

BILL SUMMARY
2nd Session of the 55th Legislature

Bill No.:	HB 2348
Version:	Committee Substitute
Request Number:	8948
Author:	Representative Roberts, D.
Date:	2/4/2016
Impact:	None to the State; Minimal Cost Shift from OMES to OMD

Research Analysis

HB 2348 would allow Oklahoma Army National Guard and Air National Guard personnel to carry a weapon in Oklahoma Military Department facilities, if they have a valid Oklahoma Self-Defense Act license.

The measure also authorizes the Adjutant General, when not in the state, to delegate his or her duties to an Assistant Adjutant General or other state officer or employee.

Finally, state-owned vehicles would be available for use by Oklahoma Military Department youth programs, and some vehicles used by the department would be exempt from certain marking and requisition requirements.

Prepared By: Sean Webster

Fiscal Analysis

Provisions of the measure relating to handgun possession and delegation of authority from the Adjutant General to the Assistant Adjutant General do not impact state revenues. Provisions related to vehicle operations for youth programs, vehicle leasing, and vehicle marking do not impact state revenues but may shift costs less than \$20,000 from OMES to OMD in the short term, as OMD will no longer lease vehicles from OMES. OMD estimates a like amount in long-term annual savings to have control of the agency's fleet, given the distances driven.
