

BILL SUMMARY
2nd Session of the 54th Legislature

Bill No.:	SB1456
Version:	Engrossed
Request Number:	
Author:	Turner and Griffin
Date:	3/28/2014
Impact:	None to state

Research Analysis

SB 1456 directs retail electric suppliers to create a new class of retail customer for those who install distributed power generation, i.e. on-site electricity generation that is connected to the grid. The new class and its associated tariff must be created by December 31, 2015, but does not apply to customers with distributed power generation as of November 1, 2014.

Prepared By: Tricia Dameron

Fiscal Analysis

SB1456 has been reviewed and determined to have no fiscal impact on state revenues. SB1456 addresses retail electric suppliers (RES) and ensures that the RES cannot increase rates charged above those required to recover the full costs of distributed generation installation.
