Research Analysis

The proposed committee substitute to HB 3393 directs all penal institutions, detention centers and county jails to use the least restrictive restraints necessary when the facility has actual or constructive knowledge that an inmate is pregnant. The measure prohibits the use of any kind of restraint when transporting an inmate who is in labor, while the inmate is delivering the baby, or while the inmate is recuperating from the delivery. The measure creates a misdemeanor punishment for any correctional officer found guilty of using restraints on a pregnant inmate, subject to imprisonment of up to one year in the county jail, a fine of up to \$1,000 or both fine and imprisonment.
