Research Analysis

HB 1691 allows the board of education of any school district with an average daily membership of thirty thousand or more, which is in part or entirely located in a county that has a population of more than five hundred thousand according to the latest Federal Decennial Census, to contract with a public or private entity to provide educational and administrative services for the school district. These contracts will be exempt from all statutes and rules relating to schools, boards of education, and school districts the same extent that charter schools are exempt under the Oklahoma Charter Schools Act. Students who are provided services by a contracting entity will be considered students of the school district.

Fiscal Analysis

HB 1691, as introduced, allows a specified school district board of education to contract with a public or private nonsectarian entity for that entity to provide certain educational and administrative services for the school district. State Department of Education personnel provide that this measure has no fiscal impact.
