**Research Analysis**

HB3072, as introduced, amends the Security of Information Act. The measure:

- allows law enforcement officers of this state to share any wire, oral or electronic communication obtained through means authorized by act with law enforcement officers of another state;
- provides that recordings, applications, orders and pleading granted or reviewed by a presiding judge of a multi-county grand jury be filed with the Clerk of the Appellate Courts;
- modifies the definition of *pen register* and *trap and trace device*;
- provides an exception for using a pen register or trap and trace device without a court order when the request comes from a law enforcement officer and an emergency exists that involves an immediate danger of death or serious bodily injury; and
- Provides that court-authorized monitoring through a tracking device that does not require physical installation may be granted by any magistrate when there is probable cause evidence that an offense has been, is, or may be committed in the jurisdiction of the magistrate.
