Research Analysis

The bill removes the list of requirements for school districts to follow under the School District Empowerment Program, provided a district may adopt any policy that is consistent with any statutory requirement, mandate or State Board of Education rule.

The State Board will promulgate rules to determine when an empowered school district or site will lose its status based on student achievement and/or academic growth. If an empowerment plan alters the terms of a collective bargaining agreement, a 60 percent supermajority will be required of the membership of the local collective bargaining unit.
