

BILL SUMMARY
2nd Session of the 56th Legislature

Bill No.:	HB2769
Version:	Introduced
Request Number:	9081
Author:	Osburn
Date:	2/7/2018
Impact:	Governor: potential impact dependent on appointment behavior

Research Analysis

HB 2769 prohibits agency directors from serving as Secretary in the Governor's cabinet.

Prepared By: Marcia Goff

Fiscal Analysis

The compensation schedule for cabinet secretaries is controlled by Title 74 O.S. Section 10.5; the section provides a salary schedule but not all acting cabinet secretaries are paid under the schedule. The salary paid to a cabinet member is the greater of the salary provided in the compensation schedule or the existing state salary for the cabinet member if the cabinet member is also functioning as a state employee. The compensation for cabinet secretaries is paid through the budget of the Governor, in instances where an individual cabinet secretary is paid pursuant to the compensation schedule. The compensation schedule in 74 O.S. Section 10.5, provides for 10 cabinet secretary positions, the average of the salaries provided in the schedule is \$73,500.

HB 2769 makes no change to the salary schedule provided in 74 O.S. 10.5., but the measure will modify the behavior of the Governor when making some cabinet appointments, by prohibiting the appointment of agency chief executives. This change in behavior could cause the Governor to make more cabinet appointments that would be paid through the salary schedule provided in 74 O.S. 10.5, the costs of which would impact the Governor's budget. Whether such impact occurs and to what extent, is dependent on the Governor's appointment decisions.
