

**BILL SUMMARY**  
2<sup>nd</sup> Session of the 56<sup>th</sup> Legislature

<b>Bill No.:</b>	<b>HB 3405</b>
<b>Version:</b>	<b>SAHB</b>
<b>Request Number:</b>	
<b>Author:</b>	<b>Rep. Watson</b>
<b>Date:</b>	<b>5/01/2018</b>
<b>Impact:</b>	<b>OWRB: An increase in number of permitting fees to offset 50% cost of 1 FTE</b>

**Research Analysis**

The Senate Amendment to HB 3405 modifies the definition of marginal water to mean water that has between 5,000 and 10,000 parts per million total dissolved solids.

Prepared By: Tricia Hines

**Fiscal Analysis**

Per Oklahoma Water Resources Board (OWRB), the measure provides the agency authorization to permit marginal quality groundwater ranging from 5000 to 10,000 parts per million of total dissolved solids. Provisions of this measure would have a fiscal impact of one FTE at \$150,000 annually, for water right permitting activities, well construction review, legal hearings and technical studies, plus direct, indirect and fringe costs that would be needed to meet the demand for these permits. The OWRB anticipates the increased permitting fees could recover approximately 50% of the realized fiscal impact.

Prepared By: Jenny Mobley

**Other Considerations**

None.
