Research Analysis

The introduced measure relates to liens placed on a homestead by the Oklahoma Health Care Authority against a recipient for payments made on their behalf for nursing facility care. The measure updates statutory references and modifies from what point in time the amount of the lien is calculated. Additionally, it allows for a lien to be placed on the nonhomestead real property of the recipient and permits the Authority to assign the lien to another. Heirs may discharge the lien at any time by paying the amount of the lien or by paying the lesser amount if the value of the property at the time of the sale or transfer is less.
