Research Analysis

Senate Amendments to HJR 1043 authorize a delegation of commissioners to participate in a gathering of states to prepare for an Article V Convention, at which time amendments to the U.S. Constitution would be proposed to require a balanced federal budget or otherwise impose restraints on federal spending, to limit the power and jurisdiction of the federal government, and limit the terms of office for federal officials and members of Congress. The measure provides for the appointment of commissioners to serve in both capacities and defines their roles and responsibilities.
