at a cost of \$55 and four charitable auction licenses per year at a cost of \$1. In FY-13 there were 102 Charitable Licenses issued. The ABLE Commission expects with the changes in SB1715 there will be 300-400 Charitable Event Licenses issued per year at a cost of \$55. This could increase deposits to the General Revenue Fund by as much as \$22,000. The ABLE Commission does not know how much additional revenue will be received from Annual Public Event Licenses and One Time Public Event Licenses, but acknowledges that there is a demand. The fiscal impact would be dependent upon the number of new licenses issued.
