**Research Analysis**

Senate Amendments to HB1060 provides that any court, arbitration, tribunal or administrative agency ruling based on foreign law that would suppress the fundamental liberties, rights and privileges granted by the state and US Constitution is void and unenforceable. A contract which provides for foreign law to govern all of disputes would also be void and unenforceable if the application of the foreign law infringes on the constitutional rights of the affected parties. Oklahoma residents may not subject themselves to foreign laws, however, corporations, partnerships or limited liability companies, business associations and other legal entities are exempt and may choose to subject themselves to foreign law. Foreign law is defined as any law, legal code, or system of a jurisdiction outside of any state or territory of the United States, including international organizations and tribunals, and applied by that jurisdiction's courts, administrative bodies or other formal or informal tribunal.
