Research Analysis

The CS for SB 596 requires each state agency to submit annually a program management and performance report to certain House and Senate members and to the Director of the Office of Management and Enterprise Services (OMES). The report is to include detailed data for each agency program, cost avoidance and cost containment measures implemented, the methodology for determining the agency's fee structure and gauging customer satisfaction and a list of programs or operations not required as part of the core function of the agency. The bill also requires the Director of OMES to make the reports available on the state's public access website.

Fiscal Analysis

The measure directs state agencies to submit a program management and performance report to legislative appropriations chairs and vice-chairs, Senate Finance Committee Chairs and Vice-Chairs and the Director of the Office of Management and Enterprise Services (OMES).

The completion of the reporting should not result in a measurable cost to any agency.
