**Research Analysis**

SB 659 provides that any service or transaction with a motor license agent authorized by law that is administered through any state agency on an online system must include a step where the individual must select between a motor license agent and the agency for processing the service or transaction.

Prepared By: Brad Wolgamott

**Fiscal Analysis**

The measure provides that any additional on-line transaction plans which might include motor license agents to include the selection listing for a motor license agent similar to that provided for the registration of motor vehicle resident on the Tax Commission website. Any cost to include such a selection option would be negligible in the establishment of the on-line transaction site.
