

COMMITTEE AMENDMENT
HOUSE OF REPRESENTATIVES
State of Oklahoma

SPEAKER:

CHAIR:

I move to amend HB3786 _____
Of the printed Bill
Page _____ Section _____ Lines _____
Of the Engrossed Bill

By striking the Title, the Enacting Clause, the entire bill, and by inserting in lieu thereof the following language:

AMEND TITLE TO CONFORM TO AMENDMENTS

Adopted: _____

Amendment submitted by: Scott Fetgatter _____

Reading Clerk

1 STATE OF OKLAHOMA

2 2nd Session of the 57th Legislature (2020)

3 PROPOSED COMMITTEE
4 SUBSTITUTE
5 FOR
6 HOUSE BILL NO. 3786

By: Fetgatter

7 PROPOSED COMMITTEE SUBSTITUTE

8
9 An Act relating to industrial hemp; creating the
10 Oklahoma Industrial Hemp Reform Program; providing
11 applicability of the program; requiring license for
12 certain activities; defining terms; providing
13 application process; requiring certain application
14 fees; providing license duration; requiring license
15 for tracking software; prohibiting falsification of
16 certain information; requiring notification under
17 certain circumstances; prohibiting certain
18 participation upon certain convictions; requiring
19 background checks; requiring certain record keeping;
20 requiring certain cooperation; requiring certain
21 reports and fees; requiring certain documentation;
22 providing licenses are not transferrable; limiting
23 area to grow hemp plants; prohibiting plants with
24 certain concentration; requiring destruction or
recording of certain volunteer plants; requiring
destruction of certain plants with certain
concentration; prohibiting cannabis plants outside of
licensed areas; providing for site modification
plans; requiring hemp to be grown in licensed area;
prohibiting live hemp plants in any area that is not
a licensed area; prohibiting public unsupervised
access to hemp; providing requirements for
transporting hemp; requiring certain compliance;
requiring license to obtain hemp; requiring approved
seeds to meet certain conditions; providing
requirements for certified seeds; authorizing
prohibition of certain hemp; requiring pre-planting
report; requiring planting report; requiring harvest
and disposal report; requiring a production report;
requiring report of hemp crop acreage; requiring

1 certain authorities to have access to certain areas;
2 providing inspection and sampling procedures;
3 providing testing procedures; requiring certain
4 labeling; authorizing certified laboratories to
5 demonstrate compliance; authorizing internal testing;
6 requiring corrective action plan for any negligent
7 violations; prohibiting criminal enforcement for
8 negligent violations; providing penalties for
9 violations; authorizing certain appeals; requiring
10 certain notice; construing certain records to not be
11 considered government records; making certain
12 information public record; requiring certain reports
13 and information be provided to the U.S. Secretary of
14 Agriculture; amending Section 1, Chapter 64, O.S.L.
15 2018, as amended by Section 2, Chapter 91, O.S.L.
16 2019 and Section 10, Chapter 64, O.S.L. 2018, as
17 amended by Section 9, Chapter 91, O.S.L. 2019 (2 O.S.
18 Supp. 2019, Sections 3-401 and 3-410), which relate
19 to the Oklahoma Industrial Hemp Program; abolishing
20 the Oklahoma Industrial Hemp Program; making certain
21 licenses subject to certain Oklahoma Industrial Hemp
22 Reform Program; renaming revolving fund; repealing
23 Section 2, Chapter 64, O.S.L. 2018, as amended by
24 Section 3, Chapter 91, O.S.L. 2019, Section 3,
Chapter 64, O.S.L. 2018, as last amended by Section
1, Chapter 478, O.S.L. 2019, Section 4, Chapter 64,
O.S.L. 2018, as amended by Section 5, Chapter 91,
O.S.L. 2019, Section 6, Chapter 64, O.S.L. 2018, as
amended by Section 6, Chapter 91, O.S.L. 2019,
Section 7, Chapter 64, O.S.L. 2018, as amended by
Section 7, Chapter 91, O.S.L. 2019, Section 8,
Chapter 64, O.S.L. 2018, as last amended by Section
2, Chapter 478, O.S.L. 2019 and Section 11, Chapter
91, O.S.L. 2019 (2 O.S. Supp. 2019, Sections 3-402,
3-403, 3-404, 3-406, 3-407, 3-408 and 3-411), which
relate to the Oklahoma Industrial Hemp Program;
providing for codification; and providing an
effective date.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

1 SECTION 1. NEW LAW A new section of law to be codified
2 in the Oklahoma Statutes as Section 3-501 of Title 2, unless there
3 is created a duplication in numbering, reads as follows:

4 A. This act shall be known and may be cited as the "Oklahoma
5 Industrial Hemp Reform Program".

6 B. The Oklahoma Industrial Hemp Reform Program applies to any
7 person that grows, processes, handles or transports certified seeds
8 or hemp in this state.

9 C. No person shall grow, process, handle, transport or sample
10 certified seeds or hemp in this state without an annual license
11 issued by the Oklahoma Department of Agriculture, Food, and
12 Forestry.

13 SECTION 2. NEW LAW A new section of law to be codified
14 in the Oklahoma Statutes as Section 3-502 of Title 2, unless there
15 is created a duplication in numbering, reads as follows:

16 As used in the Oklahoma Industrial Hemp Reform Program, the
17 following words and terms, and any derivative of such word or term,
18 shall have the following meanings, unless the context clearly
19 indicates otherwise:

20 1. "Agent" means an employee, consultant or contractor of a
21 hemp producer or transporter;

22 2. "Applicant" means a person that applies to the Department
23 for a license;

24

1 3. "Cannabis" means a genus of flowering plants in the family
2 Cannabaceae of which Cannabis sativa is a species and Cannabis
3 indica and Cannabis ruderalis are subspecies thereof. Cannabis
4 refers to any form of the plant in which the delta-9
5 tetrahydrocannabinol concentration on a dry-weight basis has not yet
6 been determined;

7 4. "Certified seed" means a hemp seed that has been certified
8 by the Department based on a database of historical harvest of hemp
9 under the program or by the USDA with defined THC level for hemp;

10 5. "Commercial sale" means the sale of a product in the stream
11 of commerce at retail, wholesale, or on the Internet;

12 6. "Conviction" means any plea of guilty or nolo contendere, or
13 any finding of guilt, except when the finding of guilt is
14 subsequently overturned on appeal, pardoned or expunged. For
15 purposes of the program, a conviction is expunged when the
16 conviction is removed from the person's criminal history record and
17 there are no legal disabilities or restrictions associated with the
18 expunged conviction, other than the fact that the conviction may be
19 used for sentencing purposes for subsequent convictions. In
20 addition, when a person is allowed to withdraw an original plea of
21 guilty or nolo contendere and enter a plea of not guilty and the
22 case is subsequently dismissed, the person is no longer considered
23 to have a conviction for purposes of the program;

1 7. "Corrective action plan" means a plan established by the
2 Department for a hemp producer or transporter to correct a negligent
3 violation or noncompliance with the program;

4 8. "CSA" means the Controlled Substances Act as codified in 21
5 U.S.C., Section 801 et seq.;

6 9. "DEA" means the United States Drug Enforcement
7 Administration;

8 10. "Decarboxylated" means the completion of the chemical
9 reaction that converts THC-acid (THC-A) into delta-9 THC, the
10 intoxicating component of cannabis. The decarboxylated value is
11 also calculated using a conversion formula that sums delta-9 THC and
12 87 and seven-tenths percent (87.7%) of THC-acid;

13 11. "Decarboxylation" means the removal or elimination of the
14 carboxyl group from a molecule or organic compound;

15 12. "Department" means the Oklahoma Department of Agriculture,
16 Food, and Forestry;

17 13. "Dry-weight basis" means the ratio of the amount of
18 moisture in a sample to the amount of dry solid in a sample which
19 shall be a basis for expressing the percentage of a chemical in a
20 substance after removing the moisture from the substance.

21 Percentage of THC on a dry-weight basis means the percentage of THC,
22 by weight, in a cannabis item (plant, extract or other derivative),
23 after excluding moisture from the item;

24

1 14. "Federally defined THC level for hemp" or "acceptable hemp
2 THC level" means a delta-9 tetrahydrocannabinol concentration of not
3 more than three-tenths of one percent (0.3%) on a dry-weight basis
4 for hemp or in a hemp product, or such other standard as the USDA
5 may adopt from time to time. Hemp will satisfy the standard of
6 federally defined THC level for hemp or acceptable hemp THC level if
7 testing from a certified laboratory confirms a result within a
8 measurement of uncertainty that includes the THC concentration level
9 of three-tenths of one percent (0.3%);

10 15. "FSA" means the Farm Service Agency of the USDA;

11 16. "Gas chromatography" means a type of chromatography in
12 analytical chemistry used in sampling to separate, identify and
13 quantify each component in a mixture. Gas chromatography relies on
14 heat for separating and analyzing compounds that can be vaporized
15 without decomposition;

16 17. "Geospatial location" means a location designated through a
17 global system of navigational satellites used to determine ground
18 position of a place or object;

19 18. "Gross negligence" means any act taken intentionally,
20 knowingly, willfully or recklessly;

21 19. "Grow" means to plant, cultivate, irrigate, grow or harvest
22 hemp;

23 20. "Grower" means any person who grows or harvests hemp;

1 21. "Growing area" means either an area, whether outdoors or
2 enclosed indoors, where hemp is grown;

3 22. "Handle" means possessing or storing hemp for any period of
4 time on premises owned, operated or controlled by a person holding a
5 license or in a vehicle for any period of time other than during the
6 actual transport of hemp from or between the premises of the person
7 holding a license or persons or entities authorized to produce hemp
8 pursuant to 7 U.S.C., Section 1639o et seq., and any state law or
9 rule adopted pursuant thereto;

10 23. "Handler" means any person who handles hemp or hemp
11 products including, but not limited to, a seed cleaner, certified
12 laboratory, trader, harvesting entity, broker, and any other service
13 provider, but does not mean the possession or storage of finished
14 hemp products;

15 24. "Harvest" means the termination of the growing process
16 including, but not limited to, taking cuttings, or the movement of
17 hemp from the licensed area designated for growing to another
18 location, or movement within the licensed area designated for
19 growing between indoor and outdoor planting areas;

20 25. "Hemp" means the plant Cannabis sativa L. and any part of
21 such plant including, but not limited to, the seeds and all
22 derivatives, extracts, cannabinoids, isomers, acids, salts, and
23 salts of isomers, whether growing or not, and grown from a certified
24 seed with a delta-9 tetrahydrocannabinol concentration of not more

1 than three-tenths of one percent (0.3%) on a dry-weight basis. Hemp
2 shall be considered an agricultural commodity and not a controlled
3 substance;

4 26. "Hemp extract" means the oil extracted from hemp's aerial
5 plant part, such as seeds, stalks or flowers, using chemical
6 processes, containing a natural blend of phytocannabinoids;

7 27. "Hemp oil" means oil obtained by physically pressing hemp
8 seeds with a 3:1 ratio of omega-6 to omega-3 essential fatty acids
9 and does not include cannabidiol or CBD;

10 28. "Hemp producer" means a person authorized by the Department
11 to grow, process or handle hemp in this state;

12 29. "Hemp product" means a finished product with a delta-9
13 tetrahydrocannabinol concentration of not more than three-tenths of
14 one percent (0.3%) that is derived from or made by processing hemp
15 or any part of hemp and prepared in a form available for commercial
16 sale. A hemp product includes, but is not limited to, cosmetics,
17 personal care products, food intended for human or animal
18 consumption, cloth, cordage, fiber, fuel, paint, paper,
19 particleboard, plastics, and any product containing one or more
20 hemp-derived cannabinoids, such as cannabidiol. A hemp product
21 shall not be considered a controlled substance due to the presence
22 of hemp;

23 30. "High-performance liquid chromatography" means a type of
24 chromatography technique in analytical chemistry used to separate,

1 identify and quantify each component in a mixture. High-performance
2 liquid chromatography relies on pumps to pass a pressurized liquid
3 solvent containing the sample mixture through a column filled with a
4 solid adsorbent material to separate and analyze compounds;

5 31. "Information sharing system" means the database that allows
6 the USDA to share information collected under state, tribal and USDA
7 plans with federal, state, tribal, local law enforcement and/or the
8 company licensing the tracking software;

9 32. "Key participant" means any person that controls or manages
10 a person including, but not limited to, any shareholder or director
11 of a corporation, any general or limited partner in a partnership,
12 any manager or member of a limited liability company, or any trustee
13 of any trust;

14 33. "Law enforcement" means any federal, state or local
15 agencies responsible for maintaining public order and enforcing the
16 law;

17 34. "License" means the written authorization by the Department
18 for any person to grow, process, handle or transport certified seeds
19 or hemp in this state;

20 35. "Licensed area" means the land area licensed by the
21 Department on which a hemp producer plans to grow, process and/or
22 handle hemp;

23

24

1 36. "Lot" means a contiguous area in a field, greenhouse or
2 indoor growing structure containing the same variety or strain of
3 cannabis that was planted at the same time throughout the area;

4 37. "Measurement of uncertainty" means the parameter associated
5 with the result of a measurement that characterizes the dispersion
6 of the values that could reasonably be attributed to the particular
7 quantity subject to measurement;

8 38. "Negligence" means failure to exercise the level of care
9 that a reasonably prudent person would exercise in complying with
10 the program;

11 39. "Person" means any natural person or any corporation,
12 general partnership, limited partnership, limited liability
13 partnership, limited liability company, trust, estate, charitable
14 organization, joint stock company, joint venture, association, or
15 any other business or similar organization recognized under this
16 state;

17 40. "Phytocannabinoid" means the cannabinoid chemical compounds
18 found in the cannabis plant, two of which are delta-9
19 tetrahydrocannabinol (delta-9 THC) and cannabidiol;

20 41. "Plantlets" means young or small hemp plants or propagules;

21 42. "Postdecarboxylation" means, in the context of testing
22 methodologies for THC concentration levels in hemp, a value
23 determined after the process of decarboxylation that determines the
24 total potential delta-9 tetrahydrocannabinol content derived from

1 the sum of the THC and THC-A content and reported on a dry-weight
2 basis. The postdecarboxylation value of THC can be calculated by
3 using a chromatograph technique using heat or gas chromatography
4 through which THC-A is converted from its acid form to its neutral
5 form, THC. This test calculates the total potential THC in a given
6 sample. The postdecarboxylation value of THC can also be calculated
7 by using a high-performance liquid chromatography technique, which
8 keeps the THC-A intact, and requires a conversion calculation of
9 that THC-A to calculate total potential THC in a given sample;

10 43. "Process" means to convert hemp into a marketable product
11 or form including, but not limited to, all derivatives, extracts,
12 cannabinoids, isomers, acids, salts and salts of isomers, whether or
13 not such product or form is involved in a commercial sale;

14 44. "Processor" means any person that processes hemp into hemp
15 products in any manner or method;

16 45. "Program" means the Oklahoma Hemp Industrial Reform Program
17 for the regulation and administration of hemp, as amended, and any
18 final ruling from the USDA;

19 46. "Propagules" means any vegetative structure, typically a
20 stem cutting, that can be detached from a hemp plant and used to
21 propagate a new plant;

22 47. "State" means the State of Oklahoma;

23 48. "THC" means delta-9 tetrahydrocannabinol, which is a
24 psychoactive component in cannabis plants;

1 49. "Tracking software" means software that is approved by the
2 Department and is capable of transparently tracking hemp in any
3 state or form whatsoever including, but not limited to, a certified
4 seed, any stage of growth, processing, or handling, or any hemp
5 product;

6 50. "Transport" means the movement or shipment of certified
7 seeds or hemp from the premises of a person holding a license to the
8 premises of another person holding a license or from the premises of
9 a person holding a license to the premises of a person licensed for
10 the commercial sale of certified seeds, hemp or hemp products;

11 51. "Transporter" means any person operating in intrastate
12 commerce to transport or deliver certified seeds, hemp or hemp
13 products;

14 52. "USDA" means the United States Department of Agriculture;

15 53. "Variety" means a group of plants or an individual plant
16 that exhibits a distinctive observable physical characteristic(s) or
17 has a distinct genetic composition; and

18 54. "Volunteer plant" means a hemp plant that grows on its own
19 by natural regeneration rather than being deliberately planted.

20 SECTION 3. NEW LAW A new section of law to be codified
21 in the Oklahoma Statutes as Section 3-503 of Title 2, unless there
22 is created a duplication in numbering, reads as follows:

23 A. Each person applying for a license under the Oklahoma
24 Industrial Hemp Reform Program shall submit a signed, complete,

1 accurate and legible application form approved by the Department for
2 the initial application and for each renewal application. Denied
3 applications may be resubmitted within twelve (12) months from the
4 date an application is denied.

5 B. Handlers, processors and transporters shall apply to the
6 Department at least thirty (30) days prior to the anticipated date
7 of handling, processing or transporting certified seeds, hemp or
8 hemp products.

9 C. Growers shall apply to the Department at least thirty (30)
10 days prior to the anticipated date of planting.

11 D. All applications shall include the following:

12 1. The name and address of the applicant, whether the applicant
13 is an individual or business, and the Social Security number for any
14 natural person or the employer identification number for any other
15 person;

16 2. A statement of intended end use;

17 3. The legal description of the property involving the proposed
18 licensed area on which any growing, processing, handling or
19 transporting is proposed including, but not limited to, the county,
20 municipality and block and lot number or numbers;

21 4. The geospatial location, including the Global Positioning
22 System location coordinates taken at the approximate center of the
23 proposed licensed area;

24

1 5. Map of the licensed area on which the applicant plans to
2 grow, process, handle or transport hemp, showing the boundaries and
3 dimensions of the area or areas in acres or square feet; and

4 6. A nationwide criminal background check from state law
5 enforcement agency for the applicant and other key participants.
6 Each applicant and key participant are responsible for obtaining and
7 paying for such background check. The background check is to be
8 included with each application at the time of submission.

9 E. All applications shall include a nonrefundable annual
10 application fee and an annual licensing fee to be determined by the
11 Department. The Department shall refund the licensing fee if an
12 application is denied but shall not refund the application fee.

13 F. Growers who process or handle their own hemp shall not be
14 required to pay additional processor or handler licensing fees. If
15 a grower processes or handles hemp grown from at least one separate
16 hemp producer, that grower shall pay processing or handling
17 licensing fees, as applicable.

18 SECTION 4. NEW LAW A new section of law to be codified
19 in the Oklahoma Statutes as Section 3-504 of Title 2, unless there
20 is created a duplication in numbering, reads as follows:

21 A. Each license shall be valid for one (1) year from the date
22 of issuance.

23 B. Each person holding a license shall obtain and maintain a
24 valid license for tracking software and shall provide the Department

1 with access to all data, information and reports generated by or
2 through the tracking software.

3 C. Any applicant or key participant who materially falsifies
4 any information contained in an application shall be ineligible to
5 participate in the program as a hemp producer or transporter.

6 D. Any information provided to the Department by an applicant,
7 hemp producer or transporter under the Oklahoma Industrial Hemp
8 Reform Program may be provided to law enforcement agencies without
9 further notice to the applicant, hemp producer or transporter.

10 E. Any changes to the contact information of an applicant, hemp
11 producer or transporter shall be provided to the Department within
12 ten (10) days of the change.

13 F. Any person convicted of a felony relating to a controlled
14 substance under state or federal law before, on, or after the date
15 of enactment of the federal Agriculture and Nutrition Act of 2018,
16 P.L. 115-334, shall be ineligible to participate in the program
17 during the ten-year period immediately following the date of the
18 conviction. This subsection shall not apply to any person growing
19 hemp lawfully with a license, registration or authorization under a
20 program authorized pursuant to 7 U.S.C., Section 5940 before the
21 date of enactment of the Federal Agriculture and Nutrition Act of
22 2018 and the conviction occurred before December 20, 2018.

23

24

1 G. Applicants and key participants shall undergo a nationwide
2 criminal background check by state law enforcement, and the results
3 shall be mailed directly to the Department.

4 H. Each person holding a license shall maintain all records
5 involving the license and its business operations for a minimum
6 period of three (3) years.

7 I. Each person holding a license and its agents shall fully
8 cooperate and assist the Department with all aspects of the
9 administration and enforcement of the Oklahoma Industrial Hemp
10 Reform Program including, but not limited to, the application,
11 license, reporting, inspection and sampling processes.

12 J. A hemp producer shall pay for any laboratory analysis costs
13 that the Department deems necessary within thirty (30) days of the
14 date of the invoice. A person holding a license shall submit all
15 required reports by the applicable due dates specified by the
16 Department.

17 K. A hemp producer shall provide documentation showing its
18 legal right to grow hemp on the licensed area and the legal
19 authority to grant the Department access for inspection and
20 sampling. Hemp producer applicants shall provide proof of
21 authorization to grow, process, handle and transport hemp involving
22 the licensed area along with their application including, but not
23 limited to, deeds, leases, written agreements with a landowner, or
24 other appropriate documentation.

1 L. A license shall not be assignable or transferrable.

2 M. No hemp plant shall be moved to or grown in any area other
3 than that portion of the licensed area designated for growing
4 without the prior written approval of the Department and subject to
5 a licensed area modification fee pursuant to subsection R of this
6 section.

7 N. Alterations to a licensed area that has already been
8 approved and recorded by the Department shall require a site
9 modification plan pursuant to subsection R of this section.

10 O. No licensed area may contain cannabis plants or parts
11 thereof that the hemp producer knows, or should reasonably know, are
12 of a variety that will produce a plant that, when tested, will
13 produce hemp with a delta-9 THC concentration greater than the
14 federally defined THC level for hemp.

15 P. A person holding a license shall not use any seeds other
16 than certified seeds. All certified seeds, hemp plants, plantlets
17 and propagules shall be planted, grown, harvested, handled,
18 processed and transported under a valid license. Any volunteer
19 plants that emerge during a subsequent license year shall either be
20 destroyed or included on the subsequent year's license application.

21 Q. Disposal or destruction shall be ordered by the Department
22 of any certified seeds, hemp plant, plantlet, propagule or hemp
23 product licensed under the program found to be noncompliant with the
24 program or that have a delta-9 THC content of more than three-tenths

1 of one percent (0.3%) on a dry-weight basis, as measured from
2 samples collected pursuant to the program. The cost of disposal and
3 destruction shall be the sole cost, obligation and responsibility of
4 the person holding the license.

5 R. A hemp producer may modify the portion of the licensed area
6 designated for growing if, at least fourteen (14) days prior to the
7 proposed modification, the hemp producer submits a site modification
8 plan, including:

9 1. An updated legal description of the land involving the
10 licensed area including, but not limited to, any new area to be
11 added to the licensed area;

12 2. The geospatial location, including coordinates;

13 3. The acreage or square feet of each variety of hemp to be
14 planted;

15 4. A map detailing the boundaries of the modified growing area;
16 and

17 5. Pay a license area modification fee as determined by the
18 Department. The fee shall not apply to storage-only sites, but the
19 Department shall approve such sites prior to storage use. In the
20 event the licensed area is not approved, this fee will be refunded.

21 S. Hemp may not be grown in an area other than the licensed
22 area. This includes, but is not limited to, planting hemp in a
23 field for which the geospatial location has not been approved by the
24 Department or moving indoor-grown hemp to an outside area.

1 T. Transporting live hemp plants, plantlets or propagules to
2 any unlicensed area including, but not limited to, trade shows,
3 county fairs or educational or other events is prohibited.

4 U. Members of the public shall not have direct unsupervised
5 access to hemp at any time.

6 V. Any person transporting certified seeds, hemp plants,
7 plantlets or propagules shall maintain, and provide upon request by
8 law enforcement, proof that:

9 1. The certified seeds, hemp plants, plantlets and propagules
10 are subject to tracking software; and

11 2. The person is authorized to engage in the commercial sale of
12 hemp, either under a state plan pursuant to 7 U.S.C., Section 1639p
13 or the USDA plan pursuant to 7 U.S.C., Section 1639q in a state
14 where a state plan has not been approved from the producer of hemp.

15 W. It is the responsibility of the person holding a license to
16 understand and comply with all rules and regulations involving hemp
17 and to obtain all approval from any other applicable local, state or
18 federal authorities.

19 SECTION 5. NEW LAW A new section of law to be codified
20 in the Oklahoma Statutes as Section 3-505 of Title 2, unless there
21 is created a duplication in numbering, reads as follows:

22 A. Hemp including, but not limited to, plants, noncertified
23 seeds, propagules and plantlets shall only be obtained by a person
24

1 holding a license after written approval of the Department for such
2 variety.

3 B. The Department shall not approve any hemp seed, plant,
4 propagule or plantlet unless the person holding a license submits
5 documentation showing that historical harvests involving such hemp
6 seed, plant, propagule or plantlet are under the federally defined
7 THC level for hemp and the source for such hemp seed, plant,
8 propagule or plantlet originated from within the United States,
9 tribal lands or territories from a USDA-approved hemp program.

10 C. The Department shall maintain a list of certified seed
11 varieties or strains on its website.

12 D. All certified seeds and hemp shipments shall be accompanied
13 by:

14 1. Proof of authorization to engage in the commercial sale of
15 certified seeds or hemp; and

16 2. A travel manifest that lists the origin, destination,
17 product description and date of transport.

18 E. The Department may prohibit from the program any hemp seed,
19 plant, propagule or plantlet in order to comply with federal or
20 state law and administer the program efficiently.

21 SECTION 6. NEW LAW A new section of law to be codified
22 in the Oklahoma Statutes as Section 3-506 of Title 2, unless there
23 is created a duplication in numbering, reads as follows:

24

1 A. All growers shall file a pre-planting report generated by
2 the tracking software on a form provided by the Department at least
3 five (5) days prior to planting that includes:

4 1. A statement of verification that the grower is using
5 certified seeds;

6 2. A description of the certified seed and cannabis varieties,
7 including hemp, to be planted on the licensed area, which shall
8 include all such certified seeds and varieties to be grown within a
9 licensed area;

10 3. A statement of intended end use for all parts of any
11 cannabis plants, including hemp, grown within a licensed area; and

12 4. The name and location of any hemp processing plant to be
13 utilized.

14 B. The grower shall not plant any certified seeds or hemp in
15 any form until the pre-planting report has been approved by the
16 Department.

17 SECTION 7. NEW LAW A new section of law to be codified
18 in the Oklahoma Statutes as Section 3-507 of Title 2, unless there
19 is created a duplication in numbering, reads as follows:

20 A. Within ten (10) days after planting any certified seed or
21 hemp, and ten (10) days after emergence of any volunteer hemp plants
22 in a licensed area, each grower shall submit a planting report
23 generated by the tracking software on a form provided by the
24 Department that includes:

1 1. A list or description of all varieties of certified seeds
2 and hemp planted, and of volunteer hemp plants that have emerged and
3 are not destroyed, within a licensed area; and

4 2. The geospatial location, including Global Positioning System
5 coordinates, and a map showing the location and actual acreage or
6 square feet of each variety of certified seeds and hemp planted, and
7 of volunteer hemp plants that have emerged and are not destroyed,
8 within a licensed area.

9 B. A planting report generated by the tracking software shall
10 be submitted any time certified seeds or hemp are planted in, moved
11 within, or moved into a licensed area, except for replanting into a
12 larger container within the same indoor location.

13 SECTION 8. NEW LAW A new section of law to be codified
14 in the Oklahoma Statutes as Section 3-508 of Title 2, unless there
15 is created a duplication in numbering, reads as follows:

16 A. At least thirty (30) days prior to harvesting any hemp, each
17 grower shall file a harvest and disposal report generated by the
18 tracking software on a form provided by the Department that
19 includes:

20 1. Documentation that the grower has entered into a purchase,
21 extraction and/or processing agreement with a person that is
22 licensed to extract and/or process hemp in this state. A person
23 holding a license for hemp shall not be allowed to extract or
24 process the hemp outside of this state. If the grower has not

1 entered into such an agreement, the grower shall include a statement
2 of intended disposition of the hemp crop; and

3 2. The date or dates and locations for each harvest for each
4 variety of hemp grown within a licensed area.

5 B. A grower shall notify the Department immediately of any
6 changes in any reported harvest date that will delay the applicable
7 harvest by five (5) days or more. If any such changes are made, the
8 Department may require additional testing prior to such harvest.

9 C. A grower shall not be required to document the removal of
10 any male hemp plants on a harvest or disposal report on the
11 condition that each male plant is destroyed or used for pollination
12 purposes in the licensed area prior to filing a harvest report for
13 the remaining hemp plants.

14 SECTION 9. NEW LAW A new section of law to be codified
15 in the Oklahoma Statutes as Section 3-509 of Title 2, unless there
16 is created a duplication in numbering, reads as follows:

17 All hemp producers shall submit a completed production report by
18 the tracking software for the production for the prior year on or
19 before December 1 of the applicable year. The production report
20 shall be submitted annually and shall include:

- 21 1. The number of acres or square feet planted;
- 22 2. The varieties of certified seeds and hemp planted and the
23 production methods;
- 24 3. Production inputs and yields; and

1 4. Any other information requested by the Department.

2 SECTION 10. NEW LAW A new section of law to be codified
3 in the Oklahoma Statutes as Section 3-510 of Title 2, unless there
4 is created a duplication in numbering, reads as follows:

5 Hemp producers shall report hemp crop acreage to the FSA and
6 shall include with the report, at a minimum:

7 1. Street address and geospatial location for each licensed
8 area where hemp will be produced. If an applicant operates in more
9 than one location, that information shall be provided for all
10 production sites;

11 2. Acreage dedicated to the production of hemp, or greenhouse
12 or indoor square footage dedicated to the productions of hemp; and

13 3. License or authorization identifier.

14 SECTION 11. NEW LAW A new section of law to be codified
15 in the Oklahoma Statutes as Section 3-511 of Title 2, unless there
16 is created a duplication in numbering, reads as follows:

17 As a condition of obtaining and maintaining a grower or
18 processor license, a person holding the license, or its agents,
19 shall permit the Department or any other state or local law
20 enforcement agency to enter onto all premises where hemp is grown,
21 handled, processed or transported, including, but not limited to,
22 the licensed area, to conduct a physical inspection or to otherwise
23 ensure compliance with the program. The Department is not required
24 to give notice to a person holding a license of an upcoming

1 inspection and may require the person holding a license, or its
2 agent, to be present during any inspection.

3 SECTION 12. NEW LAW A new section of law to be codified
4 in the Oklahoma Statutes as Section 3-512 of Title 2, unless there
5 is created a duplication in numbering, reads as follows:

6 A. Inspections and sampling shall be conducted as follows:

7 1. All hemp producers are subject to an annual random
8 inspection and sampling by the Department to verify that the delta-9
9 THC concentration of the hemp planted within a licensed area does
10 not exceed three-tenths of one percent (0.3%) on dry-weight basis;

11 2. The Department may sample and test any hemp and hemp
12 products to verify compliance with the program;

13 3. The Department's inspectors or authorized agent may collect
14 two or more samples from each hemp variety planted during the
15 growing season and before harvest to ensure compliance with the
16 federally defined THC level for hemp in the program;

17 4. Additionally, the Department may inspect and take samples
18 from any licensed area without advance notice. The Department may
19 also conduct such additional inspections and sampling as the
20 Department may elect, to verify compliance with the reporting
21 requirements of the program;

22 5. If a person holding a license voluntarily surrenders a
23 license, the Department may exercise its discretion to inspect and
24 sample any licensed area prior to accepting the surrendered license;

1 6. The Department may require a person holding a license, or
2 its agent, to be present during an inspection to provide the
3 Department's inspector with complete and unrestricted access to all
4 hemp plants, parts and seeds within a licensed area, whether growing
5 or harvested, and all land, buildings and other structures used in
6 its business operations. During the collection of any samples, the
7 person holding a license, or its agent, shall be present;

8 7. The Department shall have access to and receive copies of
9 any and all documents and records of any type involving the business
10 operations of a person holding a license at any time. Upon request,
11 the person holding a license shall promptly provide the Department
12 with copies of such documents and records;

13 8. Individual or composite samples of each variety of hemp may
14 be sampled from the licensed area at the Department's discretion;

15 9. The method used for sampling from the flower material of a
16 cannabis plant shall be sufficient at a confidence level of ninety-
17 five percent (95%) that no more than one percent (1%) of the plant
18 in the lot would exceed the federally defined THC level for hemp.
19 The method used for sampling shall ensure that a representative
20 sample is collected that represents a homogeneous composition of the
21 lot;

22 10. The Department or its authorized agent may collect samples
23 from the flower material of a cannabis plant within fifteen (15)
24 days prior to the anticipated harvest of such plants;

1 11. Upon notice that the Department will collect samples from
2 the flower material of the cannabis plant, the hemp producer shall
3 not harvest any cannabis plants prior to samples being taken; and

4 12. Samples of hemp plants, plantlets, propagules and/or
5 varieties from one lot shall not be commingled with hemp plants,
6 plantlets, propagules and/or varieties from other lots.

7 B. Testing procedures shall be as follows:

8 1. A quantitative determination of the delta-9 THC
9 concentration on a dry-weight basis shall be performed by a
10 certified laboratory;

11 2. The Department is not responsible for ensuring product
12 quality or product compliance with other state or federal regulatory
13 authorities;

14 3. Test results shall confirm that the final product batch
15 contains no more than three-tenths of one percent (0.3%) delta-9 THC
16 on a dry-weight basis using a measurement of uncertainty, and all
17 such testing results shall be retained by the person holding the
18 license utilizing the tracking software and made available to the
19 Department upon demand for a minimum of three (3) years. Any hemp
20 having more than the federally defined THC level for hemp is
21 prohibited. Possession or distribution of such products may be
22 subject to federal, state and local law enforcement action;

23 4. The THC testing procedure shall include a valid testing
24 methodology that uses postdecarboxylation or other similarly

1 reliable methods including, but not limited to, gas or liquid
2 chromatography with detection. The testing methodology shall
3 consider the potential conversion of delta-9 tetrahydrocannabinolic
4 acid (THC-A) in hemp into THC, and the test result shall measure
5 total available THC derived from the sum of the THC and THC-A
6 content. Testing methodologies that meet these requirements
7 include, but are not limited to, gas or liquid chromatography with
8 detection. The total THC concentration level shall be determined
9 and reported utilizing the tracking software on a dry-weight basis;

10 5. If any hemp product contains seeds, the hemp producer may
11 conduct a third-party seed germination test on each final product
12 batch produced. Test results shall confirm that the denatured seeds
13 after exposure to high heat renders the result of a zero percent
14 (0%) germination level, and all such testing results utilizing the
15 tracking software shall be retained by the hemp producer, and made
16 available to the Department upon demand, for a minimum of three (3)
17 years. Any seed having a greater than zero percent (0%) germination
18 level is prohibited. Possession or distribution of such seeds or
19 products may in be in violation of state or federal law;

20 6. A sample test result with a delta-9 THC concentration on a
21 dry-weight basis greater than the federally defined THC level for
22 hemp shall be conclusive evidence that the lot represented by the
23 sample contains a delta-9 THC concentration on a dry-weight basis of
24 more than three-tenths of one percent (0.3%). Upon receipt of a

1 failing test result, the hemp producer shall not be in compliance
2 with the program. Upon receipt of a failing test result, the
3 Department may request resampling and retesting of the sampled lot.
4 Upon subsequent retesting failure, the Department shall determine
5 whether the failure constitutes a violation of negligence or gross
6 negligence and take appropriate action;

7 7. Hemp from lots determined to be noncompliant with the
8 federally defined THC level for hemp shall not be further grown,
9 handled, processed, transported or involved in commercial sales.
10 The person holding the license shall ensure the lot is destroyed in
11 accordance with the CSA and DEA regulations found at 21 CFR Section
12 1317.15 as enforced by federal, state and local law enforcement.
13 The person holding the license shall promptly notify the Department
14 and USDA of its intent to destroy the noncompliant hemp and verify
15 destruction by submitting required documentation using the tracking
16 software;

17 8. The person holding the license shall pay the Department a
18 fee to be determined by the Department for all testing conducted by
19 the Department including, but not limited to, retests and pesticide
20 residue quantification tests. The Department may waive all
21 inspection and sampling costs if no inconsistencies or violations
22 are identified pursuant to this subsection;

23 9. Measurement of uncertainty shall be estimated and reported
24 with test results; and

1 10. Each person holding a license shall ensure that the
2 certified laboratory that conducts the test of a sample from its
3 lots reports the test results for each sample tested to the
4 Department and USDA and uploads such test results into the tracking
5 software. The test results report shall contain the following
6 information for each sample tested:

- 7 a. license or authorization identifier,
- 8 b. name of person holding the license,
- 9 c. business address of person holding the license,
- 10 d. lot identification number for the sample,
- 11 e. name and registration number of the certified
12 laboratory,
- 13 f. date of test and report,
- 14 g. identification of a retest, and
- 15 h. test result.

16 SECTION 13. NEW LAW A new section of law to be codified
17 in the Oklahoma Statutes as Section 3-513 of Title 2, unless there
18 is created a duplication in numbering, reads as follows:

- 19 A. Processors shall label all hemp products to distinguish
20 between hemp extract and hemp oil.
- 21 B. Processors shall label all hemp products in minimum lot and
22 batch sizes determined by the Department and include the amount and
23 percentages of oil and extract and the percentage of THC.

1 SECTION 14. NEW LAW A new section of law to be codified
2 in the Oklahoma Statutes as Section 3-514 of Title 2, unless there
3 is created a duplication in numbering, reads as follows:

4 A. A person holding a license may utilize a certified
5 laboratory to demonstrate compliance with the federally defined THC
6 level for hemp.

7 B. Each certified laboratory shall apply to the program
8 annually as handlers.

9 C. Each certified laboratory shall:

10 1. Be registered and accredited in accordance with state and
11 federal laws, rules and regulations;

12 2. Be registered with the Department as a handler;

13 3. Comply with the Department's testing procedures pursuant to
14 the program;

15 4. Transmit laboratory results directly to the Department
16 utilizing the tracking software; and

17 5. Submit to random quality assurance testing by the Department
18 to validate the accuracy of testing results.

19 D. A person holding a license may test his or her hemp
20 internally for quality assurance and quality compliance purposes. A
21 person holding a license shall not test his or her hemp for the
22 purpose of providing information or reports to the Department
23 regarding THC levels or to certify labels for hemp and hemp
24 products.

1 SECTION 15. NEW LAW A new section of law to be codified
2 in the Oklahoma Statutes as Section 3-515 of Title 2, unless there
3 is created a duplication in numbering, reads as follows:

4 A. The Department shall require a person holding a license to
5 comply with a corrective action plan for any negligent violation of
6 the program. A corrective action plan established by the Department
7 to correct the negligent violation may include, but is not limited
8 to:

9 1. A date by which the person holding the license shall correct
10 the negligent violation;

11 2. The steps that are required to become compliant; and

12 3. A requirement that the person holding the license
13 periodically report its compliance measures to the Department for a
14 period of not less than the two (2) calendar years following the
15 date of the negligent violation. The Department may perform
16 inspections as necessary.

17 B. Negligent violations may include, but are not limited to:

18 1. Failing to provide a legal description of the land on which
19 the person holding the license produces hemp or the licensed area;

20 2. Failing to obtain or maintain a license or other required
21 authorization from the Department;

22 3. Producing Cannabis sativa L. with a delta-9 THC
23 concentration of more than five-tenths of one percent (0.5%) on a
24

1 dry-weight basis, or failing to make reasonable efforts to grow
2 compliant hemp; and

3 4. Failing to comply with any reporting requirements set forth
4 for the program.

5 C. Hemp that is determined to have a delta-9 THC concentration
6 of greater than three-tenths of one percent (0.3%) percent on a dry-
7 weight basis, but equal to or less than five-tenths of one percent
8 (0.5%) percent on a dry-weight basis, shall be destroyed in
9 accordance with the CSA and DEA regulations found at 21 CFR Section
10 1317.15 as enforced by federal, state and local law enforcement,
11 even though it does not constitute a negligent violation pursuant to
12 subsection B of this section.

13 D. A person holding a license that is found to have negligently
14 violated the program shall not be subject to any criminal
15 enforcement action by this state.

16 E. A person holding a license that has been found to have
17 negligently violated the program three times in a five-year period
18 shall be ineligible to hold a license in this state for a period of
19 five (5) years beginning on the date of the third violation.

20 F. The Department may issue civil administrative penalties for
21 violations of the program.

22 G. A person holding a license may appeal any adverse
23 determination rendered by the Department.

24

1 SECTION 16. NEW LAW A new section of law to be codified
2 in the Oklahoma Statutes as Section 3-516 of Title 2, unless there
3 is created a duplication in numbering, reads as follows:

4 A. If the Department determines that a person holding a license
5 has violated the program with an act of gross negligence, the
6 Department shall order the person to immediately suspend all
7 licensed operations.

8 B. A notice of violation with gross negligence shall be
9 immediately referred to the United States Attorney General for this
10 state and any other applicable federal, state or local law
11 enforcement agency.

12 C. A person holding a license may appeal any adverse
13 determination rendered by the Department.

14 SECTION 17. NEW LAW A new section of law to be codified
15 in the Oklahoma Statutes as Section 3-517 of Title 2, unless there
16 is created a duplication in numbering, reads as follows:

17 A. Every day upon which a violation occurs at the same location
18 or by the same person holding a license shall be considered a
19 separate violation for the purpose of calculating civil
20 administrative penalties. Nothing in this section shall limit the
21 applicability of any other penalties prescribed in the program
22 including, but not limited to, the implementation of a corrective
23 action plan or the suspension or revocation of a license.

24

1 B. The Department may issue civil administrative penalties
2 based upon the seriousness of the misconduct.

3 1. Any person without a license that is growing, processing,
4 handling or transporting certified seeds or hemp shall be subject to
5 a civil administrative penalty to be determined by the Department.

6 2. A person, holding a license or not, guilty of interfering or
7 refusing to allow or cooperate with any inspection or sampling
8 procedures to be conducted by the Department shall pay a penalty to
9 be determined by the Department.

10 3. A person holding a license that fails to submit timely
11 reports or does not respond to any communication from the Department
12 within a reasonable amount of time shall pay a penalty to be
13 determined by the Department.

14 4. No assessment shall be levied under this subsection until
15 after the person has been notified by certified mail or personal
16 service and has been provided an opportunity for a hearing.

17 C. For any violation of the program, the Department may adjust
18 or waive the civil administrative penalty after weighing the
19 following nonexclusive factors:

20 1. The violator's compliance history;

21 2. The nature, timing and effectiveness of measures the
22 violator takes to mitigate the effects of the violation;

23 3. The nature, timing and effectiveness of measures the
24 violator takes to prevent future similar violations;

1 4. Any unusual or extraordinary costs or impacts directly or
2 indirectly imposed on the public or the environment as a result of
3 the violation;

4 5. Whether the violator is growing, processing, handling or
5 transporting certified seeds or hemp while deliberately neglecting
6 to obtain a license from the Department; and

7 6. Any other relevant circumstances.

8 SECTION 18. NEW LAW A new section of law to be codified
9 in the Oklahoma Statutes as Section 3-518 of Title 2, unless there
10 is created a duplication in numbering, reads as follows:

11 A. The Department shall provide a reasonable opportunity for an
12 applicant to amend an application that is insufficient or to resolve
13 any minor violations of the program.

14 B. The Department shall provide written notice by regular mail,
15 certified mail or personal service to a person holding a license
16 upon a finding of a violation. Such notice shall include:

17 1. The facts pertaining to the violation;

18 2. A reference to any rule and/or statute that has been
19 violated;

20 3. A finding that the conduct constitutes negligence or gross
21 negligence;

22 4. A statement explaining whether the Department has informed
23 law enforcement of the violation;

24

1 5. The basis for the civil administrative penalty issued, if
2 any; and

3 6. A statement explaining the person's right to a hearing and
4 that the person may file an appeal within twenty (20) days of
5 receiving notice.

6 C. Any appeal to the Department for a violation of the program
7 shall be made no later than twenty (20) calendar days after receipt
8 of the notice of violation and be in writing.

9 D. If no hearing is requested after twenty (20) days have
10 elapsed, the notice shall become a final order on the twenty-first
11 day.

12 E. Contested cases shall be treated in accordance with this
13 state's administrative procedures.

14 SECTION 19. NEW LAW A new section of law to be codified
15 in the Oklahoma Statutes as Section 3-519 of Title 2, unless there
16 is created a duplication in numbering, reads as follows:

17 In addition to records designated as confidential pursuant to
18 the provisions of the Oklahoma Open Records Act and any other law,
19 rule or executive order, the license application, supporting
20 documentation, filed reports or any testing results shall not be
21 considered government records. The only information that shall be
22 considered public shall be the name and mailing address of the
23 person holding the license.

24

1 SECTION 20. NEW LAW A new section of law to be codified
2 in the Oklahoma Statutes as Section 3-520 of Title 2, unless there
3 is created a duplication in numbering, reads as follows:

4 A. The Department shall collect, maintain and report to the
5 U.S. Secretary of Agriculture relevant, real-time information for
6 the following:

7 1. The contact information for each person holding a license
8 under the program;

9 2. A legal description of the land on which certified seeds or
10 hemp is grown, processed, handled or transported by each person
11 holding a license; and

12 3. The status and number of each license issued to a person or
13 other required authorizations and any changes to that status.

14 B. The Department shall maintain the records described in
15 subsection A of this section for a period of not less than three (3)
16 calendar years and in compliance with records retention policies.

17 C. The Department shall submit to the USDA, by the first of
18 each calendar month, a report providing the contact information and
19 the status of the license or other authorization issued for each
20 person holding a license. If the first of the month falls on a
21 weekend or holiday, the report is due by the first business day
22 following the due date. The report shall be submitted using a
23 digital format compatible with the information sharing system,
24

1 whenever possible. The report shall contain the following
2 information:

3 1. a. For each new person holding a license, the legal name
4 of the person, the license or authorization
5 identifier, address, the person's Social Security
6 number or employee identification number, telephone
7 number, and email address and the full name, title,
8 and email address of each applicant and key
9 participant for whom the person is required to submit
10 a nationwide criminal background check, or

11 b. For each person holding a license that was included in
12 a previous report and whose reported information has
13 changed, the previously reported information and the
14 new information;

15 2. The status of each license or authorization for each person
16 holding a license;

17 3. The period covered by the report; and

18 4. An indication that there were no changes during the current
19 reporting cycle, if applicable.

20 D. The Department shall submit to the USDA, by the first of
21 each calendar month, a report notifying the USDA of any occurrence
22 of noncompliant hemp and hemp products and providing a disposal
23 record of such hemp and hemp products. This report will include
24 information regarding the name and contact information for each

1 person holding a license subject to destruction during the reporting
2 period and the date when such destruction was completed. If the
3 first of the month falls on a weekend or holiday, reports are due by
4 the first business day following the due date. The report shall
5 contain the following information:

6 1. The name and address of the person holding the license;

7 2. The license or authorization identifier for the person
8 holding the license;

9 3. The location information, such as lot number, location type
10 and geospatial location or other location descriptor for the
11 licensed area subject to destruction;

12 4. The information on the agent handling the destruction;

13 5. The destruction completion date; and

14 6. The total acreage.

15 E. In addition to the hemp destruction report required under
16 subsection D of this section, the Department shall promptly notify
17 the USDA Agricultural Marketing Service Administrator by certified
18 mail, or electronically, of any occurrence of cannabis plants or
19 plant materials that do not meet the definition of hemp and attach
20 the records demonstrating the appropriate disposal of all of those
21 plants and materials in the lot from which the representative
22 samples were taken.

23

24

1 F. The Department shall submit an annual report to the USDA by
2 December 15 of each calendar year containing the following
3 information:

- 4 1. The total planted acreage;
- 5 2. The total harvested acreage; and
- 6 3. The total acreage disposed.

7 SECTION 21. AMENDATORY Section 1, Chapter 64, O.S.L.
8 2018, as amended by Section 2, Chapter 91, O.S.L. 2019 (2 O.S. Supp.
9 2019, Section 3-401), is amended to read as follows:

10 Section 3-401. ~~This act shall be known and may be cited as the~~
11 ~~"Oklahoma Industrial Hemp Program"~~ The Oklahoma Industrial Hemp
12 Program is hereby abolished. Any licenses that are valid and active
13 on November 1, 2020, shall be subject to the Oklahoma Industrial
14 Hemp Reform Program.

15 SECTION 22. AMENDATORY Section 10, Chapter 64, O.S.L.
16 2018, as amended by Section 9, Chapter 91, O.S.L. 2019 (2 O.S. Supp.
17 2019, Section 3-410), is amended to read as follows:

18 Section 3-410. There is hereby created in the State Treasury a
19 revolving fund for the State Board of Agriculture to be designated
20 the "Oklahoma Industrial Hemp Reform Program Fund". The fund shall
21 be a continuing fund, not subject to fiscal year limitations and
22 shall consist of all monies received by the State Board of
23 Agriculture from fees received and collected pursuant to the
24 Oklahoma Industrial Hemp Reform Program, donations, grants,

1 contributions and gifts from any public or private source. The
2 Board may expend funds for the purposes set forth in the Oklahoma
3 Industrial Hemp Reform Program. Expenditures from said fund shall
4 be made upon warrants issued by the State Treasurer against claims
5 filed as prescribed by law with the Director of the Office of
6 Management and Enterprise Services for approval and payment.

7 SECTION 23. REPEALER Section 2, Chapter 64, O.S.L. 2018,
8 as amended by Section 3, Chapter 91, O.S.L. 2019, Section 3, Chapter
