

BILL SUMMARY
2nd Session of the 56th Legislature

Bill No.:	HB 3315
Version:	INT
Request Number:	9528
Author:	Rep. Baker
Date:	2/19/2018
Impact:	Possible Local District Savings: Unable to Reliably Determine

Research Analysis

The introduced measure eliminates the CPR instruction requirement for high school students.

Prepared By: Scott Tohlen

Fiscal Analysis

The elimination of mandatory cardiopulmonary resuscitation (CPR) during each students' high school years may result in an undeterminable savings to the extent that outlay was required to provide the training. Officials with the State Department of Education indicate the ability to identify the amount of savings is limited.
