3 Quality Standards" which establish classifications of uses of waters
4 of the state, criteria to maintain and protect such classifications,
5 and other standards or policies pertaining to the quality of such
6 waters.

7 2. The Oklahoma Water Quality Standards shall, at a minimum, be
8 designed to maintain and protect the quality of the waters of the
9 state.

10 3. Wherever the Board finds it is practical and in the public
11 interest to do so, the rules may be amended to upgrade and improve
12 progressively the quality of waters of the state.

13 4. a. The Board may also amend Oklahoma Water Quality
14 Standards to downgrade a designated use of any waters
15 of this state which is not an existing use, may

20 required of the current or a higher or upgraded classification would
21 result in substantial and widespread social and economic impact, the
22 Board shall, in addition to any hearing required by subsection B of
23 this section, conduct a public meeting within a central location
24 within the area to be affected. The Board shall cause notice of

1 such additional public meeting to be published for at least two (2)

18 any modification or change thereof, the Board shall announce a
19 reasonable time for persons discharging waste into the waters of the
20 state to comply with such new or modified standards unless such
21 discharges create an actual or potential hazard to public health.

22 3. Any discharge in accord with such standards of the Board and
23 in compliance with rules, requirements and wasteload allocations
24 established by the Department of Environmental Quality and with

1 rules promulgated by other state environmental agencies shall not be
2 deemed to be pollution.

3 4. Notwithstanding the implementation jurisdiction provided to
4 the Board in paragraph 1 of subsection C of this section, the
5 Department of Environmental Quality shall have jurisdiction to
6 develop and utilize policies and requirements, as provided in
7 paragraph 22 of subsection B of Section 1-3-101 of Title 27A of the
