Research Analysis

HB3303, as introduced, creates the Work-based Learning Program under the authority of the Governor's Council on Workforce and Economic Development. The measure directs the council to coordinate the program by creating partnership with the State Department of Education, the State Regents for Higher Education, the State Department of Career and Technology Education, the Secretary of State and businesses throughout the state. The measure outlines the structure of the program and establishes procedures to register participating businesses as an active participant in the program. Registration of a work-based learning program with the Secretary of State's office will cost \$50 in the first year and \$25 for each renewal year. The goal of the program is to generate at least 20,000 registered apprenticeship and internship positions by the end of 2020.
