Fiscal Analysis

SB 1005 increases the number of situations that can be charged as forcible sodomy and creates a new felony charge. This could increase the number of individuals incarcerated. The current average cost of incarcerating one person in DOC custody for the State of Oklahoma is \$58.70/day or \$21,425.50/year. The ultimate fiscal impact is contingent upon how many individuals are convicted of the crime and the length of their sentence.
