

BILL SUMMARY
2nd Session of the 54th Legislature

Bill No.:	HB3348
Version:	Senate Amendments
Request Number:	
Author:	Armes
Date:	5/19/2014
Impact:	Not Required

Research Analysis

HB3348 would require towers used for measuring wind speed, as part of the wind power generation process, to be marked, painted, and flagged for clear visibility if it is at least 50 feet tall. The Oklahoma Aeronautics Commission would be responsible for promulgating the specific rules for these towers, including marking as well as notification requirements for building or removal of the towers.

Prepared By: Sean Webster

Fiscal Analysis

Not required.
