Author:	Wallace
Date:	3/2/2018
Impact:	FY-19 Estimated State Revenue: \$24 M

Research Analysis

The committee substitute for HB3375 provides state approval for new game offerings under the State Tribal Gaming Act. Tribes may elect to begin offering non-house banked table games and sports pools by submitting a written supplement to an existing gaming compact with the state. The agreement requires a tribe to pay the state 10 percent of the monthly net wins from the operation of non-house banked table games and sports pools.

Fiscal Analysis

(Revised 3-5-2018)

HB 3375 in its current form would expand state-tribal gaming in the state by offering compact supplements related to non-house-banked table games and sports pools. Under the provisions of the supplements participating tribes would pay to the state exclusivity fees in the amount of 10% of the monthly net of such games. Such fees would be apportioned under current state statutes: 88% to the Education Reform Revolving Fund, and 12% to the General Revenue Fund.

Exclusivity fee revenue resulting from the introduction of non-house-banked table games is estimated to be approximately \$24 Million in State Fiscal Year 2019. Such amount would be apportioned as follows:

- \$21.1 Million to the Education Reform Revolving Fund, and
- \$2.9 Million to the General Revenue Fund.

Exclusivity fee revenue resulting from sports pools is estimated to be approximately \$9.8 Million per year once implemented, though implementation is not expected to occur in State Fiscal Year 2019. Such amounts, if realized, would be apportioned as follows:

- \$8.6 Million to the Education Reform Revolving Fund, and
- \$1.2 Million to the General Revenue Fund.

Other Considerations

HB 3375's supplement offering related to Sports Pools is contingent upon the modification or the overruling of current federal regulations prohibiting such sports pools. Absent a change in federal prohibition of sports books, no revenue will be realized as a result of sports books in Oklahoma.
