Fiscal Analysis

HB1387 increases the amount of time a person shall spend in DOC custody for violating provisions of this Act, as well as imposes a payment of restitution (some of which will go to the Department of Agriculture).

The restitution will be “equal to three times the value of the animals or implement of husbandry that was stolen.”

At this time, it is difficult to determine the effect said restitution will have on the Department of Agriculture’s revenue. However, it is prudent to note that said restitution would be subtracted/diverted from those usually received by the Courts.
