ATTACHMENT TO FISCAL IMPACT – SB 1469 [Introduced] - Prepared 02/13/2016

The measure proposes to modify apportionment of revenue related to the new cigarette tax rate by reducing the portion credited to the General Revenue Fund by 7.7% and redirecting a like percentage to the Reimbursement for Uncompensated Primary Care Revolving Fund created in Section 1 of this measure.

Pursuant to the Oklahoma Tax Commission Revenue Forecast¹, the state will collect an estimated \$139,182,000 in revenues attributable to the new cigarette rate [\$0.80] per pack] on all nontribal sales of cigarettes in FY 17. Multiplying \$139,182,000 by 7.7%, results in an estimated amount of \$10,717,014 to be apportioned to the credit of the Reimbursement for Uncompensated Primary Care Revolving Fund of the Oklahoma Health Care Authority with a similar apportionment decrease to the General Revenue Fund for FY 17.
