§68-2355.1A. Determinations by State Board of Equalization - Income tax rate changes.

A. The provisions of this section shall be applicable with respect to the implementation of the decreases in the top marginal rate of individual income tax otherwise authorized pursuant to the provisions of subparagraph (h) of paragraphs 1 and 2 of subsection B of Section 2355 of this title which shall be contingent upon a determination by the State Board of Equalization made by a comparison of the revenue computations described by this section which shall be conducted until the income tax rate of five and twenty-five hundredths percent (5.25%) is effective.

B. In addition to any other duties prescribed by law, at the meeting required by paragraph 1 of Section 23 of Article X of the Oklahoma Constitution to be held in December 2008, and for any subsequent December meeting of the State Board of Equalization if the top marginal income tax rate prescribed by subparagraph (h) of paragraphs 1 and 2 of subsection B of Section 2355 of this title has not become effective, the State Board of Equalization shall determine:

1. The amount of revenue growth in the General Revenue Fund of the State Treasury by comparing the fiscal year General Revenue Fund estimate for the fiscal year beginning on the next ensuing July 1 date to the revised General Revenue Fund estimate for the then current fiscal year; and

2. The amount by which the income tax revenue for the tax year which will begin on the second January 1 date following such December meeting is estimated to be reduced by the increase in the standard deduction provided in paragraph 2 of subsection E of Section 2358 of this title, plus an amount equal to four percent (4%) of the revised General Revenue Fund estimate for the then current fiscal year in order for a top marginal income tax rate of five and twenty-five hundredths percent (5.25%) to be effective.

If the amount determined pursuant to the provisions of paragraph 1 of this subsection is equal to or greater than the amount determined pursuant to the provisions of paragraph 2 of this subsection, the Board shall make a preliminary finding that the Board anticipates that a finding will be made at the February meeting immediately subsequent to the December meeting that

applicable revenue growth in the state will authorize the implementation of the provisions of subparagraph (h) of paragraphs 1 and 2 of subsection B of Section 2355 of this title beginning on the second January 1 following such December meeting.

If the amount determined pursuant to the provisions of paragraph 1 of this subsection is less than the amount determined pursuant to the provisions of paragraph 2 of this subsection, the Board shall make a preliminary finding that the Board anticipates that a finding will be made at the February meeting immediately subsequent to the December meeting that applicable revenue growth in the state will not authorize the implementation of the provisions of subparagraph (h) of paragraphs 1 and 2 of subsection B of Section 2355 of this title beginning on the second January 1 following such December meeting.

C. In addition to any other duties prescribed by law, at the meeting required by paragraph 3 of Section 23 of Article X of the Oklahoma Constitution to be held in February 2009, and for any subsequent February meeting of the State Board of Equalization if the top marginal income tax rate prescribed by subparagraph (h) of paragraphs 1 and 2 of subsection B of Section 2355 of this title has not become effective the State Board of Equalization shall determine:

1. The amount of revenue growth in the General Revenue Fund of the State Treasury by comparing the fiscal year General Revenue Fund estimate for the fiscal year beginning on the next ensuing July 1 date to the revised General Revenue Fund estimate for the then current fiscal year; and

2. The amount by which the income tax revenue for the tax year which will begin on the January 1 date immediately following such February meeting is estimated to be reduced by the increase in the standard deduction provided in paragraph 2 of subsection E of Section 2358 of this title plus an amount equal to four percent (4%) of the revised General Revenue Fund estimate for the then current fiscal year in order for a top marginal income tax rate of five and twenty-five hundredths percent (5.25%) to be effective.

If the amount determined pursuant to the provisions of paragraph 1 of this subsection is equal to or greater than the amount determined pursuant to the provisions of paragraph 2 of this subsection, the Board shall make a finding that applicable revenue growth in the state will authorize the implementation of the provisions of subparagraph (h) of paragraphs 1 and 2 of subsection B of Section 2355 of this title beginning on the January 1 date immediately following such February meeting.

If the amount determined pursuant to the provisions of paragraph 1 of this subsection is less than the amount determined pursuant to the provisions of paragraph 2 of this subsection, the Board shall make a finding that applicable revenue growth in the state does not

authorize the implementation of the provisions of subparagraph (h) of paragraphs 1 and 2 of subsection B of Section 2355 of this title beginning with the January 1 date immediately following such February meeting.

D. If the Board makes a finding that applicable revenue growth in the state does not authorize the implementation of the provisions of subparagraph (h) of paragraphs 1 and 2 of subsection B of Section 2355 of this title beginning with calendar year 2010 pursuant to the provisions of subsection C of this section, the procedures prescribed by subsection A, subsection B, and subsection C of this section shall be repeated by the State Board of Equalization for each successive two-year comparison. Once the income tax rate otherwise authorized pursuant to subparagraph (h) of paragraphs 1 and 2 of subsection B of Section 2355 of this title has been implemented as a result of the analysis of the General Revenue Fund estimates together with the fiscal impact of the standard deduction as authorized pursuant to paragraph 2 of subsection E of Section 2358 of this title, such income tax rate shall be in effect for the tax years as prescribed by subparagraph (h) of paragraphs 1 and 2 of subsection B of Section 2355 of this title.

1. Determine an initial baseline amount of revenue which was finally apportioned to the credit of the Teachers' Retirement System Dedicated Revenue Revolving Fund pursuant to Sections 1353, 1403 and 2352 of Title 68 of the Oklahoma Statutes for the most recent twelve (12) months;

2. Beginning with the February meeting in the sixth year after the Board determines an initial baseline amount, annually review such amount to determine if it differs from the average annual amount of revenue which was finally apportioned to the credit of the Teachers' Retirement System Dedicated Revenue Revolving Fund pursuant to Sections 1353, 1403 and 2352 of Title 68 of the Oklahoma Statutes over the most recent five (5) fiscal years. If the Board determines that the initial baseline amount is less than the five-year average annual amount, a new baseline equal to the five-year average annual amount shall be determined and applied as provided in

paragraph 5 of Section 1353, paragraph 5 of Section 1403 and paragraph 3 of Section 2352 of Title 68 of the Oklahoma Statutes; and

3. Determine the proportion of the baseline amount attributable to each revenue source specified in paragraph 2 of this section whenever the Board determines a baseline amount.

2. The electing pass-through entity shall aggregate the amounts determined with respect to all members pursuant to paragraph 1 of this subsection and the pass-through entity tax for the applicable tax year shall be equal to such aggregated tax amount for the tax year with respect to which the election has been made.

E. Notwithstanding paragraph 2 of subsection C of Section 2368 of this title, a nonresident individual who is a member of an electing pass-through entity is not required to file an Oklahoma income tax return, if, for the taxable year, the only source of income allocable or apportionable to this state for the member, or, if a joint income tax return is filed, the member and his or her spouse, is from one or more electing pass-through entities, and each electing pass-through entity files and pays the taxes due under this section.

The credit shall not exceed such proportion of the tax payable under Section 2355 of this title as the compensation for personal services subject to tax in the other state and also taxable under Section 2355 of this title bears to the Oklahoma adjusted gross income as defined in paragraph 13 of Section 2353 of this title.

§68-2357.4. Business credit for investment or increase in full-time Employees

A. Except as otherwise provided in subsection F of Section 3658 of this title and in subsections J and K of this section, for taxable years beginning after December 31, 1987, there shall be allowed a credit against the tax imposed by Section 2355 of this title for:

1. Investment in qualified depreciable property placed in service during those years for use in a manufacturing operation, as defined in Section 1352 of this title, which has received a manufacturer exemption permit pursuant to the provisions of Section 1359.2 of this title or a qualified aircraft maintenance or manufacturing facility as defined in Section 1357 of this title in this state or a qualified web search portal as defined in Section 1357 of this title; or

2. A net increase in the number of full-time-equivalent employees in a manufacturing operation, as defined in Section 1352 of this title, which has received a manufacturer exemption permit pursuant to the provisions of Section 1359.2 of this title or a qualified aircraft maintenance or manufacturing facility defined in Section 1357 of this title in this state or in a qualified web search portal as defined in Section 1357 of this title including employees engaged in support services.

B. Except as otherwise provided in subsection F of Section 3658 of this title and in subsections J and K of this section, for taxable years beginning after December 31, 1998, there shall be allowed a credit against the tax imposed by Section 2355 of this title for:

1. Investment in qualified depreciable property with a total cost equal to or greater than Forty Million Dollars (\$40,000,000.00) within three (3) years from the date of initial qualifying expenditure and placed in service in this state during those years for use in the manufacture of products described by any Industry Number contained in Division D of Part I of the Standard Industrial Classification (SIC) Manual, latest revision; or

2. A net increase in the number of full-time-equivalent employees in this state engaged in the manufacture of any goods identified by any Industry Number contained in Division D of Part I of the Standard Industrial Classification (SIC) Manual, latest revision, if the total cost of qualified depreciable property placed in service by the business entity within the state equals or exceeds Forty Million Dollars (\$40,000,000.00) within three (3) years from the date of initial qualifying expenditure.

C. The business entity may claim the credit authorized by subsection B of this section for expenditures incurred or for a net increase in the number of full-time-equivalent employees after the business entity provides proof satisfactory to the Oklahoma Tax

Commission that the conditions imposed pursuant to paragraph 1 or paragraph 2 of subsection B of this section have been satisfied.

D. If a business entity fails to expend the amount required by paragraph 1 or paragraph 2 of subsection B of this section within the time required, the business entity may not claim the credit authorized by subsection B of this section but shall be allowed to claim a credit pursuant to subsection A of this section if the requirements of subsection A of this section are met with respect to the investment in qualified depreciable property or net increase in the number of full-time-equivalent employees.

E. The credit provided for in subsection A of this section, if based upon investment in qualified depreciable property, shall not be allowed unless the investment in qualified depreciable property is at least Fifty Thousand Dollars (\$50,000.00). The credit provided for in subsection A or B of this section shall not be allowed if the applicable investment is the direct cause of a decrease in the number of full-time-equivalent employees. Qualified property shall be limited to machinery, fixtures, equipment, buildings or substantial improvements thereto, placed in service in this state during the taxable year. The taxable years for which the credit may be allowed if based upon investment in qualified depreciable property shall be measured from the year in which the qualified property is placed in service. If the credit provided for in subsection A or B of this section is calculated on the basis of the cost of the qualified property, the credit shall be allowed in each of the four (4) subsequent years. If the qualified property on which a credit has previously been allowed is acquired from a related party, the date such property is placed in service by the transferor shall be considered to be the date such property is placed in service by the transferee, for purposes of determining the aggregate number of years for which credit may be allowed.

F. The credit provided for in subsection A or B of this section, if based upon an increase in the number of full-time-equivalent employees, shall be allowed in each of the four (4) subsequent years only if the level of new employees is maintained in the subsequent year. In calculating the credit by the number of new employees, only those employees whose paid wages or salary were at least Seven Thousand Dollars (\$7,000.00) during each year the credit is claimed shall be included in the calculation. Provided, that the first year a credit is claimed for a new employee, such employee may be included in the calculation notwithstanding paid wages of less than Seven Thousand Dollars (\$7,000.00) if the employee was hired in the last three quarters of the tax year, has wages or salary which will result in annual paid wages in excess of Seven Thousand Dollars (\$7,000.00) and the taxpayer submits an affidavit stating that the employee's position will be retained in the following tax year and will result in the payment of wages in excess of Seven Thousand

Dollars (\$7,000.00). The number of new employees shall be determined by comparing the monthly average number of full-time employees subject to Oklahoma income tax withholding for the final quarter of the taxable year with the corresponding period of the prior taxable year, as substantiated by such reports as may be required by the Tax Commission.

G. The credit allowed by subsection A of this section shall be the greater amount of either:

1. One percent (1%) of the cost of the qualified property in the year the property is placed in service; or
2. Five Hundred Dollars (\$500.00) for each new employee. No credit shall be allowed in any taxable year for a net increase in the number of full-time-equivalent employees if such increase is a result of an investment in qualified depreciable property for which an income tax credit has been allowed as authorized by this section.

H. The credit allowed by subsection B of this section shall be the greater amount of either:

1. Two percent (2%) of the cost of the qualified property in the year the property is placed in service; or
2. One Thousand Dollars (\$1,000.00) for each new employee.

No credit shall be allowed in any taxable year for a net increase in the number of full-time-equivalent employees if such increase is a result of an investment in qualified depreciable property for which an income tax credit has been allowed as authorized by this section.

I. Except as provided by subsection G of Section 3658 of this title, any credits allowed but not used in any taxable year may be carried over in order as follows:

1. To each of the four (4) years following the year of qualification;
2. To the extent not used in those years in order to each of the fifteen (15) years following the initial five-year period;
3. If a C corporation that otherwise qualified for the credits under subsection A of this section subsequently changes its operating status to that of a pass-through entity which is being treated as the same entity for federal tax purposes, the credits will continue to be available as if the pass-through entity had originally qualified for the credits subject to the limitations of this section;
4. To the extent not used in paragraphs 1 and 2 of this subsection, such credits from qualified depreciable property placed in service on or after January 1, 2000, may be utilized in any subsequent tax years after the initial twenty-year period; and
5. Provided, for tax years beginning on or after January 1, 2016, and ending on or before December 31, 2018, the amount of credits available as an offset in a taxable year shall be limited to

the percentage calculated by the Tax Commission pursuant to the provisions of subsection L of this section.

J. No credit otherwise authorized by the provisions of this section may be claimed for any event, transaction, investment, expenditure or other act occurring on or after July 1, 2010, for which the credit would otherwise be allowable until the provisions of this subsection shall cease to be operative on July 1, 2012. Beginning July 1, 2012, the credit authorized by this section may be claimed for any event, transaction, investment, expenditure or other act occurring on or after July 1, 2010, according to the provisions of this section; provided, credits accrued during the period from July 1, 2010, through June 30, 2012, shall be limited to a period of two (2) taxable years. The credit shall be limited in each taxable year to fifty percent (50%) of the total amount of the accrued credit. Any tax credits which accrue during the period of July 1, 2010, through June 30, 2012, may not be claimed for any period prior to the taxable year beginning January 1, 2012. No credits which accrue during the period of July 1, 2010, through June 30, 2012, may be used to file an amended tax return for any taxable year prior to the taxable year beginning January 1, 2012.

K. Beginning January 1, 2017, except with respect to tax credits allowed from investment or job creation occurring prior to January 1, 2017, the credits authorized by this section shall not be allowed for investment or job creation in electric power generation by means of wind as described by the North American Industry Classification System, No. 221119.

L. For tax years beginning on or after January 1, 2016, and ending on or before December 31, 2018, the total amount of credits authorized by this section used to offset tax shall be adjusted annually to limit the annual amount of credits to Twenty-five Million Dollars (\$25,000,000.00). The Tax Commission shall annually calculate and publish a percentage by which the credits authorized by this section shall be reduced so the total amount of credits used to offset tax does not exceed Twenty-five Million Dollars (\$25,000,000.00) per year. The formula to be used for the percentage adjustment shall be Twenty-five Million Dollars (\$25,000,000.00) divided by the credits used to offset tax in the second preceding year.

M. Pursuant to subsection L of this section, in the event the total tax credits authorized by this section exceed Twenty-five Million Dollars (\$25,000,000.00) in any calendar year, the Tax Commission shall permit any excess over Twenty-five Million Dollars (\$25,000,000.00) but shall factor such excess into the percentage adjustment formula for subsequent years.

2. With respect to credits allowed pursuant to the provisions of subsections B, C, D, E and F of this section which are earned but not used, based upon activity occurring on or after January 1, 2014, the Oklahoma Tax Commission shall, at the taxpayer's election, refund directly to the taxpayer eighty-five percent (85%) of the face amount of such credits. The direct refund of the credits pursuant to this paragraph shall be available to all taxpayers, including, without limitation, pass-through entities and taxpayers subject to Section 2355 of this title. The amount of any direct refund of credits actually received at the eighty-five percent (85%) level by the taxpayer pursuant to this paragraph shall not be subject to the tax imposed by Section 2355 of this title. If the pass-through entity does not file a claim for a direct refund, the pass-through entity shall allocate the credit to one or more of the shareholders, partners or members of the pass-through entity; provided, the total of all credits refunded or allocated shall not exceed the amount of the credit or refund to which the pass-through entity is entitled. O. For tax years beginning on or after January 1, 2018, the total amount of credits authorized by this section used to offset tax or paid as a refund shall be adjusted annually to limit the annual amount of credits to Five Million Dollars (\$5,000,000.00). The Tax Commission shall annually calculate and publish a percentage by which the credits authorized by this section shall be reduced so the total amount of credits used to offset tax or paid as a refund does not exceed Five Million Dollars (\$5,000,000.00) per year. The formula to be used for the percentage adjustment shall be Five

Million Dollars (\$5,000,000.00) divided by the credits claimed in the second preceding year.

P. Pursuant to subsection O of this section, in the event the total tax credits authorized by this section exceed Five Million Dollars (\$5,000,000.00) in any calendar year, the Tax Commission shall permit any excess over Five Million Dollars (\$5,000,000.00) but shall factor such excess into the percentage adjustment formula for subsequent years.

Q. Any credits authorized by this section not used or unable to be used because of the provisions of subsection O or P of this section may be carried over until such credits are fully used.

§68-2357.22v1. Credit for investments in qualified clean-burning motor vehicle fuel property.

A. For tax years 2028 and before, there shall be allowed a one-time credit against the income tax imposed by Section 2355 of this title for investments in qualified clean-burning motor vehicle fuel property placed in service on or after January 1, 1991.

B. As used in this section, "qualified clean-burning motor vehicle fuel property" means:

1. Equipment installed to modify a motor vehicle which is propelled by gasoline or diesel fuel so that the vehicle may be propelled by compressed natural gas, liquefied natural gas, or liquefied petroleum gas. The equipment covered by this paragraph must:

- a. be new, not previously used to modify or retrofit any vehicle propelled by gasoline or diesel fuel and be installed by an alternative fuels equipment technician who is certified in accordance with the Alternative Fuels Technician Certification Act,
- b. meet all Federal Motor Vehicle Safety Standards set forth in 49 CFR 571, or

- c. for any commercial motor vehicle (CMV), follow the Federal Motor Carrier Safety Regulations or Oklahoma Intrastate Motor Carrier Regulations;

2. A motor vehicle originally equipped so that the vehicle may be propelled by compressed natural gas, or liquefied natural gas or liquefied petroleum gas but only to the extent of the portion of the basis of such motor vehicle which is attributable to the storage of such fuel, the delivery to the engine of such motor vehicle of such fuel, and the exhaust of gases from combustion of such fuel;

3. Property, not including a building and its structural components, which is:

- a. directly related to the delivery of compressed natural gas, liquefied natural gas or liquefied petroleum gas, or hydrogen for commercial purposes or for a fee or charge, into the fuel tank of a motor vehicle propelled by such fuel including compression equipment and storage tanks for such fuel at the point where such fuel is so delivered but only if such property is not used to deliver such fuel into any other type of storage tank or receptacle and such fuel is not used for any purpose other than to propel a motor vehicle, or
- b. a metered-for-fee, public access recharging system for motor vehicles propelled in whole or in part by electricity. The property covered by this paragraph must be new, and must not have been previously installed or used to refuel vehicles powered by compressed natural gas, liquefied natural gas or liquefied petroleum gas, hydrogen, or electricity.

Any property covered by this paragraph which is related to the delivery of hydrogen into the fuel tank of a motor vehicle shall only be eligible for tax years 2010 and 2023 through 2028;

4. Property which is directly related to the compression and delivery of natural gas from a private home or residence, for noncommercial purposes, into the fuel tank of a motor vehicle propelled by compressed natural gas. The property covered by this paragraph must be new and must not have been previously installed or used to refuel vehicles powered by natural gas; or

5. For tax years 2010 and 2023 through 2028, a motor vehicle originally equipped so that the vehicle may be propelled by a hydrogen fuel cell electric fueling system.

C. As used in this section, "motor vehicle" means a motor vehicle originally designed by the manufacturer to operate lawfully and principally on streets and highways.

D. The credit provided for in subsection A of this section shall be as follows:

1. For the qualified clean-burning motor vehicle fuel property defined in paragraphs 1, 2, or 5 of subsection B of this section, the amount of the credit shall be as follows based upon gross vehicle weight of the qualified vehicle:

- a. for vehicles up to or below six thousand (6,000) pounds, the credit shall be a maximum of Five Thousand Five Hundred Dollars (\$5,500.00),
- b. for vehicles between six thousand one (6,001) pounds to ten thousand (10,000) pounds, the credit shall be a maximum amount of Nine Thousand Dollars (\$9,000.00),
- c. for vehicles of ten thousand one (10,001) pounds, but not in excess of twenty-six thousand five hundred (26,500) pounds, the credit shall be a maximum amount of Twenty-six Thousand Dollars (\$26,000.00), and
- d. for vehicles in excess of twenty-six thousand five hundred one (26,501) pounds, the credit shall be a maximum amount of One Hundred Thousand Dollars (\$100,000.00);

2. For qualified clean-burning motor vehicle fuel property defined in paragraph 3 of subsection B of this section, a per-location credit of forty-five percent (45%) of the cost of the qualified clean-burning motor vehicle fuel property; and

3. For qualified clean-burning motor vehicle fuel property defined in paragraph 4 of subsection B of this section, a per-location credit of the lesser of fifty percent (50%) of the cost of the qualified clean-burning motor vehicle fuel property or Two Thousand Five Hundred Dollars (\$2,500.00).

E. In cases where no credit has been claimed pursuant to paragraph 1 of subsection D of this section by any prior owner and in which a motor vehicle is purchased by a taxpayer with qualified clean-burning motor vehicle fuel property installed by the manufacturer of such motor vehicle and the taxpayer is unable or elects not to determine the exact basis which is attributable to such property, the taxpayer may claim a credit in an amount not exceeding the lesser of ten percent (10%) of the cost of the motor vehicle or One Thousand Five Hundred Dollars (\$1,500.00).

F. If the tax credit allowed pursuant to subsection A of this section exceeds the amount of income taxes due or if there are no state income taxes due on the income of the taxpayer, the amount of the credit not used as an offset against the income taxes of a taxable year may be carried forward, in order, as a credit against subsequent income tax liability for a period not to exceed five (5) years. The tax credit authorized pursuant to the provisions of this section shall not be used to reduce the tax liability of the taxpayer to less than zero (0).

G. A husband and wife who file separate returns for a taxable year in which they could have filed a joint return may each claim

only one-half (1/2) of the tax credit that would have been allowed for a joint return.

H. The Oklahoma Tax Commission is herein empowered to promulgate rules by which the purpose of this section shall be administered including the power to establish and enforce penalties for violations thereof.

I. Notwithstanding the provisions of Section 2352 of this title, for the fiscal year beginning on July 1, 2014, through fiscal year 2023, the Tax Commission shall calculate an amount that equals five percent (5%) of the cost of qualified clean-burning motor vehicle fuel property as provided for in paragraph 1 of subsection D of this section for tax year 2012. For each subsequent fiscal year thereafter, the Tax Commission shall perform the same computation with respect to the second tax year preceding the beginning of each subsequent fiscal year. For fiscal year 2024, the Tax Commission shall calculate an amount that equals twelve percent (12%) of the credit for qualified clean-burning motor vehicle fuel property as provided in paragraph 1 of subsection D of this section for tax year 2021. For each subsequent fiscal year, the Tax Commission shall perform the same calculation for credits claimed in the second preceding tax year. The Tax Commission shall then transfer an amount equal to the amount calculated in this subsection from the revenue derived pursuant to the provisions of subsections A, B and E of Section 2355 of this title to the Compressed Natural Gas Conversion Safety and Regulation Fund created in Section 130.25 of Title 74 of the Oklahoma Statutes.

J. For the tax years 2020 through 2022, the total amount of credits authorized by this section used to offset tax shall be adjusted annually to limit the annual amount of credits to Twenty Million Dollars (\$20,000,000.00). The Tax Commission shall annually calculate and publish by the first day of the affected taxable year a percentage by which the credits authorized by this section shall be reduced so the total amount of credits used to offset tax does not exceed Twenty Million Dollars (\$20,000,000.00) per year. The formula to be used for the percentage adjustment shall be Twenty Million Dollars (\$20,000,000.00) divided by the credits claimed in the second preceding year, with respect to any changes to the future of the credit.

K. Pursuant to subsection J of this section, in the event the total tax credits authorized by this section exceed Twenty Million Dollars (\$20,000,000.00) in any calendar year, the Tax Commission shall permit any excess over Twenty Million Dollars (\$20,000,000.00) but shall factor such excess into the percentage adjustment formula for subsequent years with respect to any changes to the future of the credit.

L. Except as otherwise provided by this subsection, for the tax years 2023 through 2028, the total amount of credits authorized by

this section used to offset tax shall be adjusted annually to limit the annual amount of credits to:

1. Ten Million Dollars (\$10,000,000.00) for qualified clean burning fuel property propelled by compressed natural gas, liquefied natural gas, or liquefied petroleum gas, property related to the delivery of compressed natural gas, liquefied natural gas or liquefied petroleum gas, and property directly related to the compression and delivery of natural gas;

2. Ten Million Dollars (\$10,000,000.00) for property originally equipped so that the vehicle may be propelled by a hydrogen fuel cell electric fueling system and property directly related to the delivery of hydrogen; and

3. Ten Million Dollars (\$10,000,000.00) for property which is a metered-for-fee, public access recharging system for motor vehicles propelled in whole or in part by electricity.

If one of the tax credit pools as described in paragraphs 1 through 3 of this subsection is not fully utilized for the applicable tax year, the remaining balance of that pool shall be allocated to each of the two remaining tax credit pools in equal amounts. If two of the tax credit pools as described in paragraphs 1 through 3 of this subsection are not fully utilized for the applicable tax year, the remaining balances in both pools shall be added together and the sum of those amounts shall be allocated to the remaining tax credit pool.

The Tax Commission shall annually calculate and publish by the first day of the affected taxable year a percentage by which the credits authorized by this section shall be reduced so the total amount of credits used to offset tax does not exceed each of the limits provided in paragraphs 1 through 3 of this subsection. The formula to be used for the percentage adjustment shall be Ten Million Dollars (\$10,000,000.00) divided by the credits claimed in the second preceding year, with respect to any changes to the future of the credit.

M. Pursuant to subsection L of this section, in the event the tax credits authorized by this section exceed any of the limits provided in paragraphs 1 through 3 of subsection L of this section in any year, the Tax Commission shall permit any excess over Ten Million Dollars (\$10,000,000.00) but shall factor such excess into the percentage adjustment formula for subsequent years with respect to any changes to the future of the credit.

N. The Tax Commission shall notify the Office of the State Secretary of Energy and Environment at any time when the amount of claims for credits allowed pursuant to this section reaches eighty percent (80%) of the total annual limit provided in subsection J of this section. Upon such notification, the Secretary shall provide notice to the Governor, President Pro Tempore of the Senate and Speaker of the House of Representatives.

4. Property which is directly related to the compression and delivery of natural gas from a private home or residence, for noncommercial purposes, into the fuel tank of a motor vehicle propelled by compressed natural gas. The property covered by this paragraph must be new and must not have been previously installed or used to refuel vehicles powered by natural gas; or

5. For tax years 2010 and 2023 through 2028, a motor vehicle originally equipped so that the vehicle may be propelled by a hydrogen fuel cell electric fueling system.

C. As used in this section, "motor vehicle" means a motor vehicle originally designed by the manufacturer to operate lawfully and principally on streets and highways.

D. The credit provided for in subsection A of this section shall be as follows:

1. For the qualified clean-burning motor vehicle fuel property defined in paragraphs 1, 2, or 5 of subsection B of this section, the amount of the credit shall be as follows based upon gross vehicle weight of the qualified vehicle:

3. For qualified clean-burning motor vehicle fuel property defined in paragraph 4 of subsection B of this section, a per-location credit of the lesser of fifty percent (50%) of the cost of the qualified clean-burning motor vehicle fuel property or Two Thousand Five Hundred Dollars (\$2,500.00).

E. In cases where no credit has been claimed pursuant to paragraph 1 of subsection D of this section by any prior owner and in which a motor vehicle is purchased by a taxpayer with qualified clean-burning motor vehicle fuel property installed by the manufacturer of such motor vehicle and the taxpayer is unable or elects not to determine the exact basis which is attributable to such property, the taxpayer may claim a credit in an amount not exceeding the lesser of ten percent (10%) of the cost of the motor vehicle or One Thousand Five Hundred Dollars (\$1,500.00).

F. If the tax credit allowed pursuant to subsection A of this section exceeds the amount of income taxes due or if there are no state income taxes due on the income of the taxpayer, the amount of the credit not used as an offset against the income taxes of a taxable year may be carried forward, in order, as a credit against subsequent income tax liability for a period not to exceed five (5) years. The tax credit authorized pursuant to the provisions of this section shall not be used to reduce the tax liability of the taxpayer to less than zero (0).

G. A husband and wife who file separate returns for a taxable year in which they could have filed a joint return may each claim only one-half (1/2) of the tax credit that would have been allowed for a joint return.

I. Notwithstanding the provisions of Section 2352 of this title, for the fiscal year beginning on July 1, 2014, through fiscal year 2023, the Tax Commission shall calculate an amount that equals five percent (5%) of the cost of qualified clean-burning motor

For each subsequent fiscal year, the Tax Commission shall perform the same calculation for credits claimed in the second preceding tax year. The Tax Commission shall then transfer an amount equal to the amount calculated in this subsection from the revenue derived pursuant to the provisions of subsections A, B and E of Section 2355 of this title to the Compressed Natural Gas Conversion Safety and Regulation Fund created in Section 130.25 of Title 74 of the Oklahoma Statutes.

J. For the tax years 2020 through 2022, the total amount of credits authorized by this section used to offset tax shall be adjusted annually to limit the annual amount of credits to Twenty Million Dollars (\$20,000,000.00). The Tax Commission shall annually calculate and publish by the first day of the affected taxable year a percentage by which the credits authorized by this section shall be reduced so the total amount of credits used to offset tax does not exceed Twenty Million Dollars (\$20,000,000.00) per year. The formula to be used for the percentage adjustment shall be Twenty Million Dollars (\$20,000,000.00) divided by the credits claimed in the second preceding year, with respect to any changes to the future of the credit.

K. Pursuant to subsection J of this section, in the event the total tax credits authorized by this section exceed Twenty Million Dollars (\$20,000,000.00) in any calendar year, the Tax Commission shall permit any excess over Twenty Million Dollars (\$20,000,000.00) but shall factor such excess into the percentage adjustment formula for subsequent years with respect to any changes to the future of the credit.

2. Ten Million Dollars (\$10,000,000.00) for property originally equipped so that the vehicle may be propelled by a hydrogen fuel

cell electric fueling system and property directly related to the delivery of hydrogen; and

The Tax Commission shall annually calculate and publish by the first day of the affected taxable year a percentage by which the credits authorized by this section shall be reduced so the total amount of credits used to offset tax does not exceed each of the limits provided in paragraphs 1 through 3 of this subsection. The formula to be used for the percentage adjustment shall be Ten Million Dollars (\$10,000,000.00) divided by the credits claimed in the second preceding year, with respect to any changes to the future of the credit.

M. Pursuant to subsection L of this section, in the event the tax credits authorized by this section exceed any of the limits provided in paragraphs 1 through 3 of subsection L of this section in any year, the Tax Commission shall permit any excess over Ten Million Dollars (\$10,000,000.00) but shall factor such excess into the percentage adjustment formula for subsequent years with respect to any changes to the future of the credit.

N. The Tax Commission shall notify the Office of the State Secretary of Energy and Environment at any time when the amount of claims for credits allowed pursuant to this section reaches eighty percent (80%) of the total annual limit provided in subsection J of this section. Upon such notification, the Secretary shall provide notice to the Governor, President Pro Tempore of the Senate and Speaker of the House of Representatives.

§68-2357.25. Credit for investments in agricultural processing cooperatives, ventures and marketing associations.

A. Except as provided in subsection K of this section, there shall be allowed a credit against the tax imposed by Section 2355 of this title for direct investments by Oklahoma agricultural producers in Oklahoma producer-owned agricultural processing cooperatives, Oklahoma producer-owned agricultural processing ventures, or Oklahoma producer-owned agricultural processing marketing associations or Oklahoma-owned and -based corporations or partnerships created and designed to develop and advance the production, processing, handling and marketing of agricultural commodities grown, made or manufactured in Oklahoma. For calendar years 1997 and 1998, the amount of the credit shall be thirty percent (30%) of the amount of the investment by the Oklahoma agricultural producer in Oklahoma producer-owned agricultural processing cooperatives, ventures, or marketing associations.

B. For calendar year 2006, and all subsequent years, the credit percentage, not to exceed thirty percent (30%), shall be adjusted annually so that the total estimate of credits does not exceed Two Million Dollars (\$2,000,000.00) annually. The formula to be used for the percentage adjustment shall be thirty percent (30%) times Two Million Dollars (\$2,000,000.00) divided by the credits claimed in the preceding year. In no event shall the credit be claimed more than once by a taxpayer each taxable year.

C. In the event the total tax credits authorized by this section exceed Two Million Dollars (\$2,000,000.00) in any calendar year, the Oklahoma Tax Commission shall permit any excess over Two Million Dollars (\$2,000,000.00) but shall factor such excess into the percentage adjustment formula for subsequent years.

D. The credits authorized by this act may only be claimed for taxable years beginning after December 31, 2006, and ending before January 1, 2010. The provisions of this subsection shall not be applicable to any credits earned, but not utilized, prior to the effective date of this act.

E. If the credit allowed pursuant to this section exceeds the amount of state income taxes due or if there are no state income taxes due on the income of the taxpayer, the amount of credit allowed but not used in any taxable year may be carried forward as a credit against subsequent income tax liability for a period not exceeding six (6) years following the year in which the investment was originally made.

F. The Oklahoma Tax Commission shall have the authority to prescribe forms for purposes of claiming the credit authorized by this section. The Oklahoma Tax Commission shall be authorized to conduct an investigation of the relevant facts as may be required in

order to verify the eligibility of a claimant to receive a credit for any applicable income tax year.

G. 1. For any taxable year during which a taxpayer sells or otherwise disposes of the ownership interest for which a tax credit has previously been allowed to the taxpayer or for which a tax credit will be allowed to the taxpayer for the year in which the sale or other disposition of the ownership interest is made, the taxpayer shall be required to reduce the cost of the ownership interest in the Oklahoma producer-owned agricultural processing cooperative, venture, or marketing association, as reported upon the applicable income tax return, by the amount of the tax credit which has previously been granted or for which the taxpayer is claiming credit if the credit is allowable for the year during which the sale or other disposition is made.

2. If a taxpayer sells or otherwise disposes of an ownership interest in the Oklahoma producer-owned agricultural processing cooperative, venture, or marketing association for which the tax credit authorized by this section may be taken in a taxable year following the year in which the ownership interest in the Oklahoma producer-owned agricultural processing cooperative, venture, or marketing association is sold or otherwise disposed of, the credit authorized by this section shall be reduced to account for the prior sale or other disposition.

B. As used in this section, "eligible expenses" means amounts paid by an entity primarily engaged in the business of providing child care services for expenses incurred by the entity to comply with the standards promulgated by a national accrediting association recognized by the Department of Human Services and which would not have been incurred by the entity to comply with the Oklahoma Child Care Facilities Licensing Act.

§68-2357.28. Tax credit for investment in certain enterprises.

A. For tax years beginning after December 31, 1999, and ending before January 1, 2006, there shall be allowed to an investor making an eligible investment a credit against the tax imposed by Section 2355 of this title or Section 624 or 628 of Title 36 of the Oklahoma Statutes. The credit may be used in the payment of estimated tax payments for the tax imposed by Section 624 or 628 of Title 36 of the Oklahoma Statutes. The credit shall be in the amount as set forth in subsection F or subsection G of this section.

B. The amount of the credit shall be freely transferable to subsequent transferees.

C. As used in this section:

1. "Capitalization commitment" means a commitment by a local governmental entity or the beneficiary thereof or a private entity, whether by contract, letter agreement, terms sheet, resolution,

ordinance or indenture, to provide funds, personal property or real property. "Capitalization commitment" shall also mean, in circumstances limited to local governmental entities or the beneficiaries thereof, a moral obligation to provide future funds, personal property or real property. To provide funds, personal property or real property shall include but not be limited to providing funds, personal property or real property in the form of security or collateral to a financial lending institution in support of a revenue bond, financial obligation or other evidence of indebtedness issued by a local governmental entity;

2. "Consideration" means, but is not limited to, funds, personal property or real property and a capitalization commitment. The source of the funds or other consideration for the investment by one or more investors, whether borrowed or otherwise, is irrelevant to the determination of investment. The fact that the source of funds is from a financial lending institution is also irrelevant;

3. "Eligible investment" means an investment made during a period not earlier than January 1, 1999, and not later than December 31, 2002, in an establishment that:

- a. is headquartered in this state or is ultimately controlled by an entity headquartered in this state, and
- b. has been certified by the Tax Commission as meeting the following minimum qualifications:
 - (1) is included within the definition of "basic industry" as set forth in division (7) of subparagraph a of paragraph 1 of subsection A of Section 3603 of this title and has been preapproved by the Oklahoma Department of Commerce to receive incentive payments pursuant to the Oklahoma Quality Jobs Program Act. The Department shall establish a process for preapproval of applicants for the Oklahoma Quality Jobs Program Act for purposes of this division. The establishment shall agree to submit such information as may be required under this section and the Oklahoma Quality Jobs Program Act to allow the Tax Commission to determine the amount of the tax credit allowed pursuant to the provisions of this section and the amount of incentive payments allowed pursuant to the Oklahoma Quality Jobs Program Act for purposes of subsection K of this section,
 - (2) can demonstrate commitments from not fewer than twenty entities doing business in this state, with such entities having in the aggregate not fewer than two thousand (2,000) employees in this

state, to utilize the services of the establishment in providing nonstop air transportation from this state to either the west coast or the east coast of the continental United States, or both. Such commitments, at a minimum, may be in the form of letters of intent from authorized officers of such entities which demonstrate a best efforts intention to utilize such air transportation, and

- (3) has received, or its parent has received, in calendar year 2000, a capitalization commitment in the amount of Fifteen Million Dollars (\$15,000,000.00) or more from a local governmental entity, including, but not limited to, proceeds from the issuance of revenue bonds, financial obligations or other evidences of indebtedness. For purposes of this section and notwithstanding the provisions of Section 5063.4 of Title 74 of the Oklahoma Statutes or any other laws to the contrary, credit enhancement by the Oklahoma Development Finance Authority through the Oklahoma Credit Enhancement Reserve Fund up to a maximum of Ten Million Dollars (\$10,000,000.00) is hereby authorized, subject to the approval of the Executive and Legislative Bond Oversight Commissions pursuant to Section 695.8 of Title 62 of the Oklahoma Statutes.

The tax credit provided for in this section shall not be allowed or, if already claimed, shall be subject to recapture as to the initial investor or investors, with respect to any amount of an eligible investment made which is subsequently refunded or returned to any such investor. Any such recapture shall only apply as to that part of the tax credit as is associated with the investment refunded or returned.

Nothing in this subsection is intended to preclude an establishment from utilizing a wholly owned operating subsidiary to perform its flight and related operations to meet the requirements of this subsection;

4. "Financial lending institution" means a bank, credit union, savings and loan association, commercial finance company, governmental agency, including a local governmental entity, or other entity principally engaged in investment, finance or the extension of credit;

5. "Investment" means:

- a. consideration in exchange for "equity and near-equity", which means common stock, preferred stock, warrants or other rights to subscribe to stock or its

equivalent, or an interest in a partnership, or debt that is convertible into or entitles the holder to receive upon its exercise, common stock, preferred stock, royalty interest, or an interest in a partnership,

- b. consideration in exchange for "subordinated debt", which means indebtedness that is subordinated to other indebtedness of the issuer that has been issued or is to be issued by a financial lending institution, or
- c. in the event of a capitalization commitment in accordance with the provisions of division (3) of subparagraph b of paragraph 3 of this subsection, where a local governmental entity is issuing revenue bonds, financial obligations or other evidences of indebtedness, the receipt of the proceeds of revenue bonds, financial obligations or other evidences of indebtedness issued by a local governmental entity by a parent and the subsequent transfer of such proceeds to a subsidiary.

Actions of the establishment to use such investment as security for indebtedness, even as security for that of another party, or other uses, in compliance with loan covenants as may be part of the issuance of revenue bonds, financial obligations or other evidences of indebtedness, shall not affect its determination as investment. For purposes of this section, investment in an establishment which has, prior to February 1, 2002, been certified as an eligible establishment by the Oklahoma Tax Commission shall be treated as an eligible investment in such establishment for the purposes of this section with respect to investment made at any time prior to December 31, 2002;

6. "Investor" means one or more persons or entities making an investment and may include one or more persons or entities which wholly or partially own the establishment;

7. "Local governmental entity" includes, but is not limited to, a county, municipality or public authority or trust created pursuant to the provisions of Title 60 of the Oklahoma Statutes of which the state or a county or municipality or combination thereof, is a beneficiary, or a state public authority or trust;

8. "Parent" means an entity owning fifty-one percent (51%) or more of the establishment and providing fifty-one percent (51%) or more of the investment in the establishment; and

9. "Subsequently refunded or returned", when used in reference to an eligible investment, means an actual redemption by the establishment of the securities or other indicia of ownership in the establishment received by the investor from the investor's investment. The failure to allow the tax credits or the recapture of the tax credits shall not affect the validity of the tax credits

in the hands of a transferee of the initial investor or subsequent transferees. Provided, an investor to whom an eligible investment, or portion thereof, is subsequently refunded or returned shall reimburse the Tax Commission the amount of any credits claimed by a transferee with respect to any such amount.

D. The Oklahoma Tax Commission shall:

1. Certify, upon request of an authorized agent or representative of an establishment described by paragraph 3 of subsection C of this section, that the establishment for which the certification is sought meets the qualifications prescribed by subparagraphs a and b of paragraph 3 of subsection C of this section. The certification shall be in writing and signed by an authorized representative of the Tax Commission and, for purposes of determining qualifications of an establishment in which an investment may be eligible for the credit authorized by this section, shall be binding upon the Tax Commission; and

2. Issue a certificate to an investor that provides adequate documentation of qualification for the credit authorized by this section even if the credit may not be claimed until after the date upon which the certificate is requested. Upon issuance, the certificate shall be evidence that an investor or a transferee of the original tax credit claimant submitting the certificate, or a certified copy thereof, with the relevant tax return or other form, has the legal right to exercise the credit in order to reduce the relevant tax liability for the period authorized by this section.

E. Except as otherwise provided by subsection G of this section, the maximum amount of all eligible investments for which tax credits may be claimed under this section shall be Thirty Million Dollars (\$30,000,000.00). If more than one establishment has been certified by the Tax Commission pursuant to the provisions of subsection D of this section, the investors in the first such approved establishment shall be entitled to a credit based on their investment of the lesser of their eligible investment or Thirty Million Dollars (\$30,000,000.00). The investors in the second such approved establishment shall then be entitled to a credit based on their investment of the lesser of their eligible investment or the difference between the total eligible investments in previously approved establishments and Thirty Million Dollars (\$30,000,000.00). This same procedure will apply for all subsequently approved establishments. If the amount of eligible investments exceeds the amount upon which the tax credit may be claimed as provided herein, investors shall be allowed a share of the amount of the available tax credit in order of the dates of receipt of certification therefor by the Tax Commission pursuant to the provisions of paragraph 1 of subsection D of this section.

F. Except as otherwise provided by subsection G of this section, the amount of the tax credit allowed pursuant to the

provisions of subsection A of this section shall be deemed fully earned as of the date of the investment and shall be fully redeemable as follows:

Period for Which Tax Liability Determined	Credit Allowed
Tax year subsequent to year of eligible investment	10.6% of eligible investment
Second tax year subsequent to year of eligible investment	11.236% of eligible investment
Third tax year subsequent to year of eligible investment	11.910% of eligible investment
Fourth tax year subsequent to year of eligible investment	12.624% of eligible investment
Fifth tax year subsequent to year of eligible investment	13.381% of eligible investment

G. An investor or investors in an establishment that has been approved for eligible investment before February 1, 2002, pursuant to this section may receive tax credits for additional eligible investment in such establishment during the period February 1, 2002, to December 31, 2002. The maximum amount of such additional tax credits shall be Nine Million Dollars (\$9,000,000.00) with One Dollar (\$1.00) of tax credit for each dollar of eligible investment. The tax credits authorized by this subsection may not be used as to any tax obligation that is due and payable before July 1, 2003. For the fiscal year that begins July 1, 2003, and the fiscal years that begin July 1, 2004, and July 1, 2005, the amount of tax credits authorized by this subsection which may be used during each such fiscal year shall not exceed Three Million Dollars (\$3,000,000.00).

H. The amount of a tax credit allowed pursuant to the provisions of this section not used in payment of taxes due in the year in which such credit is allowed pursuant to subsection F or subsection G of this section may be used as a credit against subsequent tax liability of the investor or a subsequent transferee for a period not to exceed three (3) years from the year in which such credit is originally allowed.

I. The Tax Commission shall develop and issue appropriate forms and instructions to enable investors to claim the tax credit provided for in this section.

J. An establishment in which an eligible investment qualifies for a credit authorized by this section shall maintain a record of investment made in the establishment for the period beginning January 1, 1999, and ending December 31, 2002. The establishment

shall notify the Tax Commission not later than January 31, 2003, of the total investment amount for such period. Any such establishment which refunds or returns any amount of an eligible investment to the investor shall notify the Tax Commission in writing of the amount and recipient of such refunds or returns. The Tax Commission shall compute the maximum amount of credits available pursuant to this section based upon notification of the investment amount transmitted to the Tax Commission by the establishment.

K. An establishment in which eligible investments qualify for the tax credit authorized by this section shall not receive incentive payments pursuant to the Oklahoma Quality Jobs Program Act until the total of such incentive payments the establishment would otherwise receive exceeds the total amount of the credit authorized by this section as computed by the Tax Commission pursuant to subsection J of this section. The amount of incentive payments for any year which would otherwise be paid to the establishment shall be distributed as follows:

1. If the amount of such incentive payments equals or exceeds the amount of the tax credit for the year, the amount of such payments which is equal to the amount of the tax credit shall be apportioned as if collected from the tax imposed by Section 2355 of this title or Section 624 or 628 of Title 36 of the Oklahoma Statutes according to which tax the credit was claimed against. The amount of such payments which is in excess of the amount of the tax credit shall be retained by the Tax Commission to be paid as provided for in this paragraph for subsequent years for which the tax credit is allowed to the establishment;

2. If the amount of such incentive payments and any amount retained by the Tax Commission pursuant to the provisions of paragraph 1 of this subsection is less than the amount of the tax credit for the year, notwithstanding the provisions of Section 1727 of Title 69 of the Oklahoma Statutes, the Tax Commission shall withhold a portion of the taxes levied and collected pursuant to the provisions of paragraph 1 of subsection A of Section 500.4 of this title which would otherwise be paid over to the Department of Transportation by the Oklahoma Turnpike Authority pursuant to the provisions of paragraph (2) of subsection (d) of Section 1730 of Title 69 of the Oklahoma Statutes equal to the amount of the deficit. The Tax Commission shall apportion all funds collected pursuant to the provisions of this paragraph as if collected from the tax imposed by Section 2355 of this title or Section 624 or 628 of Title 36 of the Oklahoma Statutes according to the tax against which the credit was claimed; and

3. If any amount is withheld by or paid to the Tax Commission pursuant to the provisions of paragraph 2 of this subsection, the amount of incentive payments to be subsequently paid to the establishment shall be apportioned by the Tax Commission to the

Department of Transportation until such time as all amounts paid pursuant to the provisions of paragraph 2 of this subsection are repaid.

L. No establishment in which investments qualify for the credit allowed by this section shall be entitled to payment of any incentive payments accrued prior to the date authorized for the initial eligible investments as provided by this subsection.

M. Notwithstanding the provisions of this section, an establishment may, prior to the issuance of a tax credit with respect to the establishment pursuant to the provisions of this section, elect to receive incentive payments pursuant to the provisions of the Oklahoma Quality Jobs Program Act in lieu of allowing the tax credit provided for herein, in which case it shall so notify the Tax Commission in writing and the provisions of this section shall not be applicable.

N. Except as provided by subsection M of this section, no establishment defined by this section which would otherwise qualify for incentive payments pursuant to the provisions of the Oklahoma Quality Jobs Program Act may receive such incentive payments prior to January 1, 2001.

O. No establishment defined by this section which has made application to the Oklahoma Department of Commerce or which has executed any agreement with the Oklahoma Department of Commerce with respect to the receipt of incentive payments pursuant to the provisions of the Oklahoma Quality Jobs Program Act or which has received any incentive payment pursuant to the Oklahoma Quality Jobs Program Act prior to June 9, 1999, may be certified as an establishment for purposes of determining eligibility for the credit authorized by this section.

A. For tax years beginning after December 31, 2011, there shall be allowed a credit against the tax imposed by Section 2355 of this title for owners of residential real property whose primary residence was damaged or destroyed in a natural disaster occurring after December 31, 2011, for which a Presidential Major Disaster Declaration was issued or with respect to calendar year 2012 or calendar year 2013 for which a Presidential Major Disaster Declaration was not issued. The amount of the credit shall be the difference between the ad valorem property tax paid on such property and improvements in the year prior to the damage or destruction and

the amount of ad valorem property tax paid on the property and improvements the first year after the improvement is complete. For purposes of this credit, the amount of ad valorem property tax paid the first year after the improvement is complete shall be based on the same or similar square footage as the property which was damaged or destroyed. For purposes of this section, a "natural disaster" shall mean a weather or fire event for which a Presidential Major Disaster Declaration was issued; provided, however, that with respect to damage or destruction caused by a tornado occurring in calendar year 2012 or in calendar year 2013 for which a Presidential Major Disaster Declaration was not issued, "natural disaster" shall include such a tornadic occurrence.

B. The credit shall be a refundable credit. Eligible taxpayers shall be entitled to claim this credit for five (5) consecutive years. After the first year the credit is claimed, the amount of the credit shall be eighty percent (80%) of the previous year's credit. If the taxpayer has no income tax liability, or if the credit exceeds the amount of the income tax liability of the taxpayer, then the credit, or balance thereof, shall be paid out in the same manner and out of the same fund as refunds of income taxes are paid and so much of the fund as is necessary for such purposes is hereby appropriated.

C. In order to qualify for this credit:

1. The property shall have been damaged or destroyed by a natural disaster after December 31, 2011;

2. The property shall be within an area which has been declared a federal disaster area;

3. The property shall be the primary residence of the owner both prior to and after the natural disaster;

4. The owner shall have been granted a homestead exemption or be eligible to claim a homestead exemption both prior to and after the natural disaster;

5. The primary residence shall be repaired or rebuilt on the same property as it existed prior to the natural disaster; and

6. The primary residence shall be repaired or rebuilt and used as the primary residence no later than December 31, 2015, with respect to the calendar year 2012 or 2013 natural disaster and no later than thirty-six (36) months after the date of any natural disaster occurring on or after January 1, 2014.

D. The credit shall not be allowed if the property is transferred or title is changed or conveyed as defined in Section 2802.1 of this title. Any credit claimed and allowed prior to the transfer of the property or the change or conveyance of title shall not be affected.

E. The Oklahoma Tax Commission shall promulgate any necessary rules and develop any necessary forms to implement the provisions of this section.

§68-2357.32A. Electricity generated by zero-emission facilities - Tax credit.

A. Except as otherwise provided in subsection H of this section, for tax years beginning on or after January 1, 2003, but with respect to tax credits for eligible renewable resources described by subparagraphs b, c and d of paragraph 2 of this subsection, for tax years ending not later than December 31, 2021, there shall be allowed a credit against the tax imposed by Section 2355 of this title to a taxpayer for the taxpayer's production and sale to an unrelated person of electricity generated by zero-emission facilities located in this state. As used in this section:

1. "Electricity generated by zero-emission facilities" means electricity that is exclusively produced by any facility located in this state with a rated production capacity of one megawatt (1 mw) or greater, constructed for the generation of electricity and placed in operation after June 4, 2001, and with respect to electricity generated by wind for any facility placed in operation not later than July 1, 2017, which utilizes eligible renewable resources as its fuel source. The construction and operation of such facilities

shall result in no pollution or emissions that are or may be harmful to the environment, pursuant to a determination by the Department of Environmental Quality; and

2. "Eligible renewable resources" means resources derived from:

- a. wind,
- b. moving water,
- c. sun, or
- d. geothermal energy.

B. For facilities placed in operation on or after January 1, 2003, and before January 1, 2007, the amount of the credit for the electricity generated on or after January 1, 2003, but prior to January 1, 2004, shall be seventy-five one-hundredths of one cent (\$0.0075) for each kilowatt-hour of electricity generated by zero-emission facilities. For electricity generated on or after January 1, 2004, but prior to January 1, 2007, the amount of the credit shall be fifty one-hundredths of one cent (\$0.0050) per kilowatt-hour for electricity generated by zero-emission facilities. For electricity generated on or after January 1, 2007, but prior to January 1, 2012, the amount of the credit shall be twenty-five one-hundredths of one cent (\$0.0025) per kilowatt-hour of electricity generated by zero-emission facilities. For facilities placed in operation on or after January 1, 2007, and before January 1, 2021, or with respect to electricity generated by wind for any facility placed in operation not later than July 1, 2017, the amount of the credit for the electricity generated on or after January 1, 2007, shall be fifty one-hundredths of one cent (\$0.0050) for each kilowatt-hour of electricity generated by zero-emission facilities.

C. Credits may be claimed with respect to electricity generated on or after January 1, 2003, during a ten-year period following the date that the facility is placed in operation on or after June 4, 2001.

D. 1. For credits generated prior to January 1, 2014, if the credit allowed pursuant to this section exceeds the amount of income taxes due or if there are no state income taxes due on the income of the taxpayer, the amount of the credit allowed but not used in any tax year may be carried forward as a credit against subsequent income tax liability for a period not exceeding ten (10) years.

2. Except as provided by paragraph 3 of this subsection, for credits generated, but not used, on or after January 1, 2014, the Oklahoma Tax Commission shall refund, at the taxpayer's election, directly to the taxpayer eighty-five percent (85%) of the face amount of such credits. The direct refund of the credits pursuant to this paragraph shall be available to all taxpayers, including, without limitation, pass-through entities and taxpayers subject to Section 2355 of this title, but shall not be available to any entities falling within the provisions of subsection E of this section. The amount of any direct refund of credits actually

received at the eighty-five percent (85%) level by the taxpayer pursuant to this paragraph shall not be subject to the tax imposed by Section 2355 of this title. If the pass-through entity does not file a claim for a direct refund, the pass-through entity shall allocate the credit to one or more of the shareholders, partners or members of the pass-through entity; provided, the total of all credits refunded or allocated shall not exceed the amount of the credit or refund to which the pass-through entity is entitled. For the purposes of this paragraph, "pass-through entity" means a corporation that for the applicable tax year is treated as an S corporation under the Internal Revenue Code of 1986, as amended, general partnership, limited partnership, limited liability partnership, trust or limited liability company that for the applicable tax year is not taxed as a corporation for federal income tax purposes.

3. With respect to credits claimed for the first time on or after July 1, 2019, or the effective date of this act, whichever date last occurs, a taxpayer may irrevocably elect to not receive a direct refund for a given tax year. Any credits not directly refunded may be carried forward as a credit against subsequent income tax liability for a period not exceeding ten (10) years. If a taxpayer makes the irrevocable election to carry over credits for a given tax year pursuant to this paragraph, any credits remaining in the tenth year of carry forward shall be refunded at eighty-five percent (85%).

E. Any nontaxable entities, including agencies of the State of Oklahoma or political subdivisions thereof, shall be eligible to establish a transferable tax credit in the amount provided in subsection B of this section. Such tax credit shall be a property right available to a state agency or political subdivision of this state to transfer or sell to a taxable entity, whether individual or corporate, who shall have an actual or anticipated income tax liability under Section 2355 of this title. These tax credit provisions are authorized as an incentive to the State of Oklahoma, its agencies and political subdivisions to encourage the expenditure of funds in the development, construction and utilization of electricity from zero-emission facilities as defined in subsection A of this section.

F. For credits generated prior to January 1, 2014, the amount of the credit allowed, but not used, shall be freely transferable at any time during the ten (10) years following the year of qualification. Any person to whom or to which a tax credit is transferred shall have only such rights to claim and use the credit under the terms that would have applied to the entity by whom or by which the tax credit was transferred. The provisions of this subsection shall not limit the ability of a tax credit transferee to reduce the tax liability of the transferee, regardless of the actual

tax liability of the tax credit transferor, for the relevant taxable period. The transferor initially allowed the credit and any subsequent transferees shall jointly file a copy of any written transfer agreement with the Oklahoma Tax Commission within thirty (30) days of the transfer. The written agreement shall contain the name, address and taxpayer identification number or Social Security number of the parties to the transfer, the amount of the credit being transferred, the year the credit was originally allowed to the transferor, and the tax year or years for which the credit may be claimed. The Tax Commission may promulgate rules to permit verification of the validity and timeliness of the tax credit claimed upon a tax return pursuant to this subsection but shall not promulgate any rules that unduly restrict or hinder the transfers of such tax credit. The tax credit allowed by this section, upon the election of the taxpayer, may be claimed as a payment of tax, a prepayment of tax or a payment of estimated tax for purposes of Section 1803 or Section 2355 of this title.

G. For electricity generation produced and sold in a calendar year, the tax credit allowed by the provisions of this section, upon election of the taxpayer, shall be treated and may be claimed as a payment of tax, a prepayment of tax or a payment of estimated tax for purposes of Section 2355 of this title on or after July 1 of the following calendar year.

H. No credit otherwise authorized by the provisions of this section may be claimed for any event, transaction, investment, expenditure or other act occurring on or after July 1, 2010, for which the credit would otherwise be allowable until the provisions of this subsection shall cease to be operative on July 1, 2011. Beginning July 1, 2011, the credit authorized by this section may be claimed for any event, transaction, investment, expenditure or other act occurring on or after July 1, 2010, according to the provisions of this section. Any tax credits which accrue during the period of July 1, 2010, through June 30, 2011, may not be claimed for any period prior to the taxable year beginning January 1, 2012. No credits which accrue during the period of July 1, 2010, through June 30, 2011, may be used to file an amended tax return for any taxable year prior to the taxable year beginning January 1, 2012.

I. For tax years beginning on or after January 1, 2019, the total amount of credits authorized by this section with respect to eligible renewable resources described by subparagraphs b, c and d of paragraph 2 of subsection A of this section used to offset tax or paid as a refund shall be adjusted annually to limit the annual amount of credits to Five Hundred Thousand Dollars (\$500,000.00). The Tax Commission shall annually calculate and publish a percentage by which the credits authorized by subparagraphs b, c and d of paragraph 2 of subsection A of this section shall be reduced so the total amount of credits used to offset tax or paid as a refund does

not exceed Five Hundred Thousand Dollars (\$500,000.00) per year. The formula to be used for the percentage adjustment shall be Five Hundred Thousand Dollars (\$500,000.00) divided by the credits claimed in the second preceding year.

J. Pursuant to subsection I of this section, in the event the total tax credits authorized by this section with respect to eligible renewable resources described by subparagraphs b, c and d of paragraph 2 of subsection A of this section exceed Five Hundred Thousand Dollars (\$500,000.00) in any calendar year, the Tax Commission shall permit any excess over Five Hundred Thousand Dollars (\$500,000.00) but shall factor such excess into the percentage adjustment formula for subsequent years.

K. Any credits authorized by this section with respect to eligible renewable resources described by subparagraphs b, c and d of paragraph 2 of subsection A of this section not used or unable to be used because of the provisions of subsection I or J of this section may be carried over until such credits are fully used.

L. The Tax Commission shall prepare an annual report and submit it to the Office of the State Secretary of Energy and Environment, the Governor, the Speaker of the Oklahoma House of Representatives and the President Pro Tempore of the Oklahoma State Senate summarizing the amount of credits allowed pursuant to subparagraphs b, c and d of paragraph 2 of subsection A of this section. The Secretary of Energy and Environment shall submit recommendations for changes to the tax credit to the Governor, the Speaker of the Oklahoma House of Representatives and the President Pro Tempore of the Oklahoma State Senate within sixty (60) days after receipt of the report from the Oklahoma Tax Commission.

§68-2357.41. Tax credit for qualified rehabilitation expenditures - Certified historic structures.

A. Except as otherwise provided by subsection I of this section, for tax years beginning after December 31, 2000, there shall be allowed a credit against the tax imposed by Sections 2355 and 2370 of this title or that portion of the tax imposed by Section 624 or 628 of Title 36 of the Oklahoma Statutes that would otherwise have been apportioned to the General Revenue Fund for qualified rehabilitation expenditures incurred in connection with any certified historic hotel or historic newspaper plant building located in an increment or incentive district created pursuant to the Local Development Act or for qualified rehabilitation expenditures incurred after January 1, 2006, in connection with any certified historic structure.

B. The amount of the credit shall be one hundred percent (100%) of the federal rehabilitation credit provided for in Section 47 of Title 26 of the United States Code. The credit authorized by this section may be claimed at any time after the relevant local governmental body responsible for doing so issues a certificate of occupancy or other document that is a precondition for the applicable use of the building or structure that is the basis upon which the credit authorized by this section is claimed.

C. All requirements with respect to qualification for the credit authorized by Section 47 of Title 26 of the United States Code shall be applicable to the credit authorized by this section.

D. If the credit allowed pursuant to this section exceeds the amount of income taxes due or if there are no state income taxes due on the income of the taxpayer, the amount of the credit allowed but not used in any taxable year may be carried forward as a credit

against subsequent income tax liability for a period not exceeding ten (10) years following the qualified expenditures.

E. All rehabilitation work to which the credit may be applied shall be reviewed by the State Historic Preservation Office which will in turn forward the information to the National Park Service for certification in accordance with 36 C.F.R., Part 67. A certified historic structure may be rehabilitated for any lawful use or uses, including without limitation mixed uses and still retain eligibility for the credit provided for in this section.

F. The amount of the credit allowed for any credit claimed for a certified historic hotel or historic newspaper plant building or any certified historic structure, but not used, shall be freely transferable, in whole or in part, to subsequent transferees at any time during the five (5) years following the year of qualification. Any person to whom or to which a tax credit is transferred shall have only such rights to claim and use the credit under the terms that would have applied to the entity by whom or by which the tax credit was transferred. The provisions of this subsection shall not limit the ability of a tax credit transferee to reduce the tax liability of the transferee regardless of the actual tax liability of the tax credit transferor for the relevant taxable period. The transferor of the credit and the transferee shall jointly file a copy of the written credit transfer agreement with the Oklahoma Tax Commission within thirty (30) days of the transfer. Such filing of the written credit transfer agreement with the Oklahoma Tax Commission shall perfect such transfer. The written agreement shall contain the name, address and taxpayer identification number of the parties to the transfer, the amount of credit being transferred, the year the credit was originally allowed to the transferor, the tax year or years for which the credit may be claimed, and a representation by the transferor that the transferor has neither claimed for its own behalf nor conveyed such credits to any other transferee. The Tax Commission shall develop a standard form for use by subsequent transferees of the credit demonstrating eligibility for the transferee to reduce its applicable tax liabilities resulting from ownership of the credit. The Tax Commission shall develop a system to record and track the transfers of the credit and certify the ownership of the credit and may promulgate rules to permit verification of the validity and timeliness of a tax credit claimed upon a tax return pursuant to this subsection but shall not promulgate any rules which unduly restrict or hinder the transfers of such tax credit.

G. Notwithstanding any other provisions in this section, on or after January 1, 2009, if a credit allowed pursuant to this section which has been transferred is subsequently reduced as the result of an adjustment by the Internal Revenue Service, Tax Commission, or any other applicable government agency, only the transferor

originally allowed the credit and not any subsequent transferee of the credit, shall be held liable to repay any amount of disallowed credit.

H. As used in this section:

1. "Certified historic hotel or historic newspaper plant building" means a hotel or newspaper plant building that is listed on the National Register of Historic Places within thirty (30) months of taking the credit pursuant to this section.

2. "Certified historic structure" means a building that is listed on the National Register of Historic Places within thirty (30) months of taking the credit pursuant to this section or a building located in Oklahoma which is certified by the State Historic Preservation Office as contributing to the historic significance of a certified historic district listed on the National Register of Historic Places, or a local district that has been certified by the State Historic Preservation Office as eligible for listing in the National Register of Historic Places; and

3. "Qualified rehabilitation expenditures" means capital expenditures that qualify for the federal rehabilitation credit provided in Section 47 of Title 26 of the United States Code and that were paid after December 31, 2000. Qualified rehabilitation expenditures do not include capital expenditures for nonhistoric additions except an addition that is required by state or federal regulations that relate to safety or accessibility. In addition, qualified rehabilitation expenditures do not include expenditures related to the cost of acquisition of the property.

I. No credit otherwise authorized by the provisions of this section may be claimed for any event, transaction, investment, expenditure or other act occurring on or after July 1, 2010, for which the credit would otherwise be allowable until the provisions of this subsection shall cease to be operative on July 1, 2012. Beginning July 1, 2012, the credit authorized by this section may be claimed for any event, transaction, investment, expenditure or other act occurring on or after July 1, 2010, according to the provisions of this section. Any tax credits which accrue during the period of July 1, 2010, through June 30, 2012, may not be claimed for any period prior to the taxable year beginning January 1, 2012. No credits which accrue during the period of July 1, 2010, through June 30, 2012, may be used to file an amended tax return for any taxable year prior to the taxable year beginning January 1, 2012.

Added by Laws 2000, c. 351, § 8, emerg. eff. June 6, 2000. Amended by Laws 2001, c. 382, § 4, eff. Jan. 1, 2002; Laws 2003, c. 186, § 2, eff. Nov. 1, 2003; Laws 2005, c. 413, § 6, eff. §68-2357.42. Tax credit for investments by space transportation vehicle providers.

A. For tax years beginning after December 31, 2000, and ending before January 1, 2009, there shall be allowed to an investor making an eligible investment a credit against the tax imposed by Section 2355 or 2370 of this title or Section 624 or 628 of Title 36 of the Oklahoma Statutes. The credit may be used in the payment of estimated tax payments for the tax imposed by Section 624 or 628 of Title 36 of the Oklahoma Statutes. The credit shall be in the amount as set forth in subsection G of this section.

B. The amount of the credit shall be transferable to subsequent transferees.

C. As used in this section:

1. "Eligible investment" means an investment made during a period not earlier than January 1, 2001, and not later than December 31, 2003, in a qualified space transportation vehicle provider that:

- a. is headquartered in this state or is ultimately controlled by an entity headquartered in this state,
- b. has been certified by the Oklahoma Tax Commission as meeting the following minimum qualifications:

- (1) is included within the definition of "basic industry" as set forth in division (1) of subparagraph a of paragraph 1 of subsection A of Section 3603 of this title and has been preapproved by the Oklahoma Department of Commerce to receive incentive payments pursuant to the Oklahoma Quality Jobs Program Act or the Former Military Facility Development Act. The Department shall establish a process for preapproval of applicants for the Oklahoma Quality Jobs Program Act or the Former Military Facility Development Act for purposes of this division. The qualified space transportation vehicle provider shall agree to submit such information as may be required under this section and the Oklahoma Quality Jobs Program Act or the Former Military Facility Development Act to allow the Tax Commission to determine the amount of the tax credit allowed pursuant to the provisions of this section and the amount of incentive payments allowed pursuant to the Oklahoma Quality Jobs Program Act or the Former Military Facility Development Act for purposes of subsection K of this section,

- (2) has equity capitalization of not less than Ten Million Dollars (\$10,000,000.00), and
- (3) has received a commitment by a local governmental entity, whether by contract, letter agreement, terms sheet, resolution, ordinance or indenture, to provide funds, personal property or real property in the aggregate amount of Fifteen Million Dollars (\$15,000,000.00) or more which will be utilized by one or more qualified space transportation vehicle providers. For purposes of this division, such property may include personal or real property owned by a local governmental entity which has been leased to a state authority pursuant to a long-term lease or personal or real property which a local governmental entity has transferred to a state authority. If such property has been so transferred, the commitment required by this division may be satisfied if the state authority agrees in writing to make the property so transferred available for use by one or more qualified space transportation vehicle providers;

2. "Qualified space transportation vehicle provider" means any commercial provider organized under the laws of this state as a corporation or a limited liability company and engaged in designing, developing, producing, or operating commercial space transportation vehicles in this state;

3. "Space transportation vehicle" includes all types of vehicles or orbital or suborbital spacecraft, whether now in existence, developed in the future, or currently under design, development, construction, reconstruction, or reconditioning, constructed in this state and owned by a qualified space transportation vehicle provider, for the purpose of operating in, or transporting a payload to, from, or within, outer space, or in suborbital trajectory, and includes any component of such vehicle or spacecraft not specifically designed or adapted for a payload; and

4. "Subsequently refunded or returned", when used in reference to an eligible investment, means an actual redemption by the qualified space transportation vehicle provider of the securities or other indicia of ownership in the qualified space transportation vehicle provider received by the investor from the investor's investment. The failure to allow the tax credits or the recapture of the tax credits shall not affect the validity of the tax credits in the hands of a transferee of the initial investor or subsequent transferees. Provided, an investor to whom an eligible investment, or portion thereof, is subsequently refunded or returned shall

reimburse the Tax Commission the amount of any credits claimed by a transferee with respect to any such amount.

D. The tax credit provided for in this section shall not be allowed or, if already claimed, shall be subject to recapture as to the initial investor or investors with respect to any amount of an eligible investment made which is subsequently refunded or returned to such investor. Further, a tax credit shall not be allowed to an investor making an eligible investment in a qualified space transportation vehicle provider or shall be subject to recapture as to the initial investor or investors if previously allowed if the qualified space transportation vehicle provider in which the investment was made fails to make use of such funds or property within three (3) years of the date the tax credit was allowed. Any recapture under this subsection shall only apply as to that part of the tax credit as is associated with the amount of the investment which is subsequently refunded or returned or which is not utilized.

E. The Tax Commission shall:

1. Certify, upon request of an authorized agent or representative of a qualified space transportation vehicle provider, that the qualified space transportation vehicle provider for which the certification is sought meets the qualifications prescribed by subparagraph b of paragraph 1 of subsection C of this section. The certification shall be in writing and signed by an authorized representative of the Tax Commission and, for purposes of determining qualifications of a qualified space transportation vehicle provider in which an investment may be eligible for the credit authorized by this section, shall be binding upon the Tax Commission; and

2. Issue a certificate to an investor that provides adequate documentation of qualification for the credit authorized by this section even if the credit may not be claimed until after the date upon which the certificate is requested. Upon issuance, the certificate shall be evidence that an investor or a transferee of the original tax credit claimant submitting the certificate, or a certified copy thereof, with the relevant tax return or other form, has the legal right to exercise the credit in order to reduce the relevant tax liability for the period authorized by this section.

F. The maximum amount of all eligible investments for which tax credits may be claimed under this section shall be Thirty Million Dollars (\$30,000,000.00). If more than one qualified space transportation vehicle provider has been certified by the Tax Commission pursuant to the provisions of subsection E of this section, the investors in the first such approved qualified space transportation vehicle provider shall be entitled to a credit based on their investment of the lesser of their eligible investment or Thirty Million Dollars (\$30,000,000.00). The investors in the second such approved qualified space transportation vehicle provider

shall then be entitled to a credit based on their investment of the lesser of their eligible investment or the difference between the total eligible investments in previously approved qualified space transportation vehicle providers and Thirty Million Dollars (\$30,000,000.00). This same procedure will apply for all subsequently approved qualified space transportation vehicle providers. If the amount of eligible investments exceeds the amount upon which the tax credit may be claimed as provided herein, investors shall be allowed a share of the amount of the available tax credit in order of the dates of receipt of certification therefor by the Tax Commission pursuant to the provisions of paragraph 1 of subsection E of this section.

G. The amount of the tax credit allowed pursuant to the provisions of subsection A of this section shall be deemed fully earned as of the date of the investment and shall be fully redeemable as follows:

Period for Which Tax Liability Determined	Credit Allowed
Tax year subsequent to year of eligible investment	10.6% of eligible investment
Second tax year subsequent to year of eligible investment	11.236% of eligible investment
Third tax year subsequent to year of eligible investment	11.910% of eligible investment
Fourth tax year subsequent to year of eligible investment	12.624% of eligible investment
Fifth tax year subsequent to year of eligible investment	13.381% of eligible investment

H. The amount of a tax credit allowed pursuant to the provisions of this section not used in payment of taxes due in the year in which such credit is allowed pursuant to subsection G of this section may be used as a credit against subsequent tax liability of the investor or a subsequent transferee for a period not to exceed three (3) years from the year in which such credit is originally allowed.

I. The Tax Commission shall develop and issue appropriate forms and instructions to enable investors to claim the tax credit provided for in this section.

J. A qualified space transportation vehicle provider in which an eligible investment qualifies for a credit authorized by this section shall maintain a record of investment made in the qualified space transportation vehicle provider for the period beginning

January 1, 2001, and ending December 31, 2003. The qualified space transportation vehicle provider shall notify the Tax Commission not later than January 31, 2004, of the total investment amount for such period. Any such qualified space transportation vehicle provider which refunds or returns any amount of an eligible investment to the investor shall notify the Tax Commission in writing of the amount and recipient of such refunds or returns. The Tax Commission shall compute the maximum amount of credits available pursuant to this section based upon notification of the investment amount transmitted to the Tax Commission by the qualified space transportation vehicle provider.

K. A qualified space transportation vehicle provider in which eligible investments qualify for the tax credit authorized by this section shall not receive incentive payments pursuant to the Oklahoma Quality Jobs Program Act or the Former Military Facility Development Act until the total of such incentive payments the qualified space transportation vehicle provider would otherwise receive exceeds the total amount of the credit authorized by this section as computed by the Tax Commission pursuant to subsection J of this section. The amount of incentive payments for any year which would otherwise be paid to the qualified space transportation vehicle provider shall be distributed as follows:

1. If the amount of such incentive payments equals or exceeds the amount of the tax credit for the year, the amount of such payments which is equal to the amount of the tax credit shall be apportioned as if collected from the tax imposed by Section 2355 or 2370 of this title or Section 624 or 628 of Title 36 of the Oklahoma Statutes according to the tax against which the credit was claimed. The amount of such payments which is in excess of the amount of the tax credit shall be retained by the Tax Commission to be paid as provided for in this paragraph for subsequent years for which the tax credit is allowed to the qualified space transportation vehicle provider;

2. If the amount of such incentive payments and any amount retained by the Tax Commission pursuant to the provisions of paragraph 1 of this subsection is less than the amount of the tax credit for the year, notwithstanding the provisions of Section 1727 of Title 69 of the Oklahoma Statutes, the Tax Commission shall withhold a portion of the taxes levied and collected pursuant to the provisions of paragraph 1 of subsection A of Section 500.4 of this title which would otherwise be paid to the Department of Transportation by the Oklahoma Transportation Authority pursuant to the provisions of paragraph (2) of subsection (d) of Section 1730 of Title 69 of the Oklahoma Statutes equal to the amount of the deficit.

The Tax Commission shall apportion all funds collected pursuant to the provisions of this paragraph as if collected from the tax

imposed by Section 2355 or 2370 of this title or Section 624 or 628 of Title 36 of the Oklahoma Statutes according to the tax against which the credit was claimed; and

3. If any amount is withheld by or paid to the Tax Commission pursuant to the provisions of paragraph 2 of this subsection, the amount of incentive payments to be subsequently paid to the qualified space transportation vehicle provider shall be apportioned by the Tax Commission to the Department of Transportation until such time as all amounts paid pursuant to the provisions of paragraph 2 of this subsection are repaid.

L. A qualified space transportation vehicle provider in which investments qualify for the credit allowed by this section shall not be entitled to payment of any incentive payments accrued prior to January 1, 2001, under the Oklahoma Quality Jobs Program Act or the Former Military Facility Development Act.

M. Notwithstanding the provisions of this section, a qualified space transportation vehicle provider may, prior to the issuance of a tax credit with respect to the qualified space transportation vehicle provider pursuant to the provisions of this section, elect to receive incentive payments pursuant to the provisions of the Oklahoma Quality Jobs Program Act or the Former Military Facility Development Act in lieu of allowing the tax credit provided for herein, in which case it shall so notify the Tax Commission in writing and the provisions of this section shall not be applicable.

N. The net income or loss remaining after the separate allocation in paragraph 4 of this subsection, being that which is derived from a unitary business enterprise, shall be apportioned to this state on the basis of the arithmetical average of three factors consisting of property, payroll and sales or gross revenue enumerated as subparagraphs a, b and c of this paragraph. Net income or loss as used in this paragraph includes that derived from patent or copyright royalties, purchase discounts, and interest on accounts receivable relating to or arising from a business activity, the income from which is apportioned pursuant to this subsection, including the sale or other disposition of such property and any

other property used in the unitary enterprise. Deductions used in computing such net income or loss shall not include taxes based on or measured by income. Provided, for corporations whose property for purposes of the tax imposed by Section 2355 of this title has an initial investment cost equaling or exceeding Two Hundred Million Dollars (\$200,000,000.00) and such investment is made on or after July 1, 1997, or for corporations which expand their property or facilities in this state and such expansion has an investment cost equaling or exceeding Two Hundred Million Dollars (\$200,000,000.00) over a period not to exceed three (3) years, and such expansion is commenced on or after January 1, 2000, the three factors shall be apportioned with property and payroll, each comprising twenty-five percent (25%) of the apportionment factor and sales comprising fifty percent (50%) of the apportionment factor. The apportionment factors shall be computed as follows:

- a. The property factor is a fraction, the numerator of which is the average value of the taxpayer's real and tangible personal property owned or rented and used in this state during the tax period and the denominator of which is the average value of all the taxpayer's real and tangible personal property everywhere owned or rented and used during the tax period.
 - (1) Property, the income from which is separately allocated in paragraph 4 of this subsection, shall not be included in determining this fraction. The numerator of the fraction shall include a portion of the investment in transportation and other equipment having no fixed situs, such as rolling stock, buses, trucks and trailers, including machinery and equipment carried thereon, airplanes, salespersons' automobiles and other similar equipment, in the proportion that miles traveled in this state by such equipment bears to total miles traveled,
 - (2) Property owned by the taxpayer is valued at its original cost. Property rented by the taxpayer is valued at eight times the net annual rental rate. Net annual rental rate is the annual rental rate paid by the taxpayer, less any annual rental rate received by the taxpayer from subrentals,
 - (3) The average value of property shall be determined by averaging the values at the beginning and ending of the tax period but the Oklahoma Tax Commission may require the averaging of monthly values during the tax period if reasonably

- required to reflect properly the average value of the taxpayer's property;
- b. The payroll factor is a fraction, the numerator of which is the total compensation for services rendered in the state during the tax period, and the denominator of which is the total compensation for services rendered everywhere during the tax period. "Compensation", as used in this subsection, means those paid-for services to the extent related to the unitary business but does not include officers' salaries, wages and other compensation.
- (1) In the case of a transportation enterprise, the numerator of the fraction shall include a portion of such expenditure in connection with employees operating equipment over a fixed route, such as railroad employees, airline pilots, or bus drivers, in this state only a part of the time, in the proportion that mileage traveled in this state bears to total mileage traveled by such employees,
- (2) In any case the numerator of the fraction shall include a portion of such expenditures in connection with itinerant employees, such as traveling salespersons, in this state only a part of the time, in the proportion that time spent in this state bears to total time spent in furtherance of the enterprise by such employees;
- c. The sales factor is a fraction, the numerator of which is the total sales or gross revenue of the taxpayer in this state during the tax period, and the denominator of which is the total sales or gross revenue of the taxpayer everywhere during the tax period. "Sales", as used in this subsection, does not include sales or gross revenue which are separately allocated in paragraph 4 of this subsection.
- (1) Sales of tangible personal property have a situs in this state if the property is delivered or shipped to a purchaser other than the United States government, within this state regardless of the FOB point or other conditions of the sale; or the property is shipped from an office, store, warehouse, factory or other place of storage in this state and (a) the purchaser is the United States government or (b) the taxpayer is not doing business in the state of the destination of the shipment.

- (2) In the case of a railroad or interurban railway enterprise, the numerator of the fraction shall not be less than the allocation of revenues to this state as shown in its annual report to the Corporation Commission.
- (3) In the case of an airline, truck or bus enterprise or freight car, tank car, refrigerator car or other railroad equipment enterprise, the numerator of the fraction shall include a portion of revenue from interstate transportation in the proportion that interstate mileage traveled in this state bears to total interstate mileage traveled.
- (4) In the case of an oil, gasoline or gas pipeline enterprise, the numerator of the fraction shall be either the total of traffic units of the enterprise within this state or the revenue allocated to this state based upon miles moved, at the option of the taxpayer, and the denominator of which shall be the total of traffic units of the enterprise or the revenue of the enterprise everywhere as appropriate to the numerator. A "traffic unit" is hereby defined as the transportation for a distance of one (1) mile of one (1) barrel of oil, one (1) gallon of gasoline or one thousand (1,000) cubic feet of natural or casinghead gas, as the case may be.
- (5) In the case of a telephone or telegraph or other communication enterprise, the numerator of the fraction shall include that portion of the interstate revenue as is allocated pursuant to the accounting procedures prescribed by the Federal Communications Commission; provided that in respect to each corporation or business entity required by the Federal Communications Commission to keep its books and records in accordance with a uniform system of accounts prescribed by such Commission, the intrastate net income shall be determined separately in the manner provided by such uniform system of accounts and only the interstate income shall be subject to allocation pursuant to the provisions of this subsection. Provided further, that the gross revenue factors shall be those as are determined pursuant to the accounting procedures prescribed by the Federal Communications Commission.

In any case where the apportionment of the three factors prescribed in this paragraph attributes to this state a portion of net income of the enterprise out of all appropriate proportion to the property owned and/or business transacted within this state, because of the fact that one or more of the factors so prescribed are not employed to any appreciable extent in furtherance of the enterprise; or because one or more factors not so prescribed are employed to a considerable extent in furtherance of the enterprise; or because of other reasons, the Tax Commission is empowered to permit, after a showing by taxpayer that an excessive portion of net income has been attributed to this state, or require, when in its judgment an insufficient portion of net income has been attributed to this state, the elimination, substitution, or use of additional factors, or reduction or increase in the weight of such prescribed factors. Provided, however, that any such variance from such prescribed factors which has the effect of increasing the portion of net income attributable to this state must not be inherently arbitrary, and application of the recomputed final apportionment to the net income of the enterprise must attribute to this state only a reasonable portion thereof.

6. For calendar years 1997 and 1998, the owner of a new or expanded agricultural commodity processing facility in this state may exclude from Oklahoma taxable income, or in the case of an individual, the Oklahoma adjusted gross income, fifteen percent (15%) of the investment by the owner in the new or expanded agricultural commodity processing facility. For calendar year 1999, and all subsequent years, the percentage, not to exceed fifteen percent (15%), available to the owner of a new or expanded agricultural commodity processing facility in this state claiming the exemption shall be adjusted annually so that the total estimated reduction in tax liability does not exceed One Million Dollars (\$1,000,000.00) annually. The Tax Commission shall promulgate rules for determining the percentage of the investment which each eligible taxpayer may exclude. The exclusion provided by this paragraph shall be taken in the taxable year when the investment is made. In the event the total reduction in tax liability authorized by this paragraph exceeds One Million Dollars (\$1,000,000.00) in any calendar year, the Tax Commission shall permit any excess over One Million Dollars (\$1,000,000.00) and shall factor such excess into the percentage for subsequent years. Any amount of the exemption permitted to be excluded pursuant to the provisions of this paragraph but not used in any year may be carried forward as an exemption from income pursuant to the provisions of this paragraph for a period not exceeding six (6) years following the year in which the investment was originally made.

For purposes of this paragraph:

- a. "Agricultural commodity processing facility" means buildings, structures, fixtures and improvements used or operated primarily for the processing or production of marketable products from agricultural commodities. The term shall also mean a dairy operation that requires a depreciable investment of at least Two Hundred Fifty Thousand Dollars (\$250,000.00) and which produces milk from dairy cows. The term does not include a facility that provides only, and nothing more than, storage, cleaning, drying or transportation of agricultural commodities, and
- b. "Facility" means each part of the facility which is used in a process primarily for:
 - (1) the processing of agricultural commodities, including receiving or storing agricultural commodities, or the production of milk at a dairy operation,
 - (2) transporting the agricultural commodities or product before, during or after the processing, or
 - (3) packaging or otherwise preparing the product for sale or shipment.

7. Despite any provision to the contrary in paragraph 3 of this subsection, for taxable years beginning after December 31, 1999, in the case of a taxpayer which has a farming loss, such farming loss shall be considered a net operating loss carryback in accordance with and to the extent of the Internal Revenue Code, 26 U.S.C., Section 172(b)(G). However, the amount of the net operating loss carryback shall not exceed the lesser of:

- a. Sixty Thousand Dollars (\$60,000.00), or
- b. the loss properly shown on Schedule F of the Internal Revenue Service Form 1040 reduced by one-half (1/2) of the income from all other sources other than reflected on Schedule F.

8. In taxable years beginning after December 31, 1995, all qualified wages equal to the federal income tax credit set forth in 26 U.S.C.A., Section 45A, shall be deducted from taxable income. The deduction allowed pursuant to this paragraph shall only be permitted for the tax years in which the federal tax credit pursuant to 26 U.S.C.A., Section 45A, is allowed. For purposes of this paragraph, "qualified wages" means those wages used to calculate the federal credit pursuant to 26 U.S.C.A., Section 45A.

9. In taxable years beginning after December 31, 2005, an employer that is eligible for and utilizes the Safety Pays OSHA Consultation Service provided by the Oklahoma Department of Labor shall receive an exemption from taxable income in the amount of One

Thousand Dollars (\$1,000.00) for the tax year that the service is utilized.

10. For taxable years beginning on or after January 1, 2010, there shall be added to Oklahoma taxable income an amount equal to the amount of deferred income not included in such taxable income pursuant to Section 108(i)(1) of the Internal Revenue Code of 1986 as amended by Section 1231 of the American Recovery and Reinvestment Act of 2009 (P.L. No. 111-5). There shall be subtracted from Oklahoma taxable income an amount equal to the amount of deferred income included in such taxable income pursuant to Section 108(i)(1) of the Internal Revenue Code by Section 1231 of the American Recovery and Reinvestment Act of 2009 (P.L. No. 111-5).

11. For taxable years beginning on or after January 1, 2019, there shall be subtracted from Oklahoma taxable income or adjusted gross income any item of income or gain, and there shall be added to Oklahoma taxable income or adjusted gross income any item of loss or deduction that in the absence of an election pursuant to the provisions of the Pass-Through Entity Tax Equity Act of 2019 would be allocated to a member or to an indirect member of an electing pass-through entity pursuant to Section 2351 et seq. of this title, if (i) the electing pass-through entity has accounted for such item in computing its Oklahoma net entity income or loss pursuant to the provisions of the Pass-Through Entity Tax Equity Act of 2019, and (ii) the total amount of tax attributable to any resulting Oklahoma net entity income has been paid. The Oklahoma Tax Commission shall promulgate rules for the reporting of such exclusion to direct and indirect members of the electing pass-through entity. As used in this paragraph, "electing pass-through entity", "indirect member", and "member" shall be defined in the same manner as prescribed by Section 2355.1P-2 of this title. Notwithstanding the application of this paragraph, the adjusted tax basis of any ownership interest in a pass-through entity for purposes of Section 2351 et seq. of this title shall be equal to its adjusted tax basis for federal income tax purposes.

12. For tax year 2025 and subsequent tax years, an employer providing paid leave to an employee for the purpose of volunteering as a poll worker with a county election board in this state shall receive an exemption from taxable income in the amount of One Hundred Dollars (\$100.00) for each day of leave provided in the tax year. The employer shall provide documentation from the applicable county election board showing the employee volunteered, upon request of the Oklahoma Tax Commission.

B. 1. The taxable income of any corporation shall be further adjusted to arrive at Oklahoma taxable income, except those corporations electing treatment as provided in subchapter S of the Internal Revenue Code, 26 U.S.C., Section 1361 et seq., and Section 2365 of this title, deductions pursuant to the provisions of the

Accelerated Cost Recovery System as defined and allowed in the Economic Recovery Tax Act of 1981, Public Law 97-34, 26 U.S.C., Section 168, for depreciation of assets placed into service after December 31, 1981, shall not be allowed in calculating Oklahoma taxable income. Such corporations shall be allowed a deduction for depreciation of assets placed into service after December 31, 1981, in accordance with provisions of the Internal Revenue Code, 26 U.S.C., Section 1 et seq., in effect immediately prior to the enactment of the Accelerated Cost Recovery System. The Oklahoma tax basis for all such assets placed into service after December 31, 1981, calculated in this section shall be retained and utilized for all Oklahoma income tax purposes through the final disposition of such assets.

Notwithstanding any other provisions of the Oklahoma Income Tax Act, Section 2351 et seq. of this title, or of the Internal Revenue Code to the contrary, this subsection shall control calculation of depreciation of assets placed into service after December 31, 1981, and before January 1, 1983.

For assets placed in service and held by a corporation in which the Accelerated Cost Recovery System was previously disallowed, an adjustment to taxable income is required in the first taxable year beginning after December 31, 1982, to reconcile the basis of such assets to the basis allowed in the Internal Revenue Code. The purpose of this adjustment is to equalize the basis and allowance for depreciation accounts between that reported to the Internal Revenue Service and that reported to this state.

2. For tax years beginning on or after January 1, 2009, and ending on or before December 31, 2009, there shall be added to Oklahoma taxable income any amount in excess of One Hundred Seventy-five Thousand Dollars (\$175,000.00) which has been deducted as a small business expense under Internal Revenue Code, Section 179 as provided in the American Recovery and Reinvestment Act of 2009.

C. 1. For taxable years beginning after December 31, 1987, the taxable income of any corporation shall be further adjusted to arrive at Oklahoma taxable income for transfers of technology to qualified small businesses located in this state. Such transferor corporation shall be allowed an exemption from taxable income of an amount equal to the amount of royalty payment received as a result of such transfer; provided, however, such amount shall not exceed ten percent (10%) of the amount of gross proceeds received by such transferor corporation as a result of the technology transfer. Such exemption shall be allowed for a period not to exceed ten (10) years from the date of receipt of the first royalty payment accruing from such transfer. No exemption may be claimed for transfers of technology to qualified small businesses made prior to January 1, 1988.

Such corporations, estates or trusts shall be allowed a deduction from Oklahoma taxable income for the amount of qualifying gains receiving capital treatment earned by the corporation, estate or trust during the taxable year and included in the federal taxable income of such corporation, estate or trust.

2. As used in this subsection:

- a. "qualifying gains receiving capital treatment" means the amount of net capital gains, as defined in Section 1222(11) of the Internal Revenue Code, included in the federal income tax return of the corporation, estate or trust that result from:
 - (1) the sale of real property or tangible personal property located within this state that has been directly or indirectly owned by the corporation, estate or trust for a holding period of at least five (5) years prior to the date of the transaction from which such net capital gains arise,
 - (2) the sale of stock or on the sale of an ownership interest in an Oklahoma company, limited liability company, or partnership where such stock or ownership interest has been directly or

- indirectly owned by the corporation, estate or trust for a holding period of at least three (3) years prior to the date of the transaction from which the net capital gains arise, or

- (1) With respect to sales of real property or tangible personal property located within this state, the deduction described in this subsection shall not apply unless the pass-through entity that makes the sale has held the property for not less than five (5) uninterrupted years prior to the date of the transaction that created the capital gain, and each pass-through entity included in the chain of ownership has been a member, partner, or shareholder of the pass-through entity in the tier immediately below it for an uninterrupted period of not less than five (5) years.

- (2) With respect to sales of stock or ownership interest in or sales of all or substantially all of the assets of an Oklahoma company, limited liability company, or partnership, the deduction described in this subsection shall not apply unless the pass-through entity that makes the sale has held the stock or ownership interest or the assets for not less than three (3) uninterrupted years prior to the date of the transaction that created the capital gain, and each pass-through entity included in the chain of ownership has been a member, partner or shareholder of the pass-through entity in the tier immediately below it for an uninterrupted period of not less than three (3) years.

Oklahoma adjusted gross income shall be increased by any amounts paid for motor vehicle excise taxes which were deducted as allowed by the Internal Revenue Code.

f. For taxable years beginning on or after January 1, 2010, and ending on December 31, 2016, in the case of individuals who use the standard deduction in determining taxable income, there shall be added or

In the case of resident and part-year resident individuals having adjusted gross income from sources both within and without the state, the itemized or standard deductions and personal exemptions shall be reduced to an amount which is the same portion of the total thereof as Oklahoma adjusted gross income is of adjusted gross income. To the extent itemized deductions include allowable moving expense, proration of moving expense shall not be required or permitted but allowable moving expense shall be fully deductible for those taxpayers moving within or into this state and no part of moving expense shall be deductible for those taxpayers moving without or out of this state. All other itemized or standard deductions and personal exemptions shall be subject to proration as provided by law.
- b. For taxable years beginning on or after January 1, 2018, the net amount of itemized deductions allowable on an Oklahoma income tax return, subject to the provisions of paragraph 24 of this subsection, shall not exceed Seventeen Thousand Dollars (\$17,000.00). 4. A resident individual with a physical disability constituting a substantial handicap to employment may deduct from Oklahoma adjusted gross income such expenditures to modify a motor vehicle, home or workplace as are necessary to compensate for his or her handicap. A veteran certified by the Department of Veterans Affairs of the federal government as having a service-connected disability shall be conclusively presumed to be an individual with a physical disability constituting a substantial handicap to employment. The Tax Commission shall promulgate rules containing a list of combinations of common disabilities and modifications which may be presumed to qualify for this deduction. The Tax Commission shall prescribe necessary requirements for verification.

5. a. Before July 1, 2010, the first One Thousand Five Hundred Dollars (\$1,500.00) received by any person from the United States as salary or compensation in any form, other than retirement benefits, as a member of any component of the Armed Forces of the United States shall be deducted from taxable income.
- b. On or after July 1, 2010, one hundred percent (100%) of the income received by any person from the United States as salary or compensation in any form, other than retirement benefits, as a member of any component of the Armed Forces of the United States shall be deducted from taxable income.
- c. Whenever the filing of a timely income tax return by a member of the Armed Forces of the United States is made impracticable or impossible of accomplishment by reason of:
- (1) absence from the United States, which term includes only the states and the District of Columbia;
 - (2) absence from this state while on active duty; or
 - (3) confinement in a hospital within the United States for treatment of wounds, injuries or disease,
- the time for filing a return and paying an income tax shall be and is hereby extended without incurring liability for interest or penalties, to the fifteenth day of the third month following the month in which:
- (a) Such individual shall return to the United States if the extension is granted pursuant to subparagraph a of this paragraph, return to this state if the extension is granted pursuant to subparagraph b of this paragraph or be discharged from such hospital if the extension is granted pursuant to subparagraph c of this paragraph; or

Provided, that the Tax Commission may, in its discretion, grant any member of the Armed Forces of the United States an extension of time for filing of income tax returns and payment of income tax without incurring liabilities for interest or penalties. Such extension may be granted only when in the judgment of the Tax Commission a good cause exists therefor and may be for a period in excess of six (6) months. A record of every such extension granted, and the reason therefor, shall be kept.

6. Before July 1, 2010, the salary or any other form of compensation, received from the United States by a member of any component of the Armed Forces of the United States, shall be deducted from taxable income during the time in which the person is detained by the enemy in a conflict, is a prisoner of war or is missing in action and not deceased; provided, after July 1, 2010, all such salary or compensation shall be subject to the deduction as provided pursuant to paragraph 5 of this subsection.

- 7.
 - a. An individual taxpayer, whether resident or nonresident, may deduct an amount equal to the federal income taxes paid by the taxpayer during the taxable year.
 - b. Federal taxes as described in subparagraph a of this paragraph shall be deductible by any individual taxpayer, whether resident or nonresident, only to the extent they relate to income subject to taxation pursuant to the provisions of the Oklahoma Income Tax Act. The maximum amount allowable in the preceding paragraph shall be prorated on the ratio of the Oklahoma adjusted gross income to federal adjusted gross income.
 - c. For the purpose of this paragraph, "federal income taxes paid" shall mean federal income taxes, surtaxes imposed on incomes or excess profits taxes, as though the taxpayer was on the accrual basis. In determining the amount of deduction for federal income taxes for tax year 2001, the amount of the deduction shall not be adjusted by the amount of any accelerated ten percent (10%) tax rate bracket credit or advanced refund of the credit received during the tax year provided pursuant to the federal Economic Growth and Tax Relief Reconciliation Act of 2001, P.L. No. 107-16, and the advanced refund of such credit shall not be subject to taxation.

- d. The provisions of this paragraph shall apply to all taxable years ending after December 31, 1978, and beginning before January 1, 2006.

8. §68-2358v2. Adjustments to arrive at Oklahoma taxable income and Oklahoma adjusted gross income.

For all tax years beginning after December 31, 1981, taxable income and adjusted gross income shall be adjusted to arrive at

Oklahoma taxable income and Oklahoma adjusted gross income as required by this section.

A. The taxable income of any taxpayer shall be adjusted to arrive at Oklahoma taxable income for corporations and Oklahoma adjusted gross income for individuals, as follows:

1. There shall be added interest income on obligations of any state or political subdivision thereto which is not otherwise exempted pursuant to other laws of this state, to the extent that such interest is not included in taxable income and adjusted gross income.

2. There shall be deducted amounts included in such income that the state is prohibited from taxing because of the provisions of the Federal Constitution, the State Constitution, federal laws or laws of Oklahoma.

3. The amount of any federal net operating loss deduction shall be adjusted as follows:

- a. For carryovers and carrybacks to taxable years beginning before January 1, 1981, the amount of any net operating loss deduction allowed to a taxpayer for federal income tax purposes shall be reduced to an amount which is the same portion thereof as the loss from sources within this state, as determined pursuant to this section and Section 2362 of this title, for the taxable year in which such loss is sustained is of the total loss for such year;
- b. For carryovers and carrybacks to taxable years beginning after December 31, 1980, the amount of any net operating loss deduction allowed for the taxable year shall be an amount equal to the aggregate of the Oklahoma net operating loss carryovers and carrybacks to such year. Oklahoma net operating losses shall be separately determined by reference to Section 172 of the Internal Revenue Code, 26 U.S.C., Section 172, as modified by the Oklahoma Income Tax Act, Section 2351 et seq. of this title, and shall be allowed without regard to the existence of a federal net operating loss. For tax years beginning after December 31, 2000, and ending before January 1, 2008, the years to which such losses may be carried shall be determined solely by reference to Section 172 of the Internal Revenue Code, 26 U.S.C., Section 172, with the exception that the terms "net operating loss" and "taxable income" shall be replaced with "Oklahoma net operating loss" and "Oklahoma taxable income". For tax years beginning after December 31, 2007, and ending before January 1, 2009, years to which such losses may be carried back shall be limited to two (2)

years. For tax years beginning after December 31, 2008, the years to which such losses may be carried back shall be determined solely by reference to Section 172 of the Internal Revenue Code, 26 U.S.C., Section 172, with the exception that the terms "net operating loss" and "taxable income" shall be replaced with "Oklahoma net operating loss" and "Oklahoma taxable income".

4. Items of the following nature shall be allocated as indicated. Allowable deductions attributable to items separately allocable in subparagraphs a, b and c of this paragraph, whether or not such items of income were actually received, shall be allocated on the same basis as those items:

- a. Income from real and tangible personal property, such as rents, oil and mining production or royalties, and gains or losses from sales of such property, shall be allocated in accordance with the situs of such property;
- b. Income from intangible personal property, such as interest, dividends, patent or copyright royalties, and gains or losses from sales of such property, shall be allocated in accordance with the domiciliary situs of the taxpayer, except that:
 - (1) where such property has acquired a nonunitary business or commercial situs apart from the domicile of the taxpayer such income shall be allocated in accordance with such business or commercial situs; interest income from investments held to generate working capital for a unitary business enterprise shall be included in apportionable income; a resident trust or resident estate shall be treated as having a separate commercial or business situs insofar as undistributed income is concerned, but shall not be treated as having a separate commercial or business situs insofar as distributed income is concerned,
 - (2) for taxable years beginning after December 31, 2003, capital or ordinary gains or losses from the sale of an ownership interest in a publicly traded partnership, as defined by Section 7704(b) of the Internal Revenue Code, shall be allocated to this state in the ratio of the original cost of such partnership's tangible property in this state to the original cost of such partnership's tangible property everywhere, as determined at the time of the sale; if more than fifty percent

- (50%) of the value of the partnership's assets consists of intangible assets, capital or ordinary gains or losses from the sale of an ownership interest in the partnership shall be allocated to this state in accordance with the sales factor of the partnership for its first full tax period immediately preceding its tax period during which the ownership interest in the partnership was sold; the provisions of this division shall only apply if the capital or ordinary gains or losses from the sale of an ownership interest in a partnership do not constitute qualifying gain receiving capital treatment as defined in subparagraph a of paragraph 2 of subsection F of this section,
- (3) income from such property which is required to be allocated pursuant to the provisions of paragraph 5 of this subsection shall be allocated as herein provided;
- c. Net income or loss from a business activity which is not a part of business carried on within or without the state of a unitary character shall be separately allocated to the state in which such activity is conducted;
 - d. In the case of a manufacturing or processing enterprise the business of which in this state consists solely of marketing its products by:
 - (1) sales having a situs without this state, shipped directly to a point from without the state to a purchaser within the state, commonly known as interstate sales,
 - (2) sales of the product stored in public warehouses within the state pursuant to "in transit" tariffs, as prescribed and allowed by the Interstate Commerce Commission, to a purchaser within the state,
 - (3) sales of the product stored in public warehouses within the state where the shipment to such warehouses is not covered by "in transit" tariffs, as prescribed and allowed by the Interstate Commerce Commission, to a purchaser within or without the state,the Oklahoma net income shall, at the option of the taxpayer, be that portion of the total net income of the taxpayer for federal income tax purposes derived from the manufacture and/or processing and sales everywhere as determined by the ratio of the sales

defined in this section made to the purchaser within the state to the total sales everywhere. The term "public warehouse" as used in this subparagraph means a licensed public warehouse, the principal business of which is warehousing merchandise for the public;

- e. In the case of insurance companies, Oklahoma taxable income shall be taxable income of the taxpayer for federal tax purposes, as adjusted for the adjustments provided pursuant to the provisions of paragraphs 1 and 2 of this subsection, apportioned as follows:
 - (1) except as otherwise provided by division (2) of this subparagraph, taxable income of an insurance company for a taxable year shall be apportioned to this state by multiplying such income by a fraction, the numerator of which is the direct premiums written for insurance on property or risks in this state, and the denominator of which is the direct premiums written for insurance on property or risks everywhere. For purposes of this subsection, the term "direct premiums written" means the total amount of direct premiums written, assessments and annuity considerations as reported for the taxable year on the annual statement filed by the company with the Insurance Commissioner in the form approved by the National Association of Insurance Commissioners, or such other form as may be prescribed in lieu thereof,
 - (2) if the principal source of premiums written by an insurance company consists of premiums for reinsurance accepted by it, the taxable income of such company shall be apportioned to this state by multiplying such income by a fraction, the numerator of which is the sum of (a) direct premiums written for insurance on property or risks in this state, plus (b) premiums written for reinsurance accepted in respect of property or risks in this state, and the denominator of which is the sum of (c) direct premiums written for insurance on property or risks everywhere, plus (d) premiums written for reinsurance accepted in respect of property or risks everywhere. For purposes of this paragraph, premiums written for reinsurance accepted in respect of property or risks in this state, whether or not otherwise determinable, may at the election of the company be determined on the

basis of the proportion which premiums written for insurance accepted from companies commercially domiciled in this state bears to premiums written for reinsurance accepted from all sources, or alternatively in the proportion which the sum of the direct premiums written for insurance on property or risks in this state by each ceding company from which reinsurance is accepted bears to the sum of the total direct premiums written by each such ceding company for the taxable year.

5. The net income or loss remaining after the separate allocation in paragraph 4 of this subsection, being that which is derived from a unitary business enterprise, shall be apportioned to this state on the basis of the arithmetical average of three factors consisting of property, payroll and sales or gross revenue enumerated as subparagraphs a, b and c of this paragraph. Net income or loss as used in this paragraph includes that derived from patent or copyright royalties, purchase discounts, and interest on accounts receivable relating to or arising from a business activity, the income from which is apportioned pursuant to this subsection, including the sale or other disposition of such property and any other property used in the unitary enterprise. Deductions used in computing such net income or loss shall not include taxes based on or measured by income. Provided, for corporations whose property for purposes of the tax imposed by Section 2355 of this title has an initial investment cost equaling or exceeding Two Hundred Million Dollars (\$200,000,000.00) and such investment is made on or after July 1, 1997, or for corporations which expand their property or facilities in this state and such expansion has an investment cost equaling or exceeding Two Hundred Million Dollars (\$200,000,000.00) over a period not to exceed three (3) years, and such expansion is commenced on or after January 1, 2000, the three factors shall be apportioned with property and payroll, each comprising twenty-five percent (25%) of the apportionment factor and sales comprising fifty percent (50%) of the apportionment factor. The apportionment factors shall be computed as follows:

- a. The property factor is a fraction, the numerator of which is the average value of the taxpayer's real and tangible personal property owned or rented and used in this state during the tax period and the denominator of which is the average value of all the taxpayer's real and tangible personal property everywhere owned or rented and used during the tax period.
 - (1) Property, the income from which is separately allocated in paragraph 4 of this subsection, shall not be included in determining this

- fraction. The numerator of the fraction shall include a portion of the investment in transportation and other equipment having no fixed situs, such as rolling stock, buses, trucks and trailers, including machinery and equipment carried thereon, airplanes, salespersons' automobiles and other similar equipment, in the proportion that miles traveled in this state by such equipment bears to total miles traveled,
- (2) Property owned by the taxpayer is valued at its original cost. Property rented by the taxpayer is valued at eight times the net annual rental rate. Net annual rental rate is the annual rental rate paid by the taxpayer, less any annual rental rate received by the taxpayer from subrentals,
 - (3) The average value of property shall be determined by averaging the values at the beginning and ending of the tax period but the Oklahoma Tax Commission may require the averaging of monthly values during the tax period if reasonably required to reflect properly the average value of the taxpayer's property;
- b. The payroll factor is a fraction, the numerator of which is the total compensation for services rendered in the state during the tax period, and the denominator of which is the total compensation for services rendered everywhere during the tax period. "Compensation", as used in this subsection, means those paid-for services to the extent related to the unitary business but does not include officers' salaries, wages and other compensation.
- (1) In the case of a transportation enterprise, the numerator of the fraction shall include a portion of such expenditure in connection with employees operating equipment over a fixed route, such as railroad employees, airline pilots, or bus drivers, in this state only a part of the time, in the proportion that mileage traveled in this state bears to total mileage traveled by such employees,
 - (2) In any case the numerator of the fraction shall include a portion of such expenditures in connection with itinerant employees, such as traveling salespersons, in this state only a part of the time, in the proportion that time spent in

- this state bears to total time spent in
furtherance of the enterprise by such employees;
- c. The sales factor is a fraction, the numerator of which is the total sales or gross revenue of the taxpayer in this state during the tax period, and the denominator of which is the total sales or gross revenue of the taxpayer everywhere during the tax period. "Sales", as used in this subsection, does not include sales or gross revenue which are separately allocated in paragraph 4 of this subsection.
- (1) Sales of tangible personal property have a situs in this state if the property is delivered or shipped to a purchaser other than the United States government, within this state regardless of the FOB point or other conditions of the sale; or the property is shipped from an office, store, warehouse, factory or other place of storage in this state and (a) the purchaser is the United States government or (b) the taxpayer is not doing business in the state of the destination of the shipment.
 - (2) In the case of a railroad or interurban railway enterprise, the numerator of the fraction shall not be less than the allocation of revenues to this state as shown in its annual report to the Corporation Commission.
 - (3) In the case of an airline, truck or bus enterprise or freight car, tank car, refrigerator car or other railroad equipment enterprise, the numerator of the fraction shall include a portion of revenue from interstate transportation in the proportion that interstate mileage traveled in this state bears to total interstate mileage traveled.
 - (4) In the case of an oil, gasoline or gas pipeline enterprise, the numerator of the fraction shall be either the total of traffic units of the enterprise within this state or the revenue allocated to this state based upon miles moved, at the option of the taxpayer, and the denominator of which shall be the total of traffic units of the enterprise or the revenue of the enterprise everywhere as appropriate to the numerator. A "traffic unit" is hereby defined as the transportation for a distance of one (1) mile of one (1) barrel of oil, one (1) gallon of

- gasoline or one thousand (1,000) cubic feet of natural or casinghead gas, as the case may be.
- (5) In the case of a telephone or telegraph or other communication enterprise, the numerator of the fraction shall include that portion of the interstate revenue as is allocated pursuant to the accounting procedures prescribed by the Federal Communications Commission; provided that in respect to each corporation or business entity required by the Federal Communications Commission to keep its books and records in accordance with a uniform system of accounts prescribed by such Commission, the intrastate net income shall be determined separately in the manner provided by such uniform system of accounts and only the interstate income shall be subject to allocation pursuant to the provisions of this subsection. Provided further, that the gross revenue factors shall be those as are determined pursuant to the accounting procedures prescribed by the Federal Communications Commission.

In any case where the apportionment of the three factors prescribed in this paragraph attributes to this state a portion of net income of the enterprise out of all appropriate proportion to the property owned and/or business transacted within this state, because of the fact that one or more of the factors so prescribed are not employed to any appreciable extent in furtherance of the enterprise; or because one or more factors not so prescribed are employed to a considerable extent in furtherance of the enterprise; or because of other reasons, the Tax Commission is empowered to permit, after a showing by taxpayer that an excessive portion of net income has been attributed to this state, or require, when in its judgment an insufficient portion of net income has been attributed to this state, the elimination, substitution, or use of additional factors, or reduction or increase in the weight of such prescribed factors. Provided, however, that any such variance from such prescribed factors which has the effect of increasing the portion of net income attributable to this state must not be inherently arbitrary, and application of the recomputed final apportionment to the net income of the enterprise must attribute to this state only a reasonable portion thereof.

6. For calendar years 1997 and 1998, the owner of a new or expanded agricultural commodity processing facility in this state may exclude from Oklahoma taxable income, or in the case of an individual, the Oklahoma adjusted gross income, fifteen percent (15%) of the investment by the owner in the new or expanded agricultural commodity processing facility. For calendar year 1999,

and all subsequent years, the percentage, not to exceed fifteen percent (15%), available to the owner of a new or expanded agricultural commodity processing facility in this state claiming the exemption shall be adjusted annually so that the total estimated reduction in tax liability does not exceed One Million Dollars (\$1,000,000.00) annually. The Tax Commission shall promulgate rules for determining the percentage of the investment which each eligible taxpayer may exclude. The exclusion provided by this paragraph shall be taken in the taxable year when the investment is made. In the event the total reduction in tax liability authorized by this paragraph exceeds One Million Dollars (\$1,000,000.00) in any calendar year, the Tax Commission shall permit any excess over One Million Dollars (\$1,000,000.00) and shall factor such excess into the percentage for subsequent years. Any amount of the exemption permitted to be excluded pursuant to the provisions of this paragraph but not used in any year may be carried forward as an exemption from income pursuant to the provisions of this paragraph for a period not exceeding six (6) years following the year in which the investment was originally made.

For purposes of this paragraph:

- a. "Agricultural commodity processing facility" means buildings, structures, fixtures and improvements used or operated primarily for the processing or production of marketable products from agricultural commodities. The term shall also mean a dairy operation that requires a depreciable investment of at least Two Hundred Fifty Thousand Dollars (\$250,000.00) and which produces milk from dairy cows. The term does not include a facility that provides only, and nothing more than, storage, cleaning, drying or transportation of agricultural commodities, and
- b. "Facility" means each part of the facility which is used in a process primarily for:
 - (1) the processing of agricultural commodities, including receiving or storing agricultural commodities, or the production of milk at a dairy operation,
 - (2) transporting the agricultural commodities or product before, during or after the processing, or
 - (3) packaging or otherwise preparing the product for sale or shipment.

7. Despite any provision to the contrary in paragraph 3 of this subsection, for taxable years beginning after December 31, 1999, in the case of a taxpayer which has a farming loss, such farming loss shall be considered a net operating loss carryback in accordance with and to the extent of the Internal Revenue Code, 26 U.S.C.,

Section 172(b)(G). However, the amount of the net operating loss carryback shall not exceed the lesser of:

- a. Sixty Thousand Dollars (\$60,000.00), or
- b. the loss properly shown on Schedule F of the Internal Revenue Service Form 1040 reduced by one-half (1/2) of the income from all other sources other than reflected on Schedule F.

8. In taxable years beginning after December 31, 1995, all qualified wages equal to the federal income tax credit set forth in 26 U.S.C.A., Section 45A, shall be deducted from taxable income. The deduction allowed pursuant to this paragraph shall only be permitted for the tax years in which the federal tax credit pursuant to 26 U.S.C.A., Section 45A, is allowed. For purposes of this paragraph, "qualified wages" means those wages used to calculate the federal credit pursuant to 26 U.S.C.A., Section 45A.

9. In taxable years beginning after December 31, 2005, an employer that is eligible for and utilizes the Safety Pays OSHA Consultation Service provided by the Oklahoma Department of Labor shall receive an exemption from taxable income in the amount of One Thousand Dollars (\$1,000.00) for the tax year that the service is utilized.

10. For taxable years beginning on or after January 1, 2010, there shall be added to Oklahoma taxable income an amount equal to the amount of deferred income not included in such taxable income pursuant to Section 108(i)(1) of the Internal Revenue Code of 1986 as amended by Section 1231 of the American Recovery and Reinvestment Act of 2009 (P.L. No. 111-5). There shall be subtracted from Oklahoma taxable income an amount equal to the amount of deferred income included in such taxable income pursuant to Section 108(i)(1) of the Internal Revenue Code by Section 1231 of the American Recovery and Reinvestment Act of 2009 (P.L. No. 111-5).

11. For taxable years beginning on or after January 1, 2019, there shall be subtracted from Oklahoma taxable income or adjusted gross income any item of income or gain, and there shall be added to Oklahoma taxable income or adjusted gross income any item of loss or deduction that in the absence of an election pursuant to the provisions of the Pass-Through Entity Tax Equity Act of 2019 would be allocated to a member or to an indirect member of an electing pass-through entity pursuant to Section 2351 et seq. of this title, if (i) the electing pass-through entity has accounted for such item in computing its Oklahoma net entity income or loss pursuant to the provisions of the Pass-Through Entity Tax Equity Act of 2019, and (ii) the total amount of tax attributable to any resulting Oklahoma net entity income has been paid. The Oklahoma Tax Commission shall promulgate rules for the reporting of such exclusion to direct and indirect members of the electing pass-through entity. As used in this paragraph, "electing pass-through entity", "indirect member",

and "member" shall be defined in the same manner as prescribed by Section 2355.1P-2 of this title. Notwithstanding the application of this paragraph, the adjusted tax basis of any ownership interest in a pass-through entity for purposes of Section 2351 et seq. of this title shall be equal to its adjusted tax basis for federal income tax purposes.

B. 1. The taxable income of any corporation shall be further adjusted to arrive at Oklahoma taxable income, except those corporations electing treatment as provided in subchapter S of the Internal Revenue Code, 26 U.S.C., Section 1361 et seq., and Section 2365 of this title, deductions pursuant to the provisions of the Accelerated Cost Recovery System as defined and allowed in the Economic Recovery Tax Act of 1981, Public Law 97-34, 26 U.S.C., Section 168, for depreciation of assets placed into service after December 31, 1981, shall not be allowed in calculating Oklahoma taxable income. Such corporations shall be allowed a deduction for depreciation of assets placed into service after December 31, 1981, in accordance with provisions of the Internal Revenue Code, 26 U.S.C., Section 1 et seq., in effect immediately prior to the enactment of the Accelerated Cost Recovery System. The Oklahoma tax basis for all such assets placed into service after December 31, 1981, calculated in this section shall be retained and utilized for all Oklahoma income tax purposes through the final disposition of such assets.

Notwithstanding any other provisions of the Oklahoma Income Tax Act, Section 2351 et seq. of this title, or of the Internal Revenue Code to the contrary, this subsection shall control calculation of depreciation of assets placed into service after December 31, 1981, and before January 1, 1983.

For assets placed in service and held by a corporation in which the Accelerated Cost Recovery System was previously disallowed, an adjustment to taxable income is required in the first taxable year beginning after December 31, 1982, to reconcile the basis of such assets to the basis allowed in the Internal Revenue Code. The purpose of this adjustment is to equalize the basis and allowance for depreciation accounts between that reported to the Internal Revenue Service and that reported to this state.

2. For tax years beginning on or after January 1, 2009, and ending on or before December 31, 2009, there shall be added to Oklahoma taxable income any amount in excess of One Hundred Seventy-five Thousand Dollars (\$175,000.00) which has been deducted as a small business expense under Internal Revenue Code, Section 179 as provided in the American Recovery and Reinvestment Act of 2009.

C. 1. For taxable years beginning after December 31, 1987, the taxable income of any corporation shall be further adjusted to arrive at Oklahoma taxable income for transfers of technology to qualified small businesses located in this state. Such transferor

corporation shall be allowed an exemption from taxable income of an amount equal to the amount of royalty payment received as a result of such transfer; provided, however, such amount shall not exceed ten percent (10%) of the amount of gross proceeds received by such transferor corporation as a result of the technology transfer. Such exemption shall be allowed for a period not to exceed ten (10) years from the date of receipt of the first royalty payment accruing from such transfer. No exemption may be claimed for transfers of technology to qualified small businesses made prior to January 1, 1988.

2. For purposes of this subsection:

- a. "Qualified small business" means an entity, whether organized as a corporation, partnership, or proprietorship, organized for profit with its principal place of business located within this state and which meets the following criteria:
 - (1) Capitalization of not more than Two Hundred Fifty Thousand Dollars (\$250,000.00),
 - (2) Having at least fifty percent (50%) of its employees and assets located in this state at the time of the transfer, and
 - (3) Not a subsidiary or affiliate of the transferor corporation;
- b. "Technology" means a proprietary process, formula, pattern, device or compilation of scientific or technical information which is not in the public domain;
- c. "Transferor corporation" means a corporation which is the exclusive and undisputed owner of the technology at the time the transfer is made; and
- d. "Gross proceeds" means the total amount of consideration for the transfer of technology, whether the consideration is in money or otherwise.

D. 1. For taxable years beginning after December 31, 2005, the taxable income of any corporation, estate or trust, shall be further adjusted for qualifying gains receiving capital treatment. Such corporations, estates or trusts shall be allowed a deduction from Oklahoma taxable income for the amount of qualifying gains receiving capital treatment earned by the corporation, estate or trust during the taxable year and included in the federal taxable income of such corporation, estate or trust.

2. As used in this subsection:

If the amount of state and local taxes deducted on the federal return is limited, taxable income on the state return shall be increased only by the amount actually deducted after any such limitations are applied.

25. For taxable years beginning after December 31, 2020, each taxpayer shall be allowed a deduction for contributions to accounts established pursuant to the Achieving a Better Life Experience (ABLE) Program as established in Section 4001.1 et seq. of Title 56 of the Oklahoma Statutes. For any tax year, the deduction provided for in this paragraph shall not exceed Ten Thousand Dollars (\$10,000.00) for an individual taxpayer or Twenty Thousand Dollars (\$20,000.00) for taxpayers filing a joint return. Any amount of contribution not deducted by the taxpayer in the tax year for which the contribution is made may be carried forward as a deduction from income for up to five (5) tax years. Deductions may be taken for contributions made during the tax year and through April 15 of the succeeding tax year, or through the due date of a taxpayer's state

income tax return excluding extensions, whichever is later. Provided, a deduction for the same contribution may not be taken in more than one (1) tax year.

26. For tax year 2024 and subsequent tax years, tax credits received pursuant to the Oklahoma Parental Choice Tax Credit Act in Section 28-101 of Title 70 of the Oklahoma Statutes shall be exempt from taxable income.

F. 1. For taxable years beginning after December 31, 2004, a deduction from the Oklahoma adjusted gross income of any individual taxpayer shall be allowed for qualifying gains receiving capital treatment that are included in the federal adjusted gross income of such individual taxpayer during the taxable year.

2. As used in this subsection:

a. "qualifying gains receiving capital treatment" means the amount of net capital gains, as defined in Section 1222(11) of the Internal Revenue Code, included in an individual taxpayer's federal income tax return that result from:

- (1) the sale of real property or tangible personal property located within this state that has been directly or indirectly owned by the individual taxpayer for a holding period of at least five (5) years prior to the date of the transaction from which such net capital gains arise,
- (2) the sale of stock or the sale of a direct or indirect ownership interest in an Oklahoma company, limited liability company, or partnership where such stock or ownership interest has been directly or indirectly owned by the individual taxpayer for a holding period of at least two (2) years prior to the date of the transaction from which the net capital gains arise, or
- (3) the sale of real property, tangible personal property or intangible personal property located within this state as part of the sale of all or substantially all of the assets of an Oklahoma company, limited liability company, or partnership or an Oklahoma proprietorship business enterprise where such property has been directly or indirectly owned by such entity or business enterprise or owned by the owners of such entity or business enterprise for a period of at least two (2) years prior to the date of the transaction from which the net capital gains arise,

- b. "holding period" means an uninterrupted period of time. The holding period shall include any additional period when the property was held by another individual or entity, if such additional period is included in the taxpayer's holding period for the asset pursuant to the Internal Revenue Code,
- c. "Oklahoma company," "limited liability company," or "partnership" means an entity whose primary headquarters have been located in this state for at least three (3) uninterrupted years prior to the date of the transaction from which the net capital gains arise,
- d. "direct" means the individual taxpayer directly owns the asset,
- e. "indirect" means the individual taxpayer owns an interest in a pass-through entity (or chain of pass-through entities) that sells the asset that gives rise to the qualifying gains receiving capital treatment.
 - (1) With respect to sales of real property or tangible personal property located within this state, the deduction described in this subsection shall not apply unless the pass-through entity that makes the sale has held the property for not less than five (5) uninterrupted years prior to the date of the transaction that created the capital gain, and each pass-through entity included in the chain of ownership has been a member, partner, or shareholder of the pass-through entity in the tier immediately below it for an uninterrupted period of not less than five (5) years.
 - (2) With respect to sales of stock or ownership interest in or sales of all or substantially all of the assets of an Oklahoma company, limited liability company, partnership or Oklahoma proprietorship business enterprise, the deduction described in this subsection shall not apply unless the pass-through entity that makes the sale has held the stock or ownership interest for not less than two (2) uninterrupted years prior to the date of the transaction that created the capital gain, and each pass-through entity included in the chain of ownership has been a member, partner or shareholder of the pass-through entity in the tier immediately below it for an uninterrupted period of not less than two (2) years. For purposes of this division,

uninterrupted ownership prior to July 1, 2007, shall be included in the determination of the required holding period prescribed by this division, and

- f. "Oklahoma proprietorship business enterprise" means a business enterprise whose income and expenses have been reported on Schedule C or F of an individual taxpayer's federal income tax return, or any similar successor schedule published by the Internal Revenue Service and whose primary headquarters have been located in this state for at least three (3) uninterrupted years prior to the date of the transaction from which the net capital gains arise.

G. 1. For purposes of computing its Oklahoma taxable income under this section, the dividends-paid deduction otherwise allowed by federal law in computing net income of a real estate investment trust that is subject to federal income tax shall be added back in computing the tax imposed by this state under this title if the real estate investment trust is a captive real estate investment trust.

2. For purposes of computing its Oklahoma taxable income under this section, a taxpayer shall add back otherwise deductible rents and interest expenses paid to a captive real estate investment trust that is not subject to the provisions of paragraph 1 of this subsection. As used in this subsection:

- a. the term "real estate investment trust" or "REIT" means the meaning ascribed to such term in Section 856 of the Internal Revenue Code,
- b. the term "captive real estate investment trust" means a real estate investment trust, the shares or beneficial interests of which are not regularly traded on an established securities market and more than fifty percent (50%) of the voting power or value of the beneficial interests or shares of which are owned or controlled, directly or indirectly, or constructively, by a single entity that is:
 - (1) treated as an association taxable as a corporation under the Internal Revenue Code, and
 - (2) not exempt from federal income tax pursuant to the provisions of Section 501(a) of the Internal Revenue Code.

The term shall not include a real estate investment trust that is intended to be regularly traded on an established securities market, and that satisfies the requirements of Section 856(a)(5) and (6) of the U.S. Internal Revenue Code by reason of Section 856(h)(2) of the Internal Revenue Code,

- c. the term "association taxable as a corporation" shall not include the following entities:
- (1) any real estate investment trust as defined in paragraph a of this subsection other than a captive real estate investment trust, or
 - (2) any qualified real estate investment trust subsidiary under Section 856(i) of the Internal Revenue Code, other than a qualified REIT subsidiary of a captive real estate investment trust, or
 - (3) any listed Australian property trust (meaning an Australian unit trust registered as a "managed investment scheme" under the Australian Corporations Act 2001 in which the principal class of units is listed on a recognized stock exchange in Australia and is regularly traded on an established securities market), or an entity organized as a trust, provided that a listed Australian property trust owns or controls, directly or indirectly, seventy-five percent (75%) or more of the voting power or value of the beneficial interests or shares of such trust, or
 - (4) any qualified foreign entity, meaning a corporation, trust, association or partnership organized outside the laws of the United States and which satisfies the following criteria:
 - (a) at least seventy-five percent (75%) of the entity's total asset value at the close of its taxable year is represented by real estate assets, as defined in Section 856(c)(5)(B) of the Internal Revenue Code, thereby including shares or certificates of beneficial interest in any real estate investment trust, cash and cash equivalents, and U.S. Government securities,
 - (b) the entity receives a dividend-paid deduction comparable to Section 561 of the Internal Revenue Code, or is exempt from entity level tax,
 - (c) the entity is required to distribute at least eighty-five percent (85%) of its taxable income, as computed in the jurisdiction in which it is organized, to the holders of its shares or certificates of beneficial interest on an annual basis,
 - (d) not more than ten percent (10%) of the voting power or value in such entity is held

directly or indirectly or constructively by a single entity or individual, or the shares or beneficial interests of such entity are regularly traded on an established securities market, and

- (e) the entity is organized in a country which has a tax treaty with the United States.

3. For purposes of this subsection, the constructive ownership rules of Section 318(a) of the Internal Revenue Code, as modified by Section 856(d)(5) of the Internal Revenue Code, shall apply in determining the ownership of stock, assets, or net profits of any person.

4. A real estate investment trust that does not become regularly traded on an established securities market within one (1) year of the date on which it first becomes a real estate investment trust shall be deemed not to have been regularly traded on an established securities market, retroactive to the date it first became a real estate investment trust, and shall file an amended return reflecting such retroactive designation for any tax year or part year occurring during its initial year of status as a real estate investment trust. For purposes of this subsection, a real estate investment trust becomes a real estate investment trust on the first day it has both met the requirements of Section 856 of the Internal Revenue Code and has elected to be treated as a real estate investment trust pursuant to Section 856(c)(1) of the Internal Revenue Code.

§68-2358v3. Adjustments to arrive at Oklahoma taxable income and Oklahoma adjusted gross income.

For all tax years beginning after December 31, 1981, taxable income and adjusted gross income shall be adjusted to arrive at Oklahoma taxable income and Oklahoma adjusted gross income as required by this section.

A. The taxable income of any taxpayer shall be adjusted to arrive at Oklahoma taxable income for corporations and Oklahoma adjusted gross income for individuals, as follows:

1. There shall be added interest income on obligations of any state or political subdivision thereto which is not otherwise exempted pursuant to other laws of this state, to the extent that such interest is not included in taxable income and adjusted gross income.

2. There shall be deducted amounts included in such income that the state is prohibited from taxing because of the provisions of the Federal Constitution, the State Constitution, federal laws or laws of Oklahoma.

3. The amount of any federal net operating loss deduction shall be adjusted as follows:

- a. For carryovers and carrybacks to taxable years beginning before January 1, 1981, the amount of any net operating loss deduction allowed to a taxpayer for federal income tax purposes shall be reduced to an amount which is the same portion thereof as the loss from sources within this state, as determined pursuant to this section and Section 2362 of this title, for the taxable year in which such loss is sustained is of the total loss for such year;
- b. For carryovers and carrybacks to taxable years beginning after December 31, 1980, the amount of any net operating loss deduction allowed for the taxable year shall be an amount equal to the aggregate of the Oklahoma net operating loss carryovers and carrybacks to such year. Oklahoma net operating losses shall be separately determined by reference to Section 172 of the Internal Revenue Code, 26 U.S.C., Section 172, as modified by the Oklahoma Income Tax Act, Section 2351 et seq. of this title, and shall be allowed without

regard to the existence of a federal net operating loss. For tax years beginning after December 31, 2000, and ending before January 1, 2008, the years to which such losses may be carried shall be determined solely by reference to Section 172 of the Internal Revenue Code, 26 U.S.C., Section 172, with the exception that the terms "net operating loss" and "taxable income" shall be replaced with "Oklahoma net operating loss" and "Oklahoma taxable income". For tax years beginning after December 31, 2007, and ending before January 1, 2009, years to which such losses may be carried back shall be limited to two (2) years. For tax years beginning after December 31, 2008, the years to which such losses may be carried back shall be determined solely by reference to Section 172 of the Internal Revenue Code, 26 U.S.C., Section 172, with the exception that the terms "net operating loss" and "taxable income" shall be replaced with "Oklahoma net operating loss" and "Oklahoma taxable income".

4. Items of the following nature shall be allocated as indicated. Allowable deductions attributable to items separately allocable in subparagraphs a, b and c of this paragraph, whether or not such items of income were actually received, shall be allocated on the same basis as those items:

- a. Income from real and tangible personal property, such as rents, oil and mining production or royalties, and gains or losses from sales of such property, shall be allocated in accordance with the situs of such property;
- b. Income from intangible personal property, such as interest, dividends, patent or copyright royalties, and gains or losses from sales of such property, shall be allocated in accordance with the domiciliary situs of the taxpayer, except that:
 - (1) where such property has acquired a nonunitary business or commercial situs apart from the domicile of the taxpayer such income shall be allocated in accordance with such business or commercial situs; interest income from investments held to generate working capital for a unitary business enterprise shall be included in apportionable income; a resident trust or resident estate shall be treated as having a separate commercial or business situs insofar as undistributed income is concerned, but shall not be treated as having a separate commercial or

- business situs insofar as distributed income is concerned,
- (2) for taxable years beginning after December 31, 2003, capital or ordinary gains or losses from the sale of an ownership interest in a publicly traded partnership, as defined by Section 7704(b) of the Internal Revenue Code, shall be allocated to this state in the ratio of the original cost of such partnership's tangible property in this state to the original cost of such partnership's tangible property everywhere, as determined at the time of the sale; if more than fifty percent (50%) of the value of the partnership's assets consists of intangible assets, capital or ordinary gains or losses from the sale of an ownership interest in the partnership shall be allocated to this state in accordance with the sales factor of the partnership for its first full tax period immediately preceding its tax period during which the ownership interest in the partnership was sold; the provisions of this division shall only apply if the capital or ordinary gains or losses from the sale of an ownership interest in a partnership do not constitute qualifying gain receiving capital treatment as defined in subparagraph a of paragraph 2 of subsection F of this section,
 - (3) income from such property which is required to be allocated pursuant to the provisions of paragraph 5 of this subsection shall be allocated as herein provided;
- c. Net income or loss from a business activity which is not a part of business carried on within or without the state of a unitary character shall be separately allocated to the state in which such activity is conducted;
 - d. In the case of a manufacturing or processing enterprise the business of which in Oklahoma consists solely of marketing its products by:
 - (1) sales having a situs without this state, shipped directly to a point from without the state to a purchaser within the state, commonly known as interstate sales,
 - (2) sales of the product stored in public warehouses within the state pursuant to "in transit" tariffs, as prescribed and allowed by the

- Interstate Commerce Commission, to a purchaser within the state,
- (3) sales of the product stored in public warehouses within the state where the shipment to such warehouses is not covered by "in transit" tariffs, as prescribed and allowed by the Interstate Commerce Commission, to a purchaser within or without the state,
- the Oklahoma net income shall, at the option of the taxpayer, be that portion of the total net income of the taxpayer for federal income tax purposes derived from the manufacture and/or processing and sales everywhere as determined by the ratio of the sales defined in this section made to the purchaser within the state to the total sales everywhere. The term "public warehouse" as used in this subparagraph means a licensed public warehouse, the principal business of which is warehousing merchandise for the public;
- e. In the case of insurance companies, Oklahoma taxable income shall be taxable income of the taxpayer for federal tax purposes, as adjusted for the adjustments provided pursuant to the provisions of paragraphs 1 and 2 of this subsection, apportioned as follows:
- (1) except as otherwise provided by division (2) of this subparagraph, taxable income of an insurance company for a taxable year shall be apportioned to this state by multiplying such income by a fraction, the numerator of which is the direct premiums written for insurance on property or risks in this state, and the denominator of which is the direct premiums written for insurance on property or risks everywhere. For purposes of this subsection, the term "direct premiums written" means the total amount of direct premiums written, assessments and annuity considerations as reported for the taxable year on the annual statement filed by the company with the Insurance Commissioner in the form approved by the National Association of Insurance Commissioners, or such other form as may be prescribed in lieu thereof,
- (2) if the principal source of premiums written by an insurance company consists of premiums for reinsurance accepted by it, the taxable income of such company shall be apportioned to this state by multiplying such income by a fraction, the numerator of which is the sum of (a) direct

premiums written for insurance on property or risks in this state, plus (b) premiums written for reinsurance accepted in respect of property or risks in this state, and the denominator of which is the sum of (c) direct premiums written for insurance on property or risks everywhere, plus (d) premiums written for reinsurance accepted in respect of property or risks everywhere. For purposes of this paragraph, premiums written for reinsurance accepted in respect of property or risks in this state, whether or not otherwise determinable, may at the election of the company be determined on the basis of the proportion which premiums written for insurance accepted from companies commercially domiciled in Oklahoma bears to premiums written for reinsurance accepted from all sources, or alternatively in the proportion which the sum of the direct premiums written for insurance on property or risks in this state by each ceding company from which reinsurance is accepted bears to the sum of the total direct premiums written by each such ceding company for the taxable year.

5. The net income or loss remaining after the separate allocation in paragraph 4 of this subsection, being that which is derived from a unitary business enterprise, shall be apportioned to this state on the basis of the arithmetical average of three factors consisting of property, payroll and sales or gross revenue enumerated as subparagraphs a, b and c of this paragraph. Net income or loss as used in this paragraph includes that derived from patent or copyright royalties, purchase discounts, and interest on accounts receivable relating to or arising from a business activity, the income from which is apportioned pursuant to this subsection, including the sale or other disposition of such property and any other property used in the unitary enterprise. Deductions used in computing such net income or loss shall not include taxes based on or measured by income. Provided, for corporations whose property for purposes of the tax imposed by Section 2355 of this title has an initial investment cost equaling or exceeding Two Hundred Million Dollars (\$200,000,000.00) and such investment is made on or after July 1, 1997, or for corporations which expand their property or facilities in this state and such expansion has an investment cost equaling or exceeding Two Hundred Million Dollars (\$200,000,000.00) over a period not to exceed three (3) years, and such expansion is commenced on or after January 1, 2000, the three factors shall be apportioned with property and payroll, each comprising twenty-five

percent (25%) of the apportionment factor and sales comprising fifty percent (50%) of the apportionment factor. The apportionment factors shall be computed as follows:

a. The property factor is a fraction, the numerator of which is the average value of the taxpayer's real and tangible personal property owned or rented and used in this state during the tax period and the denominator of which is the average value of all the taxpayer's real and tangible personal property everywhere owned or rented and used during the tax period.

- (1) Property, the income from which is separately allocated in paragraph 4 of this subsection, shall not be included in determining this fraction. The numerator of the fraction shall include a portion of the investment in transportation and other equipment having no fixed situs, such as rolling stock, buses, trucks and trailers, including machinery and equipment carried thereon, airplanes, salespersons' automobiles and other similar equipment, in the proportion that miles traveled in Oklahoma by such equipment bears to total miles traveled,
- (2) Property owned by the taxpayer is valued at its original cost. Property rented by the taxpayer is valued at eight times the net annual rental rate. Net annual rental rate is the annual rental rate paid by the taxpayer, less any annual rental rate received by the taxpayer from subrentals,
- (3) The average value of property shall be determined by averaging the values at the beginning and ending of the tax period but the Oklahoma Tax Commission may require the averaging of monthly values during the tax period if reasonably required to reflect properly the average value of the taxpayer's property;

b. The payroll factor is a fraction, the numerator of which is the total compensation for services rendered in the state during the tax period, and the denominator of which is the total compensation for services rendered everywhere during the tax period. "Compensation", as used in this subsection means those paid-for services to the extent related to the unitary business but does not include officers' salaries, wages and other compensation.

- (1) In the case of a transportation enterprise, the numerator of the fraction shall include a portion

of such expenditure in connection with employees operating equipment over a fixed route, such as railroad employees, airline pilots, or bus drivers, in this state only a part of the time, in the proportion that mileage traveled in Oklahoma bears to total mileage traveled by such employees,

- (2) In any case the numerator of the fraction shall include a portion of such expenditures in connection with itinerant employees, such as traveling salespersons, in this state only a part of the time, in the proportion that time spent in Oklahoma bears to total time spent in furtherance of the enterprise by such employees;

c. The sales factor is a fraction, the numerator of which is the total sales or gross revenue of the taxpayer in this state during the tax period, and the denominator of which is the total sales or gross revenue of the taxpayer everywhere during the tax period. "Sales", as used in this subsection does not include sales or gross revenue which are separately allocated in paragraph 4 of this subsection.

- (1) Sales of tangible personal property have a situs in this state if the property is delivered or shipped to a purchaser other than the United States government, within this state regardless of the FOB point or other conditions of the sale; or the property is shipped from an office, store, warehouse, factory or other place of storage in this state and (a) the purchaser is the United States government or (b) the taxpayer is not doing business in the state of the destination of the shipment.
- (2) In the case of a railroad or interurban railway enterprise, the numerator of the fraction shall not be less than the allocation of revenues to this state as shown in its annual report to the Corporation Commission.
- (3) In the case of an airline, truck or bus enterprise or freight car, tank car, refrigerator car or other railroad equipment enterprise, the numerator of the fraction shall include a portion of revenue from interstate transportation in the proportion that interstate mileage traveled in Oklahoma bears to total interstate mileage traveled.

- (4) In the case of an oil, gasoline or gas pipeline enterprise, the numerator of the fraction shall be either the total of traffic units of the enterprise within Oklahoma or the revenue allocated to Oklahoma based upon miles moved, at the option of the taxpayer, and the denominator of which shall be the total of traffic units of the enterprise or the revenue of the enterprise everywhere as appropriate to the numerator. A "traffic unit" is hereby defined as the transportation for a distance of one (1) mile of one (1) barrel of oil, one (1) gallon of gasoline or one thousand (1,000) cubic feet of natural or casinghead gas, as the case may be.
- (5) In the case of a telephone or telegraph or other communication enterprise, the numerator of the fraction shall include that portion of the interstate revenue as is allocated pursuant to the accounting procedures prescribed by the Federal Communications Commission; provided that in respect to each corporation or business entity required by the Federal Communications Commission to keep its books and records in accordance with a uniform system of accounts prescribed by such Commission, the intrastate net income shall be determined separately in the manner provided by such uniform system of accounts and only the interstate income shall be subject to allocation pursuant to the provisions of this subsection. Provided further, that the gross revenue factors shall be those as are determined pursuant to the accounting procedures prescribed by the Federal Communications Commission.

In any case where the apportionment of the three factors prescribed in this paragraph attributes to Oklahoma a portion of net income of the enterprise out of all appropriate proportion to the property owned and/or business transacted within this state, because of the fact that one or more of the factors so prescribed are not employed to any appreciable extent in furtherance of the enterprise; or because one or more factors not so prescribed are employed to a considerable extent in furtherance of the enterprise; or because of other reasons, the Tax Commission is empowered to permit, after a showing by taxpayer that an excessive portion of net income has been attributed to Oklahoma, or require, when in its judgment an insufficient portion of net income has been attributed to Oklahoma, the elimination, substitution, or use of additional factors, or reduction or increase in the weight of such prescribed factors.

Provided, however, that any such variance from such prescribed factors which has the effect of increasing the portion of net income attributable to Oklahoma must not be inherently arbitrary, and application of the recomputed final apportionment to the net income of the enterprise must attribute to Oklahoma only a reasonable portion thereof.

6. For calendar years 1997 and 1998, the owner of a new or expanded agricultural commodity processing facility in this state may exclude from Oklahoma taxable income, or in the case of an individual, the Oklahoma adjusted gross income, fifteen percent (15%) of the investment by the owner in the new or expanded agricultural commodity processing facility. For calendar year 1999, and all subsequent years, the percentage, not to exceed fifteen percent (15%), available to the owner of a new or expanded agricultural commodity processing facility in this state claiming the exemption shall be adjusted annually so that the total estimated reduction in tax liability does not exceed One Million Dollars (\$1,000,000.00) annually. The Tax Commission shall promulgate rules for determining the percentage of the investment which each eligible taxpayer may exclude. The exclusion provided by this paragraph shall be taken in the taxable year when the investment is made. In the event the total reduction in tax liability authorized by this paragraph exceeds One Million Dollars (\$1,000,000.00) in any calendar year, the Tax Commission shall permit any excess over One Million Dollars (\$1,000,000.00) and shall factor such excess into the percentage for subsequent years. Any amount of the exemption permitted to be excluded pursuant to the provisions of this paragraph but not used in any year may be carried forward as an exemption from income pursuant to the provisions of this paragraph for a period not exceeding six (6) years following the year in which the investment was originally made.

For purposes of this paragraph:

- a. "Agricultural commodity processing facility" means building, structures, fixtures and improvements used or operated primarily for the processing or production of marketable products from agricultural commodities. The term shall also mean a dairy operation that requires a depreciable investment of at least Two Hundred Fifty Thousand Dollars (\$250,000.00) and which produces milk from dairy cows. The term does not include a facility that provides only, and nothing more than, storage, cleaning, drying or transportation of agricultural commodities, and
- b. "Facility" means each part of the facility which is used in a process primarily for:
 - (1) the processing of agricultural commodities, including receiving or storing agricultural

- commodities, or the production of milk at a dairy operation,
- (2) transporting the agricultural commodities or product before, during or after the processing, or
- (3) packaging or otherwise preparing the product for sale or shipment.

7. Despite any provision to the contrary in paragraph 3 of this subsection, for taxable years beginning after December 31, 1999, in the case of a taxpayer which has a farming loss, such farming loss shall be considered a net operating loss carryback in accordance with and to the extent of the Internal Revenue Code, 26 U.S.C., Section 172(b)(G). However, the amount of the net operating loss carryback shall not exceed the lesser of:

- a. Sixty Thousand Dollars (\$60,000.00), or
- b. the loss properly shown on Schedule F of the Internal Revenue Service Form 1040 reduced by one-half (1/2) of the income from all other sources other than reflected on Schedule F.

8. In taxable years beginning after December 31, 1995, all qualified wages equal to the federal income tax credit set forth in 26 U.S.C.A., Section 45A, shall be deducted from taxable income. The deduction allowed pursuant to this paragraph shall only be permitted for the tax years in which the federal tax credit pursuant to 26 U.S.C.A., Section 45A, is allowed. For purposes of this paragraph, "qualified wages" means those wages used to calculate the federal credit pursuant to 26 U.S.C.A., Section 45A.

9. In taxable years beginning after December 31, 2005, an employer that is eligible for and utilizes the Safety Pays OSHA Consultation Service provided by the Oklahoma Department of Labor shall receive an exemption from taxable income in the amount of One Thousand Dollars (\$1,000.00) for the tax year that the service is utilized.

10. For taxable years beginning on or after January 1, 2010, there shall be added to Oklahoma taxable income an amount equal to the amount of deferred income not included in such taxable income pursuant to Section 108(i)(1) of the Internal Revenue Code of 1986 as amended by Section 1231 of the American Recovery and Reinvestment Act of 2009 (P.L. No. 111-5). There shall be subtracted from Oklahoma taxable income an amount equal to the amount of deferred income included in such taxable income pursuant to Section 108(i)(1) of the Internal Revenue Code by Section 1231 of the American Recovery and Reinvestment Act of 2009 (P.L. No. 111-5).

11. For taxable years beginning on or after January 1, 2019, there shall be subtracted from Oklahoma taxable income or adjusted gross income any item of income or gain, and there shall be added to Oklahoma taxable income or adjusted gross income any item of loss or

deduction that in the absence of an election pursuant to the provisions of the Pass-Through Entity Tax Equity Act of 2019 would be allocated to a member or to an indirect member of an electing pass-through entity pursuant to Section 2351 et seq. of this title, if (i) the electing pass-through entity has accounted for such item in computing its Oklahoma net entity income or loss pursuant to the provisions of the Pass-Through Entity Tax Equity Act of 2019, and (ii) the total amount of tax attributable to any resulting Oklahoma net entity income has been paid. The Oklahoma Tax Commission shall promulgate rules for the reporting of such exclusion to direct and indirect members of the electing pass-through entity. As used in this paragraph, "electing pass-through entity", "indirect member", and "member" shall be defined in the same manner as prescribed by Section 2355.1P-2 of this title. Notwithstanding the application of this paragraph, the adjusted tax basis of any ownership interest in a pass-through entity for purposes of Section 2351 et seq. of this title shall be equal to its adjusted tax basis for federal income tax purposes.

B. 1. The taxable income of any corporation shall be further adjusted to arrive at Oklahoma taxable income, except those corporations electing treatment as provided in subchapter S of the Internal Revenue Code, 26 U.S.C., Section 1361 et seq., and Section 2365 of this title, deductions pursuant to the provisions of the Accelerated Cost Recovery System as defined and allowed in the Economic Recovery Tax Act of 1981, Public Law 97-34, 26 U.S.C., Section 168, for depreciation of assets placed into service after December 31, 1981, shall not be allowed in calculating Oklahoma taxable income. Such corporations shall be allowed a deduction for depreciation of assets placed into service after December 31, 1981, in accordance with provisions of the Internal Revenue Code, 26 U.S.C., Section 1 et seq., in effect immediately prior to the enactment of the Accelerated Cost Recovery System. The Oklahoma tax basis for all such assets placed into service after December 31, 1981, calculated in this section shall be retained and utilized for all Oklahoma income tax purposes through the final disposition of such assets.

Notwithstanding any other provisions of the Oklahoma Income Tax Act, Section 2351 et seq. of this title, or of the Internal Revenue Code to the contrary, this subsection shall control calculation of depreciation of assets placed into service after December 31, 1981, and before January 1, 1983.

For assets placed in service and held by a corporation in which accelerated cost recovery system was previously disallowed, an adjustment to taxable income is required in the first taxable year beginning after December 31, 1982, to reconcile the basis of such assets to the basis allowed in the Internal Revenue Code. The purpose of this adjustment is to equalize the basis and allowance

for depreciation accounts between that reported to the Internal Revenue Service and that reported to Oklahoma.

2. For tax years beginning on or after January 1, 2009, and ending on or before December 31, 2009, there shall be added to Oklahoma taxable income any amount in excess of One Hundred Seventy-five Thousand Dollars (\$175,000.00) which has been deducted as a small business expense under Internal Revenue Code, Section 179 as provided in the American Recovery and Reinvestment Act of 2009.

C. 1. For taxable years beginning after December 31, 1987, the taxable income of any corporation shall be further adjusted to arrive at Oklahoma taxable income for transfers of technology to qualified small businesses located in Oklahoma. Such transferor corporation shall be allowed an exemption from taxable income of an amount equal to the amount of royalty payment received as a result of such transfer; provided, however, such amount shall not exceed ten percent (10%) of the amount of gross proceeds received by such transferor corporation as a result of the technology transfer. Such exemption shall be allowed for a period not to exceed ten (10) years from the date of receipt of the first royalty payment accruing from such transfer. No exemption may be claimed for transfers of technology to qualified small businesses made prior to January 1, 1988.

2. For purposes of this subsection:

Such corporations, estates or trusts shall be allowed a deduction from Oklahoma taxable income for the amount of qualifying gains receiving capital treatment earned by the corporation, estate or trust during the taxable year and included in the federal taxable income of such corporation, estate or trust.

2. As used in this subsection:

- a. "qualifying gains receiving capital treatment" means the amount of net capital gains, as defined in Section 1222(11) of the Internal Revenue Code, included in the federal income tax return of the corporation, estate or trust that result from:

 - (2) the sale of stock or on the sale of an ownership interest in an Oklahoma company, limited liability company, or partnership where such stock or ownership interest has been directly or indirectly owned by the corporation, estate or trust for a holding period of at least three (3) years prior to the date of the transaction from which the net capital gains arise, or
 - (3) the sale of real property, tangible personal property or intangible personal property located within Oklahoma as part of the sale of all or substantially all of the assets of an Oklahoma company, limited liability company, or partnership where such property has been directly or indirectly owned by such entity owned by the owners of such entity, and used in or derived from such entity for a period of at least three (3) years prior to the date of the transaction from which the net capital gains arise,

e. "indirect" means the taxpayer owns an interest in a pass-through entity (or chain of pass-through entities) that sells the asset that gives rise to the qualifying gains receiving capital treatment.

(1) With respect to sales of real property or tangible personal property located within Oklahoma, the deduction described in this subsection shall not apply unless the pass-through entity that makes the sale has held the property for not less than five (5) uninterrupted years prior to the date of the transaction that created the capital gain, and each pass-through entity included in the chain of ownership has been a member, partner, or shareholder of the pass-through entity in the tier immediately below it for an uninterrupted period of not less than five (5) years.

(2) With respect to sales of stock or ownership interest in or sales of all or substantially all of the assets of an Oklahoma company, limited liability company, or partnership, the deduction described in this subsection shall not apply unless the pass-through entity that makes the sale has held the stock or ownership interest or the assets for not less than three (3) uninterrupted years prior to the date of the transaction that created the capital gain, and each pass-through entity included in the chain of ownership has been a member, partner or shareholder of the pass-through entity in the tier immediately below it for an uninterrupted period of not less than three (3) years.

E. The Oklahoma adjusted gross income of any individual taxpayer shall be further adjusted as follows to arrive at Oklahoma taxable income:

1. a. In the case of individuals, there shall be added or deducted, as the case may be, the difference necessary to allow personal exemptions of One Thousand Dollars (\$1,000.00) in lieu of the personal exemptions allowed by the Internal Revenue Code.

 - c. Whenever the filing of a timely income tax return by a member of the Armed Forces of the United States is

made impracticable or impossible of accomplishment by reason of:

- (1) absence from the United States, which term includes only the states and the District of Columbia,
- (2) absence from the State of Oklahoma while on active duty, or

A record of every such extension granted, and the reason therefor, shall be kept.

6. Before July 1, 2010, the salary or any other form of compensation, received from the United States by a member of any component of the Armed Forces of the United States, shall be deducted from taxable income during the time in which the person is detained by the enemy in a conflict, is a prisoner of war or is missing in action and not deceased; provided, after July 1, 2010, all such salary or compensation shall be subject to the deduction as provided pursuant to paragraph 5 of this subsection.

- c. For the purpose of this paragraph, "federal income taxes paid" shall mean federal income taxes, surtaxes imposed on incomes or excess profits taxes, as though the taxpayer was on the accrual basis. In determining the amount of deduction for federal income taxes for tax year 2001, the amount of the deduction shall not be adjusted by the amount of any accelerated ten percent (10%) tax rate bracket credit or advanced refund of the credit received during the tax year provided pursuant to the federal Economic Growth and Tax Relief Reconciliation Act of 2001, P.L. No. 107-16, and the advanced refund of such credit shall not be subject to taxation.

§68-2359. Exempted organizations.

A. A person or organization exempt from federal income taxation under the provisions of the Internal Revenue Code shall also be exempt from the tax imposed by Section 2351 et seq. of this title in each year in which such person or organization satisfies the requirements of the Internal Revenue Code for exemption from federal income taxation. If the exemption applicable to any person or organization under the provisions of the Internal Revenue Code is limited or qualified in any manner, the exemption from taxes imposed by this article shall be limited or qualified in a similar manner.

B. Notwithstanding the provisions of subsection A of this section, the unrelated business taxable income or other income subject to tax, as computed under the provisions of the Internal Revenue Code, of any person or organization exempt from the tax imposed by Section 2351 et seq. of this title and subject to the tax imposed on such income by the Internal Revenue Code shall be subject to the tax which would have been imposed by this act but for the provisions of subsection A of this section.

C. Insurance companies paying, during or for the taxable year, a tax to this state on gross premium income shall be exempt from the provisions of this article and the taxes levied thereby.

D. Royalty earned by an inventor from products developed and manufactured in this state shall be exempt from the tax imposed by Section 2355 of this title for a seven-year period, pursuant to the provisions of Section 5064.7 of Title 74 of the Oklahoma Statutes.

E. Tenants of small business incubators shall be exempt for the tax imposed by Section 2355 of this title, pursuant to the provisions of Section 5078 of Title 74 of the Oklahoma Statutes. Added by Laws 1971, c. 137, § 9, emerg. eff. May 11, 1971. Amended by Laws 1975, c. 122, § 1, emerg. eff. May 13, 1975; Laws 1987, c. 121, § 10, eff. Nov. 1, 1987; Laws 1987, c. 228, § 11, eff. §68-2360. Accounting periods and methods.

A. The taxpayer's taxable year under this act shall be the same as his taxable year for federal income tax purposes. If, on the effective date of this act, the taxpayer's taxable year for Oklahoma income tax purposes is different than his taxable year for federal income tax purposes, the taxpayer shall file a return for the short period ending on the day for which his current taxable year for federal income tax purposes ends. If such taxpayer's taxable year for federal income tax purposes ends after his taxable year for Oklahoma income tax purposes, then the taxpayer shall file a return for such regular Oklahoma taxable year and a return for the short period ending with the federal taxable year.

The Tax Commission shall prescribe and promulgate all necessary rules and regulations for annualizing income and/or deductions for short years necessitated by the transition, if any, to the federal taxable year.

B. If a taxpayer's taxable year is changed for federal income tax purposes, his Oklahoma taxable year shall be similarly changed under the same rules applicable under the Internal Revenue Code.

C. The taxpayer's method of accounting under this act shall be the same as his method of accounting for federal income tax purposes.

D. If a taxpayer's method of accounting is changed for federal income tax purposes, such taxpayer's method for Oklahoma income tax purposes shall be similarly changed under the same rules applicable under the Internal Revenue Code.

§68-2361. Filings by married taxpayers - Joint returns - Relief from liability for deficiency.

Married taxpayers shall file joint or separate returns in accordance with the manner in which they file returns to the federal government, or in the event of an adjustment thereto by the federal government, as finally ascertained to be proper under the Internal

Revenue Code; except that: where either is a resident and the other is a nonresident, they shall not be entitled to file joint Oklahoma income tax returns, but if a joint return was filed with the federal government, then the adjusted gross income as returned to the federal government, or in the event of an adjustment thereto by the federal government as finally ascertained under the Internal Revenue Code, shall be allocated between the husband and wife. The foregoing exception shall not apply if the nonresident is an active duty service member whose income is not subject to Oklahoma income tax by virtue of the Soldier's and Sailor's Civil Relief Act or if both have net income and they desire to file a joint Oklahoma return and elect to have their Oklahoma income determined and taxed on the basis of a joint Oklahoma return as if both were residents.

If a joint return has been made under this section for a tax year and taking into account all the facts and circumstances, the Tax Commission determines that it is inequitable to hold one of the spouses liable for the deficiency in tax for such tax year, then such spouse shall be relieved of liability for tax, including interest and penalties, for such tax year to the extent that such deficiency is determined to be the liability of the other spouse. For purposes of this section, the determination made by the Tax Commission shall be the same as the determination made by the Internal Revenue Service provided the tax year and circumstances surrounding the liability are the same. If there has been no determination made by the Internal Revenue Service, the Tax Commission shall apply the factors that would have been applied by the Internal Revenue Service had a determination been requested. Added by Laws 1971, c. 137, § 11, emerg. eff. May 11, 1971. Amended by Laws 1994, c. 278, § 26, eff. Sept. 1, 1994; Laws 1995, c. 337, § 8, emerg. eff. June 9, 1995; Laws 2001, c. 244, § 1, emerg. eff. May 23, 2001.

§68-2362. Oklahoma taxable income of a part-year resident individual, nonresident individual, a nonresident trust and a nonresident estate.

A. For tax years beginning on or after January 1, 1994, the Oklahoma taxable income of a part-year resident individual, nonresident individual, a nonresident trust and a nonresident estate shall be calculated following the provisions of Section 2358 of this title as if all income were earned in Oklahoma.

B. Using Oklahoma income tax rates, part-year resident individuals, nonresident individuals, nonresident trusts and nonresident estates shall compute their tax liability on the amount computed in the preceding paragraph.

C. From the liability computed there shall be deducted all allowable credits to determine the amount of tax due.

D. Part-year resident individuals, nonresident individuals, nonresident trusts and nonresident estates shall divide adjusted gross income from Oklahoma sources by the adjusted gross income from all sources to arrive at the applicable percentage that Oklahoma adjusted gross income represents of all adjusted income received by the taxpayer in the income year.

E. Part-year resident individuals, nonresident individuals, nonresident trusts and nonresident estates shall multiply the amount of Oklahoma tax computed by the applicable percentage calculated in the preceding paragraph in order to determine the amount of income tax which must be paid to the State of Oklahoma. Nothing in this section shall be construed to allow for greater than one hundred percent (100%) of a taxpayer's income to be taxed.

F. For purposes of determining the adjusted gross income from Oklahoma, the following shall be includable:

1. The ownership of any interest in real or tangible personal property in this state;

2. A business, trade, profession or occupation carried on in this state or compensation for services performed in this state;

3. A business, trade, profession or occupation carried on or compensation for services performed partly within and partly without this state to the extent allocable and apportionable to Oklahoma as determined under Section 2358 of this title;

4. The distributive share of the Oklahoma part of partnership income, gains, losses or deductions;

5. The distributive share of the Oklahoma part of estate or trust income, gains, losses or deductions;

6. Income from intangible personal property, including annuities, dividends, interest and gains from the disposition of intangible personal property to the extent that such income is from property employed in a trade, business, profession or occupation carried on in Oklahoma. A part-year resident individual, nonresident individual, nonresident trust or nonresident estate, other than a dealer holding property primarily for sale to customers in the ordinary course of trade or business, shall not be deemed to carry on a business, trade, profession or occupation in Oklahoma solely by reason of the purchase and sale of property for its own account;

7. The distributive share of the Oklahoma taxable income or loss of a corporation defined in subchapter S of the Internal Revenue Code, 26 U.S.C., Section 1361 et seq.;

8. Income received from all sources of wagering, games of chance or any other winnings from sources within this state. Proceeds which are not money shall be taken into account at their fair market value; and

9. The distributive share of the Oklahoma part of limited liability company income, gains, losses or deductions.

Added by Laws 1971, c. 137, § 12, emerg. eff. May 11, 1971. Amended by Laws 1971, p. 1043, H.J.R. No. 1026, § 2A18, emerg. eff. June 22, 1971; Laws 1972, c. 252, § 3, emerg. eff. §68-2363. Partners and Partnerships.

The Oklahoma distributive share of partnership income, gains, losses or deductions of a partnership to be reported by the partners shall be the same portion of that reported for federal income tax purposes, as the Oklahoma income, gain, losses or deduction determined under Sections 2358 and/or 2362 of this title for said partnership, bears to the federal income, gains, losses or deductions.

Laws 1971, c. 137, § 13, emerg. eff. May 11, 1971.

§68-2364. Estates, trusts and beneficiaries.

A. The Oklahoma taxable income or loss of an estate, trust or any beneficiary of either shall be the same portion of that reported for federal income tax purposes as the Oklahoma income, gains, losses or deductions determined under applicable provisions of this act for said estate, trust and/or beneficiary bears to the federal income, gains, losses or deductions. Amounts allowable under the Oklahoma Estate Tax Law as deductions in computing the taxable estate of a decedent shall not be allowed as deductions in computing the taxable income of the estate or of any other person unless there is filed, as provided in Internal Revenue Code, Section 642, or any provisions comparable thereto, the statement required therein and if such waiver is filed then to the extent allowed as a deduction for income tax purposes, such amount shall not be allowed for estate tax purposes.

B. A beneficiary of a trust shall exclude from Oklahoma taxable income any excess distributions by trusts required to be included in the beneficiary's federal taxable income by reason of Sections 665 through 669 of the Internal Revenue Code, or any provisions comparable thereto.

§68-2365. Subchapter S corporations.

Except as otherwise provided for in the Pass-Through Entity Tax Equity Act of 2019, the provisions, applicable to the taxation of income of corporations and stockholders, electing treatment as provided in subchapter S of the Internal Revenue Code, shall apply to taxpayers as provided under this act. A corporation having an election in effect under subchapter S of the Internal Revenue Code

shall not be subject to the Oklahoma income tax on corporations and for tax years beginning after December 31, 1996, shall not be subject to the tax imposed by subsection A of Section 2370 of this title, and the shareholders of such corporation shall include in their taxable incomes their proportionate part of the federal income of such corporation, subject to the modifications as set forth in Sections 2358, 2362 and 2370.2 of this title, in the same manner and to the same extent as provided by the Internal Revenue Code.

However, if any of the shareholders of such corporation are nonresidents during any part of the taxable year of the corporation, such corporation shall be taxable for such year on that part of the income of the corporation, as determined pursuant to Sections 2358, 2362 and 2370.2 of this title, allocable to the shares of stock owned by such nonresident unless (i) the corporation files with its return for such year an agreement executed by each nonresident stockholder stating that such nonresident will file an Oklahoma income tax return which will include in the adjusted gross income of such nonresident that portion of the Oklahoma taxable income of the corporation allocable to the interest of the nonresident in such corporation, or (ii) the corporation has made a valid election pursuant to the provisions of the Pass-Through Entity Tax Equity Act of 2019 and has paid the applicable tax. For purposes of this section, the term "corporation" shall include state-chartered banks, state and federal savings associations and national banking associations that have total assets of Three Billion Dollars (\$3,000,000,000.00) or less and that are organized pursuant to the laws of this state, or the United States, or are located or doing business in this state.

Added by Laws 1971, c. 137, § 15, emerg. eff. May 11, 1971. Amended by Laws 2000, c. 5, § 1, emerg. eff. March 14, 2000; Laws 2001, c. 319, § 1, eff. July 1, 2001; Laws 2019, c. 201, § 6, emerg. eff. April 29, 2019.

§68-2366. Allocation of income and deductions.

The Tax Commission may allocate gross income, gains, losses, deductions, credits or allowances between two or more organizations, trades or businesses (whether or not incorporated, or organized in the United States or affiliated) owned or controlled directly or indirectly by the same interests, if the Tax Commission reasonably determines such allocation is necessary to prevent evasion of taxes or to clearly reflect income of the organizations, trades or businesses. Each such organization shall be deemed to be transacting business in Oklahoma and subject to all the provisions of this act. This section shall apply only with respect to related organizations, trades or businesses which in the aggregate derive income both within and outside the State of Oklahoma and then only

with respect to such income, deductions, credits or allowances related thereto.

Added by Laws 1971, c. 137, § 16, emerg. eff. May 11, 1971.

§68-2367. Consolidated returns.

The provisions of the Internal Revenue Code, 26 U.S.C., Section 1 et seq., applicable to consolidated corporate income tax returns, shall not apply to taxpayers under this act, except that:

1. If two or more corporations file federal income tax returns on a consolidated basis, and if all of such corporations derive all of their income from sources within Oklahoma, then such corporations shall be required to file consolidated returns for purposes of determining their Oklahoma income tax liability.

2. If two or more corporations file federal income tax returns on a consolidated basis, and if one or more of such corporations derive a portion of their income from sources outside the State of Oklahoma, then such corporations shall not be required to file consolidated returns for purposes of determining their Oklahoma income tax liability except as hereinafter provided in subsection 3 of this section.

3. The Oklahoma Tax Commission shall permit an affiliated group of corporations described in subsection 2 of this section to elect to file a consolidated return for Oklahoma income tax purposes provided such group files an appropriate election in accordance with regulations to be promulgated by the Tax Commission. If an affiliated group of corporations elects to file a consolidated Oklahoma income tax return under the provisions of this section, such election shall be binding and the affiliated group of corporations shall be required to file a consolidated Oklahoma income tax return for future tax years unless the Oklahoma Tax Commission releases the affiliated group of corporations from such election. If an affiliated group of corporations elects to file a consolidated Oklahoma income tax return under the provisions of this subsection, the group's consolidated income, loss or deductions shall be determined on a component member by component member basis in accordance with the provisions of Sections 2358 and 2362 of this title.

Laws 1971, c. 137, § 17; Laws 1971, p. 1043, H.J.R. No. 1026, § 2A19, emerg. eff. June 22, 1971; Laws 1993, c. 273, § 5, eff. Sept. 1, 1993.

§68-2368. Persons required to make returns - Income of estates and trusts - Income of partnerships - Returns by corporations - Time for returns - Verification of returns - Form of returns.

A. For tax years ending before January 1, 2017, the following individuals shall each make a return stating specifically the taxable income and, where necessary, the adjusted gross income and

the adjustments provided in Section 2351 et seq. of this title to arrive at Oklahoma taxable income and, where necessary, Oklahoma adjusted gross income:

1. Every resident individual having a gross income, or gross receipts, for the taxable year in an amount sufficient to require the filing of a federal income tax return, if single, or if married and not living with husband or wife; and

2. Except as otherwise provided for in the Pass-Through Entity Tax Equity Act of 2019, every resident individual having a gross income, or gross receipts, for the taxable year in an amount sufficient to require the filing of a federal income tax return, if married and living with husband or wife.

Provided however, every resident individual who does not meet the requirements sufficient to file a federal return, but has Oklahoma withholding, may file a claim for refund for all Oklahoma income taxes withheld and shall not be subject to the provisions of Section 2358 of this title; and

3. Every nonresident individual having Oklahoma gross income for the taxable year of One Thousand Dollars (\$1,000.00) or more.

B. If a husband and wife, living together, have an aggregate gross income or gross receipts, for such year, in an amount sufficient to require the filing of a federal income tax return:

1. Each shall make a return; or

2. The income of each shall be included in a single joint return, in which case the tax shall be computed on the aggregate net income.

C. 1. For tax years beginning on or after January 1, 2017, every resident individual whose gross income from both within and outside of Oklahoma exceeds the sum of the standard deduction and personal exemption allowed in Section 2358 of this title shall file an Oklahoma income tax return. Resident individuals not required to file a federal income tax return must attach a completed federal income tax return to the Oklahoma income tax return to show how adjusted gross income and deductions were determined, if their gross income is more than their adjusted gross income. The Oklahoma income tax return must show the taxable income and, where necessary, the adjusted gross income and modifications required by Section 2351 et seq. of this title, and any other information the Tax Commission may require.

2. Except as otherwise provided for in the Pass-Through Entity Tax Equity Act of 2019, every nonresident individual having Oklahoma gross income for the taxable year of One Thousand Dollars (\$1,000.00) or more shall file an Oklahoma income tax return.

D. If an individual is unable to make his or her own return, the return shall be made by a duly authorized agent or by the guardian or other person charged with the care of the person or property of such individual.

E. Every partnership shall make a return for each taxable year, stating the taxable income and the adjustments to arrive at Oklahoma income. The Oklahoma return shall include a schedule showing the distribution to partners of the various items of income as per the federal return and the adjustments required by Section 2351 et seq. of this title for Oklahoma. The return shall be signed by one of the partners. Except for partnerships making an election pursuant to the provisions of the Pass-Through Entity Tax Equity Act of 2019, if a partnership has elected pursuant to the provisions of Section 761 of the Internal Revenue Code, or any provision comparable thereto, not to file partnership income tax returns, that partnership shall not be required to file an Oklahoma partnership return. The Oklahoma Tax Commission shall promulgate rules for purposes of partnership returns when multiple partners would otherwise be required to file a nonresident return. The rules shall provide a specific number of partners in a partnership above which a composite return may be filed. The return shall be in such form as prescribed by the Tax Commission.

F. Every corporation shall make a return for each taxable year stating the taxable income and the adjustments provided in Section 2351 et seq. of this title to arrive at Oklahoma taxable income. In addition, corporations electing subchapter S treatment pursuant to the Internal Revenue Code and Section 2351 et seq. of this title, shall include a schedule showing the distribution to shareholders of the various items of income as per the federal return and the adjustments for Oklahoma. All corporation returns shall be signed by the president, vice president, or other principal officer and the corporate seal impressed. In cases where receivers, trustees in bankruptcy, or assignees are operating the property or business of corporations, such receivers, trustees, or assignees shall make a return for such corporations in the same manner and form as corporations are required to make returns. Any tax due on the basis of such returns made by receivers, trustees, or assignees shall be collected in the same manner as if collected from the corporations of whose business or property they have custody and control.

G. Every resident estate and trust shall make a return for each taxable year stating the taxable income and the adjustments to arrive at Oklahoma taxable income. Every nonresident estate or trust having Oklahoma taxable income as provided in Section 2362 of this title shall make a return for each taxable year stating the taxable income and the adjustments to arrive at Oklahoma taxable income. The Oklahoma return shall include a schedule showing the distribution to beneficiaries, if any, of the various items of income as per the federal return and the adjustments for Oklahoma. The fiduciary shall be responsible for making the return and the return shall be signed by the fiduciary, or by one fiduciary if there is more than one. The Tax Commission shall promulgate rules

for purposes of estate and trust returns when multiple returns would otherwise be required of nonresident beneficiaries of estates or trusts. The return shall be in such form as prescribed by the Tax Commission.

H. 1. All individual returns, except individual returns filed electronically, made on the basis of the calendar year shall be due on or before the fifteenth day of April following the close of the taxable year. Provided, if the Internal Revenue Code provides for a later due date for returns of individuals, the Tax Commission shall accept returns filed by individuals by such date and such returns shall be considered as timely filed.

2. All individual returns filed electronically, made on the basis of the calendar year, shall be due on or before the twentieth day of April following the close of the taxable year.

3. All individual returns made on the basis of a fiscal year shall be due on or before the fifteenth day of the fourth month following the close of the fiscal year.

4. For tax years beginning before January 1, 2016, calendar year corporation returns shall be due on or before the fifteenth day of March following the close of the taxable year. For tax years beginning on or after January 1, 2016, calendar year corporation returns shall be due no later than thirty (30) days after the due date established under the Internal Revenue Code.

5. For tax years beginning before January 1, 2016, fiscal year corporation returns shall be due on or before the fifteenth day of the third month following the close of the fiscal year. For tax years beginning on or after January 1, 2016, fiscal year corporation returns shall be due no later than thirty (30) days after the due date established under the Internal Revenue Code.

6. For tax years beginning before January 1, 2016, partnership returns shall be due on or before the fifteenth day of April following the close of the taxable year. For tax years beginning on or after January 1, 2016, partnership returns shall be due no later than thirty (30) days after the due date established under the Internal Revenue Code.

7. All estate and trust returns made on the basis of the calendar year shall be due on or before the fifteenth day of April following the close of the taxable year. All estate and trust returns made on the basis of a fiscal year shall be due on or before the fifteenth day of the fourth month following the close of the fiscal year.

8. In the case of complete liquidation, or the dissolution, of a corporation the return of such corporation shall be made on or before the fifteenth day of the fourth month following the month in which the corporation is completely liquidated. A corporation which has terminated its business activities, satisfied or made provision for all of its liabilities or has distributed all of its assets,

even though not formally dissolved under state law, is deemed to have completely liquidated for purposes of this subsection.

9. The Tax Commission may also provide a later due date for returns of individuals, calendar year corporations, fiscal year corporations, partnership returns, estate and trust returns, or estimated tax payments as provided in Section 2385.9 of this title if a state of emergency is declared by the Governor or upon declaration by the Internal Revenue Service to postpone certain tax filing and tax payment deadlines in disaster areas.

I. Returns by individuals, fiduciaries, partnerships, corporations or any other person or entity required, or that may hereafter be required to file a return, shall contain or be verified by a written declaration that such return is made under the penalties of perjury and the fact that any individual's name is signed to a filed return shall be prima facie evidence for all purposes that the return was actually signed by that individual. Provided, the Tax Commission shall promulgate rules to provide procedures for verification of signatures on returns which are filed electronically.

J. Every return required by Section 2351 et seq. of this title shall be in such form as the Tax Commission may, from time to time, prescribe. Each return shall be filed with the Tax Commission and forms shall be furnished by the Tax Commission on application therefor, but failure to secure or receive the form of a return prescribed shall not relieve any taxpayer from the obligation of making and filing any return herein required.

K. For tax years ending after January 1, 2017, if a taxpayer elects to make installment payments of tax due pursuant to the provisions of subsection (h) of Section 965 of the Internal Revenue Code, 26 U.S.C., Section 965, such election may also apply to the payment of Oklahoma income tax, attributable to the income upon which such installment payments are based.

A. The Oklahoma Tax Commission shall include on each state individual income tax return form for tax years beginning after December 31, 2001, and each state corporate tax return form for tax years beginning after December 31, 2001, an opportunity for the taxpayer to donate from a tax refund for the benefit of the Oklahoma City National Memorial Foundation.

§68-2369. Reports by persons making payments to taxpayers - Withholding production payments for failure to file state income tax return.

A. Except as otherwise provided for in this section, all persons, banks or corporations, in whatever capacity acting, and whether or not otherwise exempted from taxation under this act, including lessees, mortgagors of real or personal property, fiduciaries, employers and all officers or employees of the state or of any political subdivision thereof, having the control, receipt, custody, disposal or payment of interest, income from real property and tangible personal property including rents, oil or gas production payments, and mining production payments, salaries, wages, premiums, annuities, compensation, remunerations, emoluments or other fixed or determinable annual or other periodical gains, profits or income, amounting to Seven Hundred Fifty Dollars (\$750.00) or over, paid or payable during any year, to any taxpayer, shall make complete reports thereof, under oath, to the Tax Commission, under such rules and regulations, in such form and manner and to such extent, as may be prescribed by it.

B. Such reports may be required, regardless of amounts, (1) in case of payments of interest upon bonds, mortgages, deeds of trust, or other similar obligations of corporations, and (2) in the case of dividend payments by corporations subject to the tax levied by this act and (3) in the case of any broker transacting any business, as such, for any individual subject to the provisions of this act. The Tax Commission may require such corporations to state the name and address of each shareholder, the number of shares owned by him and,

in the case of a broker, it may require submission of the names of the customer for whom such broker transacted any business, with such details as to profits, losses or other information as the Tax Commission may require as to each such customer. Any reports required under this subsection shall likewise be rendered under oath, and in accordance with rules and regulations prescribed and adopted by the Tax Commission.

C. Complete reports shall be required, regardless of amounts and not limited to payments exceeding Seven Hundred Fifty Dollars (\$750.00), for all oil, gas, or mining production payments, paid or payable during any year, to any person, as defined in Section 202 of of this title. The Tax Commission may require any person or corporation making such production payments to report the total production payments made to any person during any calendar year, in addition to any other information necessary to calculate Oklahoma income tax upon such production payments. The Tax Commission may require such reports from any person or corporation making production payments for any time period prior to the effective date of this act based on payment records that such person or corporation is required to maintain by state or federal law. For purposes of this section, the term "production payment" means payments of proceeds generated from mineral interests in this state, including but not limited to, a lease bonus, delay rental, royalty and working interest payment, and overriding royalty interest payment.

D. 1. The Tax Commission, or its duly authorized agent, is authorized and empowered to issue orders to withhold all production payments to any person upon a determination that the person has failed to file a state income tax return as required by law reporting production payment income or has failed to pay state income tax. The order to withhold production payments shall be directed to the person or corporation making production payments and shall apply to all production payments that the person named within such order is entitled to until the return is filed and the income tax, penalty and interest are paid. Release of the order to withhold shall be mailed by the Tax Commission to the person or corporation withholding production payments upon the filing of the return and payment of the tax, penalty and interest by the person named within such order or upon payment of the tax, penalty and interest by the person or corporation withholding the production payment.

2. Upon receipt of the Tax Commission order to withhold production payments, the person or corporation making production payments, within thirty (30) days of receiving such order, shall:

a. withhold payments for all production of the person named within such order until such order is released by the Tax Commission,

b. hold in suspense all production payments subject to such order to withhold, and

c. in the case of established delinquent income tax, upon receiving such order from the Tax Commission of such established delinquency, pay the tax, penalty and interest out of the withheld production payments and receipt such tax payment to the taxpayer in lieu of cash in settlement for such production. The order to withhold shall apply to production payments in any case where a successor person or corporation is required to make production payments and to production payments of subsequent production of minerals in this state. Any person or corporation that withholds production payments or pays same to the Tax Commission pursuant to such order is hereby relieved of all liability for such acts.

3. The Tax Commission shall mail notice to each delinquent taxpayer at the last-known address reported by the person or corporation making production payments at least twenty (20) days prior to issuance of an order to withhold production payments. The notice shall contain a statement that the taxpayer has failed to file an income tax return as required by law or has failed to pay delinquent income tax. An order to withhold production payments may be issued by the Tax Commission, or its duly authorized agent, for collection of any delinquent income tax, penalty and interest owed by the taxpayer entitled to production payments.

4. Any person or corporation making production payments who refuses or fails to file the reports required by this section, in the manner and at the time prescribed by the Tax Commission, shall be subject to a penalty in the amount of One Hundred Dollars (\$100.00) for each day such report is delinquent. Any person or corporation making production payments who refuses to withhold payments shall be subject to a penalty in the amount of One Hundred Dollars (\$100.00) for each payment made which was ordered to be withheld. All penalties assessed pursuant to this subsection shall be collected and apportioned in the same manner as the state income tax.

§68-2375. Payment of tax - Delinquency - Penalties and interest - Assessment or refund during IRS extension.

A. On the original due date of the return, not including any extensions, the taxpayer shall remit therewith to the Tax Commission the amount of tax due under the applicable provisions of Section 2351 et seq. of this title. Failure to pay such tax on or before the date the return is due, not including any extensions, shall cause the tax to become delinquent. If the return is filed electronically, the amount of the tax due pursuant to the provisions of this article shall be due on or before the twentieth day of April following the close of the taxable year regardless of when the

return is electronically filed. The tax shall be deemed delinquent if unpaid after the twentieth day of April if the return is electronically filed. Provided, if the Internal Revenue Code provides for a later due date for returns of individuals, the Tax Commission shall accept payments made with returns filed by individuals by such date and such payments shall be considered as timely paid.

B. If any tax due under Section 2351 et seq. of this title, except a deficiency determined under Section 221 of this title, is not paid on or before the date such tax becomes delinquent, a penalty of five percent (5%) of the total amount of the tax due shall be added thereto, collected and paid. However, the Tax Commission shall not collect the penalty assessed if the taxpayer remits the tax and interest within sixty (60) days of the mailing of a proposed assessment or voluntarily pays the tax upon the filing of an amended return.

C. If any part of deficiency, arbitrary or jeopardy assessment made by the Tax Commission is based upon or occasioned by the refusal of any taxpayer to file with the Tax Commission any return as required by Section 2351 et seq. of this title, within ten (10) days after a written demand for such report or return has been served upon any taxpayer by the Tax Commission by registered letter with a return receipt attached, the Tax Commission may assess and collect, as a penalty, twenty-five percent (25%) of the amount of the assessment. In the exercise of the authority granted by subsection C of Section 223 and Section 224 of this title, the Tax Commission shall assess the tax as an estimated tax on the basis of its own determination of the Oklahoma taxable income of the taxpayer, to be adjusted if and when Oklahoma taxable income is ascertained under the provisions of Section 2351 et seq. of this title.

D. If any part of any deficiency was due to negligence or intentional disregard, without the intent to defraud, then ten percent (10%) of the total amount of the deficiency, in addition to such deficiency, including interest as authorized by law, shall be added, collected and paid.

E. If any part of any deficiency was due to fraud with intent to evade tax, then fifty percent (50%) of the total amount of the deficiency, in addition to such deficiency, including interest as herein provided, shall be added, collected and paid.

F. The provisions in this section for penalties shall supersede all other provisions for penalties on income taxes. The provisions in this section for penalties shall supersede the provisions in the Uniform Tax Procedure Code, Section 201 et seq. of this title, only to the extent of conflict between such provisions and the penalty provisions in this section.

G. All taxes, penalties and interest levied under Section 2351 et seq. of this title must be paid to the Tax Commission at Oklahoma City, in the form or remittance required by and payable to it.

H. 1. The period of time prescribed in Section 223 of this title, in which the procedures for the assessment of income tax may be commenced by the Tax Commission, shall be tolled and extended until the amount of taxable income for any year of a taxpayer under the Internal Revenue Code has been finally determined under applicable federal law and for the additional period of time hereinafter provided in this subsection.

2. If, in such final determination, the amount of taxable income for any year of a taxpayer under the Internal Revenue Code is changed or corrected from the amounts included in the federal return of the taxpayer for such year and such change or correction affects the Oklahoma taxable income of the taxpayer for such year, the taxpayer, within one (1) year after such final determination of the corrected taxable income, shall file an amended return under Section 2351 et seq. of this title reporting the corrected Oklahoma taxable income, and the Tax Commission shall make assessment or refund within two (2) years from the date the return required by this paragraph is filed and not thereafter, unless a waiver is agreed to and signed by the Tax Commission and the taxpayer.

3. In the event of failure by a taxpayer to comply with the provisions of paragraph 2 of this subsection, the statute of limitations shall be tolled for a period of time equal to the time between the date the amended return under this subsection is required until such return is actually furnished.

4. In administering the provisions of this subsection, the Tax Commission shall have the authority to audit each and every item of income, deduction, credit or any other matter related to the return where such items or matters relate to allocation or apportionment between the State of Oklahoma and some other state or the federal government even if such items or matters were not affected by revisions made in such final determination. Where such items or matters do not relate to allocation or apportionment between the State of Oklahoma and some other state or the federal government, the Tax Commission shall be bound by the revisions made in such final determination.

5. The provisions of this subsection shall be effective on September 1, 1993, and except in the case of tax years which are the subject of closing, settlement or resolution agreements entered into by taxpayers and the Tax Commission, keep open all tax years beginning after June 30, 1988, and all tax years beginning on or before June 30, 1988, for which extensions of the statute of limitations have been executed by the taxpayer, but only to the extent such extensions remain open on the date of enactment hereof.

The additional penalty may be collected in the same manner as provided by law for collection of delinquent taxes.

E. If the Tax Commission, in any case, has justifiable reason to believe that the collection of the tax provided for in Section 2385.2 of this title is in jeopardy, the Tax Commission may require the employer to file a return and pay the tax at any time.

§68-2394. Inducements for tourism attraction projects - Criteria - Consultant's report.

A. The Executive Director of the Oklahoma Department of Commerce shall establish standards for the making of applications for inducements to eligible companies and their tourism attraction projects by the promulgation of rules in accordance with the Administrative Procedures Act.

B. With respect to each eligible company making an application to the Executive Director for inducements, and with respect to the tourism attraction described in the application, the Executive Director shall make inquiries and request materials of the applicant that shall include, but shall not be limited to:

1. Marketing plans for the project that target individuals who are not residents of this state;

2. A description and location of the project including a description and boundary of the area encompassing the Entertainment District, if applicable;

3. Capital and other anticipated expenditures for the project that indicate that the total cost of the project shall exceed the minimum amount set forth in subsection C of this section and the anticipated sources of funding therefor, which for an Entertainment District that is anticipated to be completed in multiple phases may include capital and other anticipated expenditures for all phases of the project;

4. The anticipated employment and wages to be paid at the project, which may include employment and wages to be paid by the eligible company and any tenants of the tourism attraction project;

5. Business plans which indicate the average number of days in a year in which the project or any component thereof will be in operation and open to the public, if applicable; and

6. The anticipated revenues and expenses generated by the project, which for an Entertainment District may include the anticipated revenues and expenses generated by each of the different phases or components of the Entertainment District.

Based upon a review of these materials, if the Executive Director determines that the eligible company and the tourism attraction may reasonably be expected to satisfy the criteria for final approval in subsection C of this section, then the Executive Director may consider granting a preliminary approval of the eligible company and the tourism attraction project pursuant to subsection B of Section 2395 of this title.

C. Except as provided for in subsection D of this section, for a tourism attraction project, after granting a preliminary approval, the Executive Director shall require the eligible company to hire a competent consulting firm which shall submit to the Executive Director a report analyzing the data made available by the eligible company and which shall collect and analyze additional information necessary to determine that, in the independent judgment of the consultant, the tourism attraction project will:

1. Attract at least twenty-five percent (25%) of its visitors from among persons who are not residents of this state;

2. Have costs in excess of Five Hundred Thousand Dollars (\$500,000.00);

3. Have a significant and positive economic impact on this state considering, among other factors, the extent to which the tourism attraction project will compete directly with existing tourism attractions in this state, and the extent to which the tourism attraction project will be revenue-neutral to the State of Oklahoma, meaning the amount by which increased tax revenues from the tourism attraction project will exceed the inducements allowed pursuant to Section 2397 of this title;

4. Produce sufficient revenues and public demand to be operating and open to the public on a regular and persistent basis; and

5. Not adversely affect existing employment in this state.

D. At the request of the eligible company, the Executive Director may allow the eligible company to hire the Oklahoma Department of Commerce to prepare the report required in subsection C of this section.

E. For a tourism attraction project that is an Entertainment District and is anticipated to be completed in multiple phases, the required report may include the data and information for the entire Entertainment District including any and all components or phases of the Entertainment District and a separate report for each component or phase of the Entertainment District shall not be required.

F. The eligible company shall pay for the cost of the required report and shall cooperate with the entity preparing the report and provide all of the data that the preparing entity deems necessary to make a determination pursuant to this section. The cost for preparation of this report by the Oklahoma Department of Commerce shall be set forth by administrative rules promulgated by the Department, but in any event shall be a nonrefundable fee of no less than Five Thousand Dollars (\$5,000.00) per report. Payment for preparation of this report by the Oklahoma Department of Commerce shall be made by the eligible company to the Department upon approval of the request, and funds received shall be deposited into the Oklahoma Department of Commerce Revolving Fund created in Section 5012 of Title 74 of the Oklahoma Statutes.

Added by Laws 2017, c. 196, § 4, eff. Nov. 1, 2017. Amended by Laws 2019, c. 443, § 2, eff. Nov. 1, 2019; Laws 2021, c. 140, § 2, eff. Nov. 1, 2021.

§68-2395. Preliminary and final approval of projects.

A. The Executive Director of the Oklahoma Department of Commerce shall establish standards for preliminary approval and final approval of eligible companies and their projects by the promulgation of rules in accordance with the Administrative Procedures Act.

B. The Executive Director may give preliminary approval by designating an eligible company as a preliminarily approved company and preliminarily authorizing the undertaking of the tourism attraction project.

C. The Executive Director shall review the report prepared pursuant to subsection C of Section 2394 of this title and other information that has been made available to the Executive Director in order to assist the Executive Director in determining whether the tourism attraction project will further the purposes of the Oklahoma Tourism Development Act.

D. The criteria for final approval of eligible companies and tourism attraction projects shall include, but shall not be limited to, the criteria set forth in subsection C of Section 2394 of this title.

E. After a review of the relevant materials, the consultant's report, other information made available to the Executive Director, and completion of other inquiries, the Executive Director may give final approval to the eligible company's application for a tourism attraction project and may grant to the eligible company the status of an approved company.

Added by Laws 2017, c. 196, § 5, eff. Nov. 1, 2017. Amended by Laws 2019, c. 443, § 3, eff. Nov. 1, 2019; Laws 2021, c. 140, § 3, eff. Nov. 1, 2021.

§68-2396. Approved projects - Agreement terms and provisions.

A. Upon granting final approval, the Executive Director of the Oklahoma Department of Commerce may enter into an agreement with an approved company with respect to its tourism attraction project. The terms and provisions of each agreement shall include, but shall not be limited to:

1. The amount of approved costs, which shall be determined by negotiations between the Executive Director and the approved company;

2. A date certain by which the approved company shall have completed the tourism attraction project or an individual component or phase of the project if the tourism attraction project is an Entertainment District. Within three (3) months of the completion date of the whole or an individual component or phase of the project, the approved company shall document its actual costs of the project through a certification of the costs by an independent certified public accountant acceptable to the Executive Director; and

3. The following provisions:

- a. the term of the agreement may be up to ten (10) years from the later of:
 - (1) the date of the final approval of the tourism attraction project, or
 - (2) the completion date specified in the agreement, if the completion date is within three (3) years of the date of the final approval of the tourism attraction project. However, the term of the agreement may be extended for up to two (2) additional years by the Executive Director, with the advice and consent of the Oklahoma Tax Commission, if the Executive Director determines that the failure to complete the tourism

attraction project within three (3) years resulted from:

- (a) unanticipated and unavoidable delay in the construction of the tourism attraction project,
 - (b) an original completion date for the tourism attraction project, as originally planned, which will be more than three (3) years from the date construction began, or
 - (c) a change in business structure resulting from a merger or acquisition,
- b. in any tax year during which an agreement is in effect, if the amount of sales tax to be remitted by the approved company or an Entertainment District Tenant Party, if applicable, exceeds the sales tax credit available to the approved company or Entertainment District Tenant Party, if applicable, then the approved company or Entertainment District Tenant Party, if applicable, shall pay the excess to this state as sales tax,
- c. within forty-five (45) days after the end of each calendar year the approved company shall supply the Executive Director with such reports and certifications as the Executive Director may request demonstrating to the satisfaction of the Executive Director that the approved company is in compliance with the provisions of the Oklahoma Tourism Development Act, and
- d. the approved company or an Entertainment District Tenant Party, if applicable, shall not receive an inducement with respect to any calendar year if:
 - (1) with respect to any tourism attraction project that is not an Entertainment District in any calendar year following the fourth year of the agreement, the tourism attraction project fails to attract at least fifteen percent (15%) of its visitors from among persons who are not residents of this state, or
 - (2) in any calendar year following the first year of the project or the tourism attraction project is not operating and open to the public on a regular and consistent basis, which for a tourism attraction project that is an Entertainment District shall mean that a substantial portion of the Entertainment District is not operating and open to the public on a regular and consistent basis.

B. The agreement shall not be transferable or assignable by the approved company without the written consent of the Executive Director but, with respect to a tourism attraction project that is an Entertainment District, the approved company can elect to pass-through all or a portion of the sales tax credit to one or more Entertainment District Tenant Parties in accordance with Section 2397 of this title.

C. If the approved company utilizes or receives inducements which are subsequently disallowed then the approved company will be liable for the payment to the Tax Commission of an amount equal to (i) all taxes resulting from the disallowance of the inducements plus applicable penalties and interest, whether owed by the approved company or an Entertainment District Tenant Party to which the credits have been passed-through in accordance with Section 2397 of this title, and/or (ii) all incentive payments previously received by the approved company, plus applicable penalties and interest. Only the approved company originally allowed a sales tax credit shall be held liable to make such payments and not any Entertainment District Tenant Party to whom the credit has been passed-through in accordance with Section 2397 of this title.

D. The Executive Director shall provide a copy of each agreement entered into with an approved company to the Tax Commission.

E. For a tourism attraction project that is an Entertainment District and anticipated to have multiple components or phases, the Executive Director may enter into more than one agreement with different approved companies for the different components or phases of the Entertainment District and such agreements may be entered into at different times as though the different components or phases of the Entertainment District are their own separate project. In such case, the Executive Director shall not be required to obtain a separate report (referred to in subsection C of Section 2394 of this title) for each individual component or phase of the Entertainment District, but only one report for the entire Entertainment District. Added by Laws 2017, c. 196, § 6, eff. Nov. 1, 2017. Amended by Laws 2019, c. 443, § 4, eff. Nov. 1, 2019; Laws 2021, c. 140, § 4, eff. Nov. 1, 2021; Laws 2023, 1st Ex. Sess., c. 30, § 1, eff. Nov. 1, 2023.

§68-2397. Inducement claim forms - Sales tax credits.

A. Upon receiving notification from the Executive Director of the Oklahoma Department of Commerce that an approved company has entered into a tourism project agreement and is entitled to the inducements provided by the Oklahoma Tourism Development Act, the Oklahoma Tax Commission shall provide the approved company with forms and instructions as necessary to claim or receive or pass-through those inducements.

B. An approved company whose agreement provides that it shall expend approved costs of more than Five Hundred Thousand Dollars (\$500,000.00) for a tourism attraction project but less than One Million Dollars (\$1,000,000.00) shall be entitled to a sales tax credit if the company certifies to the Tax Commission that it has expended at least the minimum amount in approved costs, and the Executive Director certifies that the approved company is in compliance with the Oklahoma Tourism Development Act. The Tax Commission shall then issue a tax credit memorandum to the approved company granting a sales tax credit in the amount of up to ten percent (10%) of the approved costs, but limited to the percent of the approved costs that will result in the project being revenue-neutral to this state as determined by the Oklahoma Department of Commerce. Subsequent requests for credit for additional certified approved costs in excess of the minimum amount for each project as listed in this subsection but less than One Million Dollars (\$1,000,000.00) shall result in a sales tax credit in the amount of up to ten percent (10%) of the approved costs, but limited to the percent of the approved costs that will result in the project being revenue-neutral to this state as determined by the Oklahoma Department of Commerce. Sales tax credits allowed pursuant to the provisions of the Oklahoma Tourism Development Act shall not be transferable or assignable; provided that, with respect to a tourism attraction project that is an Entertainment District, the approved company can elect to pass-through all or a portion of the sales tax credit to one or more Entertainment District Tenant Parties. The approved company and the Entertainment District Tenant Party shall jointly file a copy of the written credit pass-through agreement with the Oklahoma Tax Commission within thirty (30) days of the effective date of the agreement. Such filing of the agreement with the Oklahoma Tax Commission shall perfect such agreement. The written agreement shall contain the name, address and taxpayer identification number of the parties to the agreement, the amount of credit being passed-through, the month and year the credit was originally allowed to the approved company, the month and tax year or years for which the credit may be claimed, and a representation by the approved company that the approved company has neither claimed for its own behalf nor conveyed such credits to any other Entertainment District Tenant Party. The Tax Commission shall develop a standard form for use by an approved company and an Entertainment District Tenant Party demonstrating eligibility for the Entertainment District Tenant Party to utilize the sales tax credit. The Tax Commission shall develop a system to record and track the pass-through of the sales tax credit and certify the ownership of the sales tax credit and may promulgate rules to permit verification of the validity and timeliness of a sales tax credit claimed upon a sales tax return pursuant to this subsection but

shall not promulgate any rules which unduly restrict or hinder the pass-through of such sales tax credit to an Entertainment District Tenant Party.

An approved company whose agreement provides that it shall expend approved costs in excess of One Million Dollars (\$1,000,000.00) shall be entitled to a sales tax credit if the company certifies to the Tax Commission that it has expended at least One Million Dollars (\$1,000,000.00) in approved costs and the Executive Director certifies that the approved company is in compliance with the Oklahoma Tourism Development Act. The Tax Commission shall then issue a tax credit memorandum to the approved company granting a sales tax credit in the amount of up to twenty-five percent (25%) of the approved costs, but limited to the percent of the approved costs that will result in the project being revenue-neutral to this state as determined by the Oklahoma Department of Commerce. The credit on all subsequent additional certified approved costs shall be in the amount of up to twenty-five percent (25%) of the costs, but limited to the percent of the approved costs that will result in the project being revenue-neutral to this state as determined by the Oklahoma Department of Commerce. For a tourism attraction project that is an Entertainment District, an approved company may elect to receive an incentive payment based on sales tax collections of Entertainment District Tenant Parties rather than a sales tax credit. The incentive payment shall be in the amount of up to twenty-five percent (25%) of the approved costs but limited to the percent of the approved costs that will result in the project being revenue-neutral to this state as determined by the Oklahoma Department of Commerce; provided that, (A) in no event shall the incentive payments exceed the increased state sales tax liability of the approved company and the Entertainment District Tenant Parties that is actually received by the Tax Commission, and (B) the approved company shall be entitled to receive only ten percent (10%) of the incentive payment amount during each calendar year. The Tax Commission shall issue an incentive payment memorandum to the approved company granting a right to receive an incentive payment from the Tax Commission in the amount of up to twenty-five percent (25%) of the approved costs but limited to the percent of the approved costs that will result in the project being revenue-neutral to this state as determined by the Oklahoma Department of Commerce. As soon as practicable after the end of each calendar year during the term of the agreement, the approved company shall file a claim for the incentive payment with the Tax Commission, and the Tax Commission shall be responsible for ensuring that the amount of the incentive payment claimed does not exceed the increased state sales tax liability of the approved company and the Entertainment District Tenant Parties that has been actually received by the Tax Commission, which may include accessing the Oklahoma sales tax

returns of the Entertainment District Tenant Parties as permitted by this section.

The cumulative inducements provided pursuant to the Oklahoma Tourism Development Act shall not exceed Thirty Million Dollars (\$30,000,000.00) per year.

The Tax Commission shall require proof of expenditures prior to issuing a tax credit memorandum or incentive payment memorandum to the approved company which may be satisfied by a report from an independent certified public accountant. Additional credit memoranda or incentive memoranda may be issued as the approved company certifies additional expenditures of approved costs.

No tax credit memorandum or incentive payment memorandum shall be issued for any approved costs expended after the expiration of three (3) years from the date the agreement was signed by the Executive Director and the approved company. However, the Executive Director, with the advice and consent of the Tax Commission, may authorize inducements for approved costs expended up to five (5) years from the date the agreement was signed if the Executive Director determines that the failure to complete the tourism attraction project within three (3) years resulted from:

1. Unanticipated and unavoidable delay in the construction of the tourism attraction;
2. An original completion date for the tourism attraction, as originally planned, which will be more than three (3) years from the date construction began; or
3. A change in business ownership or business structure resulting from a merger or acquisition.

C. A sales tax credit allowed pursuant to the provisions of this section may be used to offset a portion of the reported state sales tax liability of the approved company or an Entertainment District Tenant Party, if applicable, for all sales tax reporting periods following the issuance of the credit memorandum subject to the following limitations:

1. Only increased state sales tax liability may be offset by the issued credit;
2. An approved company whose agreement provides that it shall expend approved costs in excess of One Million Dollars (\$1,000,000.00) or an Entertainment District Party, if applicable, shall be entitled to use only ten percent (10%) of the amount of each issued credit to offset increased state sales tax liability during each calendar year, plus the amount of any unused credit carried forward from a prior calendar year, and an approved company whose agreement provides that it shall expend approved costs of more than the minimum amount for each project as listed in this subsection but less than One Million Dollars (\$1,000,000.00) shall be entitled to use only twenty percent (20%) of the amount of each issued credit to offset increased state sales tax liability during

each calendar year, plus the amount of any unused credit carried forward from a prior calendar year; and

3. All issued credit memoranda or incentive payment memoranda shall expire at the end of the month following the expiration of the agreement as provided in Section 2396 of this title.

The approved company or an Entertainment District Tenant Party, if applicable, shall have no obligation to refund or otherwise return any amount of this inducement to the person from whom the sales tax was collected.

D. The Tax Commission shall promulgate rules as are necessary for the proper administration of the Oklahoma Tourism Development Act. The Tax Commission may also develop forms and instructions as necessary for an approved company or Entertainment District Tenant Party, if applicable, to claim or receive or pass-through the inducements provided by the Oklahoma Tourism Development Act.

E. The Tax Commission shall have the authority to obtain any information necessary from or regarding the approved company or an Entertainment District Tenant Party, if applicable, and the Executive Director to verify that approved companies or an Entertainment District Tenant Party, if applicable, have received the proper amounts of inducements as authorized by the Oklahoma Tourism Development Act. The Oklahoma Tax Commission shall demand the repayment of any inducements taken or received in excess of the inducements allowed by the Oklahoma Tourism Development Act.

F. No sales tax credit or incentive payment right authorized by this section shall be granted on or after January 1, 2032. Notwithstanding the foregoing, an approved company that has entered into a tourism attraction project agreement with the Oklahoma Department of Commerce pursuant to Section 2396 of this title prior to January 1, 2032, shall continue to be entitled to claim or receive any inducements authorized by this section as contemplated by the tourism project agreement.

G. All currently approved tourism project agreements executed by the Oklahoma Tourism and Recreation Department are hereby transferred to the Oklahoma Department of Commerce upon November 1, 2021.

H. On November 1, 2021, all administrative rules promulgated by the Oklahoma Tourism and Recreation Department regarding the Oklahoma Tourism Development Act shall be transferred to and become a part of the administrative rules of the Oklahoma Department of Commerce. The Office of Administrative Rules in the Office of the Secretary of State shall provide adequate notice in the Oklahoma Register of the transferred rules and shall place the transferred rules under the Administrative Code section of the Oklahoma Department of Commerce. On November 1, 2021, any amendment, repeal, or addition to the transferred rules shall be under the jurisdiction of the Oklahoma Department of Commerce, who shall have the authority

to enact rules in order to carry out the provisions of the Oklahoma Tourism Development Act.

After issuance of a receipt of taxes paid and a decal pursuant to the provisions of subsection C of this section and after notification by the county treasurer of such payment, the county assessor of the county in which the manufactured home is located shall furnish to the county assessor of the county where the manufactured home is to be located, the following information:

1. The name of the owner of the manufactured home;
2. The serial number or identification number of the manufactured home;
3. The registration number given to the manufactured home by Service Oklahoma;
4. The address or legal description where the manufactured home is to be located;
5. The actual retail selling price of the manufactured home, excluding Oklahoma state taxes; and
6. Any other information necessary to enable the county assessor to list and assess the proper ad valorem taxes for the manufactured home for the following year.

E. 1. When lawfully repossessing a manufactured home which has been listed and assessed as real property pursuant to the provisions of subsection A of Section 2812 of this title, a holder of a perfected security interest in the home is authorized to pay the ad valorem taxes for the full current year and any registration fees or ad valorem taxes which may be due for any prior year on the manufactured home based on the assessed value of the home pursuant to the provisions of subsection B of this section apart from other real property and the other improvements thereon. When lawfully repossessing a manufactured home which has been listed and assessed as personal property pursuant to the provisions of subsection B of Section 2812 of this title, a holder of a perfected security interest in the home is authorized to pay the ad valorem taxes for the full current year and any registration fees or ad valorem taxes which may be due for any prior years. The county treasurer shall issue a receipt of taxes paid to said holder and a decal showing the payment of such taxes. Such receipt shall be issued notwithstanding the existence of a tax sale certificate issued as a result of a tax sale to a purchaser of property upon which a manufactured home is located and for which the holder of a perfected security interest makes payment as authorized by this subsection. Such receipt shall be issued if the procedures prescribed by Section 3106 of this title are followed. If a tax sale certificate has been issued as required by law and the notice of sale contained the statement concerning the right of a secured party to repossess the manufactured home, the amount of taxes paid by the holder of the security interest shall be refunded to the holder of the tax sale certificate. The receipt shall be evidence of payment of the ad valorem taxes for purposes of obtaining a permit. Service Oklahoma shall issue a permit immediately to the holder of a perfected security interest or licensed representative thereof, if the holder or representative is bonded by the state, to move the manufactured home to a secure location with a repossession affidavit. However, all excise taxes and ad valorem taxes due on such a manufactured home shall be required to be paid within thirty (30) days of the issuance of the

permit. A certificate of title for a manufactured home shall not be issued pursuant to a repossession prior to the furnishing of proof satisfactory to Service Oklahoma or the licensed operator that all ad valorem taxes due have been paid. If the home is subject to registration pursuant to the provisions of the Oklahoma Vehicle License and Registration Act, the holder of a perfected security interest in a manufactured home may repossess the manufactured home and transport the manufactured home within the state for the purpose of securing the property after registering the manufactured home pursuant to the provisions of Section 1113 or 1117 of Title 47 of the Oklahoma Statutes.

2. The county assessor shall issue a special waiver and a commercial move affidavit for the second through the sixth day of the first month of the following year to allow a manufactured home which is used for commercial purposes to be moved during the first five (5) days in January without a Form 936 or a tax decal. All registration fees, excise taxes or ad valorem taxes due on the manufactured home shall be required to be paid within thirty (30) days of the issuance of the special waiver and commercial move affidavit. A business entity applying for a special waiver and a commercial move affidavit pursuant to this paragraph shall provide the county assessor with the information required by subsection B of Section 14-103D of Title 47 of the Oklahoma Statutes. No individual county assessor shall issue any business entity more than ten special waivers and commercial move affidavits in a calendar year. As used in this paragraph, "manufactured home used for commercial purposes" means a manufactured home owned by any lawfully recognized business entity the primary purpose of which is to provide temporary housing for the employees or contractors of such business entity.

F. 1. The decal shall be affixed to the manufactured home license plate as evidence of the ad valorem tax paid and shall remain on the license plate, which shall be affixed to the exterior of the manufactured home, while the manufactured home is in transit.

2. It shall be a misdemeanor for any person to transport or cause to be transported a manufactured home without the decal affixed as required by this section or without a special waiver and affidavit as provided in subsection E of this section.

3. The decal issued pursuant to subsection C of this section shall be of such size, color, design and numbering as Service Oklahoma may direct. The tax payment decals shall be made with reflectionized material so as to provide effective and dependable brighteners during the service period for which the tax payment decal is issued. Service Oklahoma shall issue such tax payment decals to the various county treasurers of the state in order for a manufactured home owner or reposessor to move the manufactured home.

B. Accreditation for persons designated in subsection A of this section shall consist of initial accreditation and advanced accreditation as follows:

1. Within one (1) year from the date an assessor is elected to office, the assessor shall be required to successfully complete initial accreditation. C. Each county assessor who has successfully completed advanced accreditation shall thereafter be required to complete a continuing education requirement of thirty (30) hours every three (3) years. Failure to complete the continuing education requirement shall result in forfeiture of any travel reimbursement until the requirement is completed. Continuing education shall consist of successful completion of academic units on changes in Oklahoma Statutes affecting ad valorem taxation, real estate or appraisal, valuation and appraisal methods, mass appraisal methods or other topics appropriate to the improvement of county assessor's offices. A deputy who has completed advanced accreditation as required by this section shall be subject to the continuing education requirement.

D. The Oklahoma State University Center for Local Government Technology, in cooperation with the Oklahoma Tax Commission and the County Assessors' Association, shall develop educational requirements, curriculum materials, appropriate study resources and examinations for an education program for accreditation purposes established in this section. The Oklahoma State University Center for Local Government Technology shall provide necessary classes, seminars and materials in support of the accreditation requirements. Nothing in this section shall be construed to prohibit use of the International Association of Assessing Officers' course work, where applicable, or any of its professional designations, as a substitute for or supplement to the accreditation program requirements.

E. For purposes of the administration of the accreditation requirements, the Oklahoma State University Center for Local Government Technology shall be responsible for keeping an official record as to the accreditation of individual county assessors and deputies and others who are required to achieve accreditation. Such record shall be the sole responsibility of Oklahoma State University and shall be defined as an open record under Section 24A.1 et seq. of Title 51 of the Oklahoma Statutes. The Oklahoma State University Center for Local Government Technology shall be responsible for forwarding only the pass/fail results of individual testing to the Tax Commission. §68-2817. Valuation and assessment of property - Fair cash value - Use value

A. All taxable personal property, except intangible personal property, personal property exempt from ad valorem taxation, or household personal property, shall be listed and assessed each year at its fair cash value, estimated at the price it would bring at a fair voluntary sale, as of January 1.

The fair cash value of household personal property shall be valued at ten percent (10%) of the appraised value of the improvement to the residential real property within which such personal property is located as of January 1 each year. The assessment of household personal property as provided by this section may be altered by the taxpayer listing such property at its actual fair cash value. For purposes of establishing the value of household personal property, pursuant to the requirement of Section 8 of Article X of the Oklahoma Constitution, the percentage of value prescribed by this section for the household personal property shall be presumed to constitute the fair cash value of the personal property.

Stocks of goods, wares, and merchandise shall be assessed at the value of the average amount on hand during the preceding year, or the average amount on hand during the part of the preceding year the stock of goods, wares, or merchandise was at its January 1 location. Provided, persons primarily engaged in selling lumber and other building materials including cement and concrete, except for home centers classified under Industry No. 444110 of the North American Industrial Classification Systems (NAICS) Manual, shall be assessed at the average value of the inventory on hand as of January 1 of each year and the value of the inventory on hand as of December 31 of the same year.

B. All taxable real property shall be assessed annually as of January 1, at its fair cash value, estimated at the price it would bring at a fair voluntary sale for:

1. The highest and best use for which the property was actually used during the preceding calendar year; or

2. The highest and best use for which the property was last classified for use if not actually used during the preceding calendar year.

When improvements upon residential real property are divided by a taxing jurisdiction line, those improvements shall be valued and assessed in the taxing jurisdiction in which the physical majority of those improvements are located.

The Ad Valorem Division of the Oklahoma Tax Commission shall be responsible for the promulgation of rules which shall be followed by each county assessor of the state, for the purposes of providing for the equitable use valuation of locally assessed real property in this state. Agricultural land and nonresidential improvements necessary or convenient for agricultural purposes shall be assessed for ad valorem taxation based upon the highest and best use for which the property was actually used, or was previously classified for use, during the calendar year next preceding January 1 on which the assessment is made.

C. The use value of agricultural land shall be based on the income capitalization approach using cash rent. The rental income

shall be calculated using the direct capitalization method based upon factors including, but not limited to:

1. Soil types, as depicted on soil maps published by the Natural Resources Conservation Service of the United States Department of Agriculture;

2. Soil productivity indices approved by the Ad Valorem Division of the Tax Commission;

3. The specific agricultural purpose of the soil based on use categories approved by the Ad Valorem Division of the Tax Commission; and

4. A capitalization rate to be determined annually by the Ad Valorem Division of the Tax Commission based on the sum of the average first mortgage interest rate charged by the Federal Land Bank for the immediately preceding five (5) years, weighted with the prevailing rate or rates for additional loans or equity, and the effective tax rate.

The final use value will be calculated using the soil productivity indices and the agricultural use classification as defined by rules promulgated by the State Board of Equalization. This subsection shall not be construed in a manner which is inconsistent with the duties, powers, and authority of the Board as to valuation of the counties as fixed and defined by Section 21 of Article X of the Oklahoma Constitution.

However, in calculating the use value of buffer strips as defined in Section 2817.2 of this title, exclusive consideration shall be based only on income from production agriculture from such buffer strips, not including federal or state subsidies, when valued as required by subsection C of Section 2817.2 of this title.

D. The use value of nonresidential improvements on agricultural land shall be based on the cost approach to value estimation using currently updated cost manuals published by the Marshall and Swift Company or similar cost manuals approved by the Ad Valorem Division of the Tax Commission. The use value estimates for the nonresidential improvements shall take obsolescence and depreciation into consideration in addition to necessary adjustments for local variations in the cost of labor and materials. This section shall not be construed in a manner which is inconsistent with the duties, powers, and authority of the Board as to equalization of valuation of the counties as determined and defined by Section 21 of Article X of the Oklahoma Constitution.

The use value of facilities used for poultry production shall be determined according to the following procedures:

1. The Ad Valorem Division of the Tax Commission is hereby directed to develop a standard system of valuation of both real and personal property of such facilities, which shall be used by all county assessors in this state, under which valuation based on the

following shall be presumed to be the fair cash value of the property:

- a. for real property, a ten-year depreciation schedule, at the end of which the residual value is twenty percent (20%) of the value of the facility during its first year of operation, and
- b. for personal property, a five-year depreciation schedule, at the end of which the residual value is zero;

2. Such facilities shall be valued only in comparison to other facilities used exclusively for poultry production. Such a facility which is no longer used for poultry production shall be deemed to have no productive use;

3. During the first year such a facility is placed on the tax rolls, its fair cash value shall be presumed to be the lesser of the actual purchase price or the actual documented cost of construction; and

4. For the purpose of determining the valuation of nonresidential improvements used for poultry production, the provisions of this subsection shall be applicable and such improvements shall not be considered to be commercial property.

E. The value of investment in property used exclusively by an oil refinery that is used wholly as a facility, device, or method for the desulphurization of gasoline or diesel fuel as defined in Section 2817.3 of this title shall not be included in the capitalization used in the determination of fair market value of such oil refinery if such property would qualify as exempt property pursuant to Section 2902 of this title, whether or not an application for such exemption is made by an otherwise qualifying manufacturing concern owning the property described by Section 2817.3 of this title.

F. The use value of a lot in any platted addition or a subdivision in a city, town, or county zoned for residential, commercial, industrial, or other use shall be deemed to be the fair cash value of the underlying tract of land platted, divided by the number of lots contained in the platted addition or subdivision until the lot shall have been conveyed to a bona fide purchaser or the lot with building or buildings located thereon shall have been occupied other than as a sales office by the owner thereof, or shall have been leased, whichever event shall first occur. One who purchases a lot for the purposes of constructing and selling a building on such lot shall not be deemed to be a bona fide purchaser for purposes of this section. However, if the lot is held for a period longer than two (2) years before construction, then the assessor may consider the lot to have been conveyed to a bona fide purchaser. The cost of any land or improvements to any real property required to be dedicated to public use including, but not

limited to, streets, curbs, gutters, sidewalks, storm or sanitary sewers, utilities, detention or retention ponds, easements, parks, or reserves shall not be utilized by the county assessor in the valuation of any real property for assessment purposes.

G. The transfer of real property without a change in its use classification shall not require a reassessment thereof based exclusively upon the sale value of the property. However, if the county assessor determines:

1. That by reason of the transfer of a property there is a change in the actual use or classification of the property; or

2. That by reason of the amount of the sales consideration it is obvious that the use classification prior to the transfer of the property is not commensurate with and would not justify the amount of the sales consideration of the property;

then the assessor shall, in either event, reassess the property for the new use classification for which the property is being used, or, the highest and best use classification for which the property may, by reason of the transfer, be classified for use.

H. When the term "fair cash value" or the language "fair cash value, estimated at the price it would bring at a fair voluntary sale" is used in the Ad Valorem Tax Code, in connection with and in relation to the assessment of real property, it is defined to mean and shall be given the meaning ascribed and assigned to it in this section and when the term or language is used in the Code in connection with the assessment of personal property it shall be given its ordinary or literal meaning.

I. Where any real property is zoned for a use by a proper zoning authority, and the use of the property has not been changed, the use and not zoning shall determine assessment. Any reassessment required shall be effective January 1 following the change in use. Taxable real property need not be listed annually with the county assessor.

J. If any real property shall become taxable after January 1 of any year, the county assessor shall assess the same and place it upon the tax rolls for the next ensuing year. When any building is constructed upon land after January 1 of any year, the value of the building shall be added by the county assessor to the assessed valuation of the land upon which the building is constructed at the fair cash value thereof for the next ensuing year. However, after the building has been completed it shall be deemed to have a value for assessment purposes of the fair cash value of the materials used in such building only, until the building and the land on which the building is located shall have been conveyed to a bona fide purchaser or shall have been occupied or used for any purpose other than as a sales office by the owner thereof, or shall have been leased, whichever event shall first occur. The county assessor shall continue to assess the building based upon the fair market

value of the materials used therein until the building and land upon which the building is located shall have been conveyed to a bona fide purchaser or is occupied or used for any purpose other than as a sales office by the owner thereof, or is leased, whichever event shall first occur.

K. In the event improvements on land or personal property located therein or thereon are destroyed or partially destroyed, or the land itself is impaired or partially impaired by fire, lightning, storm, winds, floodwaters, overflow of streams, or other cause (all such destruction or impairments being referred to herein as "damage") during any year, the county assessor shall determine the amount of damage and shall reassess the property for that year at the fair cash value of the property, taking into account the actual loss of functional use of the property occasioned by such damage. The assessor shall make the appropriate value adjustments to the property for that tax year up to the time at which the assessor publishes the "Assessor's Report to the Excise Board" as required by subsection D of Section 2867 of this title. After such time, adjustments can be made only by the county board of tax roll corrections and only after the assessor has certified the tax roll for that year. The board secretary shall notify property owners in advance of the time and place at which the value adjustment to their property will be heard by the board. The board of tax roll corrections is authorized only to approve or reject the value adjustment submitted by the county assessor.

L. All taxable personal property used in the exploration of oil, natural gas, or other minerals including drilling equipment and rigs, shall be assessed annually at the value set forth in the first Hadco International monthly bulletin published for the tax year, using the appropriate depth rating assigned to the drawworks by its manufacturer and the actual condition of the rig.

M. The value of taxable tangible personal property used in commercial disposal systems of waste materials from the production of oil and gas shall not include any contract rights or leases for the use of such systems nor any value associated with the wellbore or non-recoverable down-hole material including casing.

§68-2817.1. Implementation of Oklahoma Constitution Article X, Section 8B - Increasing taxable fair cash value of locally assessed real property.

A. For purposes of implementing Section 8B of Article X of the Oklahoma Constitution, the taxable fair cash value of locally assessed real property shall not be automatically increased five percent (5%) each year, the five-percent limitation on the increase in the taxable fair cash value shall not be cumulative, and the five-percent limitation shall not be considered as a twenty-percent increase every four (4) years.

B. For purposes of implementing Section 8B of Article X of the Oklahoma Constitution, improvements made to locally assessed real property shall be assessed in accordance with law by the county assessor based on the fair cash value of the improvement. The assessed value of the improvement shall then be added to the existing assessed value of the property, except as otherwise provided in the Oklahoma Housing Reinvestment Program Act. The existing property shall continue to be subject to the five-percent limitation on the increase in valuation as set forth in Section 8B of Article X of the Oklahoma Constitution. Except when title to the property is transferred, changed, or conveyed to another person as defined in Section 2802.1 of this title, and in accordance with Legislative intent as set forth in subsection A of this section, under no circumstances shall the taxable fair cash value of the existing property increase by more than five percent (5%) in any taxable year.

Added by Laws 1997, c. 304, § 4, emerg. eff. May 29, 1997. Amended by Laws 2002, c. 344, § 8, eff. Jan. 1, 2003; Laws 2005, c. 116, § 4, eff. Nov. 1, 2005.

§68-2817.2. Buffer strips - Uniform certified document - Duties of Conservation Commission.

A. For purposes of this section, the term "buffer strip" shall include any of the following approved Natural Resources Conservation Service (NRCS) practices which meet the standards and specifications of the NRCS:

1. Alley cropping;

2. Filter strip;
3. Field border;
4. Contour buffer strips;
5. Grassed waterway;
6. Riparian forest buffer; or
7. Riparian herbaceous cover.

B. In order to qualify under this section, the landowner must be participating in an Oklahoma Conservation Commission state cost-share program or be participating in federal conservation cost share programs through the United States Department of Agriculture. Eligibility for land to be considered under this section shall be based on the Natural Resources Conservation Service Buffer Strip Standards and Specifications and eligibility for state buffer programs shall be based on the requirements of the local conservation district.

C. For purposes of valuation and assessment as provided in Section 2817 of Title 68 of the Oklahoma Statutes, a buffer strip shall be valued as a separate parcel of property.

D. 1. The conservation district in which the land is located shall assist the taxpayer in completing a uniform certified document as prescribed by the Oklahoma Tax Commission in cooperation with the Conservation Commission that certifies:

- a. the property meets the requirements established under this section for buffer strips, and
- b. the acreage or square footage of property which qualifies for assessment as a buffer strip.

2. The document shall be filed by the applicant with the county assessor of the county in which the land is located by March 15. Approved applications shall be filed by the county assessor with the Tax Commission.

E. Nothing in this section shall be construed to require any taxpayer to have buffer strips.

F. The Oklahoma Conservation Commission, in consultation with the Natural Resources Conservation Service, shall provide a report concerning the implementation of this program to the Oklahoma Legislature by March 1, 2002.

G. The Oklahoma Conservation Commission shall be responsible for the administration of any state programs for assessing, monitoring, studying and restoring buffer strips. §68-2817.3. Exclusion of property used for desulphurization of gasoline or diesel fuel.

A. As used in subsection E of Section 2817 of this title, "facility, device or method for the desulphurization of gasoline or diesel fuel" means any structure, building, installation, excavation, machinery, equipment or device and any attachment or addition to or reconstruction, replacement or improvement of that property, that is used, constructed, acquired or installed on or after January 1, 2003, wholly or partly to meet or exceed rules adopted by the Oklahoma Environmental Quality Board, or by the United States Environmental Protection Agency with respect to any program which has been delegated to the Department of Environmental Quality for the prevention, monitoring, control or reduction of the amount of sulfur in gasoline or diesel fuel. This definition shall not apply to a motor vehicle.

B. In applying for an exclusion of property under the provisions of subsection E of Section 2817 of this title, a person seeking the exclusion shall present in a request to the Executive Director of the Department of Environmental Quality information detailing:

1. The anticipated environmental benefits from the installation of the facility, device or method for the desulphurization of gasoline or diesel fuel;

2. The estimated cost of the facility, device or method; and

3. The purpose of the installation of such facility, device or method and the proportion of the installation that is such a facility, device or method.

C. Following submission of the information required by subsection B of this section, the Executive Director of the Department of Environmental Quality shall determine if the facility, device or method is used wholly as a facility, device or method for the desulphurization of gasoline or diesel fuel. As soon as practicable, the Executive Director shall send notice by regular mail to the Director of the Ad Valorem Division of the Oklahoma Tax Commission that the person has applied for a determination under this section. If the Executive Director determines that the facility, device or method is used wholly for the desulphurization of gasoline or diesel fuel, the Executive Director shall issue a letter to the person stating that determination and the proportion of the installation that is a facility, device or method for the desulphurization of gasoline or diesel fuel.

D. The Department of Environmental Quality may charge a person seeking a determination under the provisions of this section an additional fee not to exceed its administrative costs for processing the information, making the determination and issuing the letter required by this section. The Environmental Quality Board may adopt rules to implement this section.

E. A person seeking an exclusion under this section shall provide to the county assessor or the Director of the Ad Valorem

Division of the Oklahoma Tax Commission a copy of the letter issued by the Executive Director of the Department of Environmental Quality under subsection C of this section. The county assessor or the Director of the Ad Valorem Division of the Tax Commission shall accept the copy of the letter from the Executive Director as conclusive evidence that the facility, device or method is used wholly for the desulphurization of gasoline or diesel fuel. The county assessor or the Director of the Ad Valorem Division of the Tax Commission shall further determine if the property for which the exclusion is sought is qualified as provided in subsection E of Section 2817 of this title.

F. The exclusion provided by this section, once allowed, need not be applied for subsequent years, and the exclusion applies to the property until it changes ownership or the qualification of the property for the exclusion changes. However, the county assessor or the Director of the Ad Valorem Division of the Tax Commission may require a person allowed an exclusion in a prior year to file a new application to confirm the current qualification for the exclusion by delivering a written notice that a new application is required, accompanied by an appropriate application form, to the person previously allowed the exclusion.

Added by Laws 2002, c. 345, § 2, eff. Jan. 1, 2003. Amended by Laws 2003, c. 431, § 3, eff. Jan. 1, 2004.

§68-2818. Taxpayer's return not conclusive of value - Raising or lowering returned value - Separate valuation by county assessor - Inspection and examination of premises.

A. The return of the taxpayer shall not be conclusive as to the value or amount of any property. The county assessor shall have the authority and it shall be his duty to raise or lower the returned value:

1. Of any personal property, to conform to the fair cash value thereof, estimated at the price it would bring at a fair voluntary sale; or

2. Of any real property so that the assessment thereof shall be made in accordance with the provisions of Section 2817 of this title and with all provisions of the Ad Valorem Tax Code applicable to the valuation of real property.

B. The county assessor shall assess and value all property, both real and personal, which is subject to assessment by him, and shall place a separate value on the land and improvements in assessing real estate; and he shall do all things necessary, including the viewing and inspecting of property, to enable him to assess and value all taxable property, determine the accuracy of assessment lists filed with him, discover and assess omitted property, and determine the taxable status of any property which is claimed to be exempt from ad valorem taxation for any reason.

C. In the performance of his duties, the county assessor, or his duly appointed and authorized deputy, shall have the power and authority to:

1. Go upon any premises and enter any business building or structure and view the same and the property therein, and to view, inspect or appraise any property located within his county, however, the county assessor shall not have the power or authority to enter the private dwelling of a taxpayer except as provided for in subsection D of this section; and

2. Examine any person under oath in regard to the amount or value of his property.

D. In the event of a dispute concerning the valuation of household personal property, a taxpayer may request the county assessor to perform a visual inspection of such property.

E. Prior to entering the business or commercial premises of any taxpayer for purposes of discovering personal property, the county assessor or deputy shall request permission to enter the business or commercial premises and shall state the reason for the inspection. If access to the business or commercial premises is denied, the county assessor or deputy shall be required to obtain a search warrant in order to conduct an inspection of the interior of the business or commercial premises. A search warrant may be obtained upon a showing of probable cause that personal property located within particularly described business or commercial premises is subject to ad valorem taxation, but not listed or assessed for ad valorem taxation as required by law.

§68-2819. Determination of taxable value.

Taxable values of real and personal property shall be established in accordance with the requirements of Sections 8, 8B and 8C of Article X of the Oklahoma Constitution. The county assessor shall determine the taxable value of all taxable property that the assessor is required by law to assess and value and shall determine such taxable value in accordance with the requirements of Sections 8, 8B and 8C of Article X of the Oklahoma Constitution. Added by Laws 1988, c. 162, § 19, eff. Jan. 1, 1992. Amended by Laws 1997, c. 304, § 5, emerg. eff. May 29, 1997.

§68-2819.1. Notice of intent to decrease assessment ration - Public meetings.

A. No county assessor may decrease the assessment ratio used to compute the taxable value of real or personal property unless the assessor provides written notice of an intent to decrease the assessment ratio at least ninety (90) days prior to the first date as of which the assessor intends to cause such ratio to be

decreased. The written notice shall be mailed by certified mail with return receipt requested to the county treasurer, the county clerk, the county sheriff, to each of the county commissioners and to the governing board of any local government jurisdiction that levies ad valorem taxes upon any property located within the county. Such notice shall be mailed not later than sixty (60) days prior to the expiration of the ninety-day period prescribed by this subsection. The notice shall clearly state the assessment ratio in effect prior to the decrease, the category of property (whether real or personal or both) to be affected by the proposed decrease in assessment ratio and the date as of which such decrease is proposed to take effect.

B. The county assessor shall also be required to publish a notice of intent to decrease the assessment ratio which clearly states the ratio in effect prior to the decrease, the category of property (whether real or personal or both) to be affected by the proposed decrease in assessment ratio and the date as of which such decrease is proposed to take effect. The notice shall be placed at least one time for three (3) consecutive weeks in a newspaper of general circulation in the county in which the assessor holds office. The last publication date shall be not later than thirty (30) days prior to the date that any decrease in the assessment ratio is implemented. At the beginning of the notice to be published, there shall appear in a font which is conspicuously larger than the other information which appears in the notice the following wording: "NOTICE OF INTENT TO DECREASE ASSESSMENT RATIO WITH RESPECT TO REAL OR PERSONAL PROPERTY OR BOTH IN [insert applicable county name] FOR THE [insert applicable year] ASSESSMENT YEAR".

C. Before the county assessor may implement a decrease in an assessment ratio with respect to either real or personal property, there shall be at least three public meetings held at a location within the county prior to the date as of which the first decrease in assessment ratio occurs. Notice of the meetings shall be posted in the office of the county assessor, the office of the county treasurer, the office of each county commissioner, the office of the county clerk and such other places within the county as may be feasible in order to provide adequate notice of the date, time and location of each meeting. The last public meeting shall be held not later than thirty (30) days prior to the date any decrease in the applicable assessment ratio is implemented.

D. The county assessor or a designee from the office of the county assessor shall attend each of the public meetings in order to answer questions about the proposed decrease in the assessment ratio and any possible effects on the budgets of any ad valorem taxing jurisdiction.

§68-2820. Visual inspection of taxable property.

A. Each county assessor shall conduct a comprehensive program for the individual visual inspection of all taxable property within his respective county. Each assessor shall thereafter maintain an active and systematic program of visual inspection on a continuous basis and shall establish an inspection schedule which will result in the individual visual inspection of all taxable property within the county at least once each four (4) years.

B. The first cycle of visual inspections for property shall begin upon January 1, 1991, as prescribed by Section 2481.1 of Title 68 of the Oklahoma Statutes, and shall end upon December 31, 1994. Thereafter, each succeeding four-year cycle for visual inspections shall begin upon January 1 of the year following the fourth year of the preceding cycle and shall end upon December 31 of the applicable four-year cycle. The county assessor shall utilize the standard parcel identification system required by law to assign each parcel of real property a unique identification code or number. The code or number shall be used to ensure that the inspection sequence for real property results in a visual inspection of each parcel at least once each four (4) years. Each successor of the county assessor shall use the same cycle as used by the assessor's predecessor in office for visual inspections of property.

C. Prior to the beginning of the first visual inspection cycle and each subsequent visual inspection cycle, the county assessor shall develop a plan that details the number of real property parcels to be inspected in each year of the cycle by use category, geographic area or other basis, the resources and budget proposed to complete the inspections and the valuation methodology to be used in determining the fair cash value of the real property and improvements thereon. The plan shall be adequate to ensure the visual inspection of all parcels of real property within the county at least once each four (4) years. The plan shall also be adequate to ensure that the information collected from the visual inspection of real property each year is sufficient to establish a representative sample from each use category in order to conduct the proper valuation of all taxable property within each use category by means of an accepted standard for mass appraisal practice. The county assessor shall submit the proposed plan to the Oklahoma Tax Commission by the first working day in October preceding the beginning of the four-year cycle. The Oklahoma Tax Commission shall either approve the plan if the plan and resources are adequate to complete the cycle and if the plan will result in a representative sample from each use category in order to value all taxable property each year or shall correct and modify the plan in order to establish a program for visual inspection that will be completed by the end of the cycle and that will provide a representative sample from each

use category in order to value all taxable property each year. An approved plan shall be made for each county as of the beginning date of each cycle and a copy of such plan shall be filed with the Oklahoma Tax Commission.

D. Each year the county assessor shall submit a progress report to the Oklahoma Tax Commission indicating the number of real property parcels inspected by use category, geographic area or other basis, the resources and budget expended in the last completed fiscal year and the valuation methodology used to determine fair cash values of the real property and improvements. The Oklahoma Tax Commission shall correct and modify any visual inspection plan during the four-year cycle if progress reports indicate that inspection of real property parcels will not be completed or will be performed in violation of legal requirements for such inspections. The county assessor shall be required to complete the four-year cycle in accordance with such plan as corrected and modified.

E. Each county assessor shall prepare and submit to the Oklahoma Tax Commission a detailed report of the progress made in the visual inspection program in his county to the date of the report and it shall be made a matter of public record. Such report shall be submitted upon forms supplied by the Oklahoma Tax Commission and shall consist of such information as the Oklahoma Tax Commission requires. The progress report shall be submitted not later than October 15 each year or the first working day thereafter. Based in part on all such county progress reports, the Oklahoma Tax Commission shall prepare its own report from all sources and transmit a copy of its own report to the Legislature and the State Board of Equalization.

Added by Laws 1988, c. 162, § 20, eff. Jan. 1, 1991. Amended by Laws 2001, c. 358, § 18, eff. July 1, 2001.

§68-2821. Physical inspection of real property - Type of information to be gathered - Recording - Cadastral maps and parcel identification system to be required and maintained - Comprehensive sales file - Office equipment.

A. Each county assessor shall cause real property to be physically inspected as part of the visual inspection cycle and shall require such examination as will provide adequate data from which to make accurate valuations.

B. The information gathered from the physical inspection shall be relevant to the type of property involved, its use category, the valuation methodology to be used for the property, whether the methodology consists of the cost approach, an income and expense approach or sales comparison approach, and shall be complete enough in order to establish the fair cash value of the property in accordance with accepted standards for mass appraisal practice.

C. Information gathered during the physical inspection shall be recorded using a standard method as prescribed by the Oklahoma Tax Commission in computerized or noncomputerized form. The information may include property ownership, location, size, use, use category, a physical description of the land and improvements or such other information as may be required.

D. In order to conduct the visual inspections of real property during the four-year cycle, each county assessor shall acquire and maintain cadastral maps and a parcel identification system. The standards for the cadastral maps and the parcel identification system shall be uniform for each county of the state and shall be in such form as developed by the Ad Valorem Task Force.

E. The county assessor shall maintain a comprehensive sales file for each parcel of real property within the county containing relevant property characteristics, sales price information, adjustments to sales price for purposes of cash equivalency, transaction terms and such other information as may be required in order to establish the fair cash value of taxable real property.

Each county assessor shall ensure that the office is equipped with adequate drafting facilities, tools, equipment and supplies in order to produce or update maps, sketches or drawings necessary to support the proper administration of the ad valorem tax and such other tools or equipment as may be required to perform duties imposed by law for the discovery and valuation of taxable property. Added by Laws 1988, c. 162, § 21, eff. Jan. 1, 1992. Amended by Laws 1989, c. 321, § 9, operative Jan. 1, 1992; Laws 1991, c. 338, § 1, eff. Jan. 1, 1992.

§68-2822. Adequate provisions to effectuate visual inspection program to be included in assessors' budgets.

A. Each county assessor in budgets submitted to the county excise board or county budget board shall make adequate provision to effect countywide visual inspections of real property during the four-year cycle.

B. Each jurisdiction within a county which receives revenue from an ad valorem mill rate shall receive a copy of the budget for the countywide visual inspection program for that county. The county excise board or county budget board shall notify all such jurisdictions of any meetings at which discussion or action on the budget for the comprehensive program of visual inspections is or may be on the agenda. Such jurisdictions shall have the opportunity to appear before the county excise board or the county budget board, prior to approval of such budgets, to provide testimony, comments, information and documentation concerning the budgets submitted by the county assessor pursuant to subsection A of this section.

C. The several county excise and budget boards, in passing upon budgets submitted by the several assessors, shall authorize and levy

amounts which will suffice to carry out the countywide visual inspection program as approved by the Oklahoma Tax Commission under Section 2820 of this title. Such amounts shall be separate from other funds allocated to the office of county assessor and shall be used exclusively to carry out the countywide visual inspection program. The allocation of such amounts shall not serve to decrease other funds allocated to the office of county assessor by the county excise board or the county budget board. Any disputes as to the amount authorized to carry out the countywide visual inspection program shall be resolved by the county excise board; provided, the Oklahoma Tax Commission shall take such action as may be necessary to ensure that such amounts are used exclusively to carry out the countywide visual inspection program and that the allocation of such amounts does not serve to decrease other funds allocated to the office of county assessor.

Added by Laws 1988, c. 162, § 22, eff. Jan. 1, 1992. Amended by Laws 1992, c. 366, § 1, emerg. eff. June 9, 1992; Laws 1993, c. 273, § 9, emerg. eff. May 27, 1993; Laws 1994, c. 326, § 2, eff. July 1, 1994.

§68-2823. Cost of comprehensive visual inspection program.

A. For each fiscal year, the cost of the comprehensive program of visual inspections for real property and the cost of physical inspections of personal property shall be paid by appropriate warrants from those who receive the revenues of the mill rates levied on the property of the county as prescribed by this section. School districts are hereby authorized to pay such costs from revenues accruing to their building funds. The county assessor shall prepare a budget for the comprehensive program of visual inspections for real property and the cost of physical inspections of personal property and file such budget with the county excise board or county budget board.

B. The county excise board or county budget board shall apportion such cost among the various recipients of revenues from the mill rates levied, including the county, all cities and towns, all school districts, all sinking funds of such recipients, and all jurisdictions specified in subsection D of this section, in the ratio which each recipient's total tax collection authorized from its mill rates levied for the preceding year bears to the total tax collection authorized of all recipients from all their mill rates levied for the preceding year. The cost shall include only those expenses directly attributable to the visual inspection program and those expenses directly attributable to physical inspections of personal property and shall not include any expenses of the office of the county assessor which, in the judgment of the county excise board or county budget board, are expenses of county assessor's office which would exist in the absence of such program or in the

absence of physical inspection of personal property. Expenses that are attributable both to the visual inspection program and physical inspection of personal property, and which would exist in the absence of such program or inspection, including but not limited to salaries, employee benefits, office supplies and equipment, may be prorated; provided, no portion of the salary of the county assessor shall be included in such costs.

C. Upon receipt of the billing statement provided for in subsections D and E of this section by each such recipient, the mill rates to be established by the board for each such recipient for the current year shall include and be based upon such amounts and shall constitute an appropriation of such amounts to the county assessor for expenditure for the expenses of administering the visual inspection program each year. In the case of a sinking fund of a recipient, if, after approving its budget, the governing body of a recipient notifies the board in writing that there are no funds appropriated to pay the amount of the billing statement for such sinking fund, such notice shall constitute conclusive evidence of a financial obligation of the recipient as it relates to such sinking fund. The board may seek a judgment for the amount of such obligation and court costs in the district court of the county in which the board is located.

D. The county assessor shall render a statement to each of the jurisdictions within the county which receive revenue from an ad valorem mill rate. Such statement shall include the following information:

1. The current fiscal year in which the charge has been incorporated in the jurisdiction's budget;

2. All jurisdictions receiving statements from the county assessor, the mill rate for each in the previous year, and the proportion of each to the combined mill rates of all jurisdictions within the county for the previous year. The proportions specified in this paragraph should equal a total of one hundred percent (100%);

3. The charge for the entity receiving the statement as well as the charge for each jurisdiction of the county based upon the proportions specified in paragraph 2 of this subsection. The total of all current year charges for all county jurisdictions should equal the total visual inspection program budget for the current fiscal year;

4. The amount of the total budget for the office of the county assessor and the percentage that visual inspection program expenses are of such total budget; and

5. A copy of the County Budget Visual Inspection Account and a brief description of the areas to be visually inspected for the current fiscal year, consistent with the plan on file with the Oklahoma Tax Commission pursuant to Section 2820 of this title.

E. In any county wherein any jurisdiction's budget and mill rates are not subject to review and approval by the county excise board, the county assessor shall nevertheless include any such jurisdiction in the calculations required under subsection A of this section. The county assessor shall also render a billing statement to any such jurisdiction showing the charge for the current fiscal year due from the jurisdiction. Such billing statement shall also show all the information specified in subsection D of this section. Such billing statement shall clearly indicate that the charge payable by the jurisdiction is due and payable by December 31 of the current fiscal year.

§68-2824. Special assistance in valuation of certain property.

Any county assessor may request special assistance from the Oklahoma Tax Commission in the valuation of property which requires specialized knowledge not otherwise available to the assessor's staff. Upon approval of such request, the Oklahoma Tax Commission may assist the assessor in the valuation of such property in such manner as the Oklahoma Tax Commission, in its discretion, considers proper and adequate.

Added by Laws 1988, c. 162, § 24, eff. Jan. 1, 1992.

§68-2825. Valuation guidance and assistance.

The Oklahoma Tax Commission shall make and publish such rules, regulations and guides which it determines are needed for the general guidance and assistance of county assessors. Each assessor is hereby directed and required to value property in accordance with the standards established by law.

Added by Laws 1988, c. 162, § 25, eff. Jan. 1, 1992.

§68-2826. Appraisers - Valuations - Reassessment.

A. 1. For residential property, the county assessor may appoint, or may request the Oklahoma Tax Commission to assign, an appraiser to assist the county assessor in valuation of the property.

2. For nonresidential property, after consultation with the Oklahoma Tax Commission, the county assessor may appoint an appraiser to assist the county assessor in valuation of the property.

B. Appraisers whose services may be obtained by appointment by the assessor or who may be assigned by the Oklahoma Tax Commission, upon request of the county assessor, to assist any county assessor shall act in an advisory capacity only. Valuations recommended by

such appraisers shall not be binding upon the assessor. All valuations made pursuant to the Ad Valorem Tax Code shall be made and entered by the assessor pursuant to law.

C. Appraisers whose services were obtained to assist the county assessor for valuation shall not participate in any valuation negotiations, protests to the county assessor, or protests to the county board of equalization. Contracts for such appraiser services shall be subject to the Oklahoma Open Records Act.

D. County assessors may provide photocopies of taxpayer rendition forms and photocopies of any other documents filed by the taxpayer which are directly related to and necessary for appraisers to assist in this capacity. The original documents filed by the taxpayer must be maintained by the county assessors. Upon the expiration of the period for reassessment, provided in Section 2846 of this title, all copies of taxpayer documents and the related work papers of the appraisers must be destroyed or returned to the county assessors by February 1 of the following year. In addition, all photocopies of taxpayer documentation and appraiser work papers must be returned to the county assessor within ten (10) calendar days of the termination of the contract with the appraisers to provide the services described in this section.

E. Except for communications of information protected by Section 2835 of this title, all communications between a county assessor and an appraiser, including communications through a third party, shall be subject to the Oklahoma Open Records Act.

Added by Laws 1988, c. 162, § 26, eff. Jan. 1, 1992. Amended by Laws 2012, c. 164, § 1, eff. Nov. 1, 2012; Laws 2022, c. 335, § 4, eff. Nov. 1, 2022.

§68-2827. Book, records and materials to be maintained by county assessor.

Each county assessor shall keep such books and records as are required by the rules and regulations of the Oklahoma Tax Commission including, but not limited to, publications provided by the Oklahoma Tax Commission to assist the assessor and appraisal staff in the valuation of taxable property as required by law.

Added by Laws 1988, c. 162, § 27, eff. Jan. 1, 1992.

§68-2828. Visual inspection program - Annual progress report to Legislature.

The Oklahoma Tax Commission, prior to the convening of each regular session of the Legislature, shall submit a comprehensive report showing the extent or progress of the real property visual inspection program in each county based upon data from all sources available to the Oklahoma Tax Commission. Such report shall also include any comments and recommendations the Oklahoma Tax Commission may have in regard to the program.

Added by Laws 1988, c. 162, § 28, eff. Jan. 1, 1992.

§68-2829. Valuation of property pursuant to accepted mass appraisal methodology.

A. Each county assessor, in order to comply with the provisions of Section 17 of this act requiring the annual valuation of all taxable real and personal property within the county, shall establish the fair cash value of such taxable property using an accepted mass appraisal methodology.

B. For purposes of this section "accepted mass appraisal methodology" shall mean the process for making estimates of fair cash value for a property about which no direct or timely information is available concerning economic value by using known information about the property characteristics, location, use, size, sales price and other information of similar properties. Such mass appraisal methodology may include multiple regression analysis or other statistical techniques for mass appraisal. If information of similar properties is not available in the taxing jurisdiction, the county assessor may use other applicable regional or national information to annually determine the fair cash value of a property estimated at the price it would bring at a fair voluntary sale as provided in Section 17 of this act.

C. Each county assessor shall utilize the information gathered from the visual inspection of real property conducted during each year of the four-year cycle for such inspections and shall conduct such statistical calculations using the data so acquired together with sales price or other information available as may be required to make accurate estimates of fair cash values for all taxable real or personal property within the county each year. The results of such calculations shall be recorded on the assessment roll of the county on an annual basis in order to reflect any increase or decrease in the fair cash value of any property in any year.

D. The statistical analysis required by this section shall be performed within each county using such computer facilities as may be available, but shall be conducted in accordance with procedures established for the uniform mass appraisal program established by the Oklahoma Tax Commission.

Added by Laws 1988, c. 162, § 29, eff. Jan. 1, 1992.

§68-2829.1. County Assessor Fee Revolving Fund.

There is hereby created in the office of the county treasurer a revolving fund for the office of the county assessor, to be designated the "County Assessor Fee Revolving Fund". The fund shall be a continuing fund, not subject to fiscal year limitations, and shall consist of all fees collected by the assessor and all monies accruing to the fund. Monies deposited to the fund shall be

expended by the county assessor and shall not be transferred to any other account for a purpose other than:

1. For maintenance, replacement and upgrade of computer hardware and software associated with county assessor databases and geographic information systems; and

2. To provide products and services generated from the database and geographic information system to both public and private parties.

The intent of this section is to increase the net funding level available to the county assessor to maintain electronic databases and geographic information systems as required pursuant to Section 2829 of this title.

Added by Laws 1994, c. 200, § 3.

§68-2830. Monitoring valuations - Noncompliance guidelines and procedure.

A. The Oklahoma Tax Commission shall monitor the progress of valuation in each county as it occurs each year. Such monitoring may be conducted by periodic audits of assessments through visits to the county or through an analysis of assessment activity by means of a computer-assisted monitoring program.

B. The Oklahoma Tax Commission shall establish guidelines for determining the extent of noncompliance with the applicable law or administrative rules governing valuation of taxable property. Such guidelines shall establish three categories of noncompliance. The categories shall be respectively denominated as Category 1, Category 2 and Category 3. Each category shall represent progressive degrees of noncompliance. Provided, if the Tax Commission finds that a county assessor is not annually valuing taxable real and personal property within the county as required by Sections 2817 and 2829 of this title, the Tax Commission shall certify that the county is not in compliance with such statutes and shall be required to take action as prescribed by this section for the appropriate category of noncompliance according to the guidelines established pursuant to the provisions of this subsection. The Oklahoma Tax Commission shall be authorized to take action as prescribed by this section for each category of noncompliance as follows:

Category 1: The Oklahoma Tax Commission shall notify the county assessor of the nature of the noncompliance and shall indicate the action required to correct such noncompliance.

Category 2: The Oklahoma Tax Commission shall order the action to be taken in order to bring the county into compliance. The Oklahoma Tax Commission is authorized to do any or all of the following:

1. Impose a schedule of required actions by county officials to bring the county into compliance;

2. Establish deadlines for bringing the county into compliance;
or

3. Impose changes in procedures in the assessor's office, if necessary, to facilitate continued compliance.

Category 3: The Oklahoma Tax Commission shall notify the board of county commissioners and the county assessor of the affected county that the county is in violation of law or regulations relating to the valuation function for the administration of the ad valorem tax. The Oklahoma Tax Commission shall conduct a conference, within thirty (30) days after such notice, in that county with the board of county commissioners, the county assessor and the county board of equalization, to formally notify the county of the extent of noncompliance and the measures necessary to correct it. The Oklahoma Tax Commission is authorized to do any or all of the following:

1. Impose a schedule of required actions by county officials to bring the county into compliance;

2. Establish deadlines for bringing the county into compliance;

3. Impose changes in procedures in the assessor's office, if necessary, to facilitate continued compliance;

4. Place the county valuation function under the temporary supervision of a qualified Oklahoma Tax Commission employee;

5. Require additional training for the assessor, deputies or members of the equalization board; or

The salary of the county assessor shall not be paid during the time that a qualified employee of the Oklahoma Tax Commission is supervising the valuation function in the county, but shall be restored as of the date the Commission certifies to the board of county commissioners that noncompliance has been corrected.

D. The county assessor shall have the right to appeal an order issued by the Oklahoma Tax Commission to correct Category 2

When cattle or other livestock are likewise pastured or kept on a tract of land situated partially in the State of Oklahoma and partially in some other state, the number having a taxable situs in Oklahoma shall be determined in like manner.

D. In any case where other personal property, by reason of its nature or use, does not stay in one place long enough to acquire a definite taxable situs, such property shall be listed and assessed at the domicile of the owner, if the owner is domiciled in this state, and otherwise in the county, school districts, and municipal subdivision thereof, where the owner has his principal business in this state.

In order to take lists of personal property and receive homestead exemption applications, the county assessor, or the assessor's deputy, shall meet the taxpayers at various places throughout the county. The county assessor may exercise discretion as to where to meet the taxpayers and how long to stay at each place, provided the assessor goes to each city and incorporated town in counties that have not abolished household personal property tax. At least ten (10) days prior to the date the county assessor will meet the taxpayers to list their property, the county assessor shall give notice by publication in at least one newspaper of general circulation in the county, stating the date and hours of the day of each visit to each city, town or other place; and such notice may be published in the manner of commercial advertising, rather than legal notices, and the county may pay up to rates prevalent in the area for commercial advertising.

Any real estate owned by such corporation shall be assessed annually at the same time and in the same manner as real estate belonging to private persons. In making such sworn lists, all corporations shall itemize their property in the same manner and to the same extent as required by railroads, air carriers and public service corporations.

In any case where such written statement is requested, the taxpayer shall have ten (10) days from receipt of the written request within which to prepare and furnish such statement under oath.

B. Should any taxpayer neglect, fail or refuse to make a proper itemization of his property in any county, or neglect, fail or refuse to furnish any other information required by this section, or Section 38 of this act, it shall be the duty of the county assessor or the county board of equalization to ascertain, from the best information obtainable, the value of the property of such taxpayer, and as a penalty shall add ten percent (10%) of the value thereof so ascertained. The penalty shall not be applied until the taxpayer

shall have had ten (10) days' notice of the intention to apply the penalty and an opportunity to be heard.

3. The information required herein to be shown on such permanent records shall be shown as to tax exempt as well as taxable property, and shall be in such forms as may be acceptable to the Oklahoma Tax Commission. It shall not be necessary to place upon such records any grade or value on land and improvements owned by the United States of America, this state or any subdivision thereof, or any land and improvements exempt from ad valorem taxation by reason of the same being used exclusively and directly for religious, charitable, or educational purposes, such as churches, schools, colleges, universities, cemeteries, and all lands owned by railroads, air carriers, and public service corporations that are assessed by the State Board of Equalization. Exempt Indian land and other exempt property shall be valued and the value placed upon such records.

B. When the valuation of the real estate of each county has been completed, as required by this section, it shall be the mandatory duty of the county assessor and each of his or her successors in office to continuously maintain, revise, and correct the records relating thereto, and to continuously adjust and correct assessed valuations in conformity therewith. Such maintenance, revision, and correction shall be made each year based upon the results of the calculations required by law to be performed each year in order to determine the fair cash value of all property within the county.

C. Each county assessor shall request in his or her budget request each year sufficient funds to carry out the provisions of this section. It shall be the mandatory duty of the several boards of county commissioners, the several county excise boards, and the several county budget boards each year to make sufficient

The county assessor shall correct the land list each year before commencing the assessment by noting thereon all transfers of record as shown by the office of county clerk, and shall note thereon such transfers as may be brought to the attention of the assessor while

assessing, and also note thereon what real estate is not subject to taxation and the reason therefor. The land list shall be in such form as may be acceptable to the Oklahoma Tax Commission. Added by Laws 1988, c. 162, § 41, eff. Jan. 1, 1992. Amended by Laws 1998, c. 405, § 5, eff. Nov. 1, 1998.

4. The value fixed by the county assessor of all property; and additional columns to show the equalized value as fixed by the State Board of Equalization. In listing real estate the value of land and improvements shall be shown separately in each instance; provided, in those counties in this state which have approved an exemption of household goods of the heads of families and livestock employed in support of the family from ad valorem taxation pursuant to the provisions of subsection (b) of Section 6 of Article X of the Oklahoma Constitution, the county assessor may, in preparation of the assessment roll, combine the value of land and improvements thereon; and

5. Such other information as may be required by the Tax Commission. Each property in which there is a homestead interest shall be entered on a separate line, and the assessment roll shall

show the total assessed valuation of each homestead, the amount of exemption allowed, and the assessed valuation less the exemption.

B. C. Prior to November 1 each year, the county assessor shall submit on a form prepared by the Tax Commission a report to the Tax Commission which states the net assessed valuation and millage levy of each political subdivision or taxing authority of the state that is authorized to levy a property tax regardless of whether such property tax is actually levied.

If the owner is unknown the property may be listed and assessed in the name of the person in charge of such property as agent, or it may be listed and assessed to "unknown owner"; and the failure of the county assessor to ascertain the true owner shall not invalidate the assessment.

B. If any person, firm, association or corporation has any property belonging to others under his control or charge or in his possession, as warehouseman, factor, bailee, agent, employee or otherwise, he shall, upon written request of the county assessor or county board of equalization, make report, under oath, of the amount and ownership of such property, and upon refusal, neglect or failure to make such report, such person, firm, association or corporation shall be personally liable for the taxes on such property.

A. If any real, personal, railroad, air carrier or public service corporation property is omitted in the assessment of any prior year or years, and the property thereby escapes just and proper taxation, at any time and as soon as such omission is discovered, the county assessor or the county board of equalization, or the State Board of Equalization in the case of public service corporation property or railroad and air carrier property, whose duty it is to assess the class of property which has been omitted, shall at any time cause such property to be entered on the assessment rolls and tax rolls for the year or years omitted, not to exceed the last fifteen (15) years as to real property and the last three (3) years as to personal property, and shall, after reasonable notice to the parties affected, in order that they be heard, assess such omitted property for said periods and cause to be extended against the same on the tax rolls for the current year all arrearage of taxes properly accruing against it, including therein interest thereon at the rate of twelve percent (12%) per annum from the time such tax should have become delinquent.

B. If any tax on property subject to taxation is prevented from being collected for any year or years by reason of any erroneous proceedings, or failure to give notice, or otherwise, the amount of such tax which such property should have paid or should have been paid thereon shall be added to the tax on such property for the current year, and if for want of sufficient time or for any cause such assessment cannot be entered, and the tax thereon extended on the tax rolls for the current year, the same shall be done the following year.

If not so paid within said thirty (30) days, it shall be the duty of the county treasurer to collect the same in the manner provided by law, together with penalty at the lawful rate calculated from the date the same would have been delinquent had it been timely assessed, but in no event to an extent greater than one hundred

percent (100%) of the principal amount thereof and not to exceed fifteen (15) years.

Added by Laws 1988, c. 162, § 45, eff. Jan. 1, 1992.

A member of the county board of equalization may not miss more than three (3) meeting days of the board per calendar year unless, upon a review by the member's appointing authority, one or more of the absences were excused. Failure by a member of the county board of equalization to comply with the attendance requirement shall result in forfeiture of office and the vacancy shall be filled in the manner provided by law.

H. Forfeitures of office resulting from the failure to comply with provisions of this section shall be administered by the State Auditor and Inspector.

§68-2863. County board of equalization - Sessions - Purpose - Special sessions - Duties and authority - Hearing officers.

A. The county boards of equalization shall hold sessions commencing on April 1, or the first working day thereafter, and ending not later than May 31, for the purpose of correcting and adjusting the assessment rolls in their respective counties to conform to the fair cash value of the property assessed, as defined by law. However, in counties having an assessed valuation in excess of One Billion Dollars (\$1,000,000,000.00), sessions shall commence on the fourth Monday in January and end not later than May 31. If the number of appeals pending would in the estimation of the board make it impracticable for the county board of equalization to complete hearing and adjudication of such appeals on or before May 31, a special session may be called, for such time as is necessary to complete consideration of the appeals, subject to the approval of the county budget board, between June 1 and no later than July 31. Such approval of the county budget board must be requested no later than May 15. The county board of equalization may meet in special session between March 1 and March 31 for the purpose of considering appeals pending on or before the date of notice of such special session, if the number of appeals pending would in the estimation of the board make it impracticable for the county board of equalization to complete hearing and adjudication of such appeals on or before May 31. At any such special session called between March 1 and

March 31, the board shall conduct no other business than the hearing or adjudication of such appeals pending pursuant to the provisions of Section 2801 et seq. of this title. Except for special sessions, the meetings of each board shall be called by the chair or, in the event of the refusal or inability of the chair, by a majority membership of the board. The secretary of the board of equalization shall fix the dates of the extended special session hearings provided for in this section.

B. It shall be the duty of the boards and they shall have the authority to:

1. Raise or lower appraisals to conform to the fair cash value of the property, as defined by law in response to an appeal filed as prescribed by law;

2. Add omitted property;

3. Cancel assessments of property not taxable; and

4. Hear all grievances and appeals filed with the board secretary as outlined in Section 2877 of this title.

C. It shall be the duty of each county board of equalization to cooperate with and assist the county assessor in performing the duties imposed upon the assessor by the provisions of Section 2840 of this title, to the end that the records required by the provisions of such section shall be fully and accurately prepared and maintained and shall reflect the assessed valuations of the real property of the county. After such records have been prepared and the assessed valuations adjusted in accordance with the provisions of this section, the county board of equalization shall not raise or lower the assessed valuation of any parcel or tract of real estate without hearing competent evidence justifying such change or until at least one member of the board or a person designated by the board has made a personal inspection of such property and submitted a written report to the board. In no event shall any such change be made by the county board of equalization if such change would be inconsistent with the equalized value of other similar property in the county.

D. In counties with a net assessed valuation in excess of Five Hundred Million Dollars (\$500,000,000.00), the county board of equalization may, subject to the approval of the county budget board, appoint sufficient hearing officers to assist in the hearing of appeals filed before the county board of equalization. Such hearing officers shall be knowledgeable in the field of mass appraisal, real estate or related experience. Hearing officers shall receive the same compensation as county board of equalization members. The secretary of the county budget board shall appoint such personnel necessary to assist the hearing officers in the performance of their duties.

Such hearing officers shall review appeals assigned to them by the board of equalization, hold hearings, receive testimony from the

taxpayer and county assessor and submit a written recommendation to the county board of equalization as to the fair market value of the protested property. Upon submission of the hearing officer's written recommendation, the county board of equalization shall take final action on the appeal by either adopting, amending or rejecting the final report. The county board of equalization may also re-hear the appeal itself, request additional testimony from the taxpayer or county assessor or request additional review by a hearing officer.

All proceedings before any hearing officer shall be subject to the provisions of the Oklahoma Open Records Act and the Oklahoma Open Meeting Act.

§68-2864. State Board of Equalization - Membership - Sessions - Officers - Quorum - Powers, duties and authority - Fees.

A. The Governor, State Auditor and Inspector, State Treasurer, Lieutenant Governor, Attorney General, Superintendent of Public Instruction and President of the Board of Agriculture shall constitute the State Board of Equalization, and the Board must hold a session at the Capitol of the state, commencing at 10:00 a.m. on December 1, or the first working day thereafter, of each year for the purpose of equalizing the taxable property values of the several counties for the next following assessment year. The State Auditor and Inspector shall notify all other members of the Board of the time and place of the annual session as herein required. The Governor shall serve as chair and the State Auditor and Inspector shall serve as secretary of the Board, and a vice-chair shall be elected from the other members. In case of the absence or failure of the chair and secretary, or either of them, to so act on the statutory meeting date, any four or more members thereof shall proceed on such date to conduct the Board's session and carry on its work as herein required. Any official action by the Board shall require approval by a majority of all members of the Board.

B. It shall be the duty of the Board to examine the various county assessments and to equalize, correct and adjust the same as between and within the counties by determining the ratio of the aggregate assessed value of the property or any class thereof, in any or all of them, to the fair cash value thereof as herein defined, and to order and direct the assessment rolls of any county in this state to be so corrected as to adjust and equalize the valuation of the real and personal property among the several counties during the next succeeding assessment year. The Board is hereby authorized to appoint a committee of its members or designate a third party to assist the Board in the resolution of any dispute

between a county assessor and the Oklahoma Tax Commission. Any recommendation or proposed means of resolving the dispute developed by such committee or third party shall be submitted to the Board for final action.

C. In determining the assessment ratio for all air carrier property and all railroad property, the Board shall be subject to the provisions of paragraph 3 of subsection A of Section 8 of Article X of the Oklahoma Constitution.

D. In order to equalize, correct and adjust the various county assessments within the counties as required by this section, the Board shall analyze the relationship between the assessed value and the fair cash value for each use category of real property and separately analyze the relationship between the assessed value and the fair cash value for the agricultural use category, the residential use category and the commercial/industrial use category. The Board shall order any increase or decrease determined by the Board to be necessary for equalization of property values within the county, including, but not limited to, the authority to require an assessment ratio for a use category bearing a specific relationship to the percentage used to determine taxable value of real property in the county for the applicable assessment year pursuant to the provisions of Section 8 of Article X of the Oklahoma Constitution.

E. The Board shall equalize, correct and adjust the various county assessments as between the counties as required by this section by ordering any increase or decrease required as prescribed by this subsection. The Board shall order any increase or decrease required to comply with the assessment ratio in effect for the applicable assessment year pursuant to the provisions of Section 8 of Article X of the Oklahoma Constitution.

F. The Board shall set a fee or schedule of fees to be used by county assessors for the search, production and copying in electronic and/or digital format of property data, administration files, sketches and pictures for the real property maintained within the county assessors' computer systems for commercial purposes. Such fee or schedule of fees shall be uniform across the state to the extent possible with variances between the counties permitted to allow for the ability of various counties to produce data based on available technology, personnel and budget resources. The fee or schedule of fees shall not apply or be charged to individual property owners obtaining information on the owner's property for the owner's use. After establishing the fee or schedule of fees each year at its December 1 meeting, the Board shall review the fee or schedule of fees and make adjustments necessary to ensure uniform application to the extent possible across all counties and to take into account technological changes that may occur over time. The Board may direct that a county assessor's compliance with the fee or schedule of fees be considered when the county assessment

examination is performed pursuant to the requirements of this section. Fees collected pursuant to this subsection shall be deposited in the applicable county assessor revolving fund, as provided in Section 2829.1 of this title, and the expenditure of such funds shall be subject to the provisions of such section. The fee or schedule of fees applicable to a county assessor shall be posted within its principal office and with the county clerk. The Board shall only establish fees or a fee schedule wherein the custodian shall charge reasonable costs for the retrieval of an existing record, regardless of format. Reasonable costs shall not exceed the actual cost of duplication of the record. As used in this section, "actual cost of duplication" means the cost of materials and supplies used to duplicate or reproduce the record. Costs for labor may only be charged when the request requires the custodian to compile data, extract data or redact information in order to create a new document to comply with a public record request. Records not readily available at the time of request shall be provided by the custodian of records within a reasonable time after receipt of the request. A reasonable time shall be presumed to be three (3) working days or less. The period may be extended by the custodian if extenuating circumstances exist. The period of extension shall not exceed seven (7) working days, unless:

1. The period of extension is agreed to by both parties;
2. The request is voluminous; or
3. Fulfilling the request would impair the custodian's ability to discharge its duties.

The custodian shall notify the person requesting the records within seven (7) working days of the reason why the request cannot be fulfilled within the time period requested by the requestor and when the custodian will provide the records.

§68-2865. Oklahoma Tax Commission - Adjustment and equalization of valuation of real and personal property - Findings - Powers, duties and authority.

A. The Oklahoma Tax Commission shall render its findings as to the adjustment and equalization of the valuation of real and personal property of the several counties of the state by reporting to the State Board of Equalization the ratio derived from comparing the assessed value of the real property of each county to the full or fair cash value of the real property of such county; and such findings shall, on or before December 1 of each calendar year, be presented to the State Board of Equalization as recommendations for

its final action under Section 21 of Article X of the Oklahoma Constitution.

B. All duties, powers and authority relating to the adjustment and equalization of the valuation of real and personal property of the several counties of the state, shall be vested in the Oklahoma Tax Commission, excepting only the duties, powers and authority of the State Board of Equalization, as fixed and defined by Section 21 of Article X of the Oklahoma Constitution.

C. In the assessment of all property which it is their duty to assess for taxation, all county officers shall continue to perform all the duties required of them, and to exercise all the powers and authority vested in them, by law.

D. In the performance of its duties, as herein defined, the Oklahoma Tax Commission, or any duly authorized representative thereof, shall have the power to administer oaths, to conduct hearings, and to compel the attendance of witnesses and the production of the books, records and papers of any person, firm, association or corporation, or of any county; and to enter any business or commercial premises and inspect the property of the taxpayer.

E. Prior to entering the business or commercial premises of any taxpayer for purposes of discovering personal property, the Oklahoma Tax Commission shall request permission to enter the business or commercial premises and shall state the reason for the inspection. If access to the business or commercial premises is denied, the Oklahoma Tax Commission shall be required to obtain a search warrant in order to conduct an inspection of the interior of the business or commercial premises. A search warrant may be obtained upon a showing of probable cause that personal property located within particularly described business or commercial premises is subject to ad valorem taxation, but not listed or assessed for ad valorem taxation as required by law.

Added by Laws 1988, c. 162, § 65, eff. Jan. 1, 1992. Amended by Laws 1989, c. 152, § 8, eff. Jan. 1, 1992.

§68-2866. Oklahoma Tax Commission - Equalization ratio study.

A. For purposes of reporting to the State Board of Equalization the ratio derived from comparing the assessed value of the real property of each county to the full or fair cash value of such real property, the Oklahoma Tax Commission shall conduct and publish an equalization ratio study for each county annually in accordance with the requirements of this section.

B. The equalization ratio study shall be conducted in a manner that ensures:

1. the ratio of assessed value to the fair cash value of properties in a sample extracted from a county is expressed as a

median of the ratios determined for all properties included in the sample;

2. sample data gathered for purposes of establishing the fair cash value of properties within the sample relates to the applicable assessment date of the study in a manner that produces reliable ratio study results;

3. sample sizes of sufficient numbers to produce an estimated ratio for a use category within a county or a ratio for an entire county at a ratio that accurately estimates the true, but unknown, assessment level;

4. appraisals selected for inclusion in the ratio study are representative of the use category or stratum of properties included in the sample;

5. sales files containing adequate information are developed and maintained for purposes of appraisals; and

6. uniformity of assessments within a use category or stratum for a county do not exceed a coefficient of dispersion value of twenty percent (20%).

C. The Oklahoma Tax Commission shall provide for a computer system that permits the equalization ratio study to be conducted pursuant to the requirements of this section. Such computer system shall be designed to permit monitoring and analysis of assessment performance in the several counties and to detect noncompliance with legal standards for valuation of taxable property in order to fulfill the duties imposed by Section 2830 of this title. The provisions of this subsection shall not be construed to authorize the Oklahoma Tax Commission to install a mainframe computer capable of remote monitoring of or making inputs into computers in the offices of the various county assessors.

Added by Laws 1988, c. 162, § 66, eff. Jan. 1, 1992. Amended by Laws 1989, c. 321, § 14, operative Jan. 1, 1992.

§68-2867. Abstract of assessments.

A. As soon as practicable after the assessment rolls are corrected and adjusted by the county board of equalization through the first Monday in June, the county assessor shall make out an abstract thereof, containing the total amount of property listed under the various classifications appearing on the blank forms for the listing and assessment of property, and the total value of each class, and it shall be the mandatory duty of the county assessor under the penalties as outlined pursuant to Section 2943 of this title, to transmit this abstract to the Oklahoma Tax Commission not later than June 15 of each year or the first working day thereafter, unless delayed by court action or other causes beyond his control.

B. It is hereby specifically provided that where any county assessor fails to comply with the provisions of this section by the time herein required, the Oklahoma Tax Commission shall immediately

notify the chairman of the board of county commissioners and the county clerk of such county and neither such county assessor nor any of his deputies or employees shall be paid any remuneration, compensation or salary for the month of June and each succeeding month thereafter until such abstract is transmitted to the Oklahoma Tax Commission. This penalty provision shall be cumulative to the penalty provisions and requirements of Section 2943 of this title.

C. It shall be the duty of the Oklahoma Tax Commission to furnish the necessary forms for such abstract, which forms shall be subject to approval by the State Auditor and Inspector.

D. Within ten (10) days after the county assessor of each county receives from the State Board of Equalization the certificates of assessment of all railroads, air carriers and public service corporations, and the equalized value of real and personal property of such county, it shall be the duty of the county assessor to prepare and file with the county excise board an abstract of the assessed valuations of the county and each municipal subdivision thereof as shown by his records through that date; and said abstract shall show separately the valuations of all personal property, real property, railroad and air carrier property and public service corporation property, in each municipality, and shall be properly totaled and balanced.

Added by Laws 1988, c. 162, § 67, eff. Jan. 1, 1992. Amended by Laws 1995, c. 57, § 14, eff. July 1, 1995.

§68-2868. Tax rolls - Preparation - Contents.

A. As soon as practicable, and not later than October 1, the county assessor shall prepare tax rolls containing all adjustments by either the equalization board or the excise board which have been completed and provided to the assessor, and containing:

1. A list or lists in alphabetical order of all the persons and bodies corporate in whose name any personal or public service property has been assessed, with the assessed valuation thereof distinguished by separate amounts if located in more than one school district and by the number of each school district, each in a separate column opposite the name, and the total amount of the tax as to each school district location extended in another column. In city and town districts, distinction shall be made as to urban and rural locations;

2. A list or lists of all taxable lands in the county or school districts of the county, not including city or town lots, nor unplatted tracts of land inside a city or town, in numerical order, commencing with the lowest numbered section and the different subdivisions and fractional parts thereof in the lowest numbered township in the lowest numbered range in the county, and ending with the highest numbered section, township and range, with the number of the school district located in and the name of the owner in each

instance, the assessed valuation of each tract, and the total amount of taxes extended in separate columns opposite each tract in the same manner as provided in the alphabetical list or lists of names; except where homestead exemptions are involved, then by distinctive valuations and amounts of tax as hereinafter provided; and

3. A list of the city or town lots in each city or town and the unplatted tracts in each city or town in the county, commencing with the lowest numbered section in the lowest numbered township in the lowest numbered range in the county and the different subdivisions and fractional parts thereof and ending with the highest numbered section, township and range, and the number of acres in each tract with the name of the owner in each instance, and the valuation and total tax extended in separate columns in the same manner as hereinbefore provided in respect to personal property and lands, except homesteads which shall be distinguished as provided for lands. Each lot shall be separately listed, except as hereinafter provided, and the valuation and tax separately extended thereon. Where one building or one set of improvements is situated on two or more lots or parts of lots so as to preclude distinction as to the value of improvements as to each such lot or parts of lots, such lots or parts of lots shall be listed together with one valuation, and the tax extended in one amount. Unless the owner otherwise elects, vacant lots valued and equalized at Ten Dollars (\$10.00) or less per lot and belonging to the same owner may, if adjacent and lying within the same city or town block, be so listed with one valuation and the tax extended in one amount; and in either or any event where more than one lot or part of lot is listed under one valuation, the tax rolls shall disclose whether the same be vacant or improved. All additions to cities and towns shall be arranged in the tax rolls in alphabetical order immediately following the original townsite.

B. In applying the tax rate to determine the amount of tax due, the county assessor shall compute same to the nearest dollar, that is, any fraction of a dollar in the amount of fifty cents (\$0.50) or less shall be disregarded, and any fraction of a dollar in the amount of fifty-one cents (\$0.51) or more shall be shown as a full dollar. The total amount of the tax due and extended on the tax rolls, as required by this section, shall be determined and shown accordingly. Provided, however, in all cases where, under the tax rate, the tax is computed to be less than One Dollar (\$1.00), then the tax due shall be shown as One Dollar (\$1.00). Once the total amount of taxes due is calculated and extended onto the tax rolls, the amount of taxes due or value upon which the tax was assessed cannot be increased by a final judgment in any tax appeal filed pursuant to Section 2880.1 or Section 2881 of this title. The limitation on taxes due in the preceding sentence shall not apply in cases of omitted property.

C. Each property, whether lands or lots, lawfully exempted from taxation in whole or in part by reason of a homestead interest, shall be distinguished upon the tax rolls by the word "homestead" or an appropriate symbol, and opposite each of such properties shall be entered in separate columns the total assessed valuation, the value of the exemption allowed and approved and the assessed valuation after the amount of exemption allowed has been deducted. In extending the tax the county assessor shall, as to each such property, consolidate all levies to which the homestead exemption is subject, compute the tax thereon and enter the same in one column in one amount, and all the levies to which the valuation in excess of the homestead exemption is subject, compute the tax thereon and enter the same in another column in one amount.

D. All real property which is exempt from taxation shall be listed in the tax rolls, with the name of the owner, in all respects as if the same were taxable but with the reason for the exemption noted thereon across the columns where otherwise the tax would have been entered.

E. The county treasurer shall transfer to the tax rolls for the current year, in a separate column, all delinquent taxes remaining unpaid for the previous years, distinguishing the same as to each lot and tract of land by the year and amount of tax, exclusive of penalty, as to all real properties; and when giving a statement of taxes on any property, said statement shall include all taxes due and shall designate the sum due for the current year, and the sum past due and delinquent. Said transfer to the current rolls of unpaid real property tax of previous years is hereby declared to be mandatory; and the county treasurer shall be allowed not to exceed fifteen (15) days after the delivery to him of said current rolls within which to make such transfer, before he shall be required to open the same for the reception and collection of taxes and to begin the thirty-day nonpenalty-taxpaying period before delinquency.

F. The tax rolls shall be made up as required by and in the form prescribed by the State Auditor and Inspector and shall contain such other information as may be required by the State Auditor and Inspector.

Added by Laws 1988, c. 162, § 68, eff. Jan. 1, 1992. Amended by Laws 1992, c. 360, § 2, eff. July 1, 1992; Laws 2015, c. 263, § 2, emerg. eff. May 6, 2015.

§68-2869. Extension of tax levies on tax rolls - Delivery of tax rolls to county treasurer - Filing abstract of tax rolls - Correction of levy or tax rolls - Assessor's warrant - Receipt and acceptance of tax rolls - Collection of taxes.

A. It shall be the duty of the county assessor to proceed to extend the tax levies on his tax rolls immediately upon receipt of

the certification of such levies from the county excise board, without regard to any protest that may be filed against any levy.

B. It shall further be the duty of the county assessor to deliver the tax rolls to the county treasurer when the same shall have been completed, and at the same time to file a true and correct abstract of such tax rolls with the county clerk, which abstract shall be made on forms prescribed by and in the manner required by the State Auditor and Inspector. The county clerk shall charge the county treasurer with the amount contained in said abstract.

C. If there is any correction or change in the levy of any municipality, after such levy has been certified by the county excise board to the county assessor, regardless of whether such change is made by order of the county excise board or by a court of competent jurisdiction, it shall be the duty of the county assessor to deliver the tax rolls to the county treasurer, without regard to such change; and it shall be the duty of the county treasurer, with the assistance of the county assessor, to make the necessary corrections on the tax rolls after the same shall have been delivered to the county treasurer.

D. The county assessor shall, notwithstanding the filing of any protest against the levies or budgets or the pendency of any procedure with reference to the correctness of the assessment of any property or as to the legality of any levy, complete the tax rolls and abstract thereof, and deliver the same to the county treasurer and county clerk, respectively, on or before the first day of October of each year.

E. The county assessor shall attach to the tax rolls his warrant, under his own hand, requiring the county treasurer to collect the taxes in accordance with said tax rolls, and such warrant and tax rolls shall be full and sufficient authority for the collection by the county treasurer of all taxes therein contained. No informality in the foregoing requirement shall render illegal any proceeding for the collection of taxes.

F. The county treasurer shall accept the tax rolls and give his receipt therefor; and upon the date fixed when taxes shall become due and payable to the county treasurer shall proceed to collect the taxes as provided by law.

Added by Laws 1988, c. 162, § 69, eff. Jan. 1, 1992.

§68-2870. Destruction or loss of tax lists, rolls or abstracts.

A. In case of the destruction or loss of tax lists, rolls or abstracts, or any portion thereof, of any county of this state, after the assessments have been adjusted by the county board of equalization according to law, and before the taxes have become delinquent according to law, it shall be the duty of the county assessor with the approval of the board of county commissioners of

the county in which said loss or destruction shall occur, within ninety (90) days after such loss or destruction, to appoint special deputy assessors, whose duty it shall be to assist the county assessor in reassessing all taxable property of said county, or such portion thereof, the tax records of which have been lost or destroyed as aforesaid, in the manner and form provided by law. Before entering upon the duties of such appointment, such special deputy assessors shall qualify before the county assessor as provided by law for the qualification of deputy assessors, and such special deputy assessors shall receive the same compensation for their services, as other personnel in such assessor's office for each day actually employed. The original assessment, the record of which is lost, shall, in the new assessment, be followed and adopted as far as practicable.

B. The county assessor shall, within ten (10) days after the appointment of the special deputies, proceed to make out and deliver to the county board of equalization the assessment rolls of the county as provided by law. The county board of equalization shall meet within ten (10) days after the delivery of the assessment rolls to it, which assessment rolls and lists shall be received by said board and corrected so as to correspond, as nearly as may be, to the original rolls and lists lost or destroyed.

C. The county assessor shall, within thirty (30) days after the date of the meeting of the county board of equalization required by this section, make out and file with the treasurer of said county, an abstract of the special assessment herein provided. Such assessment, and the assessment lists, assessment rolls, tax rolls and abstracts, when so made and filed shall, in all respects, be of the same force and effect as if made at the regular assessment, and shall have the same effect and value as evidence, as the lists, assessment rolls, tax rolls, and abstracts lost or destroyed; and the rates of taxation shall in no case be changed or varied from those theretofore fixed for the year covered by such restored records. In such cases no penalty shall attach for nonpayment of taxes until at least ninety (90) days after the said abstract is filed with the county treasurer.

D. In all cases contemplated in, and covered by this section, the Oklahoma Tax Commission shall provide for the use of said county assessor and special deputy assessors, upon the requisition or request of the board of county commissioners of the county, all necessary notices, blank forms, lists and instructions and forward the same to the county assessor of said county.

E. In all cases where duplicates or copies of the assessment rolls and tax rolls for the year involved can be reproduced from the land list or other available records, if the said county assessor and the board of county commissioners shall determine that said reproduced roll is correct, and upon the verification of the same by

the persons who made such assessment, or other person competent to make such verification, such reproduced assessment roll shall be accepted in lieu of the special assessment herein required.

F. Upon the receipt by the county treasurer of the county assessor's abstract of the tax roll, all persons who have theretofore paid the whole or any part of the tax chargeable against them for the year involved may, within sixty (60) days, present their receipts to the county treasurer who shall credit them upon the proper record with the amount of taxes so paid.

G. For the purpose of performing the extraordinary duties provided by this section, the county assessor and county treasurer shall be empowered, with the consent and under the direction of the board of county commissioners, to employ such additional deputies as may be necessary to enable them to perform the duties required by this section within the period herein limited.

Added by Laws 1988, c. 162, § 70, eff. Jan. 1, 1992.

§68-2871. Correction or alteration of tax rolls - Board of tax rolls corrections created.

A. After delivery of the tax rolls to the county treasurer of any county, no correction or alteration as to any item contained therein as of such date of delivery shall ever be made, except by the county treasurer and on authority of a proper certificate authorized by law or pursuant to order or decree of court in determination of a tax appeal or other proper case.

B. A board of tax roll corrections is hereby created and shall consist of the chair of the board of county commissioners as chair or, in the chair's absence, the vice-chair of the board of county commissioners or their statutory designee, the chair of the county equalization board or, in the chair's absence, the vice-chair of the county equalization board as vice-chair, the county clerk as nonvoting member and secretary, and the county assessor, a majority of whom shall constitute a quorum. The board is hereby authorized to hear and determine allegations of error, mistake or difference as to any item or items so contained in the tax rolls, in any instances hereinafter enumerated, on application of any person or persons whose interest may in any manner be affected thereby, or by his or her agent or attorney, verified by affidavit and showing that the complainant was not at fault through failure to fulfill any duty enjoined upon him or her by law, or upon discovery by the county treasurer or assessor before the tax has been paid or attempted to be paid and disclosure by statement of fact in writing signed by the treasurer or assessor and verified by the assessor or treasurer as the case may be. Such right shall not be available to anyone attempting to acquire, or who has acquired, the lien of the county for such tax, whether by purchase, assignment, deed or otherwise. In counties with two county boards of equalization, the chair of

each such board shall serve, in alternating years, as the vice-chair of the board of tax roll corrections. When a complaint is pending before the board of tax roll corrections, such taxes as may be owed by the protesting taxpayer shall not become due until thirty (30) days after the decision of the board of tax roll corrections. When a complaint is filed on a tax account which has been delinquent for more than one (1) year, and upon showing that the tax is delinquent, the complaint shall be dismissed, with prejudice.

C. If, upon such hearing, it appears that:

1. Any personal or real property has been assessed to any person, firm, or corporation not owning or claiming to own the same;
2. Property exempt from taxation has been assessed;
3. Exemption deductions allowed by law have not been taken into account;
4. The same property, whether real or personal, has been assessed more than once for the taxes of the same year;
5. Property, whether real or personal, has been assessed in the county for the taxes of a year to which the same was not subject;
6. Improvements to real estate or other property assessed have been destroyed by fire, or that the value of land has been impaired, damaged or destroyed by wildfires, floods or overflow of streams, and the county assessor has made and entered an adjustment to assessments previously made and entered;
7. Lands or lots have in any manner been erroneously described;
8. Any valuation or valuations assessed and entered are at variance with the valuation finally equalized;
9. Any valuation or valuations returned for assessment and not increased by the county assessor have been entered on the assessment rolls for equalization at variance with the value returned, or in the event of increase by either the county assessor or the county board of equalization and no notice thereof was sent; provided, offer of proof of failure to receive notice may not be heard;
10. Any valuation assessed and entered included, in whole or in part, as of the date of assessment under the law relating thereto, any property that had no taxable situs in the county, did not exist or had been erroneously placed;
11. Any property subject to taxation as of January 1 of any year was thereafter acquired by conveyance of title, including tax title, by the county, or any city, town or school district therein;
12. An error resulted from inclusion in the total of levies computed against the valuation entered, a tax levy or levies certified and final for none or part of which such property was liable in fact and the same be self-evident on recomputation, and involve no question of law;
13. As to personal tax, if there has been an error in the name of the person assessed, or, as to real property, the record owner at the time of assessment desires that his or her name be entered in

lieu of whatever other name may have been entered as "owner" upon the roll;

14. There has been any error in the tax extended against the valuation entered, whether by erroneous computation or otherwise;

15. There has been any error in transcribing from the county assessor's permanent survey record to the assessment rolls either as to area or value of lands or lots or as to improvements thereon;

16. The county treasurer has, of his or her own volition, restored to the tax rolls any tax or assessment where the entry upon the tax rolls shows the same theretofore to have been stricken or reduced by certificate issued by constituted authority, except where restored by specific court order or in conformity to general decree of the Supreme Court of Oklahoma invalidating in mass all such certificates of a class certain, and except if the owner of such property demand its restoration and make payment, in which instance the county treasurer shall require that the owner sign on the face of the owner's receipt a statement that the owner "paid voluntarily without demand, request or duress"; or

17. Any personal property assessment and personal tax charge has been entered upon the assessment and tax rolls except upon proper return of assessment by the taxpayer or increase thereof with due notice, or as a delinquent assessment made by the county assessor or deputies in detail either on view or reliable information; then, in the event any of the grounds stated in this subsection are present, it shall be the duty of the board of tax roll corrections to make and the secretary to enter its findings of fact and to correct such error, if such exists, by issuing its order, in words and figures, to accomplish such:

- a. if such error increases the amount of tax charged, the county clerk shall issue a certificate of error to the county assessor ordering the assessor to certify such correction or increase to the county treasurer for entry on the tax rolls, and
- b. if such error does not increase the amount of tax charged, the county clerk shall issue a certificate of error to the county treasurer if the tax be not paid, stating the amount or other effect of such order, and it shall be the duty of such county treasurer to make and enter such correction upon the tax rolls and, if there be a decrease to the amount of tax charged, to enter a credit, in lieu of cash, for the amount of decrease of tax shown in such certificate.

D. If, prior to such hearing by the board, as provided by this section, the tax has been paid, no certificate shall issue; but if less than one (1) year shall have elapsed after the payment of the tax and before the filing of such application for correction of error, and after such hearing the findings of fact disclose that

less tax was due to have been paid than was paid, then the person who paid the tax, or such person's heirs, successors, or assigns, may execute a cash voucher claim setting forth facts and findings, verify it, and file it with the county clerk, who shall thereupon deliver such claim to the county treasurer for designation of the fund from which the claim must be paid and approval of the claim as to availability of funds by the county treasurer. If taxes have been paid under protest, the county treasurer must designate the refund to be paid from such protest fund. If taxes have been paid but not paid under protest and if there are funds available in current collections of the taxing unit which received the taxes paid, then the county treasurer must designate the refund to be paid from such current collections of such taxing unit. The county clerk shall thereupon issue a cash voucher against the appropriate fund of the county, directing the county treasurer to pay to such person the amount so found to be erroneous. The word "person" as used in this subsection shall comprehend the person, firm, or corporation who paid such tax and the heirs, assigns or successors, as the case may be. No such claim for refund shall be allowed and paid unless the same be filed within six (6) months after the effective date of the order of correction.

E. If there be any error in the taxes collected from any person, the overpayment or duplicate payment of any such taxes collected in error may be recovered by the taxpayer, and the county treasurer may make such payment from the resale property fund of the county if funds are not available as stated in subsection D of this section.

F. Beginning January 1, 1987, notwithstanding the one-year limitations period for filing a claim for refund as provided in subsection D of this section, if there be any error in taxes collected from any person on property constitutionally exempt under Section 6B of Article X of the Oklahoma Constitution, by the county treasurer in counties with a population in excess of five hundred thousand (500,000) persons, according to the latest Federal Decennial Census, to the extent that such county has been reimbursed from the Ad Valorem Reimbursement Fund provided by Section 193 of Title 62 of the Oklahoma Statutes, the overpayment or duplicate payment of any such taxes collected in error may be recovered by the taxpayer as provided by law.

G. Upon dismissal of a complaint or denial of relief to the taxpayer, the county clerk, as secretary of the board of tax roll corrections, shall prepare a letter order of dismissal or denial which shall be mailed to the taxpayer or person at the address found on the complaint.

H. Both the taxpayer and the county assessor shall have the right of appeal from any order of the board of tax roll corrections

to the district court of the same county. In case of appeal the trial in the district court shall be de novo.

I. Notice of appeal shall be served upon the county clerk, as secretary of the board of tax roll corrections, and a copy served upon the county assessor. The appeal shall be filed in the district court within fifteen (15) days of the date of the mailing of the order of the board of tax roll corrections to the taxpayer.

For attendance upon meetings of the board of tax roll corrections the chairman of the county equalization board shall be entitled to compensation at a rate identical to the compensation authorized by law for attendance by the chairman of the county board of equalization upon meetings of the county board of equalization; but his attendance upon meetings of the board of tax roll corrections shall not be counted against the maximum number of days for which he may be compensated for equalization board meetings. Added by Laws 1988, c. 162, § 72, eff. Jan. 1, 1992.

§68-2873. Board of tax rolls corrections - Modification of valuation of property.

The board of tax roll corrections shall be authorized to modify a valuation of property in accordance with the standards prescribed by or for a purpose authorized by Section 71 of this act irrespective of whether or not the valuation so modified has been affected by an order of the State Board of Equalization for purposes of equalizing assessments within a county or between the several counties as authorized by law. Any modification by the board of tax roll corrections to a value that has been modified as a result of an order by the State Board of Equalization shall be reported to the Oklahoma Tax Commission. The Oklahoma Tax Commission shall determine the impact, if any, that the modification made by the board of tax roll corrections has upon equalization within the county or between the several counties and shall make recommendations to the State Board of Equalization for any action required.

§68-2874. Correction of clerical errors on tax rolls.

Whether upon discovery by the county treasurer or county assessor or any of their deputies, or upon complaint of the taxpayer, the agent or attorney or any person acting on behalf of the taxpayer, upon certificate of clerical error issued by the county assessor to the county treasurer, with a copy to the county clerk and a copy retained, the county treasurer shall be authorized to make correction upon the tax rolls of either of the following specifically enumerated errors of strictly clerical import not involving valuations assessed and equalized and not involving any exemption allowed whether of homestead, service in the armed forces, charitable, educational, religious, or other authorized exemptions, and which clerical error certificates shall issue only under the conditions stated as to each, as follows:

1. Error in the name of the person assessed, upon affidavit verifying the name of the true owner as of October 1 of the taxable year involved;

2. Error in the address of the person, firm or corporation assessed, when furnished by such person or a representative of the firm or corporation;

3. Error in the legal description of real property, when verified by the county clerk, certifying to the description on his land records as of January 1 of the taxable year involved;

4. Error in land-list entry, such as section or part thereof, township, range or of lot or block or of designation of urban addition, when verified by the county clerk to the land records or plats on file, as of January 1 of the taxable year involved;

5. Error in the school district designation as of the date when school district tax levies attached themselves to such property, when verified by the county assessor certifying to the date, if after January 1 of such taxable year, when the school district designation or location changed, or the school district designation prior to January 1 of such taxable year where no change of the boundaries of such district was thereafter ordered during such taxable year. If a school district boundary change occurs after April 15 of such taxable year, the opinion of the district attorney as to the applicable school district designation to such property for purpose of levy of such taxable year shall be attached to the certification;

6. If the error of school district designation caused the application of levies not applicable thereto, then also the "extension of tax", when verified by the county clerk with proof of computation attached;

7. Error commonly called duplicate assessment, but only in instances where the two entries as delivered to the county treasurer are verified by the county treasurer or deputy to be completely identical in every specific detail; and

8. Error in transcribing to the tax rolls from assessment rolls or assessment lists, conditioned on complete absence of all indication of erasures or other alteration of original entry when confirmed by endorsement to the certificate by the county clerk certifying to personal visual inspection and verifying absence of all indication of erasure or change in original entry. §68-2875. Ad Valorem Division of Oklahoma Tax Commission - Creation - Authority and duties.

A. There is hereby created within the Oklahoma Tax Commission the Ad Valorem Division. The Ad Valorem Division shall have the authority and it shall be its duty to:

1. Confer with and assist county assessors and county boards of equalization in the performance of their duties, to the end that all assessments of property be made relative, just and uniform and that real property and tangible personal property may be assessed at its fair cash value estimated at the price it would bring at a fair voluntary sale;

2. Prescribe forms with numbers ascribed thereto for the county assessors' use in assessment procedure, including property classification and appraisal forms;

3. Provide technical assistance to county assessors and county boards of equalization in the services of appraisal engineers;

4. Provide from year to year schedules of values of personal property in accordance with Uniform Standards of Professional Appraisal Practice (USPAP) and International Association of Assessing Officers (IAAO) requirements to aid county assessors in the assessment of personal property;

5. Conduct training schools, institutes, conferences and meetings for the purpose of improving the qualifications of county assessors and their deputies as required by law;

6. Prepare and furnish from time to time to county assessors an assessors' manual. Such manual shall include, but not be limited to, valuation methodologies for property in a county for which no comparable property exists in order for a county assessor to establish a value for ad valorem tax purposes. The manual shall include information concerning valuation of hazardous waste disposal facilities and such other types of facilities as may be requested by the county assessor for which the assessor does not have adequate data to value such property;

7. Render such other assistance as may be conducive to the proper assessment of property for ad valorem taxation;

8. Recommend rules to the Tax Commission establishing uniform procedures and standards for the appraisal of real property by county assessors;

9. Develop assessment manuals for the valuation of manufactured homes and periodic updates for such manuals for use by county assessors; and

10. Promptly notify county assessors, county treasurers and members of county excise and equalization boards of any changes to the laws relating to ad valorem taxation.

B. The county assessors shall not use any form not prescribed or approved by the Ad Valorem Division.

C. Each county assessor shall comply with the rules and guides adopted by the Oklahoma Tax Commission.

D. The Ad Valorem Division, upon request of any county assessor, shall furnish to the county assessor any information shown by its files and records as to any real and personal property, subject to taxation, including income and expense data as shown by income tax returns, to the end that no property shall escape taxation, and this information is to be furnished notwithstanding any statute that such files and records shall be confidential and privileged.

E. The Ad Valorem Division shall be authorized to obtain information relating to the ownership, location, taxable status or valuation for purposes of ad valorem taxation of real or personal property from any state agency, board, commission, department, authority or other division of state government if necessary to respond to a request by a county assessor as provided by subsection D of this section. Such information shall be confidential and privileged and shall only be released to a county assessor in order to locate, discover and correctly value taxable property as required by law.

Added by Laws 1988, c. 162, § 75, eff. Jan. 1, 1992. Amended by Laws 1989, c. 63, § 2, eff. Jan. 1, 1992; Laws 1998, c. 405, § 8; Laws 2015, c. 142, § 1, eff. Nov. 1, 2015; Laws 2021, c. 224, § 2, eff. Nov. 1, 2021.

§68-2876. Increase in valuation - Notice - Complaints and hearings.

A. If the county assessor increases the valuation of any personal property above that returned by the taxpayer, or in the case of real property increases the fair cash value or the taxable fair cash value from the preceding year, or pursuant to the requirements of law if the assessor has added property not listed by the taxpayer, the county assessor shall notify the taxpayer in writing of the amount of such valuation as increased or valuation of property so added. Provided, if the county assessor determines that a mailing to property owners exempt from payment of ad valorem tax pursuant to Sections 8E and 8F of Article X of the Oklahoma

Constitution would create an undue burden, then the county assessor may suspend notifications to those property owners.

B. For cases in which the taxable fair cash value or fair cash value of real property has increased, the notice shall include the fair cash value of the property for the current year, the taxable fair cash value for the preceding and current year, the assessed value for the preceding and current year and the assessment percentage for the preceding and current year. For cases in which the real property is a homestead, as defined in Section 2888 of this title, the notice shall include information on the application for a limit on the fair cash value of a homestead property as provided for in Section 8C of Article X of the Oklahoma Constitution.

C. For cases in which the county assessor increases the valuation of any personal property above that returned by the taxpayer, the notice shall describe the property with sufficient accuracy to notify the taxpayer as to the property included, the fair cash value for the current year, the assessment percentage for the current year, any penalty for the current year pursuant to subsection C of Section 2836 of this title and the assessed value for the current year.

D. The notice shall be mailed to the taxpayer at the taxpayer's last-known address and shall clearly be marked with the mailing date. The assessor shall have the capability to duplicate the notice, showing the date of mailing. Such record shall be prima facie evidence as to the fact of notice having been given as required by this section.

E. The taxpayer shall have thirty (30) calendar days from the date the notice was mailed in which to file a written protest with the county assessor specifying objections to the increase in fair cash value or taxable fair cash value by the county assessor; provided, in the case of a scrivener's error or other admitted error on the part of the county assessor, the assessor may make corrections to a valuation at any time, notwithstanding the thirty-day period specified in this subsection. The protest shall set out the pertinent facts in relation to the matter contained in the notice in ordinary and concise language and in such manner as to enable a person of common understanding to know what is intended. The protest shall be made upon a form prescribed by the Oklahoma Tax Commission.

F. A taxpayer may file a protest if the valuation of property has not increased or decreased from the previous year if the protest is filed on or before the first Monday in April. Such protest shall be made upon a form prescribed by the Oklahoma Tax Commission.

G. At the time of filing a protest pursuant to subsections E and F of this section, the taxpayer shall also file the form provided for in Section 2835 of this title. If the taxpayer fails to file the required form, a presumption shall exist in favor of the

correctness of the county assessor's valuation in any appeal of the county assessor's valuation.

H. The county assessor shall schedule an informal hearing with the taxpayer to hear the protest as to the disputed valuation or addition of omitted property. The informal hearing may be held in person or may be held telephonically, if requested by the taxpayer. A taxpayer that is unable to participate in a scheduled informal hearing, either in person or telephonically, shall be given at least two additional opportunities to participate on one of two alternative dates provided by the county assessor, each on a different day of the week, before the county assessor or an authorized representative of the county assessor. The assessor shall issue a written decision in the matter disputed within seven (7) calendar days of the date of the informal hearing and shall provide by regular or electronic mail a copy of the decision to the taxpayer. The decision shall clearly be marked with the date it was mailed. Within fifteen (15) calendar days of the date the decision is mailed, the taxpayer may file an appeal with the county board of equalization. The appeal shall be made upon a form prescribed by the Oklahoma Tax Commission. One copy of the form shall be mailed or delivered to the county assessor and one copy shall be mailed or delivered to the county board of equalization. On receipt of the notice of an appeal to the county board of equalization by the taxpayer, the county assessor shall provide the county board of equalization with all information submitted by the taxpayer, data supporting the disputed valuation and a written explanation of the results of the informal hearing.

§68-2876.1. Schedule of protest timeline to be provided.

At the time a taxpayer files a protest pursuant to Section 2876 of Title 68 of the Oklahoma Statutes, the taxpayer shall be provided a schedule of the protest timeline which shall include all deadlines and the consequences of failing to meet each deadline. The Oklahoma Tax Commission may prescribe a standard schedule for the county assessors to distribute.

Added by Laws 2022, c. 335, § 3, eff. Nov. 1, 2022.

§68-2877. Appeal from action by county assessor to county board of equalization - Hearing procedure - Record - Time and form of appeal

- Failure to appear at hearing without advance notice - Assessment of costs.

A. Upon receipt of an appeal from action by the county assessor on the form prescribed by the Oklahoma Tax Commission, the secretary of the county board of equalization shall fix a date of hearing, at which time said board shall be authorized and empowered to take evidence pertinent to said appeal; and for that purpose, is authorized to compel the attendance of witnesses and the production of books, records, and papers by subpoena, and to confirm, correct, or adjust the valuation of real or personal property or to cancel an assessment of personal property added by the assessor not listed by the taxpayer if the personal property is not subject to taxation or if the taxpayer is not responsible for payment of ad valorem taxes upon such property. The secretary of the board shall fix the dates of the hearings provided for in this section in such a manner as to ensure that the board is able to hear all complaints within the time provided for by law. In any county with a population less than three hundred thousand (300,000) according to the latest Federal Decennial Census, the county board of equalization shall provide at least three dates on which a taxpayer may personally appear and make a presentation of evidence. At least ten (10) days shall intervene between each such date. No final determination regarding valuation protests shall be made by a county board of equalization until the taxpayer shall have failed to appear for all three such dates. The county board of equalization shall be required to follow the procedures prescribed by the Ad Valorem Tax Code or administrative rules and regulations promulgated pursuant to such Code governing the valuation of real and personal property. The county board of equalization shall not modify a valuation of real or personal property as established by the county assessor unless such modification is explained in writing upon a form prescribed by the Oklahoma Tax Commission. The affidavits prescribed in paragraph 2 of subsection E of this section will be maintained by the county board of equalization as part of the hearing record. Each decision of the county board of equalization shall be explained in writing upon a form prescribed by the Oklahoma Tax Commission. The county board of equalization shall make a record of each proceeding involving an appeal from action by the county assessor either in transcribed or tape recorded form.

B. In all cases where the county assessor has, without giving the notice required by law, increased the valuation of property as listed by the taxpayer, and the taxpayer has knowledge of such adjustment or addition, the taxpayer may at any time prior to the adjournment of the board, file an appeal in the form and manner provided for in Section 2876 of this title. Thereafter, the board shall fix a date of hearing, notify the taxpayer, and conduct the hearing as required by this section.

C. The taxpayer or agent may appear at the scheduled hearing either in person, by telephone or other electronic means, or by affidavit.

D. If the taxpayer or agent fails to appear before the county board of equalization at the scheduled hearing, unless advance notification is given for the reason of absence, the county shall be authorized to assess against the taxpayer the costs incurred by the county in preparation for the scheduled hearing. If such costs are assessed, payment of the costs shall be a prerequisite to the filing of an appeal to the district court or Court of Tax Review. A taxpayer that gives advance notification of their absence shall be given the opportunity to reschedule the hearing date.

E. 1. In order to increase taxpayer transparency, a member of the board of equalization shall not directly or indirectly communicate with the county assessor or any deputy assessor or designated agent on any matter relating to any pending appeal before the board of equalization prior to the actual hearing.

2. Prior to the presentation of any evidence at a county board of equalization hearing, each member of the board hearing the protest must sign an affidavit stating the member is not in violation of paragraph 1 of this subsection.

3. Prior to the presentation of any evidence at a county board of equalization hearing, all parties to the proceeding must sign an affidavit stating that the evidence being presented is true to the best of their belief and knowledge.

4. The provisions of paragraph 1 of this subsection shall not apply to a routine communication between the county assessor and the board of equalization that relates to the administration of an appraisal roll, including a communication made in connection with the certification, correction, or collection of an account that is not the subject of a pending appeal.

5. The affidavit required in paragraph 2 of this subsection shall be in the following form: "My name is [insert name]. I have not communicated with another person in violation of subsection E of Section 2877 of Title 68 of the Oklahoma Statutes."

6. The affidavit required in paragraph 3 of this subsection shall be in the following form: "My name is [insert name]. The information I will present today is true and correct to the best of my belief and knowledge."

§68-2880.1. Appeal of order of county equalization board to district court - Notice of appeal - Appeal to Supreme Court - Legal counsel for assessor - Costs - Presumption of correctness of valuation.

A. Both the taxpayer and the county assessor shall have the right of appeal from any order of the county board of equalization sustaining a valuation of real or personal property at a fair cash value as determined by the county assessor in excess of Three Million Dollars (\$3,000,000.00) to the Court of Tax Review, and right of appeal of either may be either upon questions of law or fact including value, or upon both questions of law and fact. Appeals from any other order of the county board of equalization shall be filed in the district court of the same county. The county assessor is the proper party defendant in any appeal to the district court or Court of Tax Review brought by the taxpayer. The taxpayer is the proper party defendant in any appeal to the district court or Court of Tax Review brought by the county assessor. In either case, the county board of equalization shall not be considered a party in any litigation from an appeal brought pursuant to this section. In case of appeal the trial in the district court or Court of Tax Review shall be de novo. Provided, the county assessor shall not be permitted to appeal an order of the county board of equalization upon a question of the constitutionality of a law upon which the board based its order, but the county assessor is hereby authorized in such instance to request a declaratory judgment to be rendered by the district court or Court of Tax Review in cases involving real or personal property with a fair cash value as determined by the county assessor in excess of Three Million Dollars (\$3,000,000.00).

B. Notice of appeal shall be filed with the county clerk as secretary of the county board of equalization, which appeal shall be filed in the district court or Court of Tax Review, as the case may be, within thirty (30) calendar days of the date the board of equalization order was mailed, or in the event that the order was delivered, from the date of delivery. It shall be the duty of the county clerk to preserve all complaints and to make a record of all orders of the board and both the complaint and orders shall be a part of the record in any case appealed to the district court or Court of Tax Review from the county board of equalization.

C. Either the taxpayer or the county assessor may appeal from the district court or Court of Tax Review to the Supreme Court, as

provided for in the Code of Civil Procedure, but no matter shall be reviewed on such appeal which was not presented to the district court or Court of Tax Review.

D. In such appeals to the district court or Court of Tax Review and to the Supreme Court and in requests for declaratory judgment it shall be the duty of the district attorney to appear for and represent the county assessor. The General Counsel or an attorney for the Tax Commission may appear in such appeals or requests for declaratory judgment on behalf of the county assessor, either upon request of the district attorney for assistance, or upon request of the county assessor. It shall be the mandatory duty of the board of county commissioners and the county excise board to provide the necessary funds to enable the county assessor to pay the costs necessary to be incurred in perfecting appeals and requests for declaratory judgment made by the county assessor to the courts.

E. In all appeals taken by the county assessor the presumption shall exist in favor of the correctness of the county assessor's valuation and the procedure followed by the county assessor.

Appeal shall be brought in the Oklahoma Supreme Court in the same manner as provided for other appeals from the Court of Tax Review. The Supreme Court shall give precedence to such appeals and affirm the decision of the Court of Tax Review if supported by competent evidence. If the Oklahoma Supreme Court assigns the appeal to the Court of Civil Appeals, the Oklahoma Court of Civil Appeals shall give precedence to the appeal and affirm the decision of the Court of Tax Review if supported by competent evidence.

G. In all instances where the notice of assessed valuation certified by the State Board of Equalization has been permitted to become final, such notice shall have the same force and be subject to the same law as a judgment not subject to further appeal.

§68-2884. Payment and appeal of protested taxes.

A. The full amount of the taxes assessed against the property of any taxpayer who has appealed from a decision affecting the value or taxable status of such property as provided by law shall be paid at the time and in the manner provided by law. If at the time such taxes or any part thereof become delinquent and any such appeal is pending, it shall abate and be dismissed upon a showing that the taxes have not been paid.

B. When such taxes are paid, or by December 31, whichever is earlier, the persons protesting the taxes shall give notice to the county treasurer that an appeal involving such taxes has been taken and is pending, and shall set forth the total amount of tax that has been paid under protest or required by law to be paid prior to April 1 that will be paid under protest. The notice shall be on a form prescribed by the Tax Commission. If taxes are paid in two equal installments and the amount paid under protest does not exceed fifty percent (50%) of the full amount of assessed taxes, all protested taxes shall be specified in the second installment payment. If such amount does exceed fifty percent (50%) of the full amount of assessed taxes, then the portion of protested taxes that exceeds fifty percent (50%) of the full amount of assessed taxes shall be specified in the first installment payment and the entire second installment shall be specified to be paid under protest. The taxpayer shall attach to such notice a copy of the petition filed in the court or other appellate body in which the appeal was taken. For railroads, air carriers, and public service corporations, the amount of taxes protested shall not exceed the amount of tax calculated on the protested assessed valuation specified in the complaint filed pursuant to the provisions of subsection A of Section 2881 of this title.

C. It shall be the duty of the county treasurer to hold taxes paid under protest separate and apart from other taxes collected. Any portion of such taxes not paid under protest shall be apportioned as provided by law. Except as otherwise provided for in this subsection, the treasurer shall invest the protested taxes in the same manner as the treasurer invests surplus tax funds not paid under protest, but shall select an interest-bearing investment medium which will permit prompt refund or apportionment of the protested taxes upon final determination of the appeal. In cases where the amount of the protested ad valorem taxes by a taxpayer is in excess of Fifteen Thousand Dollars (\$15,000.00), the taxpayer may elect to choose the type of investment and where the investment of the protested funds will be deposited as long as the investment is of a type authorized for the county, the depository institution qualifies as a county depository, and the depository institution is located in the applicable county.

D. 1. Prior to January 31 of each year, the county treasurer shall determine the amount of ad valorem taxes paid under protest and those ad valorem taxes that will be paid under protest pursuant to subsection B of this section. The county treasurer shall then notify the State Auditor and Inspector of the total amount of paid protested ad valorem taxes and anticipated protested ad valorem taxes, the total amount of protested taxes and anticipated protested taxes by each individual taxpayer, and how such paid protested ad valorem taxes and anticipated protested ad valorem taxes would have been apportioned to each school district and technology center school district by fund had such amount of protested ad valorem taxes not been protested.

2. The State Auditor and Inspector shall compile all of the information submitted by the county treasurers in a format which shall set forth the total amount of paid and anticipated protested taxes for each school district and technology center school district by fund and a total for each school district and technology center school district by fund. This information shall then be submitted by the State Auditor and Inspector to the State Superintendent of Public Instruction, the Director of the Oklahoma Department of Career and Technology Education, the Speaker of the House of Representatives, and the President Pro Tempore of the Senate. If any of the information submitted to the State Auditor and Inspector changes after being submitted, the county treasurer shall notify the State Auditor and Inspector and the State Auditor and Inspector shall submit revised information to the parties enumerated in this paragraph within thirty (30) days of such change.

3. Within ten (10) days of the release of the escrowed ad valorem taxes by the county treasurer, as required by subsection E of this section, the county treasurer shall submit a schedule showing the disposition of the released funds, separated by fund for each school district and technology center school, to the State Auditor and Inspector. The State Auditor and Inspector shall certify the apportionment schedule and transmit a copy to the State Superintendent of Public Instruction and the Director of the Oklahoma Department of Career and Technology Education.

4. The State Auditor and Inspector shall promulgate any necessary rules to implement the provisions of this subsection.

E. 1. In cases involving taxpayers other than railroads, air carriers, or public service corporations, if upon the final determination of any such appeal, the court shall find that the property was assessed at too great an amount, the board of equalization from whose order the appeal was taken shall certify the corrected valuation of the property of such taxpayers to the county assessor, in accordance with the decision of the court, and shall send a copy of such certificate to the county treasurer. Upon receipt of the corrected certificate of valuation, the county

assessor shall compute and certify to the county treasurer the correct amount of taxes payable by the taxpayer. The difference between the amount paid and the correct amount payable, with accrued interest, shall be refunded by the treasurer to the taxpayer upon the taxpayer filing a proper verified claim therefor, and the remainder paid under protest, with accrued interest, shall be apportioned as provided by law.

2. If upon the final determination of any appeal, the court shall find that the property of the railroad, air carrier, or public service corporation was assessed at too great an amount, the State Board of Equalization from whose order the appeal was taken shall certify the corrected valuation of the property of the railroads, air carriers, and public service corporations to the State Auditor and Inspector in accordance with the decision of the court. Upon receipt of the corrected certificate of valuation, the State Auditor and Inspector shall certify to the county treasurer the correct valuation of the railroad, air carrier, or public service corporation and shall send a copy of the certificate to the county assessor, who shall make the correction as specified in Section 2871 of this title. The difference between the amount paid and the correct amount payable with accrued interest shall be refunded by the treasurer upon the taxpayer filing a proper verified claim, and the remainder paid under protest with accrued interest shall be apportioned according to law.

F. If an appeal is upon a question of valuation of the property, then the amount paid under protest by reason of the question of valuation being appealed shall be limited to the amount of taxes assessed against the property for the year in question less the amount of taxes which would be payable by the taxpayer for that year if the valuation of the property asserted by the taxpayer in the appeal were determined by the court to be correct. If an appeal is timely filed by a taxpayer pursuant to subsection A of Section 2880.1 of this title, the amount of taxes payable by the taxpayer shall not exceed the amount based upon the value originally submitted by the assessor to the county board of equalization. If an appeal is timely filed by the county assessor pursuant to subsection A of Section 2880.1 of this title, the amount of taxes payable by the taxpayer shall not exceed the amount of taxes based upon the value assessed by the county assessor and submitted to the board of equalization.

G. If an appeal is upon a question of assessment of the property, then the amount paid under protest by reason of the question of assessment being appealed shall be limited to the amount of taxes assessed against the property for the year in question less the amount of taxes which would be payable by the taxpayer for that year if the assessment of the property asserted by the taxpayer in the appeal was determined by the court to be correct.

§68-2885. Exclusiveness of remedies - Precedence of appeals.

A. The proceedings before the county assessor, boards of equalization and appeals therefrom shall be the sole method by which assessments or equalizations shall be corrected or taxes abated. Equitable remedies shall be resorted to only where the aggrieved party has no taxable property within the tax district of which complaint is made.

B. Appeals taken from all boards of equalization shall have precedence in the court to which they are taken.

It shall be the duty of the county treasurer to hold, invest and disburse such taxes only in the manner provided for by Section 2884 of this title.

§68-2887. Exempt property.

The following property shall be exempt from ad valorem taxation:

1. All property of the United States, and such property as may be exempt by reason of treaty stipulations existing at statehood between the Indians and the United States government, or by reason of federal laws in effect at statehood, during the time such treaties or federal laws are in force and effect. In instances where a federal agency has obtained title to property through foreclosure, voluntary or involuntary liquidation or bankruptcy, which was previously subject to ad valorem taxation, the property may continue to be assessed for ad valorem taxes if such federal agency has agreed to pay such taxes;

2. All property of this state, and of the counties, school districts, and municipalities of this state, including property acquired for the use of such entities pursuant to the terms of a

For purposes of this paragraph, a requirement by a church to be reimbursed by the entity for utility expenses, janitorial services or similar expenses shall not be a basis upon which to remove or deny the exempt status of church property. Exempt status of church property shall not be removed nor shall church property be allocated between taxable and exempt status based on the use of church premises by an entity as described by this paragraph.

For purposes of administering the exemption authorized by this section and in order to determine whether a single family residential property is used exclusively and directly for fraternal or religious purposes, the fair cash value of a single family residential property, for which an exemption is claimed as authorized by this subsection, in excess of Five Hundred Thousand Dollars (\$500,000.00) for the applicable assessment year shall not be exempt from taxation;

The owner of any property subject to the occupancy requirements prescribed herein shall submit a report to the county assessor of the county in which the property is located no later than December 15 each year regarding the occupancy rate for the preceding eleven (11) months. If the report indicates that the average occupancy rate was less than seventy-five percent (75%), the county assessor shall determine the taxable value of the property for the succeeding assessment year and the property shall not be exempt for any subsequent assessment year unless the average occupancy rate is at least seventy-five percent (75%) during the succeeding eleven-month period. Except as provided in Section 178.6 of Title 60 of the Oklahoma Statutes, no asset consisting of a single-family or multi-family dwelling unit owned by an entity the property of which would otherwise be exempt pursuant to

A. 1. The term "homestead", as used in the provisions of the Ad Valorem Tax Code governing homestead exemptions, shall mean and include the actual residence of a natural person who is a citizen of this state, provided the record actual ownership of such residence

Any single person of legal age, married couple and their minor child or children or the minor child or children of a deceased person, whether residing together or separated, or surviving spouse shall be allowed under Section 2801 et seq. of this title only one homestead exemption in this state. No person or the family of such person shall be required to be domiciled thereon if such person is in the armed service of the United States in time of war or during a state of national emergency as declared by the Congress or the President of the United States, and such person shall not be required to be domiciled thereon in order to assert or claim the exemption provided in Section 2889 of this title, and such exemption may be claimed by any agent of, or member of the family of, such person. The surviving spouse and/or minor children of a deceased person shall be considered record owners of the homestead where the title of record in the office of the county clerk on January 1 is in the name of the deceased, but in all other cases the deed or other evidence of ownership must be of record in the office of the county clerk on January 1 in order for any person to be qualified as the record owner. However, a natural person actually owning, residing and domiciled in the residence on January 1 shall be deemed to be the record owner of the residence on January 1, within the meaning of this section, if the deed or other evidence of ownership of such person, executed on or before January 1, be of record in the office of the county clerk on or before February 1 immediately following. Despite any provision to the contrary in this section, if a parent or parents residing and domiciled in the residence own the residence jointly with one or more of their children, whether residing together or separated, and where the record joint ownership of the property is recorded in the office of the county clerk in accordance with the provisions of this section, the parent or parents residing and domiciled in the residence shall be entitled to the entire homestead exemption. A rural homestead shall not include more than one hundred sixty (160) acres of land and the improvements thereon. The forms so prescribed shall be used uniformly throughout the state and no application for exemption shall be allowed unless the applicant uses the regularly prescribed form in making his or her application.

Added by Laws 1988, c. 162, § 91, eff. Jan. 1, 1992.

§68-2892. Homestead exemption - Application.

A. To receive a homestead exemption, a taxpayer shall be required to file an application with the county assessor. Such application may be filed at any time. However, the county assessor shall, if such applicant otherwise qualifies, grant a homestead exemption for a tax year only if the application is filed on or before March 15 of such year or within thirty (30) days from and after receipt by the taxpayer of notice of valuation increase, whichever is later. Except as provided in this subsection, if an application for a homestead exemption is filed after March 15 or within thirty (30) days after receipt by the taxpayer of notice of valuation increase, whichever is later, the county assessor shall, if such applicant otherwise qualifies, grant the homestead exemption beginning with the following tax year.

B. For any owner of real property who is eligible to claim the income tax credit pursuant to Section 2357.29A of this title with respect to a tornado or for any owner of real property whose primary residence was damaged or destroyed in a tornado and who purchased or built a new primary residence at a location within this state other than the location of the damaged or destroyed residence, the application for a homestead exemption may be filed after March 15 and the homestead exemption shall be granted for such year. For a

tornado occurring in calendar year 2013, the exemption may be filed no later than June 1, 2014. For any subsequent tornado, the exemption may be filed no later than June 1 of the year immediately following the year during which the tornado occurred. For the purposes of this section, "tornado" means a tornado which occurred in calendar year 2013 or any subsequent tornado for which a Presidential Major Disaster Declaration was issued.

C. Any taxpayer who has been granted a homestead exemption and who continues to occupy such homestead property as a homestead, shall not be required to reapply for such homestead exemption.

D. Once granted, the homestead exemption shall remain in full force and effect for each succeeding year, so long as:

2. The instrument of ownership is on record in the county clerk's office;

3. The owner-taxpayer is in all other respects entitled by law to the homestead exemption; and

4. The taxpayer has no delinquent accounts appearing on the personal property tax lien docket in the county treasurer's office. On October 1 of each year, the county treasurer will provide a copy of the personal property tax lien docket to the county assessor. Based upon the personal property tax lien docket, the county assessor shall act to cancel the homestead exemption of all property owners having delinquent personal property taxes. Such cancellation of the homestead exemption will become effective January 1 of the following year and will remain in effect for at least one (1) calendar year; however, such cancellation will not become effective January 1 of the following year if the taxpayer pays such delinquent personal property taxes prior to January 1. Cancellation of the homestead exemption will require the county assessor to notify each taxpayer no later than January 1 of the next calendar year whose homestead is canceled and will require the taxpayer to refile an application for homestead exemption by those dates so indicated in this section and the payment of all delinquent personal property taxes before the homestead can be reinstated.

E. Any purchaser or new owner of real property must file an application for homestead exemption as herein provided.

F. The application for homestead exemption shall be filed with the county assessor of the county in which the homestead is located. A taxpayer applying for homestead exemption shall not be required to appear before the county assessor in person to submit such application.

G. The property owner shall sign and swear to the truthfulness and correctness of the application's contents. If the property owner is a minor or incompetent, the legal guardian shall sign and swear to the contents of the application.

H. The county assessor and duly appointed deputies are authorized and empowered to administer the required oaths.

I. The taxpayer shall notify the county assessor following any change in the use of property with homestead exemption thereon. The notice of change in homestead exemption status of property shall be in writing and may be filed with the county assessor at any time on or before March 15 of the next following year after which such change occurs. The filing of a deed or other instrument evidencing a change of ownership or use shall constitute sufficient notice to the county assessor.

J. Any single person of legal age, married couple and their minor child or children, or the minor child or children of a deceased person, whether residing together or separated, or surviving spouse shall be allowed under this Code only one homestead exemption in the State of Oklahoma.

K. Any property owner who fails to give notice of change to the county assessor and permits the allowance of homestead exemption for any succeeding year where such homestead exemption is unlawful and improper shall owe the county treasurer:

1. An amount equal to twice the amount of the taxes lawfully due but not paid by reason of such unlawful and improper allowance of homestead exemption; and

2. The interest and penalty on such total sum as provided by statutes on delinquent ad valorem taxes. There shall be a lien on the property while such taxes are unpaid, but not for a period longer than that provided by statute for other ad valorem tax liens.

In case he finds that the exemption should not be allowed by reason of not being in conformity to law, he shall mark the application "rejected" and state thereon the reason for such rejection. In any case where the county assessor disallows or reduces an application for exemption, he shall notify the applicant of his action by mailing written notice to him at the address shown in the application, which notice shall be on forms prescribed by the Oklahoma Tax Commission. All applications for exemption, showing thereon the action of the county assessor, shall be delivered to the county board of equalization on or before the fourth Monday of April of each year.

Added by Laws 1988, c. 162, § 93, eff. Jan. 1, 1992.

§68-2894. Homestead exemption - Review of applications by county board of equalization.

The county board of equalization shall have the authority and it shall be its duty to review any and all applications for homestead exemption which may have been filed with the county assessor and to make whatever order is necessary in order to grant homestead exemption to all applicants who are legally entitled to such exemption and prevent unlawful exemption on any property. If the board disallows any exemption which has theretofore been allowed by the county assessor, or changes the amount of exemption as allowed by the county assessor, such disallowance or change shall not be final until ten (10) days' notice in writing of said change shall have been given the applicant, and an opportunity for a hearing afforded on such disallowance or change.

Added by Laws 1988, c. 162, § 94, eff. Jan. 1, 1992.

§68-2896. Homesteads - Separate listing and assessment - Buildings used for both dwelling and business or commercial purposes - Rural homesteads.

A. All homesteads shall be separately listed and assessed and separately described on the assessment rolls and tax rolls wherever possible. No homestead exemption shall be allowed on any improvements on real estate or other buildings which are used for business or commercial purposes, but where the same improvement or building is used both as a dwelling and for business purposes the value of that portion used as a dwelling shall be considered to be a part of the homestead and subject to exemption.

B. In any case where a building is used partially as a dwelling and partially for business or commercial purposes, or where some buildings on the same tract of land consist of the dwelling and appurtenances and others are used for business or commercial purposes, it shall be the duty of the county assessor to separately value the dwelling and appurtenances and that part used for business or commercial purposes. The keeping of boarders or roomers by citizens in a building maintained otherwise exclusively as a home shall not be considered as commercial purposes.

D. In the case of rooming houses, duplexes, apartment buildings, or any other building occupied by more than one family, and used entirely for residential purposes, the homestead and part subject to exemption shall be considered only that proportion of the total assessed value of the land and improvements as the number of

rooms occupied by the owner bears to the total number of rooms of such building. The renting of not to exceed three bedrooms shall not constitute business or commercial use or affect the exemption of a homestead and at no part of any hotel, motel, hostelry or apartment hotel shall be exempt.

E. In the case of rural homesteads, the homestead shall consist of not more than one hundred sixty (160) acres of land, which shall include and be about and contiguous or adjacent to the land upon which the dwelling house stands, to be selected by the owner, and the land designated as the homestead shall, as nearly as possible, consist of some legal subdivision of a section or sections. §68-2902.3. Qualified aircraft manufacturers - Reimbursement of certain ad valorem taxes paid - Application - Agreement - Aircraft Manufacturer Payment Fund - False or fraudulent application, claim, etc. - Penalties.

A. As used in this section:

1. "Qualified aircraft manufacturer" means a corporation:

- a. primarily engaged in the manufacture or repair of aircraft components and replacement parts,
- b. which is headquartered in this state and the primary facilities of which are located in this state,
- c. which, as of July 1, 2005, has wages in this state totaling at least Eighty Million Dollars (\$80,000,000.00) for the preceding twelve-month period, and
- d. which experienced a decline in annualized wages as a result of the terrorist attacks on the United States on September 11, 2001, and as a result of such decline, had an application for a tax exemption pursuant to the provisions of Section 2902 of Title 68 of the Oklahoma Statutes denied or rejected by the Oklahoma Tax Commission or a county assessor for one (1) or more years beginning after such terrorist attacks and prior to July 1, 2005; and

2. "Tax Commission" or "Commission" means the Oklahoma Tax Commission.

B. A qualified aircraft manufacturer shall be eligible to enter into an agreement with the Tax Commission for a period not to exceed five (5) years. The agreement shall provide for the following:

1. For each year of the term of the agreement, the qualified aircraft manufacturer shall agree to:

- a. maintain Oklahoma wages during the period of the agreement in an amount not less than one hundred percent (100%) of the manufacturer's wages for the twelve (12) months preceding July 1, 2005,
- b. maintain or increase its investment, based on original cost, in real and personal property in this state in an amount not less than one hundred percent (100%) of the manufacturer's level of investment, based on original cost, as of July 1, 2005, and
- c. meet all other qualifications specified in this section and provide documentation of such to the Tax Commission; and

2. The Tax Commission shall agree to make payments to the qualified aircraft manufacturer in the amount of ad valorem taxes actually paid by the manufacturer in any year following the terrorist attacks of September 11, 2001, but which would have been exempt from ad valorem taxes pursuant to the provisions of Section 2902 of Title 68 of the Oklahoma Statutes if the manufacturer had not experienced a decline in annualized wages as a result of such terrorist attacks. Payments to a manufacturer shall not exceed the amount of such taxes actually paid by the manufacturer prior to the date of the payment, nor shall payments to a single manufacturer exceed a total of Two Million Five Hundred Thousand Dollars (\$2,500,000.00) over the five-year period of the agreement or a total of Five Hundred Thousand Dollars (\$500,000.00) in any single fiscal year. If such amount is insufficient to reimburse the manufacturer for ad valorem taxes actually paid by the manufacturer in any year following the terrorist attacks of September 11, 2001, but which would have been exempt from ad valorem taxes pursuant to the provisions of Section 2902 of Title 68 of the Oklahoma Statutes if the manufacturer had not experienced a decline in annualized wages as a result of such terrorist attacks, any amount not reimbursed shall carry forward and may be paid in a subsequent fiscal year subject to the limitations of this section; provided, in no event shall payments be made after the expiration of the agreement.

C. A qualified aircraft manufacturer shall make an initial application to the Tax Commission to enter into an agreement pursuant to the provisions of this section not later than September 1, 2005, and upon approval, shall submit a claim for payment annually thereafter for the remainder of the five-year period of the agreement on a date specified by the Tax Commission. Such application and claim shall be on a form prescribed by the Tax Commission and shall contain such information as may be necessary for the Tax Commission to determine if the qualifications and other

requirements of this section have been met. The determination shall be made upon application of the manufacturer and annually thereafter as a condition of receiving a payment pursuant to the provisions of this section. Prior to approving a claim for payment, the Tax Commission shall verify the information contained in the claim and shall verify that all requirements of this section have been met as a condition of making the payment.

D. If the qualified aircraft manufacturer does not meet the terms of the agreement and all provisions of this section, payments shall cease and shall not be resumed, and the agreement shall expire and be void.

E. A qualified aircraft manufacturer that has qualified pursuant to this section may receive payments only in accordance with the provisions under which it initially applied and was approved.

F. As soon as practicable after verification of the eligibility of the qualified aircraft manufacturer as required by this section, the Tax Commission shall issue a warrant to the manufacturer.

G. There is hereby created within the State Treasury a special fund for the Tax Commission to be designated the "Aircraft Manufacturer Payment Fund". The Tax Commission is hereby authorized and directed to withhold a portion of the taxes levied and collected pursuant to Sections 1354 and 2355 of Title 68 of the Oklahoma Statutes which would otherwise be apportioned to the General Revenue Fund for deposit into the fund. The amount deposited shall equal the sum of an amount required for making payments, as determined pursuant to the provisions of this section. All of the amounts deposited in such fund shall be used and expended by the Tax Commission solely for the purposes and in the amounts authorized by this section. The liability of the State of Oklahoma to make the investment payments under this section shall be limited to the balance contained in the fund created by this subsection.

H. The Tax Commission may promulgate rules necessary to implement its duties and responsibilities under the provisions of this section.

I. Any person making an application, claim for payment or any report, return, statement or other instrument or providing any other information pursuant to the provisions of this section who willfully makes a false or fraudulent application, claim, report, return, statement, invoice or other instrument or who willfully provides any false or fraudulent information, or any person who willfully aids or abets another in making such false or fraudulent application, claim, report, return, statement, invoice or other instrument or who willfully aids or abets another in providing any false or fraudulent information, upon conviction, shall be guilty of a felony punishable by the imposition of a fine not less than One Thousand Dollars (\$1,000.00) and not more than Fifty Thousand Dollars (\$50,000.00) or

imprisonment in the State Penitentiary for not less than two (2) years and not more than five (5) years, or by both such fine and imprisonment. Any person convicted of a violation of this section shall be liable for the repayment of all investment payments which were paid to the manufacturer. Interest shall be due on such payments at the rate of ten percent (10%) per annum.
Added by Laws 2005, c. 461, § 1, eff. July 1, 2005.

§68-2902.4. Repealed by Laws 2017, c. 299, § 1, eff. Jan. 1, 2018.

§68-2902.5. Manufacturing facilities - Delay of exemption from ad valorem tax.

A. Notwithstanding any other provision of law, manufacturing facilities applying for the exemption under Section 2902 of Title 68 of the Oklahoma Statutes on or after November 1, 2017, shall be eligible to delay the five-year period of exemption from ad valorem taxes following the expiration or termination of the ad valorem exemption, abatement or other incentive provided through the tax incentive district established pursuant to the Local Development Act. For the purposes of this section, "exemption" shall mean the exemption authorized by Section 6B of Article X of the Oklahoma Constitution and Section 2902 of Title 68 of the Oklahoma Statutes.

B. In order to delay the exemption as provided in this section, a manufacturing facility shall:

1. Create at least one hundred new jobs at the state index wage provided for in paragraph 2 of subsection F of Section 3604 of Title 68 of the Oklahoma Statutes; and

2. Invest at least ten (10) times the investment cost in new depreciable property required in paragraph 1 of subsection B of Section 2902 of Title 68 of the Oklahoma Statutes.

C. The delay of the exemption shall not be available for any job creation or investment of new depreciable property that occurred prior to November 1, 2017, or the date of the creation of the tax incentive district, whichever is later.

D. In order to delay the exemption, a tax incentive district must be created pursuant to the Local Development Act and the governing body established by the Local Development Act must notify the Oklahoma Tax Commission and the Oklahoma Department of Commerce at the time of applying for the exemption.

E. Prior to the investment and job creation activities required pursuant to subsection B of this section commencing by the company or companies in the tax incentive district, the governing body of the tax incentive district shall notify the Oklahoma Department of Commerce in writing of the creation of the tax incentive district. The governing body of the tax incentive district shall provide to the Oklahoma Department of Commerce the following information:

1. Company (or companies) name and contact information;

2. Complete description of the economic development activity including projected new job creation, projected wages of the new jobs, and planned investment in new depreciable property; and

3. Any other information requested by the Oklahoma Department of Commerce.

The Oklahoma Department of Commerce, in conjunction with the Oklahoma Tax Commission, shall conduct a fiscal and economic impact of the proposed project. If the project has no adverse fiscal impact and a positive economic impact, the project will be referred to the Incentive Approval Committee created in subsection B of Section 3603 of Title 68 of the Oklahoma Statutes for review of the project. If the Incentive Approval Committee approves the project for delay of the exemption, the Oklahoma Department of Commerce shall prepare a contract between the Oklahoma Department of Commerce, on behalf of the State of Oklahoma, and the company or companies that will be awarded a delay of the exemption. Once the contract is executed by the parties, the contract will be forwarded to the Oklahoma Tax Commission. The Oklahoma Tax Commission shall be responsible for monitoring the terms and conditions of the contract between the Oklahoma Department of Commerce and the company or companies that have been awarded a delay of the exemption.

F. If the application for an exemption is approved, the five-year period of exemption from ad valorem taxes for any qualifying manufacturing facility shall begin on January 1 following the expiration or termination of the ad valorem exemption, abatement or other incentive provided through the tax incentive district.

G. This section shall not apply to electric power generation facilities. Electric power generation facilities shall not qualify to delay the exemption from ad valorem taxes following the expiration or termination of the ad valorem exemption, abatement or other incentive provided through the tax incentive district pursuant to the Local Development Act.

Added by Laws 2017, c. 334, § 1, eff. Nov. 1, 2017.

§68-2902v1. Manufacturing facilities - Exemption from ad valorem tax.

A. Except as otherwise provided by subsection H of Section 3658 of this title pursuant to which the exemption authorized by this section may not be claimed, a qualifying manufacturing concern, as defined by Section 6B of Article X of the Oklahoma Constitution, and as further defined herein, shall be exempt from the levy of any ad valorem taxes upon new, expanded or acquired manufacturing facilities including facilities engaged in research and development, for a period of five (5) years. The provisions of Section 6B of Article X of the Oklahoma Constitution requiring an existing facility to have been unoccupied for a period of twelve (12) months prior to acquisition shall be construed as a qualification for a

facility to initially receive an exemption, and shall not be deemed to be a qualification for that facility to continue to receive an exemption in each of the four (4) years following the initial year for which the exemption was granted. Such facilities are hereby classified for the purposes of taxation as provided in Section 22 of Article X of the Oklahoma Constitution.

B. For purposes of this section, the following definitions shall apply:

1. "Manufacturing facilities" means facilities engaged in the mechanical or chemical transformation of materials or substances into new products and except as provided by paragraph 6 of subsection C of this section shall include:

- a. establishments which have received a manufacturer exemption permit pursuant to the provisions of Section 1359.2 of this title,
- b. facilities including repair and replacement parts, primarily engaged in aircraft repair, building and rebuilding whether or not on a factory basis,
- c. establishments primarily engaged in computer services and data processing as defined under Industrial Group Numbers 5112 and 5415, and U.S. Industry Number 334611 and 519130 of the NAICS Manual, latest revision, and which derive at least fifty percent (50%) of their annual gross revenues from the sale of a product or service to an out-of-state buyer or consumer, and as defined under Industrial Group Number 5182 of the NAICS Manual, latest revision, which derive at least eighty percent (80%) of their annual gross revenues from the sale of a product or service to an out-of-state buyer or consumer. Eligibility as a manufacturing facility pursuant to this subparagraph shall be established, subject to review by the Oklahoma Tax Commission, by annually filing an affidavit with the Tax Commission stating that the facility so qualifies and such other information as required by the Tax Commission. For purposes of determining whether annual gross revenues are derived from sales to out-of-state buyers, all sales to the federal government shall be considered to be an out-of-state buyer,
- d. facilities that the investment cost of the construction, acquisition or expansion is Five Hundred Thousand Dollars (\$500,000.00) or more with respect to assets placed into service during calendar year 2022. For subsequent calendar years, the investment required shall be increased annually by a percentage equal to the previous year's increase in the Consumer Price

Index-All Urban Consumers ("CPI-U") and such adjusted amount shall be the required investment cost in order to qualify for the exemption authorized by this section. The Oklahoma Department of Commerce shall determine the amount of the increase, if any, on January 1 of each year. The Oklahoma Tax Commission shall publish on its website at least annually the adjusted dollar amount in order to qualify for the exemption authorized by this section and shall include the adjusted dollar amount in any of its relevant forms or publications with respect to the exemption. Provided, "investment cost" shall not include the cost of direct replacement, refurbishment, repair or maintenance of existing machinery or equipment, except that investment cost shall include capital expenditures for direct replacement, refurbishment, repair or maintenance of existing machinery or equipment that qualifies for depreciation and/or amortization pursuant to the Internal Revenue Code of 1986, as amended, and such expenditures shall be eligible as a part of an expansion that otherwise qualifies under this section,

- e. establishments primarily engaged in distribution as defined under Industry Numbers 49311, 49312, 49313 and 49319 and Industry Sector Number 42 of the NAICS Manual, latest revision, and which meet the following qualifications:
 - (1) construction with an initial capital investment of at least Five Million Dollars (\$5,000,000.00),
 - (2) employment of at least one hundred (100) full-time-equivalent employees, as certified by the Oklahoma Employment Security Commission,
 - (3) payment of wages or salaries to its employees at a wage which equals or exceeds the average wage requirements in the Oklahoma Quality Jobs Program Act for the year in which the real property was placed into service, and
 - (4) commencement of construction on or after November 1, 2007, with construction to be completed within three (3) years from the date of the commencement of construction,
- f. facilities engaged in the manufacturing, compounding, processing or fabrication of materials into articles of tangible personal property according to the special order of a customer (custom order manufacturing) by manufacturers classified as operating in North American Industry Classification System (NAICS)

Sectors 32 and 33, but does not include such custom order manufacturing by manufacturers classified in other NAICS code sectors, and

- g. with respect to any entity making an application for the exemption authorized by this section on or after January 1, 2023, the establishment making application for exempt treatment of real or personal property acquired or improved beginning January 1, 2022, and for any calendar year thereafter, the entity shall be required to pay new direct jobs, as defined by Section 3603 of this title for purposes of the Oklahoma Quality Jobs Program Act, an average annualized wage which equals or exceeds the average wage requirement in the Oklahoma Quality Jobs Program Act for the year in which the real or personal property was placed into service. The Oklahoma Tax Commission may request verification from the Oklahoma Department of Commerce that an establishment seeking an exemption for real or personal property pays an average annualized wage that equals or exceeds the average wage requirement in effect for the year in which the real or personal property was placed into service. For purposes of this subparagraph, it shall not be necessary for the establishment to qualify for incentive payments pursuant to the Oklahoma Quality Jobs Program Act, but the establishment shall be subject to the wage requirements of the Oklahoma Quality Jobs Program Act with respect to new direct jobs in order to qualify for the exempt treatment authorized by this section.

Eligibility as a manufacturing facility pursuant to this subparagraph shall be established, subject to review by the Tax Commission, by annually filing an affidavit with the Tax Commission stating that the facility so qualifies and containing such other information as required by the Tax Commission.

Provided, eating and drinking places, as well as other retail establishments, shall not qualify as manufacturing facilities for purposes of this section, nor shall centrally assessed properties.

Eligibility as a manufacturing facility pursuant to this subparagraph shall be established, subject to review by the Tax Commission, by annually filing an application with the Tax Commission stating that the facility so qualifies and containing such other information as required by the Tax Commission;

2. "Facility" and "facilities", except as otherwise provided by this section, means and includes the land, buildings, structures and improvements used directly and exclusively in the manufacturing process. Effective January 1, 2022, and for each calendar year thereafter, for establishments which have received a manufacturer

exemption permit pursuant to the provisions of Section 1359.2 of this title, or facilities engaged in manufacturing activities defined or classified in the NAICS Manual under Industry Nos. 311111 through 339999, inclusive, but for no other establishments, facility and facilities means and includes the land, buildings, structures, improvements, machinery, fixtures, equipment and other personal property used directly and exclusively in the manufacturing process; and

3. "Research and development" means activities directly related to and conducted for the purpose of discovering, enhancing, increasing or improving future or existing products or processes or productivity.

C. The following provisions shall apply:

1. A manufacturing concern shall be entitled to the exemption herein provided for each new manufacturing facility constructed, each existing manufacturing facility acquired and the expansion of existing manufacturing facilities on the same site, as such terms are defined by Section 6B of Article X of the Oklahoma Constitution and by this section;

2. No manufacturing concern shall receive more than one five-year exemption for any one manufacturing facility unless the expansion which qualifies the manufacturing facility for an additional five-year exemption meets the requirements of paragraph 4 of this subsection and the employment level established for any previous exemption is maintained;

3. Any exemption as to the expansion of an existing manufacturing facility shall be limited to the increase in ad valorem taxes directly attributable to the expansion;

4. All initial applications for any exemption for a new, acquired or expanded manufacturing facility shall be granted only if:

- a. there is a net increase in annualized base payroll over the initial payroll of at least Two Hundred Fifty Thousand Dollars (\$250,000.00) if the facility is located in a county with a population of fewer than seventy-five thousand (75,000), according to the most recent Federal Decennial Census, while maintaining or increasing base payroll in subsequent years, or at least One Million Dollars (\$1,000,000.00) if the facility is located in a county with a population of seventy-five thousand (75,000) or more, according to the most recent Federal Decennial Census, while maintaining or increasing base payroll in subsequent years; provided, the payroll requirement of this subparagraph shall be waived for claims for exemptions including claims previously denied or on appeal on March 3, 2010, for all initial applications for

exemption filed on or after January 1, 2004, and on or before March 31, 2009, and all subsequent annual exemption applications filed related to the initial application for exemption, for an applicant, if the facility has been located in Oklahoma for at least fifteen (15) years engaged in marine engine manufacturing as defined under U.S. Industry Number 333618 of the NAICS Manual, latest revision, and has maintained an average employment of five hundred (500) or more full-time-equivalent employees over a ten-year period. Any applicant that qualifies for the payroll requirement waiver as outlined in the previous sentence and subsequently closes its Oklahoma manufacturing plant prior to January 1, 2012, may be disqualified for exemption and subject to recapture. For an applicant engaged in paperboard manufacturing as defined under U.S. Industry Number 322130 of the NAICS Manual, latest revision, union master payouts paid by the buyer of the facility to specified individuals employed by the facility at the time of purchase, as specified under the purchase agreement, shall be excluded from payroll for purposes of this section.

In order to provide certainty with respect to investments in manufacturing facilities pertaining to all initial applications for exemption filed on or after January 1, 2016, the following definitions shall apply:

- (1) "base payroll" shall mean total payroll adjusted for any nonrecurring bonuses, exercise of stock option or stock rights and other nonrecurring, extraordinary items included in total payroll, and
 - (2) "initial payroll" shall mean base payroll for the year immediately preceding the initial construction, acquisition or expansion.
- The Tax Commission shall verify payroll information through the Oklahoma Employment Security Commission by using reports from the Oklahoma Employment Security Commission for the calendar year immediately preceding the year for which initial application is made for base-line payroll, which must be maintained or increased for each subsequent year; provided, a manufacturing facility shall have the option of excluding from its payroll, for purposes of this section:

- i. payments to sole proprietors, members of a partnership, members of a limited liability company who own at least ten percent (10%) of the capital of the limited liability company or stockholder-employees of a corporation who own at least ten percent (10%) of the stock in the corporation, and
 - ii. any nonrecurring bonuses, exercise of stock option or stock rights or other nonrecurring, extraordinary items included in total payroll numbers as reported by the Oklahoma Employment Security Commission. A manufacturing facility electing either option shall indicate such election upon its application for an exemption under this section. Any manufacturing facility electing either option shall submit such information as the Tax Commission may require in order to verify payroll information. Payroll information submitted pursuant to the provisions of this paragraph shall be submitted to the Tax Commission and shall be subject to the provisions of Section 205 of this title, and
- b. the facility offers, or will offer within one hundred eighty (180) days of the date of employment, a basic health benefits plan to the full-time-equivalent employees of the facility, which is determined by the Oklahoma Department of Commerce to consist of the elements specified in subparagraph b of paragraph 1 of subsection A of Section 3603 of this title or elements substantially equivalent thereto.

For purposes of this section, calculation of the amount of increased base payroll shall be measured from the start of initial construction or expansion to the completion of such construction or expansion or for three (3) years from the start of initial construction or expansion, whichever occurs first. The amount of increased base payroll shall include payroll for full-time-equivalent employees in this state who are employed by an entity other than the facility which has previously or is currently qualified to receive an exemption pursuant to the provisions of this section and who are leased or otherwise provided to the facility, if such employment did not exist in this state prior to the start of initial construction or expansion of the facility. The

manufacturing concern shall submit an affidavit to the Tax Commission, signed by an officer, stating that the construction, acquisition or expansion of the facility will result in a net increase in the annualized base payroll as required by this paragraph and that full-time-equivalent employees of the facility are or will be offered a basic health benefits plan as required by this paragraph. If, after the completion of such construction or expansion or after three (3) years from the start of initial construction or expansion, whichever occurs first, the construction, acquisition or expansion has not resulted in a net increase in the amount of annualized base payroll, if required, or any other qualification specified in this paragraph has not been met, the manufacturing concern shall pay an amount equal to the amount of any exemption granted including penalties and interest thereon, to the Tax Commission for deposit to the Ad Valorem Reimbursement Fund;

5. Except as otherwise provided by this paragraph, any new, acquired or expanded computer data processing, data preparation or information processing services provider classified in U.S. Industry Number 518210 of the North American Industrial Classification System (NAICS) Manual, 2017 revision, may apply for exemptions under this section for each year in which new, acquired, or expanded capital improvements to the facility are made for assets placed in service not later than December 31, 2021, if:

- a. there is a net increase in annualized payroll of the applicant at any facility or facilities of the applicant in this state of at least Two Hundred Fifty Thousand Dollars (\$250,000.00), which is attributable to the capital improvements, or a net increase of Seven Million Dollars (\$7,000,000.00) or more in capital improvements, while maintaining or increasing payroll at the facility or facilities in this state which are included in the application, and
- b. the facility offers, or will offer within one hundred eighty (180) days of the date of employment of new employees attributable to the capital improvements, a basic health benefits plan to the full-time-equivalent employees of the facility, which is determined by the Oklahoma Department of Commerce to consist of the elements specified in subparagraph b of paragraph 1 of subsection A of Section 3603 of this title or elements substantially equivalent thereto.

An establishment described by this paragraph, the primary business activity of which is described by Industry No. 518210 of the North American Industry Classification System (NAICS) Manual, 2017 revision, that has applied for and been granted an exemption for personal property at any time within five (5) years prior to November 1, 2021, may apply for exemptions for items of eligible

personal property to be located within improvements to real property and such real property and improvements having been exempt from ad valorem taxation prior to November 1, 2021, pursuant to the provisions of this section if such personal property is placed in service not later than December 31, 2036. No additional personal property of such establishment placed in service after such date shall qualify for the exempt treatment otherwise authorized pursuant to this paragraph;

6. Effective January 1, 2017, an entity engaged in electric power generation by means of wind, as described by the North American Industry Classification System, No. 221119, shall not be defined as a qualifying manufacturing concern for purposes of the exemption otherwise authorized pursuant to Section 6B of Article X of the Oklahoma Constitution or qualify as a manufacturing facility as defined in this section. No initial application for exemption shall be filed by or accepted from an entity engaged in electric power generation by means of wind on or after January 1, 2018;

7. An entity or applicant engaged in an industry as defined under U.S. Industry Number 324110 of the NAICS Manual, latest revision, which has applied for or been granted an exemption for a time period which began on or after calendar year 2012 and before calendar year 2016 but which did not meet the payroll requirements of subparagraph a of paragraph 4 of this subsection because of nonrecurring bonuses, exercise of stock option or stock rights or other nonrecurring, extraordinary items included in total payroll in the previous year, shall be allowed an exemption, beginning with calendar year 2016, for the number of years including the calendar year for which the exemption was denied, remaining in the entity's five-year exemption period, provided such entity attains or increases payroll at or above the initial or base payroll established for the exemption;

8. A facility engaged in manufacturing defined under U.S. Industry Number 327310 of the NAICS Manual shall have the payroll requirements of paragraph 4 of this subsection waived for tax year 2021, which is based in part on the 2020 calendar year payroll reported to the Oklahoma Employment Security Commission, and may continue to receive the exemption for the five-year period provided in this section only if all other requirements of this section are met; and

9. A facility engaged in manufacturing which otherwise qualifies for the exemption or exemptions pursuant to the provisions of this section shall have the payroll requirements of paragraph 4 of this subsection waived for tax year 2021, which is based in part on the 2020 calendar year payroll reported to the Oklahoma Employment Security Commission, and for tax year 2022, which is based in part on the 2021 calendar year payroll reported to the Oklahoma Employment Security Commission, and may continue to receive

the exemption for the five-year period provided in this section only if all other requirements of this section are met.

D. 1. Except as provided in paragraph 2 of this subsection, the five-year period of exemption from ad valorem taxes for any qualifying manufacturing facility property shall begin on January 1 following the initial qualifying use of the property in the manufacturing process.

2. The five-year period of exemption from ad valorem taxes for any qualifying manufacturing facility, as specified in subparagraphs a and b of this paragraph, which is located within a tax incentive district created pursuant to the Local Development Act by a county having a population of at least five hundred thousand (500,000), according to the most recent Federal Decennial Census, shall begin on January 1 following the expiration or termination of the ad valorem exemption, abatement, or other incentive provided through the tax incentive district. Facilities qualifying pursuant to this subsection shall include:

- a. a manufacturing facility as defined in subparagraph c of paragraph 1 of subsection B of this section, and
- b. an establishment primarily engaged in distribution as defined under Industry Number 49311 of the North American Industry Classification System for which the initial capital investment was at least One Hundred Eighty Million Dollars (\$180,000,000.00); provided, that the qualifying job creation and depreciable property investment occurred prior to calendar year 2017 but not earlier than calendar year 2013.

E. The application shall be on a form or forms prescribed by the Tax Commission, and shall be filed on or before March 15, except as provided in Section 2902.1 of this title, of each year in which the facility desires to take the exemption or within thirty (30) days from and after receipt by such person, firm or corporation of notice of valuation increase, whichever is later. In a case where completion of the facility or facilities will occur after January 1 of a given year, a facility may apply to claim the ad valorem tax exemption for that year. If such facility is found to be qualified for exemption, the ad valorem tax exemption provided for herein shall be granted for that entire year and shall apply to the ad valorem valuation as of January 1 of that given year. For applicants who qualify under the provisions of subparagraph b of paragraph 1 of subsection B of this section, the application shall include a copy of the affidavit and any other information required to be filed with the Tax Commission.

The taxpayer shall have the same right of review by and appeal from the county board of equalization, in the same manner and subject to the same requirements as provided by law for review and appeals concerning homestead exemption claims. Approved applications shall be filed by the county assessor with the Tax Commission no later than June 15, except as provided in Section 2902.1 of this title, of the year in which the facility desires to take the exemption. Incomplete applications and applications filed after June 15 will be declared null and void by the Tax Commission. The county treasurer may establish a schedule of up to five (5) years of credit to resolve the overpayment.

G. Nothing herein shall in any manner affect, alter or impair any law relating to the assessment of property, and all property, real or personal, which may be entitled to exemption hereunder shall be valued and assessed as is other like property and as provided by law. The valuation and assessment of property for which an exemption is granted hereunder shall be performed by the Tax Commission using one or more of the cost, income and expense and sales comparison approaches to estimate fair cash value in accordance with the Uniform Standards of Professional Appraisal Practice.

For each year that a new, expanded, or acquired manufacturing facility receives an exemption pursuant to Section 6B of Article X of the Oklahoma Constitution, the entity shall provide to the Tax Commission a report detailing the number of new jobs created and the payroll data for new jobs created since the exemption was provided. The Tax Commission shall provide the data collected pursuant to this subsection to the Incentive Evaluation Commission for only evaluation purposes by the Commission or a designee.

§68-2902v2. Manufacturing facilities - Exemption from ad valorem tax.

A. Except as otherwise provided by subsection H of Section 3658 of this title pursuant to which the exemption authorized by this section may not be claimed, a qualifying manufacturing concern, as defined by Section 6B of Article X of the Oklahoma Constitution, and as further defined herein, shall be exempt from the levy of any ad

valorem taxes upon new, expanded or acquired manufacturing facilities including facilities engaged in research and development, for a period of five (5) years. The provisions of Section 6B of Article X of the Oklahoma Constitution requiring an existing facility to have been unoccupied for a period of twelve (12) months prior to acquisition shall be construed as a qualification for a facility to initially receive an exemption, and shall not be deemed to be a qualification for that facility to continue to receive an exemption in each of the four (4) years following the initial year for which the exemption was granted. Such facilities are hereby classified for the purposes of taxation as provided in Section 22 of Article X of the Oklahoma Constitution.

B. For purposes of this section, the following definitions shall apply:

1. "Manufacturing facilities" means facilities engaged in the mechanical or chemical transformation of materials or substances into new products and except as provided by paragraph 6 of subsection C of this section shall include:

- a. establishments which have received a manufacturer exemption permit pursuant to the provisions of Section 1359.2 of this title,
- b. facilities including repair and replacement parts, primarily engaged in aircraft repair, building and rebuilding whether or not on a factory basis,
- c. establishments primarily engaged in computer services and data processing as defined under Industrial Group Numbers 5112 and 5415, and U.S. Industry Number 334611 and 519130 of the NAICS Manual, latest revision, and which derive at least fifty percent (50%) of their annual gross revenues from the sale of a product or service to an out-of-state buyer or consumer, and as defined under Industrial Group Number 5182 of the NAICS Manual, latest revision, which derive at least eighty percent (80%) of their annual gross revenues from the sale of a product or service to an out-of-state buyer or consumer. Eligibility as a manufacturing facility pursuant to this subparagraph shall be established, subject to review by the Oklahoma Tax Commission, by annually filing an affidavit with the Tax Commission stating that the facility so qualifies and such other information as required by the Tax Commission. For purposes of determining whether annual gross revenues are derived from sales to out-of-state buyers, all sales to the federal government shall be considered to be an out-of-state buyer,

- d. facilities that the investment cost of the construction, acquisition or expansion is Five Hundred Thousand Dollars (\$500,000.00) or more with respect to assets placed into service during calendar year 2022. For subsequent calendar years, the investment required shall be increased annually by a percentage equal to the previous year's increase in the Consumer Price Index-All Urban Consumers ("CPI-U") and such adjusted amount shall be the required investment cost in order to qualify for the exemption authorized by this section. The Oklahoma Department of Commerce shall determine the amount of the increase, if any, on January 1 of each year. The Oklahoma Tax Commission shall publish on its website at least annually the adjusted dollar amount in order to qualify for the exemption authorized by this section and shall include the adjusted dollar amount in any of its relevant forms or publications with respect to the exemption. Provided, "investment cost" shall not include the cost of direct replacement, refurbishment, repair or maintenance of existing machinery or equipment, except that investment cost shall include capital expenditures for direct replacement, refurbishment, repair or maintenance of existing machinery or equipment that qualifies for depreciation and/or amortization pursuant to the Internal Revenue Code of 1986, as amended, and such expenditures shall be eligible as a part of an expansion that otherwise qualifies under this section,
- e. establishments primarily engaged in distribution as defined under Industry Numbers 49311, 49312, 49313 and 49319 and Industry Sector Number 42 of the NAICS Manual, latest revision, and which meet the following qualifications:
- (1) construction with an initial capital investment of at least Five Million Dollars (\$5,000,000.00),
 - (2) employment of at least one hundred (100) full-time-equivalent employees, as certified by the Oklahoma Employment Security Commission,
 - (3) payment of wages or salaries to its employees at a wage which equals or exceeds the average wage requirements in the Oklahoma Quality Jobs Program Act for the year in which the real property was placed into service, and
 - (4) commencement of construction on or after November 1, 2007, with construction to be completed within

- three (3) years from the date of the commencement of construction,
- f. facilities engaged in the manufacturing, compounding, processing or fabrication of materials into articles of tangible personal property according to the special order of a customer (custom order manufacturing) by manufacturers classified as operating in North American Industry Classification System (NAICS) Sectors 32 and 33, but does not include such custom order manufacturing by manufacturers classified in other NAICS code sectors, and
 - g. with respect to any entity making an application for the exemption authorized by this section on or after January 1, 2023, the establishment making application for exempt treatment of real or personal property acquired or improved beginning January 1, 2022, and for any calendar year thereafter, the entity shall be required to pay new direct jobs, as defined by Section 3603 of this title for purposes of the Oklahoma Quality Jobs Program Act, an average annualized wage which equals or exceeds the average wage requirement in the Oklahoma Quality Jobs Program Act for the year in which the real or personal property was placed into service. The Oklahoma Tax Commission may request verification from the Oklahoma Department of Commerce that an establishment seeking an exemption for real or personal property pays an average annualized wage that equals or exceeds the average wage requirement in effect for the year in which the real or personal property was placed into service. For purposes of this subparagraph, it shall not be necessary for the establishment to qualify for incentive payments pursuant to the Oklahoma Quality Jobs Program Act, but the establishment shall be subject to the wage requirements of the Oklahoma Quality Jobs Program Act with respect to new direct jobs in order to qualify for the exempt treatment authorized by this section.

Eligibility as a manufacturing facility pursuant to this subparagraph shall be established, subject to review by the Tax Commission, by annually filing an affidavit with the Tax Commission stating that the facility so qualifies and containing such other information as required by the Tax Commission.

Provided, eating and drinking places, as well as other retail establishments, shall not qualify as manufacturing facilities for purposes of this section, nor shall centrally assessed properties.

Eligibility as a manufacturing facility pursuant to this subparagraph shall be established, subject to review by the Tax

Commission, by annually filing an application with the Tax Commission stating that the facility so qualifies and containing such other information as required by the Tax Commission;

2. "Facility" and "facilities", except as otherwise provided by this section, means and includes the land, buildings, structures and improvements used directly and exclusively in the manufacturing process. Effective January 1, 2022, and for each calendar year thereafter, for establishments which have received a manufacturer exemption permit pursuant to the provisions of Section 1359.2 of this title, or facilities engaged in manufacturing activities defined or classified in the NAICS Manual under Industry Nos. 311111 through 339999, inclusive, but for no other establishments, facility and facilities means and includes the land, buildings, structures, improvements, machinery, fixtures, equipment and other personal property used directly and exclusively in the manufacturing process; and

3. "Research and development" means activities directly related to and conducted for the purpose of discovering, enhancing, increasing or improving future or existing products or processes or productivity.

C. The following provisions shall apply:

1. A manufacturing concern shall be entitled to the exemption herein provided for each new manufacturing facility constructed, each existing manufacturing facility acquired and the expansion of existing manufacturing facilities on the same site, as such terms are defined by Section 6B of Article X of the Oklahoma Constitution and by this section;

2. No manufacturing concern shall receive more than one five-year exemption for any one manufacturing facility unless the expansion which qualifies the manufacturing facility for an additional five-year exemption meets the requirements of paragraph 4 of this subsection and the employment level established for any previous exemption is maintained;

3. Any exemption as to the expansion of an existing manufacturing facility shall be limited to the increase in ad valorem taxes directly attributable to the expansion;

4. All initial applications for any exemption for a new, acquired or expanded manufacturing facility shall be granted only if:

- a. there is a net increase in annualized base payroll over the initial payroll of at least Two Hundred Fifty Thousand Dollars (\$250,000.00) if the facility is located in a county with a population of fewer than seventy-five thousand (75,000), according to the most recent Federal Decennial Census, while maintaining or increasing base payroll in subsequent years, or at least One Million Dollars (\$1,000,000.00) if the

facility is located in a county with a population of seventy-five thousand (75,000) or more, according to the most recent Federal Decennial Census, while maintaining or increasing base payroll in subsequent years; provided, the payroll requirement of this subparagraph shall be waived for claims for exemptions including claims previously denied or on appeal on March 3, 2010, for all initial applications for exemption filed on or after January 1, 2004, and on or before March 31, 2009, and all subsequent annual exemption applications filed related to the initial application for exemption, for an applicant, if the facility has been located in Oklahoma for at least fifteen (15) years engaged in marine engine manufacturing as defined under U.S. Industry Number 333618 of the NAICS Manual, latest revision, and has maintained an average employment of five hundred (500) or more full-time-equivalent employees over a ten-year period. Any applicant that qualifies for the payroll requirement waiver as outlined in the previous sentence and subsequently closes its Oklahoma manufacturing plant prior to January 1, 2012, may be disqualified for exemption and subject to recapture. For an applicant engaged in paperboard manufacturing as defined under U.S. Industry Number 322130 of the NAICS Manual, latest revision, union master payouts paid by the buyer of the facility to specified individuals employed by the facility at the time of purchase, as specified under the purchase agreement, shall be excluded from payroll for purposes of this section.

In order to provide certainty with respect to investments in manufacturing facilities pertaining to all initial applications for exemption filed on or after January 1, 2016, the following definitions shall apply:

- (1) "base payroll" shall mean total payroll adjusted for any nonrecurring bonuses, exercise of stock option or stock rights and other nonrecurring, extraordinary items included in total payroll, and
- (2) "initial payroll" shall mean base payroll for the year immediately preceding the initial construction, acquisition or expansion. The Tax Commission shall verify payroll information through the Oklahoma Employment Security Commission by using reports from the

Oklahoma Employment Security Commission for the calendar year immediately preceding the year for which initial application is made for base-line payroll, which must be maintained or increased for each subsequent year; provided, a manufacturing facility shall have the option of excluding from its payroll, for purposes of this section:

- i. payments to sole proprietors, members of a partnership, members of a limited liability company who own at least ten percent (10%) of the capital of the limited liability company or stockholder-employees of a corporation who own at least ten percent (10%) of the stock in the corporation, and
 - ii. any nonrecurring bonuses, exercise of stock option or stock rights or other nonrecurring, extraordinary items included in total payroll numbers as reported by the Oklahoma Employment Security Commission. A manufacturing facility electing either option shall indicate such election upon its application for an exemption under this section. Any manufacturing facility electing either option shall submit such information as the Tax Commission may require in order to verify payroll information. Payroll information submitted pursuant to the provisions of this paragraph shall be submitted to the Tax Commission and shall be subject to the provisions of Section 205 of this title, and
- b. the facility offers, or will offer within one hundred eighty (180) days of the date of employment, a basic health benefits plan to the full-time-equivalent employees of the facility, which is determined by the Oklahoma Department of Commerce to consist of the elements specified in subparagraph b of paragraph 1 of subsection A of Section 3603 of this title or elements substantially equivalent thereto.

For purposes of this section, calculation of the amount of increased base payroll shall be measured from the start of initial construction or expansion to the completion of such construction or expansion or for three (3) years from the start of initial

construction or expansion, whichever occurs first. The amount of increased base payroll shall include payroll for full-time-equivalent employees in this state who are employed by an entity other than the facility which has previously or is currently qualified to receive an exemption pursuant to the provisions of this section and who are leased or otherwise provided to the facility, if such employment did not exist in this state prior to the start of initial construction or expansion of the facility. The manufacturing concern shall submit an affidavit to the Tax Commission, signed by an officer, stating that the construction, acquisition or expansion of the facility will result in a net increase in the annualized base payroll as required by this paragraph and that full-time-equivalent employees of the facility are or will be offered a basic health benefits plan as required by this paragraph. If, after the completion of such construction or expansion or after three (3) years from the start of initial construction or expansion, whichever occurs first, the construction, acquisition or expansion has not resulted in a net increase in the amount of annualized base payroll, if required, or any other qualification specified in this paragraph has not been met, the manufacturing concern shall pay an amount equal to the amount of any exemption granted including penalties and interest thereon, to the Tax Commission for deposit to the Ad Valorem Reimbursement Fund;

5. Except as otherwise provided by this paragraph, any new, acquired or expanded computer data processing, data preparation or information processing services provider classified in U.S. Industry Number 518210 of the North American Industrial Classification System (NAICS) Manual, 2017 revision, may apply for exemptions under this section for each year in which new, acquired, or expanded capital improvements to the facility are made for assets placed in service not later than December 31, 2021, if:

- a. there is a net increase in annualized payroll of the applicant at any facility or facilities of the applicant in this state of at least Two Hundred Fifty Thousand Dollars (\$250,000.00), which is attributable to the capital improvements, or a net increase of Seven Million Dollars (\$7,000,000.00) or more in capital improvements, while maintaining or increasing payroll at the facility or facilities in this state which are included in the application, and
- b. the facility offers, or will offer within one hundred eighty (180) days of the date of employment of new employees attributable to the capital improvements, a basic health benefits plan to the full-time-equivalent employees of the facility, which is determined by the Oklahoma Department of Commerce to consist of the elements specified in subparagraph b of paragraph 1 of

subsection A of Section 3603 of this title or elements substantially equivalent thereto.

An establishment described by this paragraph, the primary business activity of which is described by Industry No. 518210 of the North American Industry Classification System (NAICS) Manual, 2017 revision, that has applied for and been granted an exemption for personal property at any time within five (5) years prior to November 1, 2021, may apply for exemptions for items of eligible personal property to be located within improvements to real property and such real property and improvements having been exempt from ad valorem taxation prior to November 1, 2021, pursuant to the provisions of this section if such personal property is placed in service not later than December 31, 2036. No additional personal property of such establishment placed in service after such date shall qualify for the exempt treatment otherwise authorized pursuant to this paragraph;

6. Effective January 1, 2017, an entity engaged in electric power generation by means of wind, as described by the North American Industry Classification System, No. 221119, shall not be defined as a qualifying manufacturing concern for purposes of the exemption otherwise authorized pursuant to Section 6B of Article X of the Oklahoma Constitution or qualify as a manufacturing facility as defined in this section. No initial application for exemption shall be filed by or accepted from an entity engaged in electric power generation by means of wind on or after January 1, 2018;

7. An entity or applicant engaged in an industry as defined under U.S. Industry Number 324110 of the NAICS Manual, latest revision, which has applied for or been granted an exemption for a time period which began on or after calendar year 2012 and before calendar year 2016 but which did not meet the payroll requirements of subparagraph a of paragraph 4 of this subsection because of nonrecurring bonuses, exercise of stock option or stock rights or other nonrecurring, extraordinary items included in total payroll in the previous year, shall be allowed an exemption, beginning with calendar year 2016, for the number of years including the calendar year for which the exemption was denied, remaining in the entity's five-year exemption period, provided such entity attains or increases payroll at or above the initial or base payroll established for the exemption;

8. A facility engaged in manufacturing defined under U.S. Industry Number 327310 of the NAICS Manual shall have the payroll requirements of paragraph 4 of this subsection waived for tax year 2021, which is based in part on the 2020 calendar year payroll reported to the Oklahoma Employment Security Commission, and may continue to receive the exemption for the five-year period provided in this section only if all other requirements of this section are met; and

9. A facility engaged in manufacturing which otherwise qualifies for the exemption or exemptions pursuant to the provisions of this section shall have the payroll requirements of paragraph 4 of this subsection waived for tax year 2021, which is based in part on the 2020 calendar year payroll reported to the Oklahoma Employment Security Commission, and for tax year 2022, which is based in part on the 2021 calendar year payroll reported to the Oklahoma Employment Security Commission, and may continue to receive the exemption for the five-year period provided in this section only if all other requirements of this section are met. Provided, a facility engaged in manufacturing as defined under Industrial Group Number 3364 of the NAICS Manual, latest revision, which otherwise qualifies or qualified to receive the exemption for the five-year period provided in this section, including claims previously denied, shall have the payroll requirements of paragraph 4 of this subsection waived for the five-year exemption period of those initial exemption applications filed after January 1, 2020, and before March 16, 2021.

D. 1. Except as provided in paragraph 2 of this subsection, the five-year period of exemption from ad valorem taxes for any qualifying manufacturing facility property shall begin on January 1 following the initial qualifying use of the property in the manufacturing process.

2. The five-year period of exemption from ad valorem taxes for any qualifying manufacturing facility, as specified in subparagraphs a and b of this paragraph, which is located within a tax incentive district created pursuant to the Local Development Act by a county having a population of at least five hundred thousand (500,000), according to the most recent Federal Decennial Census, shall begin on January 1 following the expiration or termination of the ad valorem exemption, abatement, or other incentive provided through the tax incentive district. Facilities qualifying pursuant to this subsection shall include:

- a. a manufacturing facility as defined in subparagraph c of paragraph 1 of subsection B of this section, and
- b. an establishment primarily engaged in distribution as defined under Industry Number 49311 of the North American Industry Classification System for which the initial capital investment was at least One Hundred Eighty Million Dollars (\$180,000,000.00); provided, that the qualifying job creation and depreciable property investment occurred prior to calendar year 2017 but not earlier than calendar year 2013.

E. Any person, firm or corporation claiming the exemption herein provided for shall file each year for which exemption is claimed, an application therefor with the county assessor of the county in which the new, expanded or acquired facility is located.

The application shall be on a form or forms prescribed by the Tax Commission, and shall be filed on or before March 15, except as provided in Section 2902.1 of this title, of each year in which the facility desires to take the exemption or within thirty (30) days from and after receipt by such person, firm or corporation of notice of valuation increase, whichever is later. In a case where completion of the facility or facilities will occur after January 1 of a given year, a facility may apply to claim the ad valorem tax exemption for that year. If such facility is found to be qualified for exemption, the ad valorem tax exemption provided for herein shall be granted for that entire year and shall apply to the ad valorem valuation as of January 1 of that given year. For applicants who qualify under the provisions of subparagraph b of paragraph 1 of subsection B of this section, the application shall include a copy of the affidavit and any other information required to be filed with the Tax Commission.

F. The application shall be examined by the county assessor and approved or rejected in the same manner as provided by law for approval or rejection of claims for homestead exemptions. The taxpayer shall have the same right of review by and appeal from the county board of equalization, in the same manner and subject to the same requirements as provided by law for review and appeals concerning homestead exemption claims. Approved applications shall be filed by the county assessor with the Tax Commission no later than June 15, except as provided in Section 2902.1 of this title, of the year in which the facility desires to take the exemption. Incomplete applications and applications filed after June 15 will be declared null and void by the Tax Commission. In the event that a taxpayer qualified to receive an exemption pursuant to the provisions of this section shall make payment of ad valorem taxes in excess of the amount due, the county treasurer shall have the authority to credit the taxpayer's real or personal property tax overpayment against current taxes due. The county treasurer may establish a schedule of up to five (5) years of credit to resolve the overpayment.

G. Nothing herein shall in any manner affect, alter or impair any law relating to the assessment of property, and all property, real or personal, which may be entitled to exemption hereunder shall be valued and assessed as is other like property and as provided by law. The valuation and assessment of property for which an exemption is granted hereunder shall be performed by the Tax Commission using one or more of the cost, income and expense and sales comparison approaches to estimate fair cash value in accordance with the Uniform Standards of Professional Appraisal Practice.

H. The Tax Commission shall have the authority and duty to prescribe forms and to promulgate rules as may be necessary to carry out and administer the terms and provisions of this section.

1. Unless one-half (1/2) or more of the taxes so levied has been paid before the first day of January, the entire tax levy for such fiscal year shall become delinquent on that date.

2. If the first half or more of the taxes levied upon an ad valorem basis for any such fiscal year has been paid before the first day of January, the remainder shall be paid before the first day of April thereafter and if not paid shall become delinquent on that date.

D. All delinquent taxes shall bear interest at the rate of one and one-half percent (1 1/2%) per month or major fraction thereof until paid. In no event shall such interest exceed a sum equal to the unpaid principal amount of tax, and when such interest has accumulated to a sum equivalent to one hundred percent (100%) of the unpaid tax the further accumulation of interest shall cease.

If any person neglects to pay his or her taxes until after they have become delinquent, the county treasurer is directed and required to collect the delinquent tax as provided for by law. The first installment of taxes payable pursuant to the provisions of this section shall not become delinquent until thirty (30) days after the tax rolls have become completed and filed by the county assessor with the county treasurer.

Such receipts shall be, in manner and form, the same as the tax rolls, and shall have endorsed thereon in red ink the amount of delinquent taxes levied against the property. Added by Laws 1988, c. 162, § 114, eff. Jan. 1, 1992.

§68-2915. Duty to pay taxes - Statement of taxes due.

A. It shall be the duty of every person subject to taxation under the Ad Valorem Tax Code, Section 2801 et seq. of this title, to attend the treasurer's office and pay taxes, and if any person neglects to attend and pay taxes until after they have become delinquent, the treasurer shall collect the same in the manner provided by law. If any person owing taxes, removes from one county to another in this state, the county treasurer shall forward the tax claim to the treasurer of the county to which the person has removed, and the taxes shall be collected by the county treasurer of the latter place as other taxes and returned to the proper county, less legal charges. The county treasurer may visit, in person or by deputy, places other than the county seat for the purpose of receiving taxes. Nothing herein shall be so construed as to prevent an agent of any person subject to taxation from paying the taxes.

B. The county treasurer of each county shall, within thirty (30) days after the tax rolls have been completed and delivered to the office of the county treasurer by the county assessor, mail to each taxpayer at the taxpayer's last-known address a statement showing separately the amount of all ad valorem taxes assessed against the taxpayer's real and personal property for the current year and all delinquent taxes remaining unpaid thereon for previous years. At the county treasurer's option, in lieu of regular mailing, the treasurer may instead send the tax statement to the taxpayer by electronic mail provided the taxpayer has submitted a written request to receive such statements by electronic mail instead of by regular mail. It is expressly provided, however, that failure of any taxpayer to receive such statement, or failure of the treasurer to so mail the same, shall not in any way extend the date by which such taxes shall be due and payable nor relieve the taxpayer of the duty and responsibility of paying same as provided by law.

C. The statement required by this section shall contain an explanation of how the ad valorem tax bill is calculated using

language so that a person of common understanding would know what is intended. The statement shall also contain an explanation of the manner in which ad valorem taxes are apportioned between the county, school district or other jurisdiction levying ad valorem taxes and shall identify the apportionment of the taxes for the current year on the subject property. The State Auditor and Inspector shall promulgate rules necessary to implement the provisions of this subsection.

D. It shall be the mandatory duty of the county treasurer to request an appropriation for necessary postage and expense to defray the cost of furnishing taxpayers the statement herein provided and it shall be the mandatory duty of the board of county commissioners and the county excise board to make such appropriation.

Such financial statement shall be supported by schedules or exhibits showing, by classes, the amount of all receipts and disbursements, and shall be sworn to as being true and correct. B. Each municipality that does not prepare an annual audit pursuant to Section 17-105 of Title 11 of the Oklahoma Statutes shall make a financial statement as required by this section. Every municipality shall adopt a budget, which shall contain estimates of expenditures and revenues, including probable income by source, for the budget year; provided, that all municipalities may use estimated fund balances if final certified fund balances are not available. The budget shall be in a format similar to the estimate of needs or, at the municipality's discretion, to Sections 17-207 and 17-212 through 17-214 of Title 11 of the Oklahoma Statutes. §68-3003. Revenue from nonrecurrent sources not to be included in political subdivisions estimate of probable income - Exceptions - Exclusion from minimum program income of school districts - Federal funds.

A. It shall be unlawful for the governing board of any county, city, town, school district, or other governmental subdivision of this state, in preparation of its budget for any fiscal year, to estimate as probable income from sources other than ad valorem tax of such governmental subdivision of the state and other than any excise or other tax assessed by legislative enactment and distributed in lieu of ad valorem taxes, any revenue from nonrecurrent sources, regardless of such collections in the immediately preceding fiscal year, to be derived from or the result of sales, forfeitures, penalties, gifts, federal aid allotments of every kind, windfalls, seizures, sheriff's sales, court actions whether civil or criminal, injunctions or protests won or released by dismissal, or from any other such source not normally recurrent year after year and so made recurrent by legislative enactment. Provided, that upon a finding by the governing board of any county, city, town, school district, or other governmental subdivision of this state, that a source of income, although nonrecurrent, will actually be available for the next ensuing fiscal year, the board may include such income in its estimate of probable income. Provided, that shared revenues of the federal government, if ascertainable, shall be allowed to be included in the estimates. It shall also be unlawful for any excise board to approve or require the same, or for any supervisory state board, commission, or officer, or for any agent or employee of either thereof to countenance, approve, or require the same or to diminish in any degree the distribution or allotment of state revenues or appropriations by reason of such collections in a prior year or prospect of such collections in the ensuing year; nor shall any revenue received by a school district from gross production taxes during the immediately preceding fiscal year, which was payable to such district in another year or years, be considered as minimum

program income of such district for state aid purposes. The provisions of Section 21 of Title 21 of the Oklahoma Statutes shall be applicable where the foregoing prohibitions are disregarded. Revenue received by a school district during the immediately preceding year, which was earned by, or which was payable to, such school district in another year or years, shall not be considered as minimum program income of such district for state aid purposes.

B. All funds received by counties, cities, towns, or other subdivisions of government in this state, hereinafter referred to as the recipient government, from the federal government pursuant to the distribution of funds authorized by the state shall be deposited in the treasury of the recipient government in a fund which shall be recorded and accounted for separately and apart from all other funds. Principal and interest received from investments of the federal monies, proceeds from the sale of assets purchased from the federal monies, and other miscellaneous income derived from the direct operation of the federal monies may be deposited in the fund from which the federal monies were deposited if required by the federal government or by the governing board of the recipient government.

The unappropriated cash balance on hand may be appropriated as needed upon the request of the governing board of the recipient government and approval by the county excise board; provided, if the governing board of the recipient government determines the need to do so, it may estimate the amount remaining to be collected from its entitlement from federal funds during the remainder of its fiscal year and include such estimate in its request for appropriations. The estimate shall not exceed the amount of the entitlement which is to be received during the remainder of the recipient government's fiscal year or, if the amount of the entitlement has not been certified, ninety percent (90%) of such funds received during a corresponding period of the previous fiscal year; provided, that if the entitlement is less than that estimated or if the entitlement to be collected during the recipient government's fiscal year, in addition to the unappropriated cash balance, is reduced below the amount appropriated for the fiscal year, the governing board of the recipient government shall request the county excise board for an adequate reduction of appropriations in the fund.

All disbursements made from the fund in which federal monies are deposited shall be made in the same manner as those made from the general fund of the recipient government; provided, that no warrants shall be drawn on the fund unless sufficient monies are available to pay the warrants.

All forms and procedures necessary for the effective operation of this act shall be prescribed by the office of the State Auditor and Inspector.

C. All monies distributed by federal, state, or tribal governments and received by any state agency, board, or commission to administer and distribute to counties, cities, towns, or other subdivisions of the government in this state, hereinafter referred to as the recipient government, that do not follow procedures in subsection B of this section may utilize the letter of commitment appropriation process as specified in this subsection. The recipient government shall receive approval for the program as required by the agency, board, or commission administering the program and by the federal government, if required. Once approved, the state agency, board, or commission may authorize a letter of commitment of federal, state, or tribal monies available to the recipient government. The excise board may approve an appropriation in the amount of the letter of commitment. Each recipient government may establish a separate appropriation within a special revenue fund designated for federal, state, or tribal monies. The recipient government may encumber funds in an amount not to exceed the sum of the total letter of commitment, which is a binding commitment of funding which the recipient government will receive for the project or projects eligible for such federal funding. The encumbrance of funds authorized by this section shall be made in accordance with procedures prescribed by the State Auditor and Inspector and shall be administered in accordance with rules and regulations concerning such distribution adopted by the federal government and the state agency, board, or commission. Any expenditure incurred by the recipient government using the letter of commitment appropriation process and disallowed by the federal, state, or tribal government or state agency, board, or commission administering the funds shall be paid by the recipient government. Each officer, board or commission of any county, city or town, and all employees charged with the management or control, of any department or institution of either thereof shall on or before the first Monday in July of each year, make and file with the board or commission charged with the duty of reporting to the excise board, a report in writing showing, by classes, the earnings and cost of maintaining their respective offices or departments for the previous fiscal year, together with an itemized statement and estimate of the probable need thereof for the current or ensuing fiscal year.

Provided, that the report relative to the construction and repair of bridges shall be made by the county commissioners and county surveyors, conjointly, and shall be itemized so as to show the location of each proposed new bridge and the estimated cost thereof, and provided further, that the report relative to the probable needs of the courts of record shall be made by the court clerk and district attorney, conjointly, and shall be itemized so as to show separately the respective needs of each court.

Thenceforth, the board may meet from day to day, or adjourn from day to day and time to time thereafter for the purpose.

B. In its functionings it is hereby declared an agency of the state, as a part of the system of checks and balances required by the Constitution, and as such it is empowered to require adequate and accurate reporting of finances and expenditures for all budget and supplemental purposes, charged with the duty of requiring adequate provision for performance of mandatory constitutional and

statutory governmental functions within the means available, but it shall have no authority thereafter to deny any appropriation for a lawful purpose if within the income and revenue provided.

C. Each member of the county excise board shall be required to attend and successfully complete a course of instruction consisting of at least six (6) hours within twelve (12) months of appointment and three (3) hours of instruction for every year of service. §68-3007. Order of proceedings of county excise board.

As to each budget, original or supplemental, the county excise board shall proceed in the following order:

(1) Examine the financial statements contained therein for the purpose of ascertaining the true fiscal condition of each of the several fund accounts of the municipality as of the close of the previous fiscal year, or as of the date reported for supplemental purposes; and it may require such additional statistics or financial statements from the municipal officers as will enable it to make such determination, and correct such statements if need be.

(2) Examine specifically the several items and amounts stated in the estimate of needs, and if any be contained therein not authorized by law or that may be contrary to law, or in excess of needs, as determined by the excise board, said item shall be ordered stricken and disregarded. If the amount as to any lawful item exceeds the amount authorized by law, it shall be ordered reduced to that extent; otherwise, the excise board joins in responsibility therefor.

(3) Examine the content of the estimate of needs, and if the governing board has failed to make provision for mandatory governmental functions, whether such mandate be of the Constitution or of the Legislature, or if the provision submitted by estimate be deemed inadequate, the county excise board shall, whether on request in writing by the officer charged with a mandatory duty or of its own volition, prepare an estimate by items and amounts, either by the items submitted or by additional items, and cause publication thereof in some newspaper of general circulation in the county, in one issue if published in a weekly paper, and in two consecutive issues if published in a daily paper, and thereafter attach such estimate, together with affidavit and proof of publication, to that submitted by the governing board, for further consideration. However, nothing herein contained shall prevent any governing board, upon a timely finding that its estimate of needs as first filed is inadequate, from filing a written request with the excise board to increase such estimate as to any item or items, whether mandatory or not; whereupon the excise board shall cause publication thereof, as aforesaid, at the expense of the municipality.

(4) Compute the total means available to each fund, except the sinking fund, by the converse of the formula provided by law for computing the tax levy, as provided in Section 3017 of this Code.

(5) If the total of the several items of estimated needs for lawful purposes as heretofore ascertained is within the income and revenue lawfully available, the excise board shall approve the same

by items and compute the levy required. If said total exceeds the means provided to finance the same, the excise board will proceed to revise the same by reducing items, in whole or in part, in the following order: (a) first apply such revision by reduction of items for governmental functions merely authorized but not required; (b) if further reduction be necessary, second, by reduction of items required by the Legislature but not within Constitutional requirement; (c) if still further reduction be necessary and no other items remain, third, by reduction of items for Constitutional governmental functions until the total thereof be within the income and revenue provided. At the option of the excise board, the governing board may collaborate in such reductions; but the final order shall be that of the county excise board.

§68-3008. Attendance and opinion of district attorney - Further detail as to items - Restrictions - Assistance.

The county excise board may require the attendance of the District Attorney at any of its sessions when passing upon the validity or invalidity of items of appropriation; or it may request his opinion in writing as to any such item. Said board is hereby empowered to require such further detail as to any item of any estimate as it deems necessary and proper for such determination, and it may place such restrictions thereon as will limit the use thereof to purposes authorized by law; but such further detail and such restrictions shall not enlarge upon the number of accounts in the bookkeeping systems prescribed and kept as provided by law. However, such further detail and any restrictions imposed thereon shall be disclosed by statements attached to the original copy of such budget filed with the county clerk, and to the duplicate copy of such budget filed with the State Auditor and Inspector. If such excise board desires assistance for the purpose of inspecting and correcting financial statements and accounts, and inspection of levies, it may invoke those provisions of law providing such assistance (74 O.S. 1961, Section 212), provided there shall have been made an appropriation for county audit and an assignment to such county for such purpose.

§68-3009. Sinking fund - Building fund and General fund requirements - Special Budget Accounts - Departmentalization and itemization.

The county excise board shall comply with the following:

(a) Provision and levy for the sinking funds of any municipality shall be made in strict conformity to the special statute therefor (62 O.S.1961, Section 431): but no surplus shall be disclosed or computed in any sinking fund account except it be in cash and investments actually on hand in excess of all accrual liabilities, whether collections exceed anticipations or not.

(b) Building fund appropriations and levies under Section X, Article 10, Oklahoma Constitution, shall be computed by the same formula and subject to the same defenses as general funds, but need be itemized only as to the amount needed for construction of new buildings, remodeling or repairing buildings, and purchasing furniture, and for a reserve for interest on warrant issues according to statute.

(c) The general fund shall comprehend and include all appropriations and expenditures financed from levy of ad valorem tax under any of the provisions of Section 9, Article X, Oklahoma Constitution, and all revenues from sources other than ad valorem taxation except the proceeds derived from the sale of bonds and those revenues specifically required by law to be deposited into the sinking fund, the building or replacement funds, or in cash funds, or in any other fund or funds so specifically denominated by statute. If a portion of the ad valorem levies under said Section 9, Article 10, Oklahoma Constitution, and specific revenues from other sources, be required by law to be devoted to a special purpose, other than those specifically required to be accounted for in cash funds, such special purpose shall be provided for by a special budget account within the general fund, distinguished from the governmental budget account, and assigned such appropriation account or accounts as will accomplish such special purpose and include sums at least equivalent to the net estimate of revenues or levy thus specially applied. As to counties, cities, and towns, except as hereinafter provided, the governmental budget account shall be departmentalized, and the appropriations made for the use of each separate office, board, commission or department shall be stated in separate items, and no appropriation shall be available for the use of more than one office, board, commission or department; and the appropriations so made for the use of each such separate office, board, commission or department, or for any special function of either of them, of the several municipalities, including the general fund appropriations of municipalities not so departmentalized, shall not be increased or diminished after such appropriations become final, except in the manner provided by law (Section 24101 of this Code), or by order of a court of competent jurisdiction. §68-3010. Items of appropriation - Meaning of terms.

Each of the items of appropriation as hereinafter defined and enumerated shall represent, in the broadest permissible sense, a specific purpose, and each such item of appropriation shall be the estimate made and approved for such purpose, subject to encumbrance and expenditure therefor under restrictions otherwise provided by law. The distinctive functional purpose of each shall be that assigned by statute, charter or ordinance to the office, board, commission or department for counties, cities and towns, and to quasi-municipal boards serving a particular function but lacking corporate powers. Provided, that public utilities owned or controlled and managed by the city may be operated within the budget as a department within the general fund or may be separately operated as a private enterprise, not controlled by general taxation statutes, and expenditures for operating expenses, replacements and extensions may be made from the income derived from the operation of such utility without appropriation. Nothing herein contained shall operate to prevent the governing board from transferring any surplus, not needed for the operation of such public utilities, to the general fund or sinking fund of the municipality.

(2) The board of trustees of a town (not a city) having a population less than that required by law to become a city, may at its option submit its estimate of needs in short form, not departmentalized, showing in separate items the amounts of funds

Small utilities managed directly by such board of town trustees may be operated within such budget or separately operated and reported as are city utilities separately operated; but if within the budget and as separate department, the departmentalized budget form shall be used.

The hearing shall be continued from day to day until concluded, not to exceed a total of ten (10) days; provided, however, that such hearing shall be concluded before the expiration of ten (10) days if there are no requests on file with the board at such hearing. Upon the request of any taxpayer at such hearing, the excise board shall have the power to call in the official or person in charge of any office, department, or municipality for examination concerning estimated needs for current expense purposes for the current fiscal year, as certified by the various municipalities.

§68-3014. Tax levies - Duties of county excise board - Duties of county assessor - Changes and corrections - Delivery to county treasurer.

A. The county excise board shall meet on the first Monday of July of each year, or on such earlier date in the year as determined by the excise board, for the purpose of performing the duties

required of it by law, and shall meet from day to day until all of the levies shall have been fixed and the appropriations approved.

B. As used in this section, "municipality" or "municipal subdivision" shall mean a taxing jurisdiction authorized by law to levy ad valorem taxes.

C. It shall be the duty of said board to certify the levies of each municipality to the county assessor on the same date that such levies are fixed; and it shall be the duty of the county assessor to proceed to extend such levies on his tax rolls immediately upon receipt of such certificates, without regard to any protest that may be filed against any levy. It shall further be the duty of the county assessor to deliver the tax rolls to the county treasurer when the same shall have been completed, and at the same time, to file a true and correct abstract of such tax rolls with the county clerk. The county clerk shall charge the county treasurer with the amount contained in said abstract. Should there be any correction or change in the levy of any municipality, after such levy has been certified by the county excise board to the county assessor, regardless of whether such change is made by order of the county excise board or by a court of competent jurisdiction, it shall be the duty of the county assessor to deliver the tax rolls to the county treasurer, without regard to such change; and it shall be the duty of the county treasurer, with the assistance of the county assessor, to make the necessary corrections on the tax rolls after the same shall have been delivered to the said county treasurer.

D. The county excise board shall fix the levies and make the appropriations of each municipality within fifteen (15) days after the financial statement and estimate of any such municipality is filed, unless the valuations of the county, and the municipal subdivisions thereof, have not been certified to it; and, in that event, said excise board shall have thirty (30) days from the date of receipt of such valuations. If any such municipality extends into a county for which the valuations have not been certified, it shall be the duty of the county excise board to fix the levies and make appropriations for such municipality based upon the certified valuation of the other county for the preceding year. Such municipality shall have thirty (30) days from receipt of the certified valuations of the other county or counties to request modification of the appropriations.

E. It shall be the duty of the county assessor in the preparation of the tax roll to separately list and extend on the rolls all real property by separately listing all city and town lots and all other real property in subdivisions of a quarter of a quarter of a section, or less, if such subdivisions are owned in less quantity, describing the same in the usual and customary manner, or by metes and bounds and showing the value of all buildings and improvements on each separate and distinct piece of

property. The county assessor shall, notwithstanding the filing of any protest against the levies or budgets or the pendency of any procedure with reference to the correctness of the assessment of any property or as to the legality of any levy, complete the tax roll and abstract thereof, and deliver the same to the county treasurer and county clerk, respectively, on or before the first day of October of each year. The county treasurer shall accept the said rolls and upon the date fixed when taxes shall become due and payable the county treasurer shall proceed to collect the taxes as provided by law.

§68-3016. Appropriation when estimate not submitted.

Should any municipality fail to make and submit an estimate as herein provided, the county excise board shall have authority to make an appropriation for current expense and sinking fund purposes and make such levy therefor as it may find necessary to meet the probable needs of such municipality, provided that no such estimate shall be approved until the same shall have been by the county excise board advertised in like manner to items that shall be added to or increased in an estimate.

§68-3017. Computation of appropriations - Procedure.

When the excise board shall have ascertained the total assessed valuation of the property taxed ad valorem in the county and in each municipal subdivision thereof, and shall have computed the total of the several items of appropriation for general fund, sinking fund, and other legal purposes for the county and each municipal subdivision thereof, said board shall then proceed to compute the levy for each fund of each municipality. The procedure for the computation of such levies shall be as follows:

First: Determine the total amount of the several items of appropriation for each fund.

Second: Deduct from such total appropriation the actual cash fund balance of the immediately preceding fiscal year.

Third: Deduct from the remainder thus ascertained the estimated probable income from sources other than ad valorem taxation; however, in no event shall the amount of such estimated income exceed ninety percent (90%) of the actual collections from such sources for the previous fiscal year. Provided, that the amount of such estimated income for a school district may be the amount that is chargeable as minimum program income of the district for the purpose of receiving state equalization aid. Also, deduct the estimated probable revenue to be derived from additional collection from taxes in the process of collection of the immediately preceding taxable year; provided that the amount so estimated shall be cash fund balance as hereinafter defined, and shall include none of that portion of the reserve added at the beginning of such year for delinquent tax, and shall not exceed ninety percent (90%) of the actual collections of additional back taxes legally accrued to and credited to the same fund account of the immediately preceding fiscal year.

Fourth: Add to the remainder a reserve for delinquent taxes, the amount of which reserve shall be determined by the excise board, except for any municipality which has opted by resolution to come under the provisions of Section 17-201 et seq. of Title 11 of the Oklahoma Statutes, in which case the governing body of such municipality shall determine the needs of the municipality for sinking fund purposes, after taking into consideration the amount of uncollected taxes for the previous year or years; provided that the reserve so added shall not exceed twenty percent (20%) or be less than five percent (5%); and provided, further, that the reserve so added shall not be subject to review.

Fifth: Compute the levy necessary to raise an amount of money equal to the remainder thus ascertained, based upon the total assessed valuation of the county or subdivision thereof, taking into consideration any deduction which must be made because of the exemption of homesteads as required by Section 2406 et seq. of this Code.

Sixth: Compute the reduction in levy necessary to be made because of monies being required by law to be used for the purpose of reducing ad valorem tax levies.

The rates of levy for general fund, sinking fund, and other purposes authorized by law shall be separately made and stated, and the revenue accruing therefrom respectively, when collected, shall be credited to the proper fund accounts.

§68-3018. Cash fund balance - Transfer - "Cash fund balance" defined.

If and when an actual cash fund balance shall accrue in any fund for any prior fiscal year, such fund balance shall forthwith be transferred to the same fund for the fiscal year next succeeding the year for which the taxes were originally levied, and shall be used to pay any warrants and interest thereon which may be outstanding and unpaid for such year. After all warrants and interest on such warrants for such year have been paid or reserved for, the fund balance, if any, shall forthwith be transferred to the next succeeding year for the same purpose. This procedure shall be followed for each succeeding fiscal year until all warrants issued prior to the current fiscal year are paid or reserved for, and then any cash fund balance remaining shall accrue and be transferred to the current fiscal year, to be used to pay any legal warrant and interest charges of such year. The term "actual cash fund balance", as used herein, is hereby defined to mean an excess of actual cash actually on hand over and above all legal obligations. Taxes in process of collection shall not be considered in determining the actual cash fund balance for any fund for any fiscal year or years. §68-3019. Certifying appropriation - Accounts - Warrants - Certificates of indebtedness.

The secretary of the excise board shall immediately certify each appropriation as made by the excise board to the clerk or other issuing officer of the municipality for which the same is made. The several items of the estimate as made and approved by the excise board for each fiscal year shall constitute and are hereby declared to be an appropriation of funds for the several and specific purposes named in such estimate, and the appropriations thus made shall not be used for any other fiscal year or purposes whatsoever, except as provided in the preceding section. Each clerk or other issuing officer shall open and keep an account for the amount of each item of appropriation, showing the purpose for which the same is appropriated, and the date, number, and amount of each warrant thereon. No warrant or certificate of indebtedness in any form shall be issued, approved, signed or attested, on or against any appropriation for a purpose other than that for which the said item of appropriation was made, or in excess of the amount thereof.

§68-3020. Temporary appropriations.

A. The excise boards of the various counties in the state may convene at any time after the beginning of any fiscal year, upon call of the chairman of the board, for the purpose of approving temporary appropriations for the counties, cities, school districts and other municipal subdivisions of the state. Whenever the governing board of any such county, city, school district or other municipal subdivision of the state shall present to the excise board of such county or of the county in which any such city, school district or other municipal subdivision is located in whole or in part, a verified application showing that the needs of such county, city, school district or other municipal subdivision so require, such excise board may make temporary appropriations for lawful current expenses of such county, city, school district or other municipal subdivision.

B. Warrants or checks may be drawn against such temporary appropriations pending action by the excise board upon the annual estimate of needs and budget of such county, city, school district or other municipal subdivision for such fiscal year. The amount which may be appropriated by such temporary appropriations shall in no event exceed the entire amount which the governing board, making the application, estimates will be available for the entire fiscal year for each purpose for which a temporary appropriation is requested; provided, however, the limitation on appropriations and any requirement for request or approval of temporary appropriations shall not apply to any city or town if the revenue from the ad valorem tax to the municipal general fund amounted to less than five percent (5%) of the total revenues accruing to the municipal general fund during the prior fiscal year. Such cities and towns may pay for lawful current expenditures pursuant to the estimate of needs as filed by the city or town and pending final action of the excise board.

C. Any such temporary appropriations so approved by the excise board of any county shall, when the annual budget for such county, city, school district or other municipal subdivision is finally approved, be merged in the annual appropriations for the same purposes and any warrant which has been, in the meantime, drawn against such temporary appropriations shall be charged against the final approved annual appropriations of such county, city, school district or other municipal subdivision for the said current fiscal year.

§68-3021. Supplemental and additional appropriations.

Whenever the public welfare or the needs of any county, city, town, or school district shall require, the excise board may, on call of the chair, convene at any time for the purpose of making supplemental or additional appropriations for current expense purposes; provided, that all such appropriations authorizing the creation of an indebtedness shall come within the limitations of Section 26, Article X, Oklahoma Constitution. No supplemental or additional appropriation shall be made for any county, city, town or school district in excess of the income and revenue provided or accumulated for the year. As to all such proposed appropriations the following procedure shall be followed:

First: The proper officers of the county, city, town or school district shall make and file with the excise board a financial statement showing its true fiscal condition as at the close of the month next preceding or as of May 15 or June 20, or both dates, preceding the date of filing, and shall submit therewith a statement of the amount and purpose for which each proposed supplemental appropriation is to be used. The financial statement shall show, as to current expense or general fund, the amount of cash in the treasury; the amount of taxes in process of collection as to which the date of sale for delinquency has not elapsed; the amount of the uncollected portion of the estimated income other than ad valorem tax as fixed by the excise board for the current fiscal year; the amount of warrants outstanding and an estimate of the interest accrued and accruing thereon; the amount of unexpended balance of all appropriations for current expense purposes as to which a period of six (6) months has not elapsed from the date of the close of the fiscal year for which the appropriation was available; and the surplus or deficit in revenue, if any, in each fund.

Second: If the financial statement herein required shall correctly reflect a surplus in revenue in any fund available for current expenses, and the excise board shall so affirmatively find, it may make supplemental appropriations to an amount not exceeding the aggregate of such surplus.

Third: If the surplus of revenue, as found and determined by the excise board, shall be insufficient for the additional needs and requirements of the county, or other municipal subdivision, the excise board shall have the power and authority to revoke and cancel

in whole, or in part, any appropriation or appropriations, or parts thereof, previously made to any officer or department of government of any county, city, town or school district and to make in lieu thereof such supplemental and additional appropriations for current expense purpose as the interest of the public may require; provided, that no appropriation or part thereof shall be revoked or canceled against which there may be an unpaid claim or contract pending. The total amount of all such appropriations shall not exceed the aggregate of the amount of appropriations so revoked or canceled, and the surplus or unappropriated revenue, if any, of the county, city, town or school district for which it is proposed to make such additional appropriation; provided, that before any appropriation or part thereof shall be revoked or canceled, the officer or officers in charge of the office or department of government for which any such appropriation is available shall be notified of the proposed revocation or cancellation, and shall be afforded an opportunity, if so desired, to appear before the excise board and protest against such proposed action. As to counties, cities and school districts, the financial statement and request for supplemental appropriations herein required to be filed with the excise board shall be published at least one time in some newspaper of general circulation in the county or city for which made. The publication shall be made at least three (3) days prior to the date on which the excise board shall consider the proposed supplemental or additional appropriations. No appropriations shall be made and considered by the excise board in the absence of the financial statement herein required to be filed.

Fourth: If at any time during the budget year it appears to the county treasurer that there is temporarily insufficient money in a particular fund to meet the requirements of appropriation in the fund, the excise board, upon request of the county treasurer and upon notification to the county commissioners, may temporarily transfer money from one fund to any other fund with the permission of the county officer in charge of the fund that the money will be temporarily transferred from. No transfer shall be made from the debt service fund to any other fund except as may be permitted by the terms of the bond issue or applicable law. Any funds temporarily transferred shall be repaid to the original fund from which they were transferred within the fiscal year that the funds were transferred.

§68-3022. Municipal budgets and levies - Filing - Notice.

After the officers of the several municipal subdivisions of the state, constituting the budget making bodies of such subdivisions, including counties, cities, towns and school districts, shall have made and filed their budgets as required by existing laws with the county clerks, and after advertisement as now required by law, the excise boards shall meet from time to time thereafter until the State Board of Equalization shall have reported the valuation of public service corporations and utilities, together with the equalized valuation of all other property, to the county, and shall then proceed to pass on appropriations and make levies for all such municipal subdivisions as now provided by law, and shall file a copy of all budgets with the levies made thereon, with the State Auditor and Inspector, and one copy with the county clerks of the respective counties, and the county clerk shall immediately thereafter publish notice for one time, in some newspaper of general circulation in the county, that such budgets and levies are on file for the inspection of any citizen.

Provided the State Auditor and Inspector shall grant an additional fifteen (15) days in which any taxpayer may file protest to any budget or levy upon proper application showing the necessity for such extension. The State Auditor and Inspector shall thereupon transmit by certified mail one copy of each to the county clerk, the district attorney and county treasurer of the county affected thereby; or said protest with the same number of copies may be filed with the county clerk in which event the county clerk shall transmit one copy of each to the State Auditor

and Inspector and to the district attorney and county treasurer of the county affected thereby, and such filing shall have the same force and effect as though filed with the State Auditor and Inspector. The said protest shall specify the said alleged illegal levy and the grounds upon which said alleged illegalities are based. For each case brought before the Court of Tax Review, the Chief Justice of the Oklahoma Supreme Court shall assign the case to a judicial administrative district in which no property that is the subject of the case is located. The presiding judge of the judicial administrative district to which the case is assigned shall appoint a panel of three (3) judges of the district court or of any judicial administrative district who are active or retired judges qualified to preside over such cases, who shall determine in what county the case will be heard. C. The Court of Tax Review shall prescribe procedures for the purpose of hearing properly filed protests against alleged illegal levies, as shown on the annual budgets filed with the State Auditor and Inspector. The Court shall reconvene as often as deemed necessary by the Court until final determination has been made as to all protested levies. §68-3034.1. Rainy day fund.

A. As used in this act, a "rainy day fund" shall be a cash account to pay for unforeseen future emergencies or loss in revenue for the county budget. The rainy day fund shall be funded with surplus funds or monies receipted over and above the itemized estimate of needs for the general fund. Such transfers from the surplus funds shall occur at the time of the budget approval. The balance of the rainy day fund shall not be part of the general budget within the estimate of needs but shall be recorded on the estimate of needs as a special fund. When the county has excess funds, the county may by resolution deposit the funds in the rainy day fund. However, after funds are so transferred, they are not transferable back to the original source. The rainy day fund may contain up to, but not more than, fifty percent (50%) of the previous year's approved budget.

B. 1. Up to one-half (1/2) of the balance of the rainy day fund may be used for natural disasters that are declared such by the Governor, board of county commissioners or by the federal government. Such expenditures must be spent in accordance with Section 1500 et seq. of Title 19 of the Oklahoma Statutes.

2. Up to one-eighth (1/8) of the balance of the rainy day fund may be used to supplement the county's current general budget if it is less than the previous year's budget.

3. Up to one-eighth (1/8) of the balance of the rainy day fund may be used to supplement the current year's revenue when collections come in shorter than estimated and a revenue failure is declared by the board of county commissioners.

The capital reserve fund shall be funded from the general budget or other legal source. The balance of the capital reserve fund shall not be part of the general budget within the estimate of needs but shall be recorded on the estimate of needs as a special fund. When the county has excess funds, the county may by resolution deposit the funds in the capital reserve fund. However, after the funds are so transferred, they are not transferable back to the original source.

B. Expenditures may be made out of the capital reserve fund as needed and determined by the board of authority. Expenditures are limited to county facilities. Such expenditures must be spent in accordance with Section 1500 et seq. of Title 19 of the Oklahoma Statutes.

C. The Office of the State Auditor and Inspector may establish proper documents and procedures.

from date of this publication, shall be placed on a personal property tax lien docket in the office of the county treasurer and the homestead exemption of such taxpayer shall be canceled pursuant to Section 2892 of this title. Such liens are superior to all other liens, conveyances or encumbrances filed subsequent thereto, on real or personal property. The tax lien shall be a lien on all real and personal property of the taxpayer in the county for a period of seven (7) years, except as otherwise provided in subsection B of Section 3103 of this title. §68-3103. Personal property tax lien record - Priority of liens - Release of lien for purposes of sale - Collection of delinquent personal taxes and penalties - Tax lien docket - Treasurer's statement.

A. Except for periods governed by the provisions of subsection C of Section 3148 of this title, within thirty (30) days after publication of the general notice required in the provisions of Section 3102 of this title, the county treasurer shall cause a personal property tax lien record to be made in a docket for such purpose, showing the names and addresses of all persons, firms, and corporations owing delinquent personal property taxes, setting forth the delinquent years and amounts due and unpaid, together with penalty and costs as provided for by Section 2913 of this title. The liens are superior to all other liens, conveyances or encumbrances filed subsequent thereto, on real or personal property. The tax lien shall be a lien on all personal and real property of the person, firm, or corporation owing the delinquent tax for a period of seven (7) years from the date of the tax lien, except as otherwise provided in subsection B of this section. If such a lien is not collected within seven (7) years from the date upon which such tax became due and payable, the unpaid personal property taxes shall cease to be a lien upon any real or personal property of the person, firm, or corporation owing the tax. The provisions of this

section shall not apply to taxes which became due or payable prior to January 1, 1971.

B. A tax lien on real property of a business arising from delinquent personal property taxes of the business may be released for purposes of a sale of such real property upon application to and approval of the county treasurer. No lien shall be released unless all excess proceeds of the sale are paid to the county treasurer in payment of the personal property taxes which are the subject of the lien. If a county treasurer determines that such a lien should be released, the county treasurer shall make an entry in the county treasurer's tax records indicating that the lien has been removed from the real property to be sold. The tax lien shall remain valid as to all other property of the taxpayer. As used in this subsection, "excess proceeds" means all proceeds over those needed to satisfy any liens on the property which have priority over the personal property tax lien of the county.

C. It shall be the duty of the county treasurer to collect all delinquent personal taxes due and unpaid, together with penalties and costs, as provided for by Section 2913 of this title, and costs and lien fee in the amount of Five Dollars (\$5.00), and, upon receiving the same, shall release the lien on the personal property tax lien docket.

D. The county treasurer shall keep a personal property tax lien docket in the form prescribed by the State Auditor and Inspector and shall enter on the docket the names and addresses of delinquent taxpayers along with the other information required by the provisions of this section.

E. Upon compliance with the provisions of this section and Section 3102 of this title, the county treasurer may enter in the personal property tax lien docket the following statement:

"All unpaid items contained in this tax roll have been transferred to the personal property tax lien docket for this year." No further entries are required and the personal property tax roll for that year may be closed. The provisions of this section apply to all personal property tax rolls after 1970. Except as otherwise provided by subsection B of this section, all unpaid personal property taxes shall become a lien on any real estate owned by the taxpayer.

The county treasurer shall not be required to issue a tax warrant for delinquent personal property taxes if the total amount due and owing is less than Twenty-five Dollars (\$25.00) per account.

2. The tax warrant shall be issued or directed against any person or legal entity who had possession, control or an interest in personal property at the time the taxes were assessed.

3. The tax warrant shall command the sheriff to collect the amount due for unpaid taxes, penalties and interest thereon, cost of advertising, sheriff's collection fees and any other lawful fees on personal property belonging to the person to whom such taxes were assessed, and if no personal property is found, then upon any real property such person owns or in which such person has an interest.

B. Except for periods governed by the provisions of subsection C of Section 3148 of this title:

1. The sheriff, upon receiving a tax warrant, shall levy said warrant and sell the property of the taxpayer in the manner and form as provided for the sale of personal and/or real property on execution.

C. As used in this section, a person who is "totally disabled" means a person who is unable to engage in any substantial gainful activity by reason of a medically determined physical or mental impairment which can be expected to last for a continuous period of twelve (12) months or more. Proof of disability may be established by certification by an agency of state government, an insurance company, or as may be required by the county treasurer. Eligibility to receive disability benefits pursuant to a total disability under the Federal Social Security Act shall constitute proof of disability for purposes of this section.

D. It shall be the duty of the individual owning property subject to the provisions of subsection B of this section to make application to the county treasurer for an exemption from a tax sale prior to the property being sold. It shall also be the duty of the individual to provide evidence to the county treasurer that the individual meets the financial requirements outlined in paragraph 4 of subsection B of this section and all other requirements of this section to qualify for the exemption. Any individual claiming the exemption provided in this section shall establish eligibility for the exemption each year the exemption is claimed.

E. Taxes, interest and penalties will continue to accrue while the exemption is claimed. The exemption from sale of property described in this section shall no longer be applicable and the county treasurer shall proceed with the sale of such real estate if any of the conditions prescribed in this section are no longer met.

§68-3105.1. Tax liens held prior to effective date of act.

Any person holding a tax lien pursuant to Sections 3101 through 3125 of Title 68 of the Oklahoma Statutes prior to the effective date of this act shall be authorized to continue the tax lien or tax deed process under the laws in effect at the time such tax lien or tax deed was obtained.

A. Except for periods governed by the provisions of subsection C of Section 3148 of this title, the county treasurer, according to the law, shall give notice of delinquent taxes and special assessments by publication once a week for two (2) consecutive weeks at any time after April 1, but prior to the end of September following the year the taxes were first due and payable, in some newspaper in the county to be designated by the county treasurer. Such notice shall contain a notification that all lands on which the taxes are delinquent and remain due and unpaid will be sold in accordance with Section 3105 of this title, a list of the lands to be sold, the name or names of the last record owner or owners as of

the preceding December 31 or later as reflected by the records in the office of the county assessor, which records shall be updated based on real property conveyed after October 1 each year and the amount of taxes due and delinquent. If the sale involves property upon which is located a manufactured home the notice shall contain the following language: "The sale hereby advertised involves a manufactured home which may be subject to the right of a secured party to repossess. A holder of a perfected security interest in such manufactured home may be able to pay ad valorem taxes based upon the value of the manufactured home apart from the value of real property." In addition to said published notice, the county treasurer shall give notice by mailing to the record owner of said real property as of the preceding December 31 or later as reflected by the records in the office of the county assessor, which records shall be updated based on real property conveyed after October 1 each year, a notice stating the amount of delinquent taxes owed and informing the owner that the subject real property will be sold as provided for in Section 3105 of this title if the delinquent taxes are not paid and showing the legal description of the property of the owner being sold. Failure to receive said notice shall not invalidate said sale. The county treasurer shall charge and collect in cash, cashier's check or money order, in addition to the taxes, interest and penalty, the publication fees as provided by the provisions of Section 121 of Title 28 of the Oklahoma Statutes, and Five Dollars (\$5.00) plus postage for mailing the notice, which shall be paid into the county treasury or whatever fund the publication and mailing fee expenses came from, and the county shall pay the cost of the publication of such notice. But in no case shall the county be liable for more than the amount charged to the delinquent lands for advertising and the cost of mailing.

B. If personal property taxes become delinquent on a manufactured home which is located on property not owned by the owner of the manufactured home and the county treasurer provides notice pursuant to Sections 3102 and 3103 of this title, such notice shall also be sent to the last-known address of the owner of the real property on which the manufactured home is located.

§68-3127. Notice of resale.

The county treasurer, according to the law, shall give notice of the resale of such real estate by publication of said notice once a week for four (4) consecutive weeks preceding such sale, in some newspaper, having been continuously published one hundred four (104) consecutive weeks with admission to the United States mails as second-class mail matter, with paid circulation and published in the county where delivered to the mails, to be designated by the county treasurer; and if there be no paper published in the county, or publication is refused, the county treasurer shall give notice by written or printed notice posted on the door of the courthouse. Such notice shall contain a description of the real estate to be sold, the name of the record owner of said real estate as of the preceding December 31 or later as shown by the records in the office of the county assessor, which records shall be updated based on real property conveyed after October 1 each year, the time and place of sale, the website if conducted through an online auction, a statement of the date on which said real estate taxes first became due and payable as provided for in Section 2913 of this title, the year or years for which taxes have been assessed but remain unpaid and a statement that the same has not been redeemed, the total amount of all delinquent taxes, costs, penalties and interest accrued, due and unpaid on the same, and a statement that such real estate will be sold to the highest bidder for cash. It shall not be necessary to set forth the amount of taxes, penalties, interest and costs accrued each year separately, but it shall be sufficient to publish the total amount of all due and unpaid taxes, penalties, interest and costs. The county treasurer shall, at least thirty

(30) days prior to such resale of real estate, give notice by certified mail, by mailing to the record owner of said real estate, as shown by the records in the county assessor's office, which records shall be updated based on real property conveyed after October 1 each year, and to all mortgagees of record of said real estate a notice stating the method, the time and, if in person, place of said resale and showing the legal description of the real property to be sold. If the county treasurer does not know and cannot, by the exercise of reasonable diligence, ascertain the address of any mortgagee of record, then the county treasurer shall cause an affidavit to be filed with the county clerk, on a form approved by the State Auditor and Inspector, stating such fact, which affidavit shall suffice, along with publication as provided for by this section, to give any mortgagee of record notice of such resale. Neither failure to send notice to any mortgagee of record of said real estate nor failure to receive notice as provided for by this section shall invalidate the resale, but the resale tax deed shall be ineffective to extinguish any mortgage on said real estate of a mortgagee to whom no notice was sent. A failure to advertise, an error in the advertisement, or an error in conducting the sale shall not invalidate a sale at the proper time and places for taxes of any land on which the taxes were due and not paid. Beginning on April 24, 2008, no encumbrancer of real property in this state shall be permitted to file any instrument purporting to encumber real property in any county of the state with any county clerk unless the instrument states on its face the mailing address of such encumbrancer.

§68-3128. Publication costs on resale, rate.

For publication costs on resale of real estate, and for publishing lists of lands upon which taxes are delinquent, the county treasurer shall charge and collect from the purchaser at such sale, and the publisher shall be paid, as full compensation for publishing said resale list in four regular issues, and for publishing lists of land upon which taxes are delinquent in three regular issues, in some newspaper within the county having been continuously published one hundred four (104) consecutive weeks with admission to the United States mails as second class mail matter:

The publication fees, as provided by Title 28, O.S.1961, Section 121, or as same may hereafter be amended.
Laws 1965, c. 501, § 2. Renumbered from § 24332 by Laws 1988, c. 162, § 161, effective January 1, 1992 and Laws 1991, c. 249, § 1, eff. Jan. 1, 1992.

§68-3129. Sale - Property bid off in name of county - County liability.

A. On the day real estate is advertised for resale, the county treasurer shall offer same for sale at the office of the county treasurer between the hours of eight a.m. and five p.m., the exact hours of each sale to be determined by the local county treasurer, and continue the sale thereafter from day to day between such hours until all of the real estate is sold and is concluded by the treasurer. The real estate shall be sold at public auction to the highest bidder for cash or certified funds. Online auctions may accept online payments.

B. The county treasurer may choose to hold the June resale through an online auction instead of the in-person process as prescribed in subsection A of this section. Such online auctions shall occur during regular business hours and shall follow all other requirements of the resale auction until all of the real estate is sold and is concluded by the treasurer. The county treasurer may select a firm to conduct the online auction with the cost of the online auctioneer to be added to the sale of each property.

C. All property must be sold for a sum not less than two-thirds ($\frac{2}{3}$) of the assessed value of such real estate as fixed for the current fiscal year, or for the total amount of taxes, penalties, interest and costs due on such property, whichever is the lesser. Notwithstanding, there shall be a reserve minimum bid placed in an amount covering all taxes, abatement costs, penalties, interest, costs due to a municipality if the right to exercise the reserve minimum bid is noticed to the county treasurer. With the exception of nuisance property, if there is no bid equal to or greater than the sum so required, the county treasurer shall bid off the same in the name of the county. However, the property must be bid off in the name of the municipality if demand is made in writing by a municipality which has outstanding liens upon the property. In cases of nuisance property, the county treasurer shall have discretion to not bid off the property in the name of the county and instead allow the property to remain under its current ownership, unless demand is made in writing by a municipality which has outstanding liens upon the property. "Nuisance property" shall be defined as property that is deemed unmarketable or unusable due to the existence of liens in excess of the property's fair market value as shown by the county assessor's office or due to environmental problems or conditions that exist on the property that would cost

more to remedy than the fair market value of the property as shown by the county assessor's office, or property in which abatement liens have been placed upon the property by a municipality in excess of twenty-five percent (25%) of the property's fair market value as shown by the county assessor's office. Greenbelts, common areas, easements, retention ponds and detention ponds may also be considered nuisance property if transference of ownership to either the county or a third party would cause a hardship to the neighborhood or subdivision these areas were meant to serve or to the county or third party. The county treasurer shall make the determination, in conjunction with review and approval of the board of county commissioners, upon consideration of the above factors, as to whether or not property constitutes nuisance property. The said nuisance property determination may be made at any time during the year, including before or immediately after the June resale. In the case of a nuisance property that has liens from a city or town, if a minimum bid is not made, the city or town shall be credited a bid on the property equal to the amount of the lien of the city or town if its intention to do so is made known to the county treasurer prior to the sale or at the sale. In the case of a nuisance property with liens from a city or town, if a minimum bid is not made, the nuisance property shall be bid off in the name of the city or town if its intention to do so is made known to the county treasurer prior to the sale or at the sale. All property bid off in the name of the county shall be for the amount of all taxes, penalties, interest and costs due thereon, and the county treasurer shall issue a deed therefor to the board of county commissioners for the use and benefit of the county. All nuisance property bid off in the name of the city or town shall be for the amount of any municipal liens due thereon, and the county treasurer shall issue a deed therefor to the city or town for the use and benefit of the city or town.

D. The county treasurers shall provide to the Oklahoma Health Care Authority (OHCA) a list of properties that will be sold at tax resales in their respective counties. Using the information provided, the OHCA shall produce a list for each county of properties on which the OHCA has liens. The county treasurers shall make the list of properties with the OHCA liens available to potential buyers at the tax resales. The OHCA shall file a release of the liens on properties that fit the definition of blighted properties, as defined in Section 38-101 of Title 11 of the Oklahoma Statutes, in the county records of the county where the property is located upon request of that county's treasurer. The filing of the lien release shall not extinguish the debt owed to the OHCA which may be enforced through any legal means available to the OHCA.

E. The county shall not be liable to the state or any taxing district thereof for any part of the amount for which any property may be sold to such county. All property bid off in the name of the

county shall be exempt from ad valorem taxation as long as title is held for the county.

F. 1. The county shall not be civilly liable for any environmental problems or conditions on any property which existed on the property prior to the county's involuntary ownership of the property pursuant to this section, or which may result from such environmental problems or conditions on the property. During the period of the county's involuntary ownership of the property, the person or persons who would be legally liable for the environmental problems or conditions on the property but for the county's ownership shall continue to be liable for such environmental problems or conditions.

2. In addition, the county shall not be subject to civil liability with regard to any actions taken by the county to remediate any problems or conditions on the property resulting from the environmental problems or conditions if the remedial action is not performed in a reckless or negligent manner.

§68-3130. Monies received at resale deemed collections of tax - Credit and apportionment.

Monies received by the county treasurer at resale from individual purchasers, not redemptioners, shall nevertheless be deemed to be collections of tax, and if no redemption be had before issuance and delivery of a deed therefor, the tax monies so collected, not including excess proceeds to be held for the owner thereof, shall be credited and apportioned as such taxes would have been apportioned had they been paid in the proper time and manner, and the monies so collected representing penalties on ad valorem tax, listing fees and publication costs shall be credited to the "resale property fund" of such county as hereinafter provided. In instances where vacant lots are offered for sale for both ad valorem taxes and special improvement taxes, but are sold for less than the total sum due, the county treasurer shall, after deducting the listing fees and publication costs, apportion the proceeds of such sale ratably between the ad valorem and special improvement tax accounts in the same ratio such proceeds bear to the total tax published as due for such resale.

§68-3131. Filing of resale return with county clerk - Issuance of deed - Payment of sale expenses - Remaining funds, disposition.

A. Within thirty (30) days after resale of property, the county treasurer shall file in the office of the county clerk a return, and retain a copy thereof in the county treasurer's office, which shall show or include, as appropriate:

1. Each tract or parcel of real estate so sold;
2. The date upon which it was resold;
3. The name of the purchaser;
4. The price paid therefor;

5. A copy of the notice of such resale with an affidavit of its publication or posting; and

6. The complete minutes of sale, and that the same was adjourned from day to day until the sale was completed. Such notice and return shall be presumptive evidence of the regularity, legality and validity of all the official acts leading up to and constituting such resale. Within such thirty (30) days, the county treasurer shall execute, acknowledge and deliver to the purchaser or the purchaser's assigns, or to the board of county commissioners where such property has been bid off in the name of the county, a deed conveying the real estate thus resold. The issuance of such deed shall effect the cancellation and setting aside of all delinquent taxes, assessments, penalties and costs previously assessed or existing against the real estate, and of all outstanding individual and county tax sale certificates, and shall vest in the grantee an absolute and perfect title in fee simple to the real estate, subject to all claims which the state may have had on the real estate for taxes or other liens or encumbrances; provided, that all such claims which the state, municipality or both the state and the municipality may have had on the real estate for taxes or other liens or encumbrances shall be canceled and extinguished with respect to any deed conveying title to the board of county commissioners where such property was bid off in the name of the county. Twelve (12) months after the deed shall have been filed for record in the county clerk's office, no action shall be commenced to avoid or set aside the deed. Provided, that persons under legal disability shall have one (1) year after removal of such disability within which to redeem the real estate.

B. Any number of lots or tracts of land may be included in one deed, for which deed the county treasurer shall collect from the purchaser the fees provided for in Section 43 of Title 28 of the Oklahoma Statutes. The county treasurer shall also charge and collect from the purchaser at such sale an amount in addition to the

bid placed on such real estate, sufficient to pay all expenses incurred by the county in preparing, listing and advertising the lot or tract purchased by such bidder, which sums shall be credited and paid into the resale property fund hereinafter provided, to be used to defray to that extent the costs of resale.

C. When any tract or lot of land sells for more than the taxes, penalties, interest and cost due thereon, the county treasurer shall notify the Oklahoma Tax Commission within thirty (30) days after the resale, and shall include in such notification all information necessary for the Oklahoma Tax Commission to determine whether a tax lien exists on the subject property.

D. Within sixty (60) days of receipt of the notification described in subsection C of this section, the Oklahoma Tax Commission shall provide notice to the county treasurer of any outstanding tax liabilities, including tax, penalty and interest, attached to each tract or lot of land, regardless of whether a tax warrant has been filed. Upon timely notice of a liability from the Oklahoma Tax Commission, the county treasurer shall remit to the Tax Commission the amount of the outstanding tax liabilities or the excess proceeds, whichever is less. Any remaining proceeds shall be held in the separate fund for the record owner of such land, as shown by the county records as of the date the county resale begins, to be withdrawn any time within one (1) year. No assignment of this right to excess proceeds shall be valid which occurs on or after the date on which the county resale began. At the end of one (1) year, if such money has not been withdrawn or collected from the county, it shall be credited to the county resale property fund.

So long as the same remains unsold, the board of county commissioners shall manage the real estate purchased at resale in the name of the county; leasing, renting or using such property for the best interests of said county. The board is authorized to collect rents, enforce ejectments, and to make repairs or replacements on said real estate while the title remains in the county. §68-3134.1. Dilapidated buildings acquired at resale by county - Tearing down and removal.

The board of county commissioners of any county in this state with a population in excess of five hundred fifty thousand (550,000) may cause dilapidated buildings acquired by resale to be torn down and removed in accordance with the following procedure:

1. For the purposes of this section, "dilapidated building" means a structure which through neglect or injury lacks necessary repairs or otherwise is in a state of decay or partial ruin to such an extent that said structure is a hazard to the health, safety, or welfare of the general public. "Owner" means the owner of record as shown by the tax rolls of the county treasurer, at the time property was bid off in the name of the county;

2. At least ten (10) days' notice that a building is to be torn down or removed shall be given before the board of county commissioners holds a hearing. A copy of the notice shall be posted on the property to be affected. In addition, a copy of said notice shall be sent by mail to the property owner at the address shown by the tax rolls in the office of the county treasurer. Written notice shall also be mailed to any mortgage holder as shown by the records in the office of the county clerk to the last-known address of the mortgagee. Notice shall also be given by posting a copy of the

notice on the property, and by publication in a newspaper having a general circulation in the county. Such notice shall be published once not less than ten (10) days prior to any hearing or action by the board pursuant to the provisions of this section;

3. A hearing shall be held by the board of county commissioners to determine if the property is dilapidated and has become detrimental to the health, safety, or welfare of the general public and the community, or if said property creates a fire hazard which is dangerous to other property;

4. Pursuant to a finding that the condition of the property constitutes a detriment or a hazard and that the property would be benefited by the removal of such conditions, the board of county commissioners may cause the dilapidated building to be torn down and removed. The board of county commissioners shall fix reasonable dates for the commencement and completion of the work. The agents of the county are granted the right of entry on the property for the performance of the necessary duties as a governmental function of the county;

5. The board of county commissioners shall determine the actual cost of the dismantling and removal of dilapidated buildings and any other expenses that may be necessary in conjunction with the dismantling and removal of the buildings including the cost of notice and mailing. If dismantling and removal of the dilapidated buildings is done on a private contract basis, the contract shall be awarded to the lowest and best bidder. All costs and expenses may be paid from the resale property fund of the county;

6. The board of county commissioners may designate, by resolution, an administrative officer or administrative body to carry out the duties of the board specified in this section. Such appeal shall be taken by filing written notice of appeal with the county clerk within ten (10) days after the administrative order is rendered;

7. Nothing in the provisions of this section shall prevent the county from abating a dilapidated building as a nuisance or otherwise exercising its duties to protect the health, safety, or welfare of the general public; and

8. The officers, employees or agents of the county shall not be liable for any damages or loss of property due to the removal of dilapidated buildings performed pursuant to the provisions of this section or as otherwise prescribed by law.

The notice shall be published by the county treasurer once during each of the three (3) consecutive weeks preceding the sale, and if there be no paper published in the county, the county treasurer shall give notice by written or printed notice posted on the door of the courthouse. The notice shall embrace a description of the property, the amount bid and the name of the bidder, and state that the sale of the property so listed shall be made at the price and to the bidder at a given date, beginning at an hour to be specified therein, subject to the approval of the board of county commissioners, unless higher bids are received at the sale. On the date stated in the notice, the property shall be sold by the county treasurer to the highest competitive bidder, for cash in hand or certified funds, or to the original bidder if there be no higher price offered. The sale in any event shall be subject to the approval of the board of county commissioners in its discretion. The cost of the advertisement and other expense incident to the sale, as provided by law, shall be apportioned to the respective tracts listed in the sale and shall be added to the sale price of the real estate as a separate and additional charge and shall be paid by the purchaser, in addition to the amount bid upon the real estate. A deposit shall be required of any bidder before advertisement of the property to cover the advertisement and costs. Upon declaring the successful bidder at the sale, and before closing the sale, the bidder shall be required to make, or increase, the bid sufficient to cover cost of advertising and sale, and sufficient to cover the fees of the county clerk for the recording mandatorily required by law upon approval by the board of county commissioners, otherwise the sale shall continue. Upon approval of the sale as hereinbefore provided, the chair of the board of county commissioners shall execute a deed conveying title to the purchaser of the property in as full and ample manner as by law provided on a form prescribed by the State Auditor and Inspector.

B. In addition to the methods provided for in subsection A of this section, the county may also periodically hold auctions to sell any property or properties acquired by the county under the provisions of the resale tax laws. The auctions shall be held at a time, date and place as set by the county treasurer with the approval of the county commissioners. On the date of the auction, the property or properties shall be sold by the county treasurer to the highest competitive bidder, for cash in hand or certified funds. Any bid which is less than all of the real estate ad valorem taxes owed at the time of the original resale shall be accepted only upon approval of the county commissioners and the county excise board. The county treasurer and county commissioners may contract with an auctioneer to conduct the auction for a fee or commission as may be

mutually agreed upon. If an auctioneer is employed, the auctioneer shall be responsible for conducting the auction and all the necessary advertising.

The cost of recording shall be considered a part of the cost of sale, and shall be paid by the purchaser. The State Auditor and Inspector shall prescribe, for the use of the several county treasurers, a form of bid and form of report of sale. The form of report of sale shall contain a place for the approval of the sale by the board of county commissioners. Laws 1965, c. 501, § 2. Amended by Laws 1979, c. 30, § 129, emerg. eff. §68-3137. Resale property fund.

A. All penalties, interest and forfeitures which may accrue on delinquent ad valorem taxes, whether real or personal, tangible or intangible, on any properties, persons, firms or corporations within any county, city, town or school district within a county; the proceeds of sale of property acquired by the county at resale, the proceeds of leases, rentals and other royalties arising from the management, control and operation by the county commissioners of property acquired by the county at resale, when collected shall be credited to and accounted for in a special cash fund to be styled the "resale property fund" of such county, except the proceeds of sale of such property located in any special improvement district and by the resale of which any special improvement taxes were canceled, in which event the proceeds of sale thereof after having been acquired by the county shall be divided ratably between the resale property fund and the special improvement-tax account (paving, etc.) of the special improvement district in which such property is located, in the same ratio as the ad valorem tax bears to the special improvement taxes in the total amount of such taxes

published as due at the time of the resale whereby the county acquired title to such property. That portion so accruing to such special improvement-tax account shall, in keeping with the statutes relating thereto, be applied to the fund provided for retirement of bonds and interest coupons of such improvement district.

B. The resale property fund herein created for each county is hereby declared to be a continuous fund, not subject to fiscal year limitations, and is hereby dedicated, insofar as may be necessary, to the enforcement of the tax laws of the state, and is authorized to be expended for the following purposes:

1. For the purchase of necessary records, printing, supplies and equipment, and the employment of necessary clerical personnel, either on whole or part-time basis, in connection with delinquent personal tax lists and personal tax warrants, delinquent real estate tax lists and lists of unredeemed delinquent real estate subject to tax sale or resale, such costs to be limited to those incurred by the county treasurer;

2. For payment of the cost of advertising or publication, or posting if publication cannot be had, of any such lists;

3. For the reimbursement of the purchaser at resale or at commissioners' sale of any lot, tract, or parcel of real estate, sold at resale, against which no tax was due, or where the inclusion of such lot, tract, or parcel in the publication and offer for resale has been held invalid by a court of competent jurisdiction, or where the title thereto is vested in the Commissioners of the Land Office of the State of Oklahoma, or where such Commissioners of the Land Office have instituted or successfully terminated mortgage foreclosure proceedings in relation thereto prior to issuance of either a resale tax deed or a county commissioners' deed, or where such tract or parcel was nontaxable at the time of the assessment thereof for taxes, or where the sale thereof to such purchaser was illegal for any other reason; and such purchaser has no adequate recourse against the property thus sold; such reimbursement shall be made in the order of the claims filed with the county treasurer therefore, when properly supported by evidence satisfactory to said treasurer that the claimant is entitled to reimbursement hereunder. Provided, however, that no claim for refund not filed, as herein provided, within a period of three (3) years from the date of such sale shall be allowed or paid from said fund;

4. For all rebates allowed under authority of statute by the board of county commissioners or the tax roll correction board of the county upon taxes found to have been illegally or erroneously collected, or on sale of certificate or issue of tax deed on lands or lots on which no tax was due or as to which the sale thereof is or was illegal for any reason. Provided, however, before the owner of such invalid deed may be reimbursed as aforesaid, he shall first be required to divest himself of purported title by attaching a

quitclaim deed or other disclaimer to his claim for refund, setting out the reason for invalidity of the tax deed. The same procedure for refund shall apply whether the tax deed be from the county treasurer or the chairman of the board of county commissioners. The determination of whether such property has been erroneously sold for taxes to such purchaser, shall be made by the board of county commissioners; and in event title under an invalid resale tax deed remains with the county commissioners, the board of county commissioners so finding same invalid shall execute its resolution or order of disclaimer which shall be filed in the deed records of the county clerk without fee. No fee shall be charged for recording any quitclaim deed or disclaimer from the purchaser under the provisions of this section; and

5. To pay general operating expenses for the county treasurer's office.

C. The expenditures so made shall be made only upon sworn itemized claims approved by the county treasurer and filed with the county clerk and paid by cash voucher drawn by the county clerk payable from said fund. Claims for cost of publication shall take precedence over all other claims on said fund, otherwise said approved claims shall be paid in the order filed as funds accrue from sale of county property as hereinbefore provided. If any such claim has not been paid within three (3) years, the same shall cease to be an obligation of the resale property fund of such county; but nothing in this article shall operate to prevent the payment for such services from an appropriation for such purpose in the general fund of the county in the manner and under the restrictions provided by law.

D. Any residue of cash actually on hand in said fund at any time, after providing for the expense of delinquent tax publication, and for the mandatory holding of sales and resales, made or about to be made, the purchase of necessary records, printing and supplies and the payment of clerical hire, such expenditures, or reserve therefor, to be limited to the necessary expenses incurred by virtue of the authorization herein granted, may be expended by the county commissioners, without further appropriation, in the upkeep, repair and maintenance of unsold properties acquired by the county at resale, by the issuance of cash warrants on such fund in payment of sworn itemized claims therefor; limited in amount to the sum certified to by the county treasurer as being actually on hand in excess of the amount reserved for the purposes hereinbefore stated.

E. On or before the 30th of June of each year the county treasurer shall file a financial statement of the resale property fund with the county clerk for the approval of the board of county commissioners, setting forth the necessary reserves for expenditures either made or anticipated, to cover:

1. The cost of preparing and making delinquent tax publications, as hereinbefore set out;

2. The purchase of necessary records, printing and supplies and the payment of clerical hire, such reserves therefor, to be limited to the necessary expenses incurred by virtue of the authorization herein granted;

3. To pay claims and encumbrances for the upkeep, repair and maintenance of unsold properties;

4. To pay all rebates allowed under authority of statute by the board of county commissioners or the board of tax roll corrections upon taxes found to have been illegally or erroneously collected;

5. To pay for tax sale certificates or issue of deeds on lands or lots on which no tax was due or as to which the sale thereof was illegal for any reason; and

6. To pay general operating expenses for the county treasurer's office.

F. Any balance remaining on hand over and above the necessary reserves for the above mentioned items shall be apportioned forthwith by the county treasurer in the following manner:

1. In each county having a net assessed valuation in excess of Eight Million Dollars (\$8,000,000.00):

- a. one-third (1/3) of such surplus residue to such county to be applied first to the payment of delinquent warrants of such county, thereafter to its current general fund,
- b. one-third (1/3) to the cities and towns of such county, in the ratio that the last certified assessed valuation of each bears to the total such assessed valuation of all such cities and towns in such county, to be by each of them applied in the payment of any delinquent warrants of such city or town, thereafter to its current general fund, and
- c. one-third (1/3) to the various school districts of the county on a scholastic enumeration basis, to be applied by each of them to the payment of any delinquent warrants of such district and thereafter to its current general fund.

2. In each county having a net assessed valuation of Eight Million Dollars (\$8,000,000.00) or less:

- a. In the ratio that the county, city or town and school district levy bears to the fifteen-mill levy as allocated by the county excise board.
- b. Such surplus to the cities and towns of such county in the ratio that the last certified assessed valuation of each bears to the total assessed valuation of all such cities or towns in such county.

- c. Such surplus to the school districts of the county on a scholastic enumeration basis.
- d. The amounts apportioned to each county, city or town and school district shall be applied by each of them to the payment of any delinquent warrants of such municipality and thereafter to its current general fund.

G. Nothing in this section shall be construed to repeal, amend, alter or modify any of the provisions of Sections 2479 or 2480 of this article, but shall be construed to be cumulative thereto.

The rule that tax proceedings are to be strictly construed as against the tax purchaser, shall not apply to proceedings under this article, but in all courts its provisions shall be liberally construed, to the end that its provisions and all proceedings thereunder shall be sustained.

§68-3604. Incentive payments.

A. Except as otherwise provided in subsection I or subsection L of this section, an establishment which meets the qualifications specified in the Oklahoma Quality Jobs Program Act may receive quarterly incentive payments for a ten-year period from the Oklahoma Tax Commission pursuant to the provisions of the Oklahoma Quality Jobs Program Act; provided, such an establishment defined or classified in the NAICS Manual under U.S. Industry No. 711211 (2007 version) may receive quarterly incentive payments for a thirty-year period. The amount of such payments shall be equal to the net benefit rate multiplied by the actual gross payroll of new direct jobs for a calendar quarter as verified by the Oklahoma Employment Security Commission. For an establishment defined or classified in the NAICS Manual under U.S. Industry No. 711211 (2007 version) that entered into a contract pursuant to the Oklahoma Quality Jobs Program Act with the Oklahoma Department of Commerce before the effective date of this act:

1. The contract shall be extended from fifteen (15) years to thirty (30) years; and
2. The extension shall not include additional money awarded but shall allow for payments to continue for the thirty-year period, or until the net benefit for the new direct jobs for the original contract has been fully paid out as calculated based upon the original application.

B. In order to receive incentive payments, an establishment shall apply to the Oklahoma Department of Commerce. The application shall be on a form prescribed by the Department and shall contain such information as may be required by the Department to determine if the applicant is qualified. An establishment may apply for an effective date for a project, which shall not be more than twenty-four (24) months from the date the application is submitted to the Department.

C. Except as otherwise provided by subsection D or E of this section, in order to qualify to receive such payments, the establishment applying shall be required to:

1. Be engaged in a basic industry;
2. Have an annual gross payroll for new direct jobs projected by the Department to equal or exceed Two Million Five Hundred Thousand Dollars (\$2,500,000.00) within three (3) years of the first complete calendar quarter following the start date; and
3. Have a number of full-time-equivalent employees subject to the tax imposed by Section 2355 of this title and working an annual average of thirty (30) or more hours per week in new direct jobs located in this state equal to or in excess of eighty percent (80%) of the total number of new direct jobs.

D. In order to qualify to receive incentive payments as authorized by the Oklahoma Quality Jobs Program Act, an establishment engaged in an activity described under:

1. Industry Group Nos. 3111 through 3119 of the NAICS Manual shall be required to:
 - a. have an annual gross payroll for new direct jobs projected by the Department to equal or exceed One Million Five Hundred Thousand Dollars (\$1,500,000.00) within three (3) years of the first complete calendar quarter following the start date and make, or which will make within one (1) year, at least seventy-five percent (75%) of its total sales, as determined by the Incentive Approval Committee pursuant to the provisions of subsection B of Section 3603 of this title, to out-of-state customers or buyers, to in-state customers or buyers if the product or service is resold by the purchaser to an out-of-state customer or buyer for ultimate use, or to the federal government, unless the annual gross payroll equals or exceeds Two Million Five Hundred Thousand Dollars (\$2,500,000.00) in which case the requirements for purchase of output provided by this subparagraph shall not apply, and
 - b. have a number of full-time-equivalent employees working an average of thirty (30) or more hours per week in new direct jobs equal to or in excess of eighty percent (80%) of the total number of new direct jobs; and
2. Division (4) of subparagraph a of paragraph 1 of subsection A of Section 3603 of this title, shall be required to:
 - a. have an annual gross payroll for new direct jobs projected by the Department to equal or exceed One Million Five Hundred Thousand Dollars (\$1,500,000.00) within three (3) years of the first complete calendar quarter following the start date, and

- b. have a number of full-time-equivalent employees working an average of thirty (30) or more hours per week in new direct jobs equal to or in excess of eighty percent (80%) of the total number of new direct jobs.

E. 1. An establishment which locates its principal business activity within a site consisting of at least ten (10) acres which:

- a. is a federal Superfund removal site,
- b. is listed on the National Priorities List established under Section 9605 of Title 42 of the United States Code,
- c. has been formally deferred to the state in lieu of listing on the National Priorities List, or
- d. has been determined by the Department of Environmental Quality to be contaminated by any substance regulated by a federal or state statute governing environmental conditions for real property pursuant to an order of the Department of Environmental Quality,

shall qualify for incentive payments irrespective of its actual gross payroll or the number of full-time-equivalent employees engaged in new direct jobs.

2. In order to qualify for the incentive payments pursuant to this subsection, the establishment shall conduct the activity resulting in at least fifty percent (50%) of its Oklahoma taxable income or adjusted gross income, as determined under Section 2358 of this title, whether from the sale of products or services or both products and services, at the physical location which has been determined not to comply with the federal or state statutes described in this subsection with respect to environmental conditions for real property. The establishment shall be subject to all other requirements of the Oklahoma Quality Jobs Program Act other than the exemptions provided by this subsection.

3. In order to qualify for the incentive payments pursuant to this subsection, the entity shall obtain from the Department of Environmental Quality a letter of concurrence that:

- a. the site designated by the entity does meet one or more of the requirements listed in paragraph 1 of this subsection, and
- b. the site is being or has been remediated to a level which is consistent with the intended use of the property.

In making its determination, the Department of Environmental Quality may rely on existing data and information available to it, but may also require the applying entity to provide additional data and information, as necessary.

4. If authorized by the Department of Environmental Quality pursuant to paragraph 3 of this subsection, the entity may utilize a

remediated portion of the property for its intended purpose prior to remediation of the remainder of the site, and shall qualify for incentive payments based on employment associated with the portion of the site.

F. Except as otherwise provided by subsection G of this section, for applications submitted on and after June 4, 2003, in order to qualify to receive incentive payments as authorized by the Oklahoma Quality Jobs Program Act, in addition to other qualifications specified herein, an establishment shall be required to pay new direct jobs an average annualized wage which equals or exceeds:

1. One hundred ten percent (110%) of the average county wage as determined by the Department of Commerce based on the most recent U.S. Department of Commerce data for the county in which the new direct jobs are located. For purposes of this paragraph, health care premiums paid by the applicant for individuals in new direct jobs shall be included in the annualized wage; or

2. One hundred percent (100%) of the average county wage as that percentage is determined by the Department of Commerce based upon the most recent U.S. Department of Commerce data for the county in which the new jobs are located. For purposes of this paragraph, health care premiums paid by the applicant for individuals in new direct jobs shall not be included in the annualized wage.

Provided, no average wage requirement shall exceed Twenty-five Thousand Dollars (\$25,000.00), in any county. This maximum wage threshold shall be indexed and modified from time to time based on the latest Consumer Price Index year-to-date percent change release as of the date of the annual average county wage data release from the Bureau of Economic Analysis of the U.S. Department of Commerce.

G. 1. As used in this subsection, "opportunity zone" means one or more census tracts in which, according to the most recent Federal Decennial Census, at least thirty percent (30%) of the residents have annual gross household incomes from all sources below the poverty guidelines established by the U.S. Department of Health and Human Services. An establishment which is otherwise qualified to receive incentive payments and which locates its principal business activity in an opportunity zone shall not be subject to the requirements of subsection F of this section.

2. As used in this subsection:

- a. "negative economic event" means:

- (1) a man-made disaster or natural disaster as defined in Section 683.3 of Title 63 of the Oklahoma Statutes, resulting in the loss of a significant number of jobs within a particular county of this state, or

- (2) an economic circumstance in which a significant number of jobs within a particular county of this

state have been lost due to an establishment changing its structure, consolidating with another establishment, closing or moving all or part of its operations out of this state, and

- b. "significant number of jobs" means Local Area Unemployment Statistics (LAUS) data, as determined by the Bureau of Labor Statistics, for a county which are equal to or in excess of five percent (5%) of the total amount of Local Area Unemployment Statistics (LAUS) data for that county for the calendar year, or most recent twelve-month period in which employment is measured, preceding the event.

An establishment which is otherwise qualified to receive incentive payments and which locates in a county in which a negative economic event has occurred within the eighteen-month period preceding the start date shall not be subject to the requirements of subsection F of this section; provided, an establishment shall not be eligible to receive incentive payments based upon a negative economic event with respect to jobs that are transferred from one county of this state to another.

H. The Department shall determine if the applicant is qualified to receive incentive payments.

I. If the applicant is determined to be qualified by the Department and is not subject to the provisions of subparagraph d of paragraph 7 of subsection A of Section 3603 of this title, the Department shall conduct a cost/benefit analysis to determine the estimated net direct state benefits and the net benefit rate applicable for a ten-year period beginning with the first complete calendar quarter following the start date and to estimate the amount of gross payroll for a ten-year period beginning with the first complete calendar quarter following the start date or for a thirty-year period for an establishment defined or classified in the NAICS Manual under U.S. Industry No. 711211 (2007 version). In conducting such cost/benefit analysis, the Department shall consider quantitative factors, such as the anticipated level of new tax revenues to the state along with the added cost to the state of providing services, and such other criteria as deemed appropriate by the Department. In no event shall incentive payments, cumulatively, exceed the estimated net direct state benefits, except for applicants subject to the provisions of subparagraph d of paragraph 7 of subsection A of Section 3603 of this title.

J. Upon approval of such an application, the Department shall notify the Tax Commission and shall provide it with a copy of the contract and the results of the cost/benefit analysis. The Tax Commission may require the qualified establishment to submit such additional information as may be necessary to administer the provisions of the Oklahoma Quality Jobs Program Act. The approved

establishment shall file quarterly claims with the Tax Commission and shall continue to file such quarterly claims during the ten-year incentive period to show its continued eligibility for incentive payments, as provided in Section 3606 of this title, or until it is no longer qualified to receive incentive payments. The establishment may be audited by the Tax Commission to verify such eligibility. Once the establishment is approved, an agreement shall be deemed to exist between the establishment and the State of Oklahoma, requiring the continued incentive payment to be made as long as the establishment retains its eligibility as defined in and established pursuant to this section and Sections 3603 and 3606 of this title and within the limitations contained in the Oklahoma Quality Jobs Program Act, which existed at the time of such approval. An establishment described in this subsection shall be required to repay all incentive payments received under the Oklahoma Quality Jobs Program Act if the establishment is determined by the Oklahoma Tax Commission to no longer have business operations in the state within three (3) years from the beginning of the calendar quarter for which the first incentive payment claim is filed.

K. A municipality with a population of less than one hundred thousand (100,000) persons in which an establishment eligible to receive quarterly incentive payments pursuant to the provisions of this section is located may file a claim with the Tax Commission for up to twenty-five percent (25%) of the amount of such payment. The amount of such claim shall not exceed amounts paid by the municipality for direct costs of municipal infrastructure improvements to provide water and sewer service to the establishment. Such claim shall not be approved by the Tax Commission unless the municipality and the establishment have entered into a written agreement for such claims to be filed by the municipality prior to submission of the application of the establishment pursuant to the provisions of this section. If such claim is approved, the amount of the payment to the establishment made pursuant to the provisions of Section 3606 of this title shall be reduced by the amount of the approved claim by the municipality and the Tax Commission shall issue a warrant to the municipality in the amount of the approved claim in the same manner as warrants are issued to qualifying establishments.

L. For any contract executed by an establishment on or after August 2, 2018, five percent (5%) of the quarterly incentive payment amount shall be transferred by the Oklahoma Tax Commission to the Oklahoma Quick Action Closing Fund.

§68-3604.1. Quarterly incentive payments for federal contractors - Application and qualifications.

A. A qualified federal contractor may receive quarterly incentive payments for renewable ten-year periods from the Oklahoma Tax Commission pursuant to the provisions of the Oklahoma Quality Jobs Program Act and the provisions of this section.

B. The amount of such payments shall be equal to a net benefit rate of not less than twenty-five hundredths of one percent (0.25%), but not greater than two percent (2%), multiplied by the total qualified labor hours worked by employees of the federal contractor or employees of a qualified federal subcontractor, or both, pursuant to a qualified federal contract for a calendar quarter as verified by the Oklahoma Employment Security Commission and certified by a qualified federal contractor verifier. The net benefit rate for a qualified federal contractor shall be scaled to annual subcontracting goals that account for both total qualified subcontract labor hours and the ratio of qualified subcontract labor hours to total qualified labor hours. Unless limited by the cost/benefit analysis, the net benefit rate shall:

1. Not exceed twenty-five hundredths of one percent (0.25%) when annual qualified subcontract labor hours are less than Two Hundred Thousand Dollars (\$200,000.00) or when annual qualified subcontract labor is less than one percent (1%) of the annual total qualified labor hours claimed;

2. Not be less than five-tenths of one percent (0.5%) when subcontract goals are met with a minimum of Two Hundred Thousand Dollars (\$200,000.00) of annual total qualified subcontractor labor hours and these hours are a minimum of one percent (1%) of the annual total qualified hours claimed;

3. Not be less than one percent (1%) when subcontract goals are met with a minimum of One Million Dollars (\$1,000,000.00) of annual

total qualified subcontractor labor hours and when these hours represent a minimum of five percent (5%) of the annual total qualified hours claimed;

4. Not be less than one and five-tenths percent (1.5%) when subcontract goals are met with a minimum of Two Million Dollars (\$2,000,000.00) of annual total qualified subcontractor labor hours and these hours are a minimum of ten percent (10%) of the annual total qualified hours claimed; and

5. Not be less than two percent (2.0%) when subcontract goals are met with a minimum of Four Million Dollars (\$4,000,000.00) of annual total qualified subcontractor labor hours and these hours are a minimum of twenty percent (20%) of the annual total qualified hours claimed.

C. In order to receive incentive payments, a qualified federal contractor shall apply to the Oklahoma Department of Commerce within one hundred eighty (180) days following the date of the award of a qualified federal contract or award of a new qualified subcontract under an existing qualified federal contract. The application shall be on a form prescribed by the Department and shall contain such information as may be required by the Department to determine if the applicant is qualified. Once qualified by the Department, the applicant shall submit qualified federal contracts to the federal contract verifier. The federal contract verifier shall establish with the applicant an information system(s) or contract(s) as may be required to certify the total qualified labor hours, qualified labor rates, and reimbursement through the qualified federal contract. A qualified federal contractor may apply for an effective date for a project, which shall not be more than twenty-four (24) months from the date the application is submitted to the Department. No state agency shall be required to make any payment to a qualified federal contract verifier for any information needed by the agency to perform any duty imposed upon it pursuant to the provisions of Section 3601 et seq. of this title. All costs for the federal contract verifier shall be reimbursed through value-added services on the qualified federal contract or other mechanisms agreed to by the federal contractor verifier and the federal contract performers.

D. In order to qualify to receive incentive payments as authorized by the Oklahoma Quality Jobs Program Act, in addition to other qualifications specified herein, a qualified federal contractor shall be required to pay direct jobs an average annualized wage which equals or exceeds:

1. One hundred ten percent (110%) of the average county wage as determined by the Department of Commerce based on the most recent U.S. Department of Commerce data for the county in which the new direct jobs are located. For purposes of this paragraph, health care premiums paid by the applicant for individuals in new direct jobs shall be included in the annualized wage; or

2. One hundred percent (100%) of the average county wage as that percentage is determined by the Department of Commerce based upon the most recent U.S. Department of Commerce data for the county in which the new jobs are located. For purposes of this paragraph, health care premiums paid by the applicant for individuals in new direct jobs shall not be included in the annualized wage.

Provided, no average wage requirement shall exceed Twenty-nine Thousand Four Hundred Nine Dollars (\$29,409.00), in any county. This maximum wage threshold shall be indexed and modified from time to time based on the latest Consumer Price Index year-to-date percent change release as of the date of the annual average county wage data release from the Bureau of Economic Analysis of the U.S. Department of Commerce.

3. For qualified subcontractor work, the qualified federal contractor shall have a minimum average qualified labor rate requirement paid to the subcontractor of Thirty-one Dollars (\$31.00) per hour, in any county. This maximum wage threshold shall be indexed and modified from time to time based on the latest Consumer Price Index year-to-date percent change release as of the date of the annual average county wage data release from the Bureau of Economic Analysis of the U.S. Department of Commerce.

E. The Department shall determine if the applicant is qualified to receive incentive payments using information supplied to the Department by the qualified federal contractor verifier. The NAICS code or codes under which the federal government awarded the qualified federal contract shall be used to determine the basic industry for a qualified federal contractor. For federal contracts awarded under NAICS codes not within the definition of basic industry pursuant to paragraph 1 of subsection A of Section 3603 of this title, the Department of Commerce, with the federal contract verifier, may evaluate and utilize individual statement of work items that would qualify within a basic industry definition.

F. If the applicant is determined to be qualified by the Department, the Department shall conduct a cost/benefit analysis to determine the estimated net direct state benefits and the net benefit rate, as provided by subsection B of this section, applicable for a ten-year period beginning with the first complete calendar quarter following the start date and to estimate the amount of gross payroll and total qualified labor hours for a ten-year period beginning with the first complete calendar quarter following the start date. In conducting such cost/benefit analysis, the Department shall consider quantitative factors, such as the anticipated level of new tax revenues to the state along with the added cost to the state of providing services, and such other criteria as deemed appropriate by the Department. In no event shall incentive payments, cumulatively, exceed the estimated net direct state benefits. Using this net cost/benefit analysis model, the

Department may establish the renewable ten-year contract with a qualified federal contractor at the entity level to encompass any current or future qualified federal contracts that meet the cost/benefit analysis metrics as determined by the federal contractor verifier and confirmed by the Department.

G. Upon approval of such an application, the Department shall notify the Tax Commission and shall provide it with a copy of the contract that has been cosigned by the federal contractor verifier and the results of the cost/benefit analysis. The Tax Commission may require the qualified federal contractor, federal contract verifier, and qualified subcontractors to submit such additional information as may be necessary to administer the provisions of the Oklahoma Quality Jobs Program Act. The approved qualified federal contractor shall file quarterly claims with the Tax Commission and shall continue to file such quarterly claims during the ten-year incentive period to show its continued eligibility for incentive payments, as provided in Section 3606 of this title, or until it is no longer qualified to receive incentive payments. The qualified federal contractor may be audited by the Tax Commission to verify such eligibility. Once the qualified federal contractor is approved, an agreement shall be deemed to exist between the qualified federal contractor and the State of Oklahoma, requiring the continued incentive payment to be made as long as the qualified federal contractor retains its eligibility as defined in and established pursuant to this section and Sections 3603 and 3606 of this title and within the limitations contained in the Oklahoma Quality Jobs Program Act, which existed at the time of such approval.

H. For qualified federal contracts with periods of performance exceeding two (2) years, if the actual annual verified gross qualified labor hours for four (4) consecutive calendar quarters does not equal or exceed Two Million Five Hundred Thousand Dollars (\$2,500,000.00) within three (3) years of the start date, or does not equal or exceed actual annual gross qualified labor hours of Two Million Five Hundred Thousand Dollars (\$2,500,000.00) at any other time during the ten-year period after the start date, the incentive payments shall not be made and shall not be resumed until such time as the actual annual qualified labor hours exceed Two Million Five Hundred Thousand Dollars (\$2,500,000.00).

I. If the average annualized wage or minimum average qualified labor rate required by subsection H of this section is not met during any calendar quarter, the incentive payments shall not be made and shall not be resumed until such time as such requirements are met.

J. Before approving a quarterly incentive payment for a qualified federal contract, the federal contract verifier must first determine through the Department that neither the qualified federal

contractor nor the subcontractor are receiving incentive payments under the Oklahoma Quality Jobs Program Act, the Saving Quality Jobs Act, the 21st Century Quality Jobs Incentive Act or the Former Military Facility Development Act for the performance of the same such services under the qualified federal contract and is not qualified for approval of an application for incentive payments under the Oklahoma Quality Jobs Program Act, the Saving Quality Jobs Act, the 21st Century Quality Jobs Incentive Act or the Former Military Facility Development Act for the performance of the same such services under the qualified federal contract. If the qualified federal contractor or the subcontractor are receiving or have an approved application for incentive payments under the Oklahoma Quality Jobs Program Act, the Saving Quality Jobs Act, the 21st Century Quality Jobs Incentive Act or the Former Military Facility Development Act for the performance of the same such services under the qualified federal contract, each may choose to defer in part or in entirety the other incentives for the qualified federal contractor to receive the incentives pursuant to subsection B of this section. The federal contract verifier shall confirm any deferrals and ensure the total for all quality jobs incentive payments on any individual does not exceed the total net benefit to the state. Should neither the federal contractor nor the subcontractor defer in part or in entirety their incentive payments such that the total for all Quality Jobs incentive payments exceeds the total net benefit to the state, the priority for incentive payments shall go to the entity with the earliest recognized start date indentified within the current Department of Commerce Quality Jobs contract.

§68-3605. Quality Jobs Program Incentive Payment Fund.

There is hereby created within the State Treasury a special fund for the Oklahoma Tax Commission to be designated the "Quality Jobs Program Incentive Payment Fund". The Oklahoma Tax Commission is hereby authorized and directed to withhold a portion of the taxes levied and collected pursuant to Section 2355 of Title 68 of the Oklahoma Statutes for deposit into the fund. The amount deposited shall equal the sum of an amount determined by multiplying the net benefit rate provided by the Department of Commerce by the gross payroll as determined pursuant to the provisions of subsection A of Section 6 of this act. All of the amounts deposited in such fund shall be used and expended by the Tax Commission solely for the purposes and in the amounts authorized by the Oklahoma Quality Jobs Program Act. The liability of the State of Oklahoma to make the

incentive payments under this act shall be limited to the balance contained in the fund created by this section.

Added by Laws 1993, c. 275, § 5, eff. July 1, 1993.

§68-3606. Filing claim to receive incentive payment - Determination - Payments.

A. As soon as practicable after the end of the first complete calendar quarter following the start date, the establishment shall file a claim for the payment with the Oklahoma Tax Commission and shall specify the actual number and gross payroll of new direct jobs for the establishment for the calendar quarter. The Tax Commission shall verify the actual gross payroll for new direct jobs for the establishment for such calendar quarter. If the Tax Commission is not able to provide such verification utilizing all available resources, the Tax Commission may request such additional information from the establishment as may be necessary or may request the establishment to revise its claim. An establishment may file for an extension of the initial filing date with the Oklahoma Department of Commerce. Any such extension shall be based solely upon an extraordinary adverse business circumstance which prevented the establishment from hiring the new direct jobs as projected. If an establishment fails to file claims as required by this section, it shall forfeit the right to receive any incentive payments after three (3) years from the start date. If an establishment has filed at least one claim pursuant to this section but fails to file another claim within two (2) years of the most recent claim, the Tax Commission, after consulting with the Department of Commerce, may dismiss the establishment from the program, forfeiting the establishment's right to receive incentive payments based on that contract.

B. 1. Except as otherwise provided in paragraph 2 of this subsection, if the actual verified gross payroll for four (4) consecutive calendar quarters does not equal or exceed the applicable total required by Section 3604 of this title within three (3) years of the start date, or does not equal or exceed the applicable total required by Section 3604 of this title at any other time during the ten-year period after the start date or during the thirty-year period after the start date for establishments defined or classified in the NAICS Manual under U.S. Industry No. 711211 (2007 version), the incentive payments shall not be made and shall not be resumed until such time as the actual verified gross payroll equals or exceeds the amounts specified in Section 3604 of this title. If an establishment fails to achieve the required gross payroll within three (3) years of the start date, the establishment shall not make a new or renewal application for incentive payments authorized pursuant to the Oklahoma Quality Jobs Program Act for a period of twelve (12) months from the last day of the last month of

the three-year period during which the required gross payroll amount was not achieved.

2. Any establishment which does not meet the quarterly payroll requirements provided pursuant to paragraph 1 of this subsection during the time period which begins on April 1, 2020, and ends on June 30, 2021, shall continue to receive incentive payments and shall be exempt from the prescribed limitations.

C. If the average annualized wage required for an establishment does not equal or exceed the amount specified in paragraph 1 or 2 of subsection F of Section 3604 of this title during any calendar quarter, the incentive payments shall not be made and shall not be resumed until such time as such requirements are met.

D. In no event shall incentive payments, cumulatively, exceed the estimated net direct state benefits, except for establishments subject to the provisions of subparagraph d of paragraph 7 of subsection A of Section 3603 of this title.

E. An establishment that has qualified pursuant to Section 3604 of this title may receive payments only in accordance with the provisions of the law under which it initially applied and was approved. If an establishment that is receiving incentive payments expands, it may apply for additional incentive payments based on the gross payroll anticipated from the expansion only, pursuant to Section 3604 of this title. Provided, an establishment which has suffered an extraordinary adverse business circumstance, as certified by the Incentive Approval Committee, may be allowed to voluntarily withdraw from the Oklahoma Quality Jobs Program, repay to the Tax Commission the total amount of incentive payments received pursuant to the provisions of this section, plus interest at the rate specified in Section 727.1 of Title 12 of the Oklahoma Statutes, and reapply to the Department for a new incentive contract if the establishment qualifies pursuant to the provisions of the Oklahoma Quality Jobs Program Act. Any funds received by the Tax Commission pursuant to the provisions of this subsection shall be apportioned in the manner that income tax revenues are apportioned.

F. An establishment that is receiving incentive payments may not apply for additional incentive payments for any new projects until twelve (12) quarters after receipt of the first incentive payment, or until the establishment's actual verified gross payroll for new direct jobs equals or exceeds Two Million Five Hundred Thousand Dollars (\$2,500,000.00) during any four consecutive-calendar-quarter period, whichever comes first. After meeting the requirements of this subsection, an establishment may apply for additional incentive payments based upon the gross payroll anticipated from an expansion only.

G. As soon as practicable after verification of the actual gross payroll as required by this section and except as otherwise provided by subsection K of Section 3604 of this title, the Tax

Commission shall issue a warrant to the establishment in the amount of the net benefit rate multiplied by the actual gross payroll as determined pursuant to subsection A of this section for the calendar quarter.

B. Any establishment which has qualified to receive quarterly incentive payments pursuant to subsection B of Section 3604 of this title for a ten-year period with a project start date after January

1, 2010, shall be eligible to receive the credit provided for in Section 2357.4 of this title if such establishment:

1. Qualifies for the credit allowed pursuant to paragraph 1 of subsection B of Section 2357.4 of this title based on an investment made after January 1, 2010;

2. Pays an average annualized wage which equals or exceeds the average state wage as determined by the Department of Commerce based on the most recent U.S. Department of Commerce data; and

3. Obtains a determination letter from the Oklahoma Department of Commerce that the business activity of the entity will result in a positive net benefit rate.

C. For purposes of the exception provided for in this section:

1. "Estimated direct state benefits" has the meaning set out in paragraph 4 of subsection A of Section 3603 of this title;

The Oklahoma Department of Commerce shall use such information as it determines to be relevant for the analysis required by this subsection including, but not limited to, the type of business activity in which the entity is engaged or will be engaged, amount of capital investment, type of assets acquired or utilized by the business entity, economic impact of the business activity within the relevant geographic region and such other factors as the Department determines to be relevant. The Oklahoma Department of Commerce may use information regarding the business entity alone or in conjunction with relevant information regarding other business activity in a geographically relevant area

surrounding the principal business location of the primary business entity in order to perform the computation of the net benefit rate. If the result of the analysis is a positive net benefit rate, the establishment shall be allowed to qualify to receive quarterly incentive payments pursuant to subsection B of Section 3604 of this title for a ten-year period and shall be eligible to receive the credit provided for in Section 2357.4 of this title. B. When payroll described in subsection A of this section is included by the Department of Commerce in the projection required by paragraph 2 of subsection C of Section 3604 of Title 68 of the Oklahoma Statutes, then the three-year period of such projection shall begin the month after included payroll is first paid by the establishment, and not on the anticipated date on which the establishment will receive its first incentive payment.

§68-3621. Short title.

This act shall be known and may be cited as the "Compete with Canada Film Act".

Added by Laws 2001, c. 259, § 1, eff. July 1, 2001.

§68-3622. Legislative intent.

The Legislature hereby finds that the production of films in Oklahoma not only provides jobs for Oklahomans and dollars for Oklahoma businesses, but also enhances the state's image nationwide. Recognizing that the high costs of film production are driving motion picture and television production out of the country, most notably to Canada, and that the film industry is always seeking attractive locations that can help cut the costs of production, the Legislature further finds that the State of Oklahoma, with the appropriate incentive, can become an attractive site for film production and that Oklahoma is presently among several states with minimal incentives to attract the film industry. It is therefore the intent of the Legislature that Oklahoma provide an incentive that will stand out among those of other states and increase film production in this state.

Added by Laws 2001, c. 259, § 2, eff. July 1, 2001.

§68-3651. Short title.

This act shall be known and may be cited as the "Oklahoma Quality Jobs Incentive Leverage Act".

Added by Laws 2002, c. 299, § 1, emerg. eff. May 23, 2002.

§68-3652. Legislative findings.

The Legislature finds that certain establishments which have, previous to the effective date of this act, qualified for incentive payments pursuant to the Oklahoma Quality Jobs Program Act are a source of economic benefits for the state, its political subdivisions and its residents that can only be achieved through the use of specialized economic incentives. The Oklahoma Quality Jobs Incentive Leverage Act is enacted in order to provide a mechanism for the leverage of incentive payments for the purpose of promoting and sustaining economic growth and activity within the State of

Oklahoma. The Legislature finds that the use of the incentive payment, together with other fiscal resources, is a method that provides a beneficial correlation between the use of monies in the Quality Jobs Program Incentive Leverage Fund and the total economic benefits to be derived from the use of proceeds from the sale of obligations provided by Section 3654 of this title.

Added by Laws 2002, c. 299, § 2, emerg. eff. May 23, 2002. Amended by Laws 2008, c. 182, § 1, eff. Nov. 1, 2008.

§68-3654. Issuance of obligations - Calculation of foregone incentives - Payment of proceeds - Repayment - Guaranty.

A. The Oklahoma Development Finance Authority shall, according to the requirements of the Oklahoma Development Finance Authority Act, issue obligations in a principal amount determined as required by this section upon certification by the Oklahoma Department of Commerce that an establishment has filed the second irrevocable election described in subsection A of Section 3658 of this title. The Authority shall not issue any additional obligations as a result of a second irrevocable election authorized by Section 3658 of this title until any obligations issued by the Authority prior to the effective date of this act have been fully defeased. No obligation issued by the Oklahoma Development Finance Authority pursuant to this act shall be considered a general obligation of the State of Oklahoma for any purpose and the indebtedness incurred shall be a debt of the Oklahoma Development Finance Authority and not a debt of the State of Oklahoma.

B. Notwithstanding any other provision of this section to the contrary, the total principal amount of indebtedness incurred by the Authority shall not be greater than an amount required for proceeds equal to fourteen and four-tenths percent (14.4%) of the maximum amount of projected additional investment, as disclosed pursuant to Section 3655 of this title, for the applicable facility of an establishment as defined by Section 3653 of this title. The maximum amount of projected additional investment for purposes of this subsection shall not exceed Two Hundred Fifty Million Dollars (\$250,000,000.00).

C. The proceeds of such issuance shall be used by the Authority for the benefit of an establishment making a second irrevocable election pursuant to the requirements of this act and such proceeds shall be made available to an establishment for purposes of making the investments described by Section 3653 and Section 3655 of this title according to the requirements of this act and any agreement executed by the establishment and the Oklahoma Development Finance Authority.

D. Upon receipt and analysis of the disclosures regarding proposed investment for additional modernization and retooling of a facility located within the state and owned by an establishment that qualifies for access to the proceeds from the sale of the obligations, the Oklahoma Development Finance Authority shall, if requested by the establishment, structure the issuance of the obligations in a manner that provides for the receipt of proceeds equal to fourteen and four-tenths percent (14.4%) of the amount of additional investment disclosed pursuant to the provisions of Section 3655 of this title.

E. Upon availability of such proceeds, the Authority shall make payment to the qualified establishment of the full allocation of proceeds from a second or subsequent issuance of obligations based upon the computation required by subsection D of this section.

F. The obligations authorized by subsection A of this section, whether issued prior to or on or after the effective date of this act, shall be fully repaid in a period not to exceed twenty (20) years from their issuance.

G. The Oklahoma Development Finance Authority shall require that each and every establishment filing a second irrevocable election pursuant to Section 3658 of this title will use proceeds derived from the sale of obligations issued pursuant to subsection A of this section according to the requirements of this act.

H. An establishment that otherwise qualifies to use proceeds from the sale of obligations pursuant to this section shall be required to provide documentation to the Oklahoma Development Finance Authority that, prior to the effective date of this act, a minimum of Fifty Million Dollars (\$50,000,000.00) has been expended or legally committed for expenditure for a modernization and retooling of an existing facility located within the state before the Authority is authorized to transfer any such proceeds to the establishment.

I. Subject to the requirements of this section, the Oklahoma Development Finance Authority is authorized to issue its obligations in the principal amount required in order to make the proceeds from the sale of its obligations available to each establishment that qualifies for the use of such proceeds as required by this section, and in such additional principal amount as may be required for the payment of interest or the payment of principal and interest for the

fiscal year ending June 30, 2010, or subsequent fiscal year, together with such additional principal amount that may be required or that may be associated with the costs of the issuance of the obligations. Under no circumstances shall the amount of proceeds derived from the sale of obligations authorized by subsection A of this section and which are made available to a qualified establishment exceed the amount prescribed by this section.

J. The Oklahoma Development Finance Authority shall provide that the first payment of interest or the first payment of principal and interest in repayment of the obligations authorized by subsection A of this section as a result of a second irrevocable election shall not become due until the later of July 1, 2009, or the first date upon which the revenues payable to the Authority from the Quality Jobs Program Incentive Leverage Fund are no longer committed to the payment of debt service requirements and related costs in connection with obligations issued by the Authority pursuant to the Quality Jobs Program Incentive Leverage Act prior to the effective date of this act, if feasible, or the Authority shall provide for the first payment of interest or the first payment of principal and interest using some portion of the proceeds derived from the sale of obligations authorized by subsection A of this section. If any payment of principal or interest with respect to obligations issued on or after the effective date of this act is due at any time after July 1, 2009, the Authority may use such proceeds with respect to such required payment. With respect to obligations issued by the Authority as a result of a second irrevocable election, in no case shall the Authority issue the obligations in any manner that requires the use of revenues apportioned to the Quality Jobs Program Incentive Leverage Fund pursuant to Section 3659 of this act until July 1, 2009, or thereafter.

K. The Oklahoma Development Finance authority may enter into such agreements with a qualified establishment as are necessary to implement the provisions of this act. The Authority shall require that an establishment using proceeds from obligations issued pursuant to this section as a result of a second irrevocable election enter into a contract with the Authority reflecting the benefits derived by the State of Oklahoma in a manner consistent with the findings of Section 3652 of this title. The Authority may provide for the issuance of obligations in a manner that results in availability of proceeds suitable to the proposed additional investment activity of an establishment and which takes into account the obligation of the Authority to repay principal and interest with the objective of obtaining the most favorable financing terms to the Authority for the repayment of the obligations.

L. If an establishment to which proceeds from the sale of obligations issued pursuant to subsection A of this section as a result of a second irrevocable election are transferred does not

make use of the proceeds in the amount required by any agreement with the Authority or in contravention of any of the terms or requirements imposed by the Authority or by the requirements of this act, the establishment shall become liable to the Oklahoma Development Finance Authority for the payment of principal, interest or other costs associated with the repayment of any amount of debt represented by obligations issued pursuant to subsection A of this section resulting from a second irrevocable election to the extent such proceeds were paid to the establishment and such proceeds were not used in the amount disclosed to the Oklahoma Development Finance Authority pursuant to Section 3655 of this title. If an establishment does not make the full amount of additional investment as disclosed pursuant to Section 3655 of this title, the establishment shall be liable for principal, interest or other costs associated with repayment of debt equal to the difference between the amount of investment disclosed pursuant to Section 3655 of this title and the actual investment made by the establishment multiplied by fourteen and four-tenths percent (14.4%).

M. An establishment that otherwise qualifies for the use of proceeds derived from the sale of obligations pursuant to subsection A of this section resulting from a second irrevocable election shall execute and deliver to the Oklahoma Development Finance Authority a guaranty, or shall cause a guaranty to be executed and delivered by a third party, in such form as the Authority may determine, for the benefit of the Oklahoma Development Finance Authority in the event of a deficit between the sum of the incentive payment and the withholding taxes transferred to the Quality Jobs Program Incentive Leverage Fund pursuant to Section 3659 of this title and the total amount required for the payment of principal, interest or other costs associated with the obligations, proceeds from the sale of which are paid to the establishment or are available for use by the establishment. The Authority shall only accept a third-party guaranty from an entity that has a net worth in excess of the net worth of the establishment on behalf of which the guaranty is provided. Payments received by the Oklahoma Development Finance Authority pursuant to the provisions of this subsection and pursuant to the terms of the guaranty shall be deposited into the Quality Jobs Program Incentive Leverage Fund. The Oklahoma Development Finance Authority shall require that the guaranty provide for such terms of payment as may be required to make payments of principal, interest or other costs in a timely manner to the entity or entities to which the Authority is obligated to make payment. No revenues authorized to be apportioned pursuant to Section 2352 of Title 68 of the Oklahoma Statutes shall be transferred to the Quality Jobs Program Incentive Leverage Fund until the terms of the guaranty have been invoked and payment received or until the Oklahoma Development

Finance Authority determines an event of default under the terms of the guaranty.

N. The Oklahoma Development Finance Authority, in addition to any other powers granted to it pursuant to the Oklahoma Development Finance Authority Act, may pursue such remedies for the collection of any debt owed to the Authority as authorized by this section as are available to any creditor under the laws of the State of Oklahoma.

O. The provisions of the Oklahoma Development Finance Authority Act shall be fully applicable to the obligations issued pursuant to subsection A of this section and except insofar as the provisions of this act are inconsistent with the provisions of the Oklahoma Development Finance Authority Act, the Oklahoma Quality Jobs Incentive Leverage Act shall supercede and govern all entities, transactions, obligations, rights and remedies associated with such obligations.

A. Within sixty (60) days after filing the second irrevocable election pursuant to Section 3658 of this title, each establishment that has filed such election shall provide to the Oklahoma Development Finance Authority, on such form as may be prescribed by the Authority for this purpose, the total amount of additional investment and expenditure proposed by the establishment for the additional modernization or retooling of a facility located within the state owned by the establishment. The full amount of expenditures qualifying for the use of proceeds pursuant to Section 3654 of this title shall be made not later than five (5) years from the date as of which the disclosure document required by this subsection is filed, except as such period may be extended pursuant to subparagraph e of paragraph 1 of Section 3653 of this title; provided, such five-year-time period may be extended one time, for a period not to exceed twelve (12) months, by the Oklahoma Department of Commerce if the establishment makes a request for an extension and provides the Department with a schedule of intended investment and expenditure.

B. The Oklahoma Development Finance Authority shall evaluate the information provided pursuant to subsection A of this section in order to determine the total principal amount of the issuance or issuances authorized by subsection A of Section 3654 of this title. The total principal amount of any indebtedness issued by the Authority shall not exceed an amount required in order to allow all establishments that have made the disclosure required by subsection

A of this section to fully expend proceeds made available to the establishment by the Authority, plus amounts required for repayment of the obligations, if applicable, and the costs of the issuance. Added by Laws 2002, c. 299, § 5, emerg. eff. May 23, 2002. Amended by Laws 2007, c. 349, § 1, emerg. eff. June 4, 2007; Laws 2008, c. 182, § 4, eff. Nov. 1, 2008.

§68-3656. Use of Credit Enhancement Reserve Fund for issuance of obligations.

A. The Oklahoma Development Finance Authority may use the Credit Enhancement Reserve Fund in order to obtain favorable financing terms for the issuance of obligations authorized by Section 3654 of this title. The commitment from the Credit Enhancement Reserve Fund for any such obligations shall not exceed Ten Million Dollars (\$10,000,000.00).

B. For purposes of the issuance authorized by Section 3654 of this title, the provisions of Section 5063.4c of Title 74 of the Oklahoma Statutes shall not be applicable. Added by Laws 2002, c. 299, § 6, emerg. eff. May 23, 2002. Amended by Laws 2008, c. 182, § 5, eff. Nov. 1, 2008.

§68-3657. Quality Jobs Program Incentive Leverage Fund.

There is hereby created within the State Treasury a special fund for the Oklahoma Development Finance Authority to be designated the "Quality Jobs Program Incentive Leverage Fund". All amounts deposited into the fund shall be used and expended by the Oklahoma Development Finance Authority solely for the purposes and in the amounts authorized by the Oklahoma Quality Jobs Incentive Leverage Act. The Oklahoma Development Finance Authority is hereby specifically authorized and directed to use the monies transferred from the Quality Jobs Program Incentive Leverage Fund for the payment of principal, interest and other costs associated with the issuance of obligations pursuant to the provisions of this act. The Oklahoma Development Finance Authority shall establish separate accounts within the Quality Jobs Program Incentive Leverage Fund as may be required to separately record transactions involving each establishment that files an irrevocable election or second irrevocable election pursuant to Section 3658 of this title and to provide for the deposit of incentive payments, if applicable, and withholding taxes apportioned to the Fund pursuant to Section 3659 of this title or for such other purposes as the Authority may determine to be necessary.

Added by Laws 2002, c. 299, § 7, emerg. eff. May 23, 2002. Amended by Laws 2008, c. 182, § 6, eff. Nov. 1, 2008.

§68-3658. Irrevocable election to transfer incentive payments to Fund - Claim and use of tax credits - Ineligibility for certain exemptions.

A. An establishment, as defined in Section 3653 of this title, which has been authorized to receive incentive payments pursuant to the Oklahoma Quality Jobs Program Act prior to the effective date of this act, and that intends to use proceeds derived from the sale of obligations issued pursuant to Section 3654 of this title which obligations are issued on or after the effective date of this act, shall, as a condition of being eligible to make use of such proceeds, file a second irrevocable election with the Oklahoma Department of Commerce.

B. An establishment shall file its second irrevocable election with the Oklahoma Department of Commerce not later than one hundred eighty (180) days prior to the last date that withholding tax revenues attributable to the payroll of the establishment are legally required to be used in satisfaction of any debt service requirements or related costs imposed pursuant to an issuance of obligations by the Oklahoma Development Finance Authority if such issuance occurred prior to the effective date of this act. Such second irrevocable election shall be required in order for the establishment to be eligible for use of any proceeds from the sale of additional obligations authorized by Section 3654 of this title which obligations are issued on or after the effective date of this act. From the date upon which the second irrevocable election is filed until the last date upon which withholding tax revenues attributable to the payroll of the establishment are legally required to be used in satisfaction of any debt service requirements or related costs imposed as a result of obligations issued by the Oklahoma Development Finance Authority prior to the effective date of this act, the five-year period of time within which the establishment would otherwise be required to make investment pursuant to this act shall be extended.

C. Upon filing such second irrevocable election, any incentive payments which would have been paid to the establishment pursuant to the Oklahoma Quality Jobs Program Act after such filing shall be deposited to the Quality Jobs Program Incentive Leverage Fund. Such incentive payments shall be treated as an asset of the establishment which has been paid to the State of Oklahoma for purposes of this act.

D. Beginning upon the later date of July 1, 2009, or the first date upon which the revenues payable to the Authority from the Quality Jobs Program Incentive Leverage Fund are no longer committed to the payment of debt service requirements and related costs in connection with obligations issued by the Authority pursuant to the Quality Jobs Incentive Leverage Act prior to the effective date of this act, and for each fiscal year thereafter as otherwise required

by this act, monies transferred to the Quality Jobs Program Incentive Leverage Fund shall be used for the payment of principal and interest or other costs associated with the additional issuance of obligations by the Oklahoma Development Finance Authority pursuant to the provisions of Section 3654 of this title as a result of a second irrevocable election. Not later than January 1 and July 1 of each year, the Oklahoma Development Finance Authority shall certify to the Oklahoma Department of Commerce and the Oklahoma Tax Commission the amount which will be required for payment of principal, interest and other costs associated with the issuance of such obligations for the succeeding six-month period.

E. Beginning on the later date of July 1, 2009, or the first date upon which the revenues payable to the Authority from the Quality Jobs Program Incentive Leverage Fund are no longer committed to the payment of debt service requirements and related costs in connection with obligations issued by the Authority pursuant to the Quality Jobs Incentive Leverage Act prior to the effective date of this act, and for each fiscal year thereafter as otherwise required by this act, as often as may be necessary for the Oklahoma Development Finance Authority to make payments with respect to indebtedness issued pursuant to the provisions of this act as a result of a second irrevocable election, the Tax Commission shall transfer from the revenues specified in Section 3659 of this title an amount required to equal the difference between the incentive payment deposit and the amount certified pursuant to the provisions of subsection C of this section. The Tax Commission shall then transfer the total amount required pursuant to the certification to the Oklahoma Development Finance Authority.

F. An establishment to which proceeds from the sale of any obligations issued by the Oklahoma Development Finance Authority are made available as provided by this act pursuant to a second irrevocable election shall not claim any tax credits that would otherwise be authorized pursuant to Section 2357.4 of Title 68 of the Oklahoma Statutes as a result of jobs created or capital investment made as a direct result of the use of such bond proceeds. For purposes of this subsection and for purposes of computing any tax credit pursuant to Section 2357.4 of Title 68 of the Oklahoma Statutes, "bond proceeds" shall mean the amount transferred, paid or made available to the establishment together with the total amount of principal and interest paid by the Oklahoma Development Finance Authority with respect to any amount of proceeds transferred, paid or made available to the establishment.

G. An establishment that files a second irrevocable election authorized by this section and to which proceeds from the sale of obligations authorized by Section 3654 of this title are paid or made available may utilize income tax credits earned prior to the effective date of this act pursuant to Section 2357.4 of Title 68 of

the Oklahoma Statutes for a period of fifteen (15) taxable years subsequent to the year in which the election is filed.

H. An establishment that files a second irrevocable election authorized by this section and to which any proceeds from the sale of obligations authorized by Section 3654 of this title are paid or made available shall not be eligible to claim any exemption pursuant to Section 6B of Article X of the Oklahoma Constitution or Section 2902 of Title 68 of the Oklahoma Statutes with respect to real or personal property constituting the facility described by the establishment pursuant to the disclosure document as provided by Section 3655 of this title. The maximum amount of investment in any facility for purposes of the foregone exemption required by this subsection shall be Seven Hundred Million Dollars (\$700,000,000.00), inclusive of any amounts invested prior to the effective date of this act.

I. An establishment that files a second irrevocable election authorized by this section and to which any proceeds from the sale of obligations authorized by Section 3654 of this title are paid or made available shall not be eligible to claim any exemption otherwise available pursuant to Section 1359 of Title 68 of the Oklahoma Statutes with respect to the facility constructed, acquired, improved or equipped with such proceeds. The provisions of this subsection shall not require any waiver of sales tax exemption with respect to personal property acquired for the manufacturing process after completion of construction of the applicable facility.

§68-3659. Remitted withholding taxes - Transfer and apportionment.

A. Beginning on the later date of July 1, 2009, or the first date upon which the revenues payable to the Authority from the Quality Jobs Program Incentive Leverage Fund are no longer committed to the payment of debt service requirements and related costs in connection with obligations issued by the Authority pursuant to the Quality Jobs Incentive Leverage Act prior to the effective date of this act, and for each fiscal year thereafter during which any obligations issued by the Oklahoma Development Finance Authority issued pursuant to Section 3654 of this title remain unpaid as a result of a second irrevocable election, the Oklahoma Tax Commission shall identify an establishment that makes the second irrevocable election authorized by Section 3658 of this title and shall compute the amount of withholding taxes imposed pursuant to Section 2385.2 of Title 68 of the Oklahoma Statutes attributable to employees of that establishment whose wages are subject to the levy.

B. Beginning on the later date of July 1, 2009, or the first date upon which the revenues payable to the Authority from the Quality Jobs Program Incentive Leverage Fund are no longer committed to the payment of debt service requirements and related costs in connection with obligations issued by the Authority pursuant to the Quality Jobs Incentive Leverage Act prior to the effective date of this act, and for each fiscal year thereafter during which any obligations issued by the Oklahoma Development Finance Authority issued pursuant to Section 3654 of this title as a result of a second irrevocable election remain unpaid, the Oklahoma Tax Commission shall transfer to the Quality Jobs Program Incentive Leverage Fund an amount of withholding taxes remitted by an establishment which has made the second irrevocable election equal to the amount required pursuant to subsection E of Section 3658 of this title. With respect to the withholding taxes remitted by an establishment that makes the second irrevocable election pursuant to Section 3658 of this title, the Tax Commission shall continue to transfer such taxes to the Quality Jobs Program Incentive Leverage Fund for any period of time after which the establishment files the second irrevocable election. If the Oklahoma Development Finance Authority does not issue obligations as a result of the second irrevocable election, the establishment shall notify the Tax Commission and the Oklahoma Development Finance Authority that further transfers of withholding taxes remitted by the establishment to the Quality Jobs Program Incentive Leverage Fund are not required.

C. Subject to the provisions of Section 11, Chapter 299, O.S.L. 2002, if the amount of the withholding taxes remitted by the establishment is less than the amount required pursuant to subsection E of Section 3658 of this title, the proceeds from the guaranty required by subsection M of Section 3654 of this title shall be paid to the Quality Jobs Program Incentive Leverage Fund.

D. After the amount of withholding taxes required to be transmitted to the Quality Jobs Program Incentive Leverage Fund has been computed, the remaining withholding tax remitted by a qualified establishment shall be apportioned in the manner prescribed by law.

E. The amount of withholding taxes transferred to the Quality Jobs Program Incentive Leverage Fund pursuant to this section shall be deemed not to have accrued to the State Treasury for purposes of certifications required by the State Board of Equalization pursuant to Section 23 of Article X of the Oklahoma Constitution and shall be deemed to be monies held in trust for the benefit of the Oklahoma Development Finance Authority in order to repay obligations issued by the Authority pursuant to Section 3654 of this title.

Sections 1 through 8 of this act shall be known and may be cited as the "Former Military Facility Development Act".

Added by Laws 1994, c. 363, § 1, eff. July 1, 1994.

§68-3802. Qualification for incentive payments - Definitions - Cost/benefit analysis.

A. Except as otherwise provided by this section, an establishment which meets the qualifications specified in the Oklahoma Quality Jobs Program Act, Sections 3601 through 3609 of Title 68 of the Oklahoma Statutes, except that the establishment:

1. Has an annual gross payroll for new direct jobs, as defined in the Oklahoma Quality Jobs Program Act, projected by the Department of Commerce to equal at least One Million Five Hundred Thousand Dollars (\$1,500,000.00) but less than Two Million Five Hundred Thousand Dollars (\$2,500,000.00) within three (3) years of the anticipated date of receipt of first incentive payment; and

2. Locates its principal business activity at a former military facility,

may qualify for payments from the Former Military Facility Projects Fund created in Section 3 of this act pursuant to approval by the Oklahoma Department of Commerce. Such establishments shall be deemed "former military facility projects".

B. Unless otherwise indicated in the Former Military Facility Development Act, the definitions contained in Section 3603 of Title 68 of the Oklahoma Statutes shall apply to the Former Military Facility Development Act.

C. As used in this section, "former military facility" shall mean any tract or parcel of real property used primarily for a military purpose during a state of war, armed conflict or during

peace time, title to which was vested in the United States Government, any branch of the Armed Forces of the United States of America or was subsequently conveyed by such entities to the State of Oklahoma, any political subdivision of the State of Oklahoma, or any public trust having the State of Oklahoma or any political subdivision of the State of Oklahoma as its beneficiary, whether singly or in combination with other government entities prior to the date on which the establishment acquired its interest.

D. The Department shall determine if the applicant is qualified to receive incentive payments.

E. If the applicant is determined to be qualified by the Department of Commerce, the Department shall conduct a cost/benefit analysis to determine the estimated net direct state benefits and the net benefit rate applicable for a ten-year period and to estimate the amount of gross payroll for a ten-year period. In conducting such cost/benefit analysis, the Department shall consider quantitative factors, such as the anticipated level of new tax revenues to the state along with the added cost to the state of providing services, and such other criteria as deemed appropriate by the Department. In no event shall former military facility project payments, cumulatively, exceed the estimated net direct state benefits. Notwithstanding any other provision of law, when the maximum of Two Million Five Hundred Thousand Dollars (\$2,500,000.00) of projected former military facility projects payments provided by Sections 1 through 8 of this act have been obligated to specific establishments for a given fiscal year, then no additional application for such payments may be considered by the Department of Commerce for that fiscal year and in any event no payments in excess of said Two Million Five Hundred Thousand Dollars (\$2,500,000.00) shall be paid by the Tax Commission within any fiscal year.

F. An establishment which meets the qualifications specified in Sections 1 through 8 of this act may receive quarterly incentive payments for a ten-year period from the Oklahoma Tax Commission pursuant to the provisions of the Former Military Facility Development Act in an amount which shall be equal to the net benefit rate multiplied by the actual gross payroll of new direct jobs for a calendar quarter as verified by the Oklahoma Employment Security Commission except as provided and limited by this section and in Sections 3 and 4 of this act.

G. Upon approval of such an application, the Department shall notify the Oklahoma Tax Commission and shall provide it with a copy of the application and the results of the cost/benefit analysis. The Tax Commission may require the qualified establishment to submit such additional information as may be necessary to administer the provisions of the Former Military Facility Development Act. The approved establishment shall report to the Tax Commission periodically to show its continued eligibility for incentive

payments, as provided in Section 4 of this act. The establishment may be audited by the Tax Commission to verify such eligibility. Once the establishment is approved, an agreement shall be deemed to exist between the establishment and the State of Oklahoma, requiring the continued payment to be made as long as the establishment retains its eligibility as defined in and established pursuant to this section and Sections 3 and 4 of this act and within the applicable limitations contained in the Oklahoma Quality Jobs Program Act, which existed at the time of such approval.

H. No incentive payments which would otherwise be authorized by this section shall be made to an establishment occupying any lands title to which has been held or title to which is held, at the time of application for such payments, by any public trust created pursuant to the provisions of Section 176 et seq. of Title 60 of the Oklahoma Statutes if such trust is specifically excluded from the definition of "state agency" or "agency of the state" by the provisions of Section 33 of Title 25 of the Oklahoma Statutes or any other provision of law.

Added by Laws 1994, c. 363, § 2, eff. July 1, 1994.

§68-3803. Former Military Facility Projects Fund.

There is hereby created within the State Treasury a special fund for the Oklahoma Tax Commission to be designated the "Former Military Facility Projects Fund". The Oklahoma Tax Commission is hereby authorized and directed to withhold a portion of the taxes levied and collected pursuant to Section 2355 of Title 68 of the Oklahoma Statutes for deposit into the Fund. The amount deposited shall equal the sum of an amount determined by multiplying the net benefit rate provided by the Department of Commerce by the gross payroll of each qualified military facility project establishment. All of the amounts deposited in such Fund shall be used and expended by the Tax Commission solely for the purposes and in the amounts authorized by the Former Military Facility Development Act. Liability of the State of Oklahoma to make the payments under the Former Military Facility Development Act shall be limited to the balance contained in the Fund created by this section. Provided, the Tax Commission may never pay more than Two Million Five Hundred Thousand Dollars (\$2,500,000.00) from the Fund in any one (1) fiscal year.

Added by Laws 1994, c. 363, § 3, eff. July 1, 1994.

§68-3804. Filing of claim - Issuance of warrant.

A. As soon as practicable after the end of a calendar quarter for which an establishment has qualified to receive a payment from the Former Military Facility Project Fund, the establishment shall file a claim for the payment with the Oklahoma Tax Commission and shall specify the actual number and gross payroll of new direct jobs

for the establishment for the calendar quarter. The Tax Commission shall verify the actual gross payroll for new direct jobs for the establishment for such calendar quarter. If the Tax Commission is not able to provide such verification utilizing all available resources, the Tax Commission may request such additional information from the establishment as may be necessary or may request the establishment to revise its claim.

B. If the actual verified gross payroll for four (4) consecutive calendar quarters does not equal or exceed a total of One Million Five Hundred Thousand Dollars (\$1,500,000.00) within three (3) years of the date of the first incentive payment, or does not equal or exceed a total of One Million Five Hundred Thousand Dollars (\$1,500,000.00) at any other time during the ten-year period after the date the first payment was made, the incentive payments shall not be made and shall not be resumed until such time as the actual verified gross payroll equals or exceeds the amounts specified in this subsection. Provided, in no event shall former military facility projects payments, cumulatively for any individual establishment, exceed the estimated net direct state benefits determined by the Department to apply to the military facility project establishment. Provided further, in no event shall the former military projects facility payments exceed, cumulatively for all qualifying establishments, payments in excess of Two Million Five Hundred Thousand Dollars (\$2,500,000.00) in any single fiscal year.

C. An establishment that has qualified pursuant to Section 2 of this act may receive payments only in accordance with the provisions under which it initially applied and was approved. If an establishment that is receiving former military facility projects payments expands, it may apply for additional incentive payments based on the gross payroll anticipated from the expansion only, pursuant to Section 3604 of Title 68 of the Oklahoma Statutes.

D. As soon as practicable after such verification, the Tax Commission shall issue a warrant to the former military facility project establishment in the amount of the net benefit rate multiplied by the actual gross payroll as determined pursuant to subsection A of this section for the calendar quarter.

Added by Laws 1994, c. 363, § 4, eff. July 1, 1994.

§68-3805. Establishments receiving incentive payments not eligible to receive certain tax credits and exemptions.

Added by Laws 1994, c. 363, § 6, eff. July 1, 1994.

Such plan shall include an estimate of the number of jobs created and jobs retained in this state as a result of the applicant's qualified investments; and

5. A nonrefundable application fee of Five Thousand Dollars (\$5,000.00) payable to the Department.

B. Within thirty (30) days after the receipt of a completed application, the Department shall grant or deny the application in full or in part. The Department shall deny the application if:

1. The applicant does not satisfy all the criteria provided under subsection A of this section;

2. The revenue-impact assessment submitted with the application does not demonstrate that the applicant's business plan will result in a positive fiscal impact on the state over a ten-year period that exceeds the cumulative amount of tax credits that would be issued to the applicant if the application was approved; or

3. The Department has already approved the maximum amount of capital investment authority under Section 4 of this act.

C. If the Department denies any part of the application, it shall inform the applicant of the grounds for such denial. §68-3933. Certification of capital investment authority - Cap on state tax credits - Investment requirements.

A. The Department shall certify capital investment authority under the provisions of this act in amounts that would not authorize more than Fifteen Million Dollars (\$15,000,000.00) in state tax credits to be claimed against state tax liability in any calendar year, excluding any credit amounts carried forward as provided under subsection A of Section 5 of this act. Within ninety (90) days of the applicant receiving notice of certification, the rural fund shall issue the capital investment to and receive cash in the amount of the certified amount from a rural investor. At least ten percent (10%) of the rural investor's capital investment shall be composed of capital raised by the rural investor directly or indirectly from sources including directors, members, employees, officers, and affiliates of the rural investor, other than the amount invested by the allocatee claiming the tax credits in exchange for such allocation of tax credits. The rural fund shall provide the Department with evidence of the receipt of the cash investment within ninety-five (95) days of the applicant receiving notice of certification.

B. If the rural fund does not receive the cash investment and issue the capital investment within such time period following receipt of the certificate notice, the certification shall lapse and the rural fund shall not issue the capital investment without reapplying to the Department for certification. Lapsed certifications shall revert to the Department and shall be reissued pro rata to applicants whose capital investment allocations were reduced in accordance with the application process provided under subsection D of Section 3 of this act.

C. A rural fund, before making a qualified investment, may request from the Department a written opinion as to whether the business in which it proposes to invest is an eligible business. The Department, no later than fifteen (15) business days after the date of receipt of such request, shall notify the rural fund of its determination. If the Department fails to notify the rural fund of its determination by the twentieth business day, the business in which the rural fund proposes to invest shall be deemed an eligible business.

§68-3934. Right to credit against entity's state tax liability - Carry forward - Recapture.

A. Upon making a capital investment in a rural fund, a rural investor shall have a right to a credit against such entity's state tax liability that may be utilized on each credit allowance date of such capital investment in an amount equal to the applicable percentage for such credit allowance date multiplied by the purchase price paid to the rural fund for the capital investment. The amount of the credit claimed by a rural investor shall not exceed the amount of such entity's state tax liability for the tax year for which the credit is claimed. Any amount of credit that a rural investor is prohibited from claiming in a tax year as a result of this section may be carried forward for use in any of the five (5) subsequent tax years, but shall not be carried back to prior tax years. It is the intent of this act that a rural investor claiming a credit under this act is not required to pay any additional tax that may arise as a result of claiming such credit.

B. No credit claimed under the provisions of this act shall be refundable or saleable on the open market. Credits earned by or allocated to a partnership, limited liability company, or S-corporation may be allocated to the partners, members, or shareholders of such entity for their direct use in accordance with the provisions of any agreement among such partners, members, or shareholders, and a rural fund shall notify the Department of the names of the entities that are eligible to utilize transfer of a capital investment upon such allocation, change, or transfer. Such allocation shall not be considered a sale for the purpose of this section.

C. The Department may recapture credits from a taxpayer that claimed a credit authorized under this section if:

1. The rural fund does not invest sixty percent (60%) of its capital investment authority in qualified investments in this state within two (2) years of the credit allowance date, and one hundred percent (100%) of its capital investment authority in qualified investments in this state within three (3) years of the credit allowance date; provided, that at least seventy percent (70%) of these initial qualified investments must be made in eligible businesses located in rural areas;

2. The rural fund fails to maintain qualified investments equal to ninety percent (90%) of its capital investment authority from the third anniversary until the sixth anniversary of the credit allowance date, with seventy percent (70%) of such investments maintained in eligible businesses located in rural areas. For each year the rural fund fails to maintain such investments, the Department may recapture an amount of such year's allowed credits equal to the percentage difference between ninety percent (90%) of a rural fund's capital investment authority and the actual amount of qualified investments maintained for such year. For the purposes of this subsection, a qualified investment is considered even if the

qualified investment was sold or repaid so long as the rural fund reinvests an amount equal to the capital returned or recovered or repaid by the rural fund from the original investment, exclusive of any profits realized, in other qualified investments in this state within twelve (12) months of receipt of such capital. Amounts received periodically by a rural fund shall be treated as continually invested in qualified investments if the amounts are reinvested in one or more qualified investments by the end of the following calendar year. A rural fund shall not be required to reinvest capital returned from qualified investments after the fifth anniversary of the credit allowance date, and such qualified investments shall be considered held continuously by the rural fund through the sixth anniversary of the credit allowance date;

3. Prior to the earlier of exiting the program in accordance with this act or thirty (30) days after the sixth anniversary of the credit allowance date, the rural fund makes a distribution or payment that results in the rural fund having less than one hundred percent (100%) of its capital investment authority invested in qualified investments in the state or held in cash or other marketable securities; or

4. The rural fund violates the provisions of Section 6 of this act, in which case the Department may recapture an amount equal to the amount of the rural fund's capital investment authority found to be in violation of such provisions.

For the purposes of meeting and maintaining the objectives established for investment in paragraphs 1 and 2 of this subsection, a rural fund's qualified investments shall be multiplied by a factor of one and one-quarter ($1 \frac{1}{4}$) in counties with less than thirty thousand (30,000) in population and more than thirteen thousand (13,000) in population and shall be multiplied by a factor of one and one-half ($1 \frac{1}{2}$) in counties with a population of thirteen thousand (13,000) or less.

D. Recaptured credits and related capital investment authority shall revert to the Department and shall be reissued pro rata to applicants whose capital investment allocations were reduced in accordance with the application process provided under subsection D of Section 3 of this act.

E. No recapture shall occur until the rural fund has been given notice of noncompliance and afforded six (6) months from the date of such notice to cure the noncompliance.

Added by Laws 2022, c. 354, § 5, eff. Nov. 1, 2022.

§68-3935. Restrictions on businesses that receive qualified investment.

No eligible business that receives a qualified investment under the provisions of this act, or any affiliates of such eligible business, shall directly or indirectly:

1. Own or have the right to acquire an ownership interest in a rural fund or member or affiliate of a rural fund including, but not limited to, a holder of a capital investment issued by a rural fund; or

2. Loan to or invest in a rural fund or any member or affiliate of a rural fund including, but not limited to, a holder of capital investment issued by a rural fund, where the proceeds of such loan or investment are directly or indirectly used to fund or refinance the purchase of capital investments under this act.

Added by Laws 2022, c. 354, § 6, eff. Nov. 1, 2022.

§68-3936. Reports on investments by rural funds - Application to exit the program.

A. Rural funds shall submit a report to the Department within the first fifteen (15) business days after the second and third anniversary of the initial credit allowance date. The report following the second anniversary shall provide documentation as to the investment of sixty percent (60%) of the purchase price of such capital investment in qualified investments. The report following the third anniversary shall provide documentation as to the investment of one hundred percent (100%) of the purchase price of such capital investment in qualified investments. Unless previously reported pursuant to this subsection, such reports shall also include:

1. The name and location of each eligible business receiving a qualified investment;

2. Bank statements of such rural fund evidencing each qualified investment;

3. A copy of the written opinion of the Department, as provided in subsection C of Section 4 of this act, or evidence that such business was an eligible business at the time of such qualified investment, as applicable;

4. The number of jobs created and jobs retained as a result of each qualified investment;

5. The average salary of positions described in paragraph 4 of this subsection; and

6. Such other information as required by the Department.

B. For all subsequent years, rural funds shall submit an annual report to the Department within ninety (90) days of the beginning of the calendar year during the compliance period. The report shall include, but is not limited to, the following:

1. The number of jobs created and jobs retained as a result of qualified investments;

2. The average annual salary of positions described in paragraph 1 of this subsection; and

3. Such other information as required by the Department.

C. On or after the sixth anniversary of the credit allowance date, a rural fund may apply to the Department to exit the program and no longer be subject to the regulation hereunder. The Department shall respond to the exit application within fifteen (15) days of receipt. In evaluating the exit application, the fact that no credits have been recaptured and that the rural fund has not received a notice of recapture that has not been cured pursuant to subsection E of Section 5 of this act shall be sufficient evidence to prove that the rural fund is eligible for exit. The Department shall not unreasonably deny an exit application submitted under this section. If an exit application is denied, the notice shall include the reasons for the determination.

Added by Laws 2022, c. 354, § 7, eff. Nov. 1, 2022.

§68-3937. Sunset date for new applications.

The Department shall accept no new applications for tax credits authorized under this act after December 1, 2032.

§68-3951. Quarterly rebate payments – Qualifications – Yearly limit – Applications.

A. An establishment which meets the qualifications specified in the Oklahoma Five Major Sports Leagues Rebate Program Act may receive quarterly rebate payments from the Oklahoma Tax Commission pursuant to the provisions of the Oklahoma Quality Jobs Program Act; provided, such an establishment defined or classified in the NAICS Manual under U.S. Industry No. 711211 (2007 version) and which is a professional sports team from one of the five major sports leagues (National Football League, or NFL; National Basketball Association, or NBA; National Hockey League, or NHL; Major League Baseball, or MLB; and Major League Soccer, or MLS) may receive quarterly rebate payments for the period of time that the establishment is located and performs in this state. The amount of payment shall be equal to the net benefit rate multiplied by the actual gross payroll of sports-league jobs for a calendar quarter as verified by the Oklahoma Employment Security Commission.

1. Any establishment or entity with a NAICS code classified as 711211 and which is a professional sports team from one of the five major sports leagues (NFL, NBA, NHL, MLB, and MLS) that entered into a contract for the Quality Jobs Incentive Program with the Oklahoma Department of Commerce shall only be eligible to qualify for this program once the Quality Jobs contract expires or is terminated.

2. Based upon the effective date upon which the first rebate payment is to be received, an establishment or entity may receive quarterly rebate payments. However, the total yearly (or four consecutive) rebate payments shall not exceed Ten Million Dollars (\$10,000,000.00) in any single year.

3. As used in this act, "sports-league jobs" means:
- a. full-time-equivalent employment in this state in an establishment which has qualified to receive a payment pursuant to the provisions of the Oklahoma Five Major Sports Leagues Rebate Program Act, and
 - b. shall include full-time-equivalent employment in this state of employees who are employed by an employment agency or similar entity other than the establishment which has qualified to receive a payment and who are leased or otherwise provided under contract to the qualified establishment if the job otherwise qualifies as a sports-league job.

Sports-league jobs shall not include compensation paid to an employee or independent contractor for an athletic contest conducted in the state if the compensation is paid by an entity that does not have its principal place of business in the state or that does not own real or personal property having a market value of at least One Million Dollars (\$1,000,000.00) located in the state, and the employees or independent contractors of such entity are compensated to compete against the employees or independent contractors of an establishment that qualifies for rebate payments pursuant to this act and which is organized under Oklahoma law or that is lawfully registered to do business in the state and which does have its principal place of business located in the state and owns real or personal property having a market value of at least One Million Dollars (\$1,000,000.00) located in the state.

B. In order to receive rebate payments, an establishment shall apply to the Oklahoma Department of Commerce. The application shall be on a form prescribed by the Department and shall contain such information as may be required by the Department to determine if the applicant is qualified.

C. Except as otherwise provided by this section, in order to qualify to receive payments, the establishment applying shall be required to:

1. Have an annual gross payroll for sports-league jobs projected by the Department to equal or exceed Ten Million Dollars (\$10,000,000.00) within one (1) year of the first complete calendar quarter following the start date; and

2. Have a number of full-time-equivalent employees subject to the tax imposed by Section 2355 of Title 68 of the Oklahoma Statutes and working an annual average of thirty (30) or more hours per week in sports-league jobs located in this state equal to or in excess of eighty percent (80%) of the total number of sports-league jobs.

D. Upon approval of an application, the Department shall notify the Tax Commission and shall provide it with a copy of the contract and the results of the cost-benefit analysis. The Tax Commission may require the qualified establishment to submit additional

information as may be necessary to administer the provisions of the Oklahoma Five Major Sports Leagues Rebate Program Act. The approved establishment shall file quarterly claims with the Tax Commission and shall continue to file such quarterly claims during the period in which the establishment or entity from one of the five major sports leagues is located and performs in this state to show its continued eligibility for rebate payments, or until it is no longer qualified to receive rebate payments. The establishment or entity may be audited by the Tax Commission to verify eligibility. Once the establishment or entity is approved, an agreement shall be deemed to exist between the establishment and this state, requiring the continued rebate payment to be made as long as the establishment or entity retains its eligibility as defined in and established pursuant to this section and within the limitations contained in the Oklahoma Five Major Sports Leagues Rebate Program Act, which existed at the time of approval. An establishment or entity described in this subsection shall be required to repay all rebate payments received under the Oklahoma Five Major Sports Leagues Rebate Program Act if the establishment or entity is determined by the Tax Commission to no longer have business operations in the state within three (3) years from the beginning of the calendar quarter for which the first rebate payment claim is filed.

E. For any contract executed by an establishment or entity pursuant to this act, five percent (5%) of the quarterly rebate payment amount shall be transferred by the Tax Commission to the Oklahoma Quick Action Closing Fund.

Added by Laws 2024, c. 298, § 2, eff. Nov. 1, 2024.

§68-3952. Filing of claims – Verification process.

A. As soon as practicable after the end of the first complete calendar quarter following the start date, the establishment or entity shall file a claim for the payment with the Oklahoma Tax Commission and shall specify the actual number and gross payroll of sports-league jobs for the establishment or entity for the calendar quarter. The Tax Commission shall verify the actual gross payroll for sports-league jobs for the establishment for such calendar quarter. If the Tax Commission is not able to provide verification utilizing all available resources, the Tax Commission may request additional information from the establishment or entity as may be necessary or may request the establishment to revise its claim. An establishment or entity may file for an extension of the initial filing date with the Oklahoma Department of Commerce. Any such extension shall be based solely upon an extraordinary adverse business circumstance which prevented the establishment or entity from hiring the sports-league jobs as projected. If an establishment or entity fails to file claims as required by this section, it shall forfeit the right to receive any rebate payments

after one (1) year from the start date. If an establishment or entity has filed at least one claim pursuant to this section but fails to file another claim within two (2) years of the most recent claim, the Tax Commission, after consulting with the Oklahoma Department of Commerce, may dismiss the establishment from the program, forfeiting the right of the establishment or entity to receive rebate payments based on that contract.

B. If the actual verified gross payroll for four (4) consecutive calendar quarters does not equal or exceed the applicable total required by this act within three (3) years of the start date, or does not equal or exceed the applicable total required by Section 3604 of Title 68 of the Oklahoma Statutes at any other time during the entire period after the start date for establishments defined or classified in the NAICS Manual under U.S. Industry No. 711211 (2007 version) and which are a professional sports team from one of the five major sports leagues (NFL, NBA, NHL, MLB, and MLS), the rebate payments shall not be made and shall not be resumed until such time as the actual verified gross payroll equals or exceeds the applicable amounts specified in Section 3604 of Title 68 of the Oklahoma Statutes. If an establishment fails to achieve the required gross payroll within three (3) years of the start date, the establishment shall not make a new or renewal application for rebate payments authorized pursuant to the Oklahoma Five Major Sports Leagues Rebate Program Act for a period of twelve (12) months from the last day of the last month of the three-year period during which the required gross payroll amount was not achieved.

C. In no event shall rebate payments cumulatively exceed the estimated net direct state benefits or Ten Million Dollars (\$10,000,000.00) in four (4) consecutive quarters.

D. As soon as practicable after verification of the actual gross payroll as required by this section, the Tax Commission shall issue a warrant to the establishment in the amount of the net benefit rate multiplied by the actual gross payroll as determined pursuant to subsection A of this section for the calendar quarter. Added by Laws 2024, c. 298, § 3, eff. Nov. 1, 2024.

§68-3953. Oklahoma Five Major Sports Leagues Rebate Payment Fund.

There is hereby created within the State Treasury a special fund for the Oklahoma Tax Commission to be designated the "Oklahoma Five Major Sports Leagues Rebate Payment Fund". The Tax Commission is hereby authorized and directed to withhold a portion of the taxes levied and collected pursuant to Section 2355 of Title 68 of the Oklahoma Statutes for deposit into the fund. The amount deposited shall equal the sum of an amount determined by multiplying the net benefit rate provided by the Oklahoma Department of Commerce by the gross payroll as determined pursuant to the provisions of this act.

All the amounts deposited in the fund shall be used and expended by the Tax Commission solely for the purposes and in the amounts authorized by the Oklahoma Five Major Sports Leagues Rebate Program Act. The liability of the State of Oklahoma to make the rebate payments under this act shall be limited to the balance contained in the fund created by this section.

§68-4202. Purpose - Legislative intent - Incentive payments.

A. It is the purpose of this act to implement the provisions of the constitutional amendment contained in Enrolled Senate Bill No. 755 of the 1st Session of the 50th Oklahoma Legislature.

B. It is the intent of the Legislature that:

1. The State of Oklahoma provide appropriate incentives to support retention of manufacturing establishments:

- a. that yield higher long-term benefits for job retention and increase the wealth of the state,

- b. that create competitive advantages for the State of Oklahoma in attracting and retaining industries and jobs, and
- c. that hold the promise of significant modernization and retooling that will assure the stability of the industry in Oklahoma and, by doing so, help enlarge the tax base and stabilize the economy of the State of Oklahoma when there is a direct threat to the existing revenue base and wealth of the state because existing establishments are at risk of being lost to other states or nations;

2. The amount of incentives provided pursuant to this act in connection with a particular establishment be directly related to benefits caused by retention of jobs and investment and the placing of new investment, created as a result of the establishment modernizing and retooling in, and thereby remaining and growing in the State of Oklahoma as reflected by the economic impact, historical contributions trends and tax revenue projections analyses;

3. The Quality Investment Committee created by this act, the Oklahoma Department of Commerce, the Oklahoma Tax Commission, the Governor, the President Pro Tempore of the Senate and the Speaker of the House of Representatives implement the provisions of this act and exercise all powers as authorized in this act. The exercise of powers conferred by this act shall be deemed and held to be the performance of essential public purposes; and

4. Nothing herein shall be construed to constitute a guarantee or assumption by the State of Oklahoma of any debt of any individual, company or corporation or association. Nor does this act authorize the credit of the State of Oklahoma to be given, pledged or loaned to any individual, company, corporation or association. Nothing herein shall be construed to constitute a gift by the State of Oklahoma to any individual, company, corporation or association.

C. In fiscal years when the provisions of subparagraph a of paragraph 6 of Section 23 of Article X of the Oklahoma Constitution are not applicable and the balance at the beginning of such fiscal year in the Constitutional Reserve Fund is equal to or greater than Eighty Million Dollars (\$80,000,000.00), up to Ten Million Dollars (\$10,000,000.00) may be expended for the purpose of providing incentives to support retention of at-risk manufacturing establishments in this state in order to retain employment for residents of this state. Such incentives shall be paid by the Oklahoma Tax Commission upon a unanimous finding by the Governor, the Speaker of the House of Representatives and the President Pro Tempore of the Senate that:

1. Such incentives have been recommended by the Quality Investment Committee created by this act pursuant to criteria set out by law;

2. The incentive will result in a substantial benefit to this state; and

3. Payment of the incentive would be in accordance with law. Added by Laws 2006, c. 1, § 2, eff. July 1, 2007, following passage of State Question No. 725 (SB 755, Laws 2005, c. 239) on Nov. 7, 2006.

For purposes of the Oklahoma Quality Investment Act:

1. "At-risk establishments" are those manufacturing establishments, presently existing in Oklahoma which the Quality Investment Committee, as described in paragraph 6 of this section, finds would be lost within the state based on changes in global economies, establishment structure, consolidation of establishments, and which are structurally noncompetitive but which could regain a competitive position with new investment if incentives are offered;

- a. the average of the growth percentages to determine the projected growth in such revenues to the community and the state over the following ten (10) years if no retooling occurs but retention is assumed to be a constant and remains stagnant,
- b. the modernization or retooling project's estimated impact on tax revenues and growth rates over the following ten (10) years, and
- c. the projections of loss in tax revenues should the plant location close and operations, in whole or in part, are removed from the state.

The Oklahoma Department of Commerce may contract with the Oklahoma Tax Commission for performance of tax revenues projections analyses to aid it in determining whether to enter into an agreement upon recommendation of the Quality Investment Committee;

8. "Establishment" means a manufacturer that is a partnership, limited partnership, corporation, limited liability company, limited liability partnership, or sole proprietorship. The establishment may enter into a Quality Investment Contract pertaining to only one manufacturing site as that term is defined in Section 1352 of Title 68 of the Oklahoma Statutes. §68-4204. Quality Investment Contracts - Application - Requirements - Qualifications.

A. An establishment which meets the qualifications specified in the Oklahoma Quality Investment Act may apply to enter into a Quality Investment Contract to receive annual incentive payments over a five-year period from the Oklahoma Tax Commission pursuant to the provisions of the Oklahoma Quality Investment Act in an amount which shall not exceed ten percent (10%) of the amount of actual capital costs invested pursuant to a Quality Investment Contract developed and executed pursuant to this act. The Committee shall review economic impacts, historical contributions trends and tax revenue projections analyses conducted by or on behalf of the Oklahoma Department of Commerce, and shall consider whether or not the establishment is located in an economically distressed area of the state, the number of jobs which are at risk, and the average salary of the jobs which are at risk for the purposes of making recommendations for offering a Quality Investment Contract and the percentage of investment which shall be provided as incentive payments. Provided, incentive payments shall in no event exceed ten percent (10%) of the capital costs actually incurred for the Oklahoma site that is the subject of the agreement. Provided, a county, town or municipality in which an establishment eligible to receive annual incentive payments pursuant to this section is located may join in the Quality Investment Contract with the state and the establishment and set out that it intends to annually appropriate a portion of local sales tax revenue that shall be included in the incentive payments.

Provided further, the Quality Investment Committee may not recommend and the state shall not enter into contracts that would result in payments from state revenues to all establishments in the program in an amount in excess of Ten Million Dollars (\$10,000,000.00) in any fiscal year. The maximum amount of projected investment for purposes of a contract made pursuant to this act shall not exceed Fifty Million Dollars (\$50,000,000.00).

2. Incur capital costs for new retooling or modernization projected to equal or exceed One Million Dollars (\$1,000,000.00) within twenty-four (24) months of the start date; and

3. Apply to and enter into a Quality Investment Contract specifying:

- a. the amount of capital investment the establishment must make within twenty-four (24) months of the start date in order to remain in the Oklahoma Quality Investment Program,
- b. the total minimum amount of Oklahoma taxable payroll it will maintain in this state during the course of the agreement,

§68-4205. Application for incentive payment - Cessation of payment - New application - Verification and payment.

A. As soon as practicable after the end of a calendar year for which an establishment has qualified to receive an incentive payment, the establishment shall file a claim for the payment with the Oklahoma Tax Commission for one-tenth (1/10) or less of the total amount of investment identified and specified in its Quality Investment Contract. Provided, in the event the establishment applies for an incentive payment before all investment for retooling or modernization has occurred, the payment shall be reduced by the percentage of investment costs predicted but not incurred at the time of the claim as those costs bear to the whole investment. In no event shall the first claim for investment payment be filed later than two (2) years from the start date designated by the Quality

Investment Committee. The Tax Commission shall verify for each calendar year the actual amount of capital investment in Oklahoma and the amounts of local communities' sales tax rebates for the establishment. If the Tax Commission is not able to provide such verification utilizing all available resources, the Tax Commission may request such additional information from the establishment as may be necessary or may reject the establishment's claim.

B. If the capital costs for investment in retooling or investment does not meet or exceed One Million Dollars (\$1,000,000.00) within twenty-four (24) months of the start date of the establishment as set out in its agreement with the Quality Investment Committee, incentive payments shall cease and shall not be resumed.

C. An establishment that has qualified pursuant to Section 4 of this act may receive payments only in accordance with the provisions under which it initially applied and was approved.

D. An establishment that is receiving incentive payments may not apply for additional incentive payments for any new capital improvement projects until twelve (12) quarters after receipt of the first incentive payment, or until the establishment's actual verified capital costs of retooling and modernization equals or exceeds One Million Dollars (\$1,000,000.00), whichever comes first. After meeting the requirements of this subsection, an establishment may apply for additional incentive payments based upon additional retooling and modernization capital costs and investment.

E. As soon as practicable after verification of the eligibility of the manufacturer as required by this section, the Tax Commission shall issue a warrant to the establishment.

Added by Laws 2006, c. 1, § 5, eff. July 1, 2007, following passage of State Question No. 725 (SB 755, Laws 2005, c. 239) on Nov. 7, 2006.

§68-4206. Quality Investment Committee - Meetings - Recommendations - Consideration by Governor, Speaker and President Pro Tempore - Investments authorized.

A. The Quality Investment Committee shall meet not less than once per quarter and consider applications for Quality Investment Contracts from at-risk establishments. The Committee shall review each application received since its last meeting and consider for each application economic impacts, historical contributions trends and tax revenue projections analyses conducted by or on behalf of the Oklahoma Department of Commerce; whether the establishment is located in an economically distressed area of the state; whether loss of the establishment would cause the local community to become an economically distressed area; the number of jobs of Oklahoma citizens which are at risk; and the average salary of the jobs which are at risk.

B. Based on its review of applications, the Committee shall make recommendations to the Governor, the Speaker of the House of Representatives and the President Pro Tempore of the Senate as to which applications for investment contracts should be approved and the percentage of investment the state should make as an incentive payment to the at-risk establishment for those contracts which are approved. In making such recommendations, the Committee shall not make recommendations for Quality Investment Contracts which could require payments in any year in excess of the amount allowed by the Oklahoma Quality Investment Act or the provisions of Section 23 of Article X of the Oklahoma Constitution.

C. The Governor, the Speaker of the House of Representatives and the President Pro Tempore of the Senate shall meet as often as is necessary to consider recommendations of the Quality Investment Committee. The Governor shall schedule and chair such meetings. Quality Investment Contracts shall only be entered into upon the unanimous approval by the Governor, the Speaker of the House of Representatives and the President Pro Tempore of the Senate of the terms of the contract. A decision on recommendations of the Quality Investment Committee shall be made within thirty (30) days of receipt of such recommendations.

D. For any fiscal year, the incentives shall not exceed ten percent (10%) of the amount invested by an establishment in capital assets to be utilized in this state. The contract shall make payment of any incentives in any fiscal year contingent on the balance at the beginning of such fiscal year in the Constitutional Reserve Fund being equal to or greater than Eighty Million Dollars (\$80,000,000.00) and on the certification by the State Board of Equalization for such fiscal year General Revenue Fund being greater than that of the preceding fiscal year certification. Investment contracts authorized by this act shall provide that if any incentive payment is payable during a fiscal year in which either the balance at the beginning of the fiscal year in the Constitutional Reserve Fund is not equal to or greater than Eighty Million Dollars (\$80,000,000.00) or when the certification by the State Board of Equalization for such fiscal year General Revenue Fund is less than that of the immediately prior fiscal year certification, then any incentive payments which would have been payable during such fiscal year shall be payable in the first fiscal year when funds are available pursuant to the provisions of division 1 of subparagraph (b) of paragraph 6 of Section 23 of Article X of the Oklahoma Constitution. In the event that the amount of incentives due in any year under investment contracts authorized by this subsection is less than the amounts available for payment under this subsection in such year, then incentives payments for such year shall be reduced pro rata.

Added by Laws 2006, c. 1, § 6, eff. July 1, 2007, following passage of State Question No. 725 (SB 755, Laws 2005, c. 239) on Nov. 7, 2006.

§68-4302. Legislative findings.

The Legislature finds that certain quality events conducted within the state have a significant economic impact. In order to assist with the promotion of such events and to assist the promoters and organizers of such events with the planning and performance of such events, the Legislature finds that it is in furtherance of an essential governmental function to provide a method by which an eligible municipality or an eligible county may utilize a portion of the state sales tax revenues derived from taxable transactions occurring within a designated area to promote certain qualifying events. The State of Oklahoma has a legitimate interest in economic

development related to the occurrence of quality events and the Legislature finds that the use of state sales tax revenues authorized by this act provides a method by which the state can compete successfully in a national and global economy against other jurisdictions offering similar incentives for such events.

A. As soon as practicable after the end of the first complete calendar quarter following the start date, the proxy establishment shall file a claim for the payment with the Oklahoma Tax Commission and shall specify the actual number and gross payroll of new direct jobs of remote workers for the proxy establishment for the calendar quarter. The Tax Commission shall verify the actual gross payroll for new direct jobs for the proxy establishment for such calendar quarter. If the Tax Commission is not able to provide such verification utilizing all available resources, the Tax Commission may request such additional information from the proxy establishment as may be necessary or may request the proxy establishment to revise its claim. A proxy establishment may file for an extension of the initial filing date with the Oklahoma Department of Commerce. Any such extension shall be based solely upon an extraordinary adverse business circumstance which prevented the proxy establishment from attracting the remote workers in the new direct jobs as projected. If a proxy establishment fails to file claims as required by this section, it shall forfeit the right to receive any incentive payments after two (2) years from the start date. If an establishment has filed at least one claim pursuant to this section but fails to file another claim within two (2) years of the most recent claim, the Tax Commission, after consulting with the Department of Commerce, may dismiss the establishment from the program, forfeiting the establishment's right to receive incentive payments based on that contract.

B. If the actual verified gross payroll for four (4) consecutive calendar quarters does not equal or exceed the applicable total required by Section 4 of this act within twelve (12) months of the start date, or does not equal or exceed the

applicable total required by Section 4 of this act at any other time during the ten-quarter period after the start date, the incentive payments shall not be made and shall not be resumed until such time as the actual verified gross payroll equals or exceeds the amounts specified in Section 4 of this act. If a proxy establishment fails to achieve the required gross payroll within twelve (12) months of the start date, the proxy establishment shall not make a new or renewal application for incentive payments authorized pursuant to the Oklahoma Remote Quality Jobs Incentive Act for a period of twelve (12) months from the last day of the last month of the ten-quarter period during which the required gross payroll amount was not achieved.

C. If the average annualized wage required for a proxy establishment does not equal or exceed the amount specified in paragraph 1 or 2 of subsection F of Section 3604 of Title 68 of the Oklahoma Statutes during any calendar quarter, the incentive payments shall not be made and shall not be resumed until such time as such requirements are met.

D. In no event shall incentive payments, cumulatively, exceed the estimated net direct state benefits or exceed the cumulative payments made by a proxy establishment to remote workers.

E. The proxy establishment shall be responsible for collecting payroll statements or other such documentation of withholding taxes paid to the State of Oklahoma from remote workers and shall submit that information to the Oklahoma Tax Commission.

Added by Laws 2021, c. 225, § 6, eff. July 1, 2021.

§68-4507. Tax credits and exemptions excluded.

Notwithstanding any other provision of law, if a qualified proxy establishment receives an incentive payment pursuant to the provisions of this act, neither the qualified proxy establishment nor the companies associated with the remote workers shall be eligible to receive the credits or exemptions provided for in the following provisions of law in connection with the activity for which the incentive payment was received:

1. Section 3603 of Title 68 of the Oklahoma Statutes (Oklahoma Quality Jobs Program Act);

A. The tax stamp or stamps required by Section 5402 of this title to be affixed upon the dealer's copy of the sales invoice

covering each new or used whole goods agricultural equipment or whole goods attachment thereto sold shall be manufactured or purchased by Service Oklahoma in the required amounts. The tax stamps shall be of such design, color combination and material and value in multiples of Six Dollars (\$6.00) as Service Oklahoma shall deem necessary for the administration of this tax and to afford the best security to the tax revenue involved. The stamps shall be purchased by dealers in the county where the business is located.

B. Service Oklahoma may require any manufacturer of such tax stamps to furnish a bond in such amount as it deems necessary to protect the state and local taxing entities against loss.

C. Service Oklahoma shall distribute such tax stamps to the county treasurer of each county, taking such receipt therefor as may be necessary. The county treasurer shall have the responsibility of the custody and the sale of the stamps to the person required by Section 5402 of this title to obtain such stamps. In addition, the county treasurer shall have the duty of accounting for such stamps to their respective counties, and to Service Oklahoma as it may require.

2. Ninety-eight percent (98%) shall be distributed as if the funds had been collected as ad valorem tax where the farm implement dealer's business is located.

Funds received by taxing jurisdictions from this source shall be utilized as if the funds had in fact been generated by ad valorem taxes, including servicing of debt by sinking funds. On and after January 1, 1993, and at the end of each calendar year thereafter, the treasurer shall furnish a report to the county assessor, which shall show the total amount of in-lieu taxes authorized by Section 5401 et seq. of this title and Section 2805 of this title and apportioned during the fiscal year to those taxing jurisdictions authorized to receive revenue from such in-lieu taxes. The assessor shall calculate annually the amount of assessed valuation that otherwise would be displaced by such in-lieu tax, by dividing the total amount of revenue derived from such tax apportioned to each taxing jurisdiction by the actual millage rate levied by each taxing

jurisdiction during the fiscal year. The assessor shall add the result of that calculation to the actual assessed valuation of each taxing jurisdiction to determine the new adjusted assessed valuation of each taxing jurisdiction, and such adjusted assessed valuation shall be used for all purposes, including the determination of debt limits, in the following fiscal year whenever the term "assessed valuation" is required to be used.

§68-54004. Purchaser primarily engaged in computer services and data processing or research and development - Refund of state and local sales taxes.

A. In order to administer the exemption for sales to a qualified computer services, data processing or research and development facility as provided by Section 54003 of this title, there shall be made a sales tax refund for state and local sales taxes paid by the account created by this section to such qualified facility.

B. The Oklahoma Tax Commission shall transfer each month from sales tax collected the amount which the Commission estimates to be necessary to make the sales tax refund provided by this section to an account designated as the Commission determines.

C. Any refund shall be paid from the account prescribed by this section at the time the claim for refund is approved by the Oklahoma Tax Commission. The amount of the refund shall not exceed the total state and local sales taxes paid together with accrued interest upon such total. The amount of interest paid to a qualified computer services, data processing or research and development facility upon the principal amount of any refund made to such qualified facility for purposes of administering the exemption provided by Section 54003 of this title, shall be determined according to the provisions of this subsection. For any month during which the Oklahoma Tax Commission transfers a sum to the account prescribed by subsection B of this section, the Commission shall determine an interest rate by determining the rate of interest paid for a three-month Treasury Bill of the United States government as of the first working day of the month in which the transfer is made. The interest rate so determined shall accrue upon the amount transferred to the account. In each subsequent month, the Commission shall determine the interest rate paid for a three-month Treasury Bill of the United States government as of the first working day of the month and such interest rate shall accrue upon any amount transferred during the month and upon the amounts previously transferred to the account together with interest previously accrued upon such amounts.

D. For purposes of this section, state and local sales taxes paid by a contractor or subcontractor for qualified purchases as defined in Section 54002 of this title, purchased by that contractor or subcontractor pursuant to a contract with a qualified computer services, data processing or research and development facility shall, upon proper showing, be refunded to such qualified facility.

E. The qualified computer services, data processing or research and development facility shall file with the Oklahoma Tax Commission the following documentation for any refund claimed:

1. Invoices indicating the amount of state and local sales tax billed;

2. Affidavit of each vendor that state and local sales tax billed has not been audited, rebated, or refunded to such qualified facility but rather the sales tax charged has been collected by the vendor and remitted to the Oklahoma Tax Commission; and

3. All additional documentation required to be submitted pursuant to rules promulgated by the Oklahoma Tax Commission.

F. In the event that state and local sales tax was paid by a contractor or subcontractor, the qualified computer services, data processing or research and development facility shall file with the Oklahoma Tax Commission all documentation required in subsection E of this section but in lieu of the affidavit of each vendor the qualified facility shall file, for any refund claimed, an affidavit from the contractor or subcontractor stating that the sales tax refund of the qualified facility is based on state and local sales

tax paid by the contractor or subcontractor on qualified purchases as defined in Section 54002 of this title, purchased and that the amount of state and local sales tax claimed was paid to the vendor and no credit, refund, or rebate has been claimed by the contractor or subcontractor.

G. Only sales of qualified purchases as defined in Section 54002 of this title, made after July 1, 1992, and before July 1, 2022, shall be eligible for the refund established by this section.

H. The qualified computer services, data processing or research and development facility shall file, within thirty-six (36) months of the date of the first purchase which is exempt from taxation pursuant to the provisions of Section 54003 of this title, with the Oklahoma Tax Commission a certification issued by the Oklahoma Employment Security Commission in order to qualify for the refund authorized by this section.

I. Notwithstanding the provisions of any state tax law, the amount refunded under this section shall be assessed if the number of new full-time-equivalent employees drops below the number prescribed in Section 54002 of this title, at any time within thirty-six (36) months of the date certification is issued by the Oklahoma Employment Security Commission.

J. All claims for refunds provided pursuant to this section shall be submitted to the Oklahoma Tax Commission by July 1, 2022. Added by Laws 1992, c. 225, § 8, eff. July 1, 1992. Amended by Laws 2022, c. 150, § 1, emerg. eff. May 2, 2022.

NOTE: This section was purportedly repealed by Laws 2022, c. 146, § 1, eff. Nov. 1, 2022.

§68-54005. Purchaser primarily engaged in computer services and data processing or research and development - Refund of state and local use taxes.

A. In order to administer the exemption for sales to a qualified computer services, data processing or research and development facility as provided by Section 54003 of this title, as applicable to the use tax imposed by law, there shall be made a use tax refund for state and local taxes paid by qualified facilities for qualified purchases as defined in Section 54002 of this title, from the account created by this section.

B. The Oklahoma Tax Commission shall transfer each month from use tax collected the amount which the Commission estimates to be necessary to make the use tax refund provided by this section to an account designated as the Commission determines.

C. Any refund shall be paid from the account prescribed by this section at the time the claim for refund is approved by the Oklahoma Tax Commission. The amount of the refund shall not exceed the total state and local use taxes paid together with accrued interest upon such total. The amount of interest paid to a qualified computer

services, data processing or research and development facility upon the principal amount of any refund made to such facility for purposes of administering the exemption provided by Section 54003 of this title, shall be determined according to the provisions of this subsection. For any month during which the Oklahoma Tax Commission transfers a sum to the account prescribed by subsection B of this section, the Commission shall determine an interest rate by determining the rate of interest paid for a three-month Treasury Bill of the United States government as of the first working day of the month in which the transfer is made. The interest rate so determined shall accrue upon the amount transferred to the account. In each subsequent month, the Commission shall determine the interest rate paid for a three-month Treasury Bill of the United States government as of the first working day of the month and such interest rate shall accrue upon any amount transferred during the month and upon the amounts previously transferred to the account together with interest previously accrued upon such amounts.

D. For purposes of this section, state and local use taxes paid by a contractor or subcontractor for qualified purchases as defined in Section 54002 of this title, purchased by that contractor or subcontractor pursuant to a contract with a qualified facility shall, upon proper showing, be refunded to such qualified facility.

E. The qualified computer services, data processing or research and development facility shall file with the Oklahoma Tax Commission the following documentation for any refund claimed:

1. Invoices indicating the amount of state and local use tax billed;

2. Affidavit of each vendor that state and local use tax billed has not been audited, rebated, or refunded to such qualified facility but rather the use tax charged has been collected by the vendor and remitted to the Oklahoma Tax Commission; and

3. All additional documentation required to be submitted pursuant to rules promulgated by the Oklahoma Tax Commission.

F. In the event that state and local use tax was paid by a contractor or subcontractor, the qualified facility shall file with the Oklahoma Tax Commission all documentation required in subsection E of this section but in lieu of the affidavit of each vendor the qualified facility shall file, for any refund claimed, an affidavit from the contractor or subcontractor stating that the use tax refund of the qualified manufacturer is based on state and local use tax, paid by the contractor or subcontractor on qualified purchases as defined in Section 54002 of this title, purchased and that the amount of the state and local use tax claimed was paid to the vendor and no credit, refund, or rebate has been claimed by the contractor or subcontractor.

G. Only sales of tangible personal property made after July 1, 1992, shall be eligible for the refund established by this section.

H. The qualified computer services, data processing or research and development facility shall file, within thirty-six (36) months of the date of the first purchase which is exempt from taxation pursuant to the provisions of Section 54003 of this title, with the Oklahoma Tax Commission, a certification issued by the Employment Security Commission in order to qualify for the refund authorized by this section.

I. Notwithstanding the provisions of any state tax law, the amount refunded under this section shall be assessed if the number of new full-time-equivalent employees drops below the number prescribed in Section 54002 of this title, at any time within thirty-six (36) months of the date certification is issued by the Oklahoma Employment Security Commission.

§68-55001. Definitions - Implementation of federal law - Taxes to which act applies - Services deemed to be provided by home service provider.

A. As used in this section:

1. "Charges for mobile telecommunications services" means any charge for, or associated with, the provision of commercial mobile radio service, as defined in Section 20.3 of Title 47 of the Code of Federal Regulations as in effect on June 1, 1999, or any charge for, or associated with, a service provided as an adjunct to a commercial mobile radio service, that is billed to the customer by or for the customer's home service provider regardless of whether individual transmissions originate or terminate within the licensed service area of the home service provider;

2. a. "Customer" means, in general:

- (1) the person or entity that contracts with the home service provider for mobile telecommunications services, or
- (2) if the end user of mobile telecommunications services is not the contracting party, the end user of the mobile telecommunications service, but this division applies only for the purpose of determining the place of primary use.

b. The term "customer" does not include:

- (1) a reseller of mobile telecommunications service, or

- (2) a serving carrier under an arrangement to serve the customer outside the home service provider's licensed service area;

3. "Designated database provider" means a corporation, association, or other entity representing the state and political subdivisions of the state that is:

- a. responsible for providing an electronic database prescribed in Section 3 of this act, and
- b. approved by the Tax Commission;

4. "Enhanced zip code" means a United States postal zip code of 9 or more digits;

5. "Home service provider" means the facilities-based carrier or reseller with which the customer contracts for the provision of mobile telecommunications services;

6. "Licensed service area" means the geographic area in which the home service provider is authorized by law or contract to provide commercial mobile radio service to the customer;

7. "Mobile telecommunications service" means commercial mobile radio service, as defined in Section 20.3 of Title 47 of the Code of Federal Regulations as in effect on June 1, 1999;

8. "Place of primary use" means the street address representative of where the customer's use of the mobile telecommunications service primarily occurs, which must be:

- a. the residential street address or the primary business street address of the customer, and
- b. within the licensed service area of the home service provider;

9. "Prepaid telephone calling services" means the right to purchase exclusively telecommunications services that must be paid for in advance, that enables the origination of calls using an access number, authorization code, or both, whether manually or electronically dialed, if the remaining amount of units of service that have been prepaid is known by the provider of the prepaid service on a continuous basis;

10. "Reseller" means a provider who purchases telecommunications services from another telecommunications service provider and then resells, uses as a component part of, or integrates the purchased services into a mobile telecommunications service. The term "reseller" does not include a serving carrier with which a home service provider arranges for the services to its customers outside the home service provider's licensed service area; and

11. "Serving carrier" means a facilities-based carrier providing mobile telecommunications service to a customer outside a home service provider's or reseller's licensed service area.

B. The Oklahoma Legislature finds that the United States Congress has enacted the Mobile Telecommunications Sourcing Act for

the purpose of establishing uniform nationwide sourcing rules for state and local taxation of mobile telecommunications services. In general, the rules provide that taxes on mobile telecommunications services shall be paid to the jurisdiction where the customer's primary use of such services occurs, irrespective of where the mobile telecommunications services originate, terminate, or pass through. The Oklahoma Legislature desires to implement the federal Mobile Telecommunications Sourcing Act in the state, and to make state and local government officials aware of its provisions. The Oklahoma Legislature recognizes that the federal act is intended to provide sourcing rules in a manner that is revenue-neutral among the states, and that the sourcing rules required by it are likely in fact to be revenue-neutral at the state level. The Oklahoma Legislature further finds that the federal requirements are within the powers of the federal government.

C. 1. This act shall apply to the tax imposed by Section 1354 of Title 68 of the Oklahoma Statutes and any tax, charge, or fee that may be levied by the state or a taxing jurisdiction within this state as a fixed charge for each customer or measured by gross amounts charged to customers for mobile telecommunications services, regardless of whether such tax, charge, or fee is imposed on the vendor or customer of the service and regardless of the terminology used to describe the tax, charge, or fee.

2. This act does not apply to:

- a. any tax, charge, or fee levied upon or measured by the net income, capital stock, net worth, or property value of the provider of mobile telecommunications service,
- b. any tax, charge, or fee that is applied to an equitably apportioned amount that is not determined on a transactional basis,
- c. any tax, charge, or fee that represents compensation for a mobile telecommunications service provider's use of public rights-of-way or other public property, provided that such tax, charge, or fee is not levied by the taxing jurisdiction as a fixed charge for each customer or measured by gross amounts charged to customers for mobile telecommunication services, or
- d. any generally applicable business and occupation tax that is imposed by the state, is applied to gross receipts or gross proceeds, is the legal liability of the home service provider, and that statutorily allows the home service provider to elect to use the sourcing method required in this section.

3. The provisions of this act:

- a. do not apply to the determination of the taxing situs of prepaid telephone calling services, and

- b. do not apply to the determination of the taxing situs of air-ground radiotelephone service as defined in Section 22.99 of Title 47 of the Code of Federal Regulations as in effect on June 1, 1999.

D. 1. Notwithstanding any other provision of law of this state or any political subdivision of this state, mobile telecommunications services provided in a taxing jurisdiction to a customer, the charges for which are billed by or for the customer's home service provider, shall be deemed to be provided by the customer's home service provider.

2. All charges for mobile telecommunications services that are subject to the tax imposed by Section 1354 of Title 68 of the Oklahoma Statutes and that are deemed under this act to be provided to a customer's place of primary use within this state by the customer's home service provider are subject to the tax, regardless of where the mobile telecommunication services originate, terminate, or pass through.

3. A home service provider shall be responsible for obtaining and maintaining the customer's place of primary use. Subject to the provisions of paragraph 5 of this subsection, a home service provider may rely on the applicable residential or business street address supplied by the home service provider's customer, and will not be liable for any additional taxes, charges, or fees based on a different determination of the place of primary use for taxes, charges, or fees that are customarily passed on to the customer as a separate itemized charge if the reliance on information provided by its customer is in good faith.

4. Except as provided in paragraph 5 of this subsection, a home service provider may treat the address used by the home service provider for tax purposes for any customer under a service contract or agreement in effect on or before July 28, 2002, as that customer's place of primary use for the remaining term of such service contract or agreement, excluding any extension or renewal of such service contract or agreement, for purposes of determining the taxing jurisdictions to which taxes, charges, or fees on charges for mobile telecommunications services are remitted.

5. The Oklahoma Tax Commission may:

- a. determine that the address used for purposes of determining the taxing jurisdictions to which taxes, charges, or fees for mobile telecommunications services are remitted does not meet the definition of "place of primary use" in this section and give binding notice to the home service provider to change the place of primary use on a prospective basis from the date of notice of determination. Before the Tax Commission gives such notice of determination, the customer shall be given an opportunity to demonstrate

in accordance with Tax Commission rules and administrative procedures that the address is the customer's place of primary use, or

- b. determine that the assignment of a taxing jurisdiction by a home service provider under Section 3 of this act does not reflect the correct taxing jurisdiction and give binding notice to the home service provider to change the assignment on a prospective basis from the date of notice of determination. The home service provider shall be given an opportunity to demonstrate in accordance with Tax Commission rules and administrative procedures that the assignment reflects the correct taxing jurisdiction.

6. If charges for nontaxable mobile telecommunications services are aggregated with and not separately stated from charges that are subject to taxation, then the charges for nontaxable mobile telecommunications services will be subject to taxation unless the home service provider can reasonably identify charges not subject to the tax, charge, or fee from its books and records that are kept in the regular course of business.

7. If a customer believes that an amount of tax, charge or fee, or assignment of place of primary use or taxing jurisdiction included on a billing is erroneous, the customer shall notify the home service provider in writing. The customer shall include in this written notification the street address for the place of primary use, the account name and number for which the customer seeks a correction of the tax assignment, a description of the error asserted by the customer, and any other information that the home service provider reasonably requires to process the request. Within sixty (60) days of receiving a notice under this section, the home service provider shall review its records and the electronic database or enhanced zip code to determine the customer's taxing jurisdiction. If this review shows that the amount of tax, charge or fee, or assignment of place of primary use or taxing jurisdiction is in error, the home service provider shall correct the error and refund or credit the amount of tax, charge or fee erroneously collected from the customer for a period of up to two (2) years. If this review shows that the amount of tax, charge or fee, or assignment of place of primary use or taxing jurisdiction is correct, the home service provider shall provide a written explanation to the customer. The procedures in this section shall be the first course of remedy available to customers seeking correction of assignment of place of primary use or taxing jurisdiction, or a refund of or other compensation for taxes, charges or fees erroneously collected by the home service provider, and no cause of action based upon a dispute arising from the Act

shall accrue until a customer has reasonably exercised the rights and procedure set forth herein.

Added by Laws 2001, c. 153, § 2.

§68-55002. Provision of electronic database containing local taxing jurisdiction information - Liability of home service provider - Presumption.

A. The Oklahoma Tax Commission may provide an electronic database to a home service provider or, if the Tax Commission does not provide such an electronic database to home service providers, then the designated database provider may provide an electronic database to a home service provider. Such database shall provide the appropriate local taxing jurisdiction for each street address in the state, including to the extent practicable, any multiple postal street addresses applicable to one street location, and shall be in the format required by Section 119 of the federal "Mobile Telecommunications Sourcing Act".

B. The Tax Commission or designated database provider shall provide notice of the availability of the then current electronic database, and any subsequent revisions thereof, by publication in the manner normally employed for the publication of informational tax, charge, or fee notices to taxpayers in the state.

C. A home service provider using the data contained in an electronic database described in subsection A of this section shall be held harmless from any tax, charge, or fee liability that otherwise would be due solely as a result of any error or omission in such database provided by the Tax Commission or designated database provider. The home service provider shall reflect changes made to such database during a calendar quarter not later than thirty (30) days after the end of such calendar quarter.

D. If an electronic database is not provided under subsection A of this section, a home service provider shall be held harmless from any tax, charge, or fee liability in this state that otherwise would be due solely as a result of an assignment of a street address to an incorrect taxing jurisdiction if, subject to Section 2 of this act, the home service provider employs an enhanced zip code to assign each street address to a specific taxing jurisdiction for each level of taxing jurisdiction and exercises due diligence at each level of taxing jurisdiction to ensure that each such street address is assigned to the correct taxing jurisdiction. If an enhanced zip code overlaps boundaries of taxing jurisdictions of the same level, the home service provider must designate one specific jurisdiction within such enhanced zip code for use in taxing the activity for such enhanced zip code for each level of taxing jurisdiction. Any enhanced zip code assignment changed in accordance with Section 2 of this act is deemed to be in compliance with this section.

E. For purposes of this section, there is a rebuttable presumption that a home service provider has exercised due diligence if such home service provider demonstrates that it has:

1. Expended reasonable resources to implement and maintain an appropriately detailed electronic database of street address assignments to taxing jurisdictions;

2. Implemented and maintained reasonable internal controls to promptly correct misassignments of street addresses to taxing jurisdictions; and

3. Used all reasonably obtainable and usable data pertaining to municipal annexation, incorporations, reorganizations and any other changes in jurisdictional boundaries that materially affect the accuracy of such database.

F. Subsection D of this section applies to a home service provider that is in compliance with the requirements of that subsection until the later of:

1. Eighteen (18) months after the nationwide standard numeric code described in federal "Mobile Telecommunications Sourcing Act" has been approved by the Federation of Tax Administrators and the Multistate Tax Commission; or

2. Six (6) months after the Tax Commission or a designated database provider in this state provides such database as prescribed in subsection A of this section.

Added by Laws 2001, c. 153, § 3.

§68-55003. Judgment limiting or impairing federal act - Invalidity of act.

If a court of competent jurisdiction enters a final judgment on the merits that:

1. Is based on federal or state law;

2. Is no longer subject to appeal; and

3. Substantially limits or impairs the essential elements of the federal Mobile Telecommunications Sourcing Act, P.L. 106-252, codified at 4 U.S.C., Sections 116 through 126 or Sections 2 and 3 of this act;

then the provisions of this act shall be invalid and shall have no legal effect as of the date of entry of such judgment.

Added by Laws 2001, c. 153, § 4.

§68-55004. When act applies relating to tax liabilities.

The provisions of this act relating to tax liabilities shall apply only to charges on or revenues from customer bills issued on or after August 1, 2002.

Added by Laws 2001, c. 153, § 5.

§68-55005. Facilitating Business Rapid Response to State Declared Disasters Act of 2015.

A. This act may be cited as the "Facilitating Business Rapid Response to State Declared Disasters Act of 2015".

B. As used in this act:

1. "Critical Infrastructure" means property and equipment owned or used by a telecommunications provider, a cable operator, and other communications networks, electric generation, transmission and distribution systems, natural gas and natural gas liquids gathering, processing, storage, transmission and distribution systems, water pipelines, and related support facilities that service multiple customers or citizens including, but not limited to, real and personal property such as buildings, offices, lines, poles, pipes, structures, and equipment;

2. "Declared state disaster or emergency" means a disaster or emergency event:

- a. for which a Governor's State of Emergency Proclamation has been issued,
- b. for which a Presidential Declaration of a Federal Major Disaster or Emergency has been issued, or
