STATE OF OKLAHOMA

1st Session of the 56th Legislature (2017)

FLOOR SUBSTITUTE
FOR

SENATE BILL NO.518

By: Smalley and Marlatt of the
Senate

and

Rogers of the House

FLOOR SUBSTITUTE

An Act relating to health maintenance organizations;
amending 36 O.S. 2011, Sections 6907 and 6913, as
amended by Section 19, Chapter 275, O.S.L. 2014 (36
O.S. Supp. 2016, Section 6913), which relate to
credentialing of health care providers and
determination of liabilities; designating certain
providers as out-of-network; prohibiting out-of-
network providers from charging certain fees; and
providing an effective date.

BE IT ENACTED BY THE PEOPLE OF THE STATE OF OKLAHOMA:

SECTION 1. AMENDATORY 36 O.S. 2011, Section 6907, is
amended to read as follows:

Section 6907. A. Every health maintenance organization shall
establish procedures that ensure that health care services provided
to enrollees shall be rendered under reasonable standards of quality
of care consistent with prevailing professionally recognized

1 standards of medical practice. The procedures shall include
2 mechanisms to assure availability, accessibility and continuity of
3 care.

4 B. The health maintenance organization shall have an ongoing
5 internal quality assurance program to monitor and evaluate its
6 health care services, including primary and specialist physician
7 services and ancillary and preventive health care services across
8 all institutional and noninstitutional settings. The program shall
9 include, but need not be limited to, the following:

10 1. A written statement of goals and objectives that emphasizes
11 improved health status in evaluating the quality of care rendered to
12 enrollees;

13 2. A written quality assurance plan that describes the
14 following:

- 15 a. the health maintenance organization's scope and
16 purpose in quality assurance,
- 17 b. the organizational structure responsible for quality
18 assurance activities,
- 19 c. contractual arrangements, where appropriate, for
20 delegation of quality assurance activities,
- 21 d. confidentiality policies and procedures,
- 22 e. a system of ongoing evaluation activities,
- 23 f. a system of focused evaluation activities,

24

- g. a system for credentialing and recredentialing providers, and performing peer review activities, and
- h. duties and responsibilities of the designated physician responsible for the quality assurance activities;

3. A written statement describing the system of ongoing quality assurance activities including:

- a. problem assessment, identification, selection and study,
- b. corrective action, monitoring, evaluation and reassessment, and
- c. interpretation and analysis of patterns of care rendered to individual patients by individual providers;

4. A written statement describing the system of focused quality assurance activities based on representative samples of the enrolled population that identifies method of topic selection, study, data collection, analysis, interpretation and report format; and

5. Written plans for taking appropriate corrective action whenever, as determined by the quality assurance program, inappropriate or substandard services have been provided or services that should have been furnished have not been provided.

C. The organization shall record proceedings of formal quality assurance program activities and maintain documentation in a

1 confidential manner. Quality assurance program minutes shall be
2 available to the State Commissioner of Health.

3 D. The organization shall ensure the use and maintenance of an
4 adequate patient record system which will facilitate documentation
5 and retrieval of clinical information for the purpose of the health
6 maintenance organization's evaluating continuity and coordination of
7 patient care and assessing the quality of health and medical care
8 provided to enrollees.

9 E. Enrollee clinical records shall be available to the State
10 Commissioner of Health or an authorized designee for examination and
11 review to ascertain compliance with this section, or as deemed
12 necessary by the State Commissioner of Health.

13 F. The organization shall establish a mechanism for periodic
14 reporting of quality assurance program activities to the governing
15 body, providers and appropriate organization staff.

16 G. The organization shall be required to establish a mechanism
17 under which physicians participating in the plan may provide input
18 into the plan's medical policy including, but not limited to,
19 coverage of new technology and procedures, utilization review
20 criteria and procedures, quality, credentialing and recredentialing
21 criteria, and medical management procedures.

22 H. As used in this section "credentialing" or
23 "recredentialing", as applied to physicians and other health care
24 providers, means the process of accessing and validating the

1 qualifications of such persons to provide health care services to
2 the beneficiaries of a health maintenance organization.
3 "Credentialing" or "recredentialing" may include, but need not be
4 limited to, an evaluation of licensure status, education, training,
5 experience, competence and professional judgment. Credentialing or
6 recredentialing is a prerequisite to the final decision of a health
7 maintenance organization to permit initial or continued
8 participation by a physician or other health care provider.

9 1. Physician credentialing and recredentialing shall be based
10 on criteria as provided in the uniform credentialing application
11 required by Section 1-106.2 of Title 63 of the Oklahoma Statutes,
12 with input from physicians and other health care providers.

13 2. Organizations shall make information on credentialing and
14 recredentialing criteria available to physician applicants and other
15 health care providers, participating physicians, and other
16 participating health care providers and shall provide applicants
17 with a checklist of materials required in the application process.

18 3. When economic considerations are part of the credentialing
19 and recredentialing decision, objective criteria shall be used and
20 shall be available to physician applicants and participating
21 physicians. When graduate medical education is a consideration in
22 the credentialing and recredentialing process, equal recognition
23 shall be given to training programs accredited by the Accrediting
24 Council on Graduate Medical Education and by the American

1 Osteopathic Association. When graduate medical education is
2 considered for optometric physicians, consideration shall be given
3 for educational accreditation by the Council on Optometric
4 Education.

5 4. Physicians or other health care providers under
6 consideration to provide health care services under a managed care
7 plan in this state shall apply for credentialing and recredentialing
8 on the uniform credentialing application and provide the
9 documentation as outlined by the plan's checklist of materials
10 required in the application process.

11 5. A health maintenance organization (HMO) shall determine
12 whether a credentialing or recredentialing application is complete.
13 If an application is determined to be incomplete, the plan shall
14 notify the applicant in writing within ten (10) calendar days of
15 receipt of the application. The written notice shall specify the
16 portion of the application that is causing a delay in processing and
17 explain any additional information or corrections needed.

18 6. In reviewing the application, the health maintenance
19 organization (HMO) shall evaluate each application according to the
20 plan's checklist of materials required in the application process.

21 7. When an application is deemed complete, the HMO shall
22 initiate requests for primary source verification and malpractice
23 history within seven (7) calendar days.

24

1 8. A malpractice carrier shall have twenty-one (21) calendar
2 days within which to respond after receipt of an inquiry from a
3 health maintenance organization (HMO). Any malpractice carrier that
4 fails to respond to an inquiry within the allotted time frame may be
5 assessed an administrative penalty by the State Commissioner of
6 Health.

7 9. Upon receipt of primary source verification and malpractice
8 history by the HMO, the HMO shall determine if the application is a
9 clean application. If the application is deemed clean, the HMO
10 shall have forty-five (45) calendar days within which to credential
11 or recredential a physician or other health care provider. As used
12 in this paragraph, "clean application" means an application that has
13 no defect, misstatement of facts, improprieties, including a lack of
14 any required substantiating documentation, or particular
15 circumstance requiring special treatment that impedes prompt
16 credentialing or recredentialing.

17 10. If a health maintenance organization is unable to
18 credential or recredential a physician or other health care provider
19 due to an application's not being clean, the HMO may extend the
20 credentialing or recredentialing process for sixty (60) calendar
21 days. At the end of sixty (60) calendar days, if the HMO is
22 awaiting documentation to complete the application, the physician or
23 other health care provider shall be notified of the delay by
24 certified mail. The physician or other health care provider may

1 extend the sixty-day period upon written notice to the HMO within
2 ten (10) calendar days; otherwise the application shall be deemed
3 withdrawn.

4 11. In no event shall the entire credentialing or
5 recredentialing process exceed one hundred eighty (180) calendar
6 days.

7 12. A health maintenance organization shall be prohibited from
8 solely basing a denial of an application for credentialing or
9 recredentialing on the lack of board certification or board
10 eligibility and from adding new requirements solely for the purpose
11 of delaying an application.

12 13. Any HMO that violates the provisions of this subsection may
13 be assessed an administrative penalty by the State Commissioner of
14 Health.

15 I. Health maintenance organizations shall not discriminate
16 against enrollees with expensive medical conditions by excluding
17 practitioners with practices containing a substantial number of
18 these patients.

19 J. Health maintenance organizations shall, upon request,
20 provide to a physician whose contract is terminated or not renewed
21 for cause the reasons for termination or nonrenewal. Health
22 maintenance organizations shall not contractually prohibit such
23 requests.

1 K. No HMO shall engage in the practice of medicine or any other
2 profession except as provided by law nor shall an HMO include any
3 provision in a provider contract that precludes or discourages a
4 health maintenance organization's providers from:

5 1. Informing a patient of the care the patient requires,
6 including treatments or services not provided or reimbursed under
7 the patient's HMO; or

8 2. Advocating on behalf of a patient before the HMO.

9 L. Decisions by a health maintenance organization to authorize
10 or deny coverage for an emergency service shall be based on the
11 patient presenting symptoms arising from any injury, illness, or
12 condition manifesting itself by acute symptoms of sufficient
13 severity, including severe pain, such that a reasonable and prudent
14 layperson could expect the absence of medical attention to result in
15 serious:

16 1. Jeopardy to the health of the patient;

17 2. Impairment of bodily function; or

18 3. Dysfunction of any bodily organ or part.

19 M. Health maintenance organizations shall not deny an otherwise
20 covered emergency service based solely upon lack of notification to
21 the HMO.

22 N. Health maintenance organizations shall compensate a provider
23 for patient screening, evaluation, and examination services that are
24 reasonably calculated to assist the provider in determining whether

1 the condition of the patient requires emergency service. If the
2 provider determines that the patient does not require emergency
3 service, coverage for services rendered subsequent to that
4 determination shall be governed by the HMO contract.

5 O. Providers that choose to not contract with an HMO are deemed
6 out-of-network. Any out-of-network provider who provides emergency
7 services to an HMO enrollee may not charge the enrollee for amounts
8 other than applicable copayments or deductibles.

9 P. If within a period of thirty (30) minutes after receiving a
10 request from a hospital emergency department for a specialty
11 consultation, a health maintenance organization fails to identify an
12 appropriate specialist who is available and willing to assume the
13 care of the enrollee, the emergency department may arrange for
14 emergency services by an appropriate specialist that are medically
15 necessary to attain stabilization of an emergency medical condition,
16 and the HMO shall not deny coverage for the services due to lack of
17 prior authorization.

18 ~~P.~~ Q. The reimbursement policies and patient transfer
19 requirements of a health maintenance organization shall not,
20 directly or indirectly, require a hospital emergency department or
21 provider to violate the federal Emergency Medical Treatment and
22 Active Labor Act. If a member of an HMO is transferred from a
23 hospital emergency department facility to another medical facility,
24 the HMO shall reimburse the transferring facility and provider for

1 services provided to attain stabilization of the emergency medical
2 condition of the member in accordance with the federal Emergency
3 Medical Treatment and Active Labor Act.

4 SECTION 2. AMENDATORY 36 O.S. 2011, Section 6913, as
5 amended by Section 19, Chapter 275, O.S.L. 2014 (36 O.S. Supp. 2016,
6 Section 6913), is amended to read as follows:

7 Section 6913. A. 1. Before issuing any certificate of
8 authority, the Insurance Commissioner shall require that the health
9 maintenance organization have an initial net worth of One Million
10 Five Hundred Thousand Dollars (\$1,500,000.00) and that the HMO shall
11 thereafter maintain the minimum net worth required under paragraph 2
12 of this subsection.

13 2. Except as provided in paragraphs 3 and 4 of this subsection,
14 every health maintenance organization shall maintain a minimum net
15 worth equal to the greater of:

16 a. One Million Five Hundred Thousand Dollars
17 (\$1,500,000.00),

18 b. two percent (2%) of annual premium revenues as
19 reported on the most recent annual financial statement
20 filed with the Commissioner on the first One Hundred
21 Fifty Million Dollars (\$150,000,000.00) of premium and
22 one percent (1%) of annual premium on the premium in
23 excess of One Hundred Fifty Million Dollars
24 (\$150,000,000.00),

1 c. an amount equal to the sum of three (3) months of
2 uncovered health care expenditures as reported on the
3 most recent financial statement filed with the
4 Commissioner, or

5 d. an amount equal to the sum of:

6 (1) eight percent (8%) of annual health care
7 expenditures, except those paid on a capitated
8 basis or managed hospital payment basis, as
9 reported on the most recent financial statement
10 filed with the Commissioner, and

11 (2) four percent (4%) of annual hospital expenditures
12 paid on a managed hospital payment basis, as
13 reported on the most recent financial statement
14 filed with the Commissioner.

15 3. Every health maintenance organization licensed before
16 November 1, 2003, shall maintain a minimum net worth of the greater
17 of Seven Hundred Fifty Thousand Dollars (\$750,000.00) or:

18 a. twenty-five percent (25%) of the amount required by
19 paragraph 2 of this subsection by December 31, 2003,

20 b. fifty percent (50%) of the amount required by
21 paragraph 2 of this subsection by December 31, 2004,

22 c. seventy-five percent (75%) of the amount required by
23 paragraph 2 of this subsection by December 31, 2005,
24 and

d. one hundred percent (100%) of the amount required by paragraph 2 of this subsection by December 31, 2006.

4. a. In determining net worth, no debt shall be considered fully subordinated unless the subordination clause is in a form acceptable to the Commissioner. An interest obligation relating to the repayment of any subordinated debt shall be similarly subordinated.

b. The interest expenses relating to the repayment of a fully subordinated debt shall be considered covered expenses.

c. A debt incurred by a note meeting the requirements of this section, and otherwise acceptable to the Insurance Commissioner, shall not be considered a liability and shall be recorded as equity.

B. 1. Unless otherwise provided below, each health maintenance organization shall deposit with the Commissioner or, at the discretion of the Commissioner, with any organization or trustee acceptable to the Commissioner through which a custodial or controlled account is utilized, cash, securities, or any combination of these or other measures that are acceptable to the Commissioner, which at all times shall have a value of not less than Five Hundred Thousand Dollars (\$500,000.00).

2. The deposit shall be an admitted asset of the health maintenance organization in the determination of net worth.

1 3. All income from deposits shall be an asset of the
2 organization. A health maintenance organization that has made a
3 securities deposit may withdraw that deposit or any part thereof
4 after making a substitute deposit of cash, securities, or any
5 combination of these or other measures of equal amount and value.
6 Any securities shall be approved by the Commissioner before being
7 deposited or substituted.

8 4. The deposit shall be used to protect the interests of the
9 health maintenance organization's enrollees and to ensure
10 continuation of health care services to enrollees of a health
11 maintenance organization that is in rehabilitation or conservation.
12 The Commissioner may use the deposit for administrative costs
13 directly attributable to a receivership or liquidation. If a health
14 maintenance organization is placed in receivership or liquidation,
15 the deposit shall be an asset subject to the provisions of the
16 Uniform Insurers Liquidation Act.

17 5. The Insurance Commissioner may reduce or eliminate the
18 deposit requirement if a health maintenance organization deposits
19 with the Commissioner or other official body of the state or
20 jurisdiction of domicile for the protection of all subscribers and
21 enrollees of the health maintenance organization, wherever located,
22 cash, acceptable securities or surety, and delivers to the
23 Commissioner a certificate to that effect, duly authenticated by the
24 appropriate state official holding the deposit.

1 C. 1. Every health maintenance organization shall, when
2 determining liabilities, include an amount estimated in the
3 aggregate to provide for:

4 a. any unearned premium,

5 b. the payment of all claims for incurred health care
6 expenditures, whether reported or unreported, that are
7 unpaid and for which the organization is or may be
8 liable, and

9 c. the expense of adjustment or settlement of those
10 claims.

11 2. The liabilities shall be computed in accordance with rules
12 promulgated by the Commissioner upon reasonable consideration of the
13 ascertained experience and character of the health maintenance
14 organization.

15 D. 1. Every contract between a health maintenance organization
16 and a participating provider of health care services shall be in
17 writing and shall provide that, in the event the health maintenance
18 organization fails to pay for health care services as set forth in
19 the contract, a subscriber or an enrollee shall not be liable to the
20 provider for any sums owed by the health maintenance organization.

21 2. In the event that the participating provider contract has
22 not been reduced to writing as required by this subsection or that
23 the contract fails to contain the required prohibition, the
24 participating provider shall not collect or attempt to collect from

1 a subscriber or an enrollee sums owed by the health maintenance
2 organization.

3 3. No participating provider or the provider's agent, trustee
4 or assignee may maintain an action at law against a subscriber or
5 enrollee to collect sums owed by the health maintenance
6 organization.

7 4. Providers that choose to not contract with an HMO are deemed
8 out-of-network. Any out-of-network provider who provides emergency
9 services to an HMO enrollee may not charge the enrollee for amounts
10 other than applicable copayments or deductibles.

11 E. The Commissioner shall require that each health maintenance
12 organization have a plan for handling insolvency that allows for
13 continuation of benefits for the duration of the contract period for
14 which premiums have been paid and continuation of benefits to
15 subscribers or enrollees who are confined on the date of insolvency
16 in an inpatient facility until their discharge or expiration of
17 benefits. In considering such a plan, the Commissioner may require:

18 1. Insurance to cover the expenses to be paid for continued
19 benefits after an insolvency;

20 2. Provisions in provider contracts that obligate the provider
21 to provide services for the duration of the period after the health
22 maintenance organization's insolvency for which premium payment has
23 been made and until the enrollees' discharge from inpatient
24 facilities;

1 3. Insolvency reserves;

2 4. Acceptable letters of credit; or

3 5. Any other arrangements to ensure continuation of benefits as
4 specified above.

5 F. An agreement to provide health care services between a
6 provider and a health maintenance organization shall require that if
7 the provider terminates the agreement, the provider shall give the
8 organization at least ninety (90) days' advance notice of such
9 termination.

10 SECTION 3. This act shall become effective November 1, 2017.
