Fiscal Analysis

The third amendment on FA1 of SB 1142 strikes the language in the bill which repeals current language. Thereby restoring the following:

A. During designated deer hunting seasons for primitive firearms and guns as specified in rules promulgated by the Department of Wildlife Conservation, an owner of private property shall not kill or attempt to kill feral swine during daylight hours that is damaging the property of the owner without first obtaining a special permit from the local game warden or other authorized employee of the Department of Wildlife Conservation. The special permit shall allow the owner and one person of lineal or collateral descent to kill feral swine on the property of the owner. The special permit shall be provided at no cost.

B. All other persons shall be required to obtain licenses and tags as required by the Oklahoma Wildlife Conservation Code and rules promulgated thereto.

C. Any person with a valid license to hunt deer is exempt from the requirements of this section during the appropriate licensed season.

The fiscal impact is \$0 to the state, as the restored language re-establishes an existing license and associated fees.
