Fiscal Analysis

Modifying the fee for permit issuance by restoring to the original \$5.00 would result in an increase in the amount of fee revenue transferred to the General Revenue Fund. Fee revenue for the UBCC, which the agency reported as coming from permit issuances (as opposed to renewals), totaled \$528,872 in FY-16 and \$584,641 in FY-15.³ 10 percent of fee revenue remitted to the General Revenue Fund, based on an average of two years of data, could total approx. \$56,000.
