**Research Analysis**

The introduced measure amends the procedure for disinterment permits. An application for such a permit must include: the consent of the cemetery, the consent of the interment right owner, and the consent of the next of kin. A permit will not be required if a dead body or fetus is to be disinterred and reinterred in the same cemetery, but a notice of disinterment and reinterment must be completed, signed by the funeral director and the next of kin, and then submitted to the State Registrar of Vital Records within five days. The disinterment permit and notice of disinterment and reinterment must be obtained from the state registrar.
