

BILL SUMMARY
1st Session of the 55th Legislature

Bill No.:	HB 1846
Version:	Introduced
Request Number:	5669
Author:	Rep. Inman
Date:	2/18/2015
Impact:	Minimum: \$250,000;
	Potential Cost Increase Resulting
	From State Software Customization

Research Analysis

HB 1846, as introduced, provides for electronic submission of a voter registration application.

Prepared By: Marcia Goff

Fiscal Analysis

HB 1846 directs the Secretary of the State Election Board to establish a secure website to permit electronic voter registration. The State Election Board, in conjunction with the agency's software vendors, estimate a minimum cost to establish such a system at \$250,000, with potential maximum cost of approximately \$1,000,000, depending on program specifications and the level of customization that would be required for Oklahoma's voter registration system. Specifications would include a secure website, development of an interface with driver license information from the Department of Public Safety, and interface with the state's current voter registration system.
