

BILL SUMMARY
2nd Session of the 56th Legislature

Bill No.:	SB 1103
Version:	ENGR
Request Number:	
Author:	Rep. McEntire
Date:	4/2/2018
Impact: OMES: Anticipated impact of approximately	
\$376,000 for FY-19.	

Research Analysis

SB 1103 changes the requirement that all health benefit plans include coverage for mammography screening. Health benefit plans would be required only to cover low-dose mammography.

Prepared By: Sean Webster

Fiscal Analysis

The Office of Management and Enterprise Services (OMES), estimates that approximately 7,700 HealthChoice members had 3D mammograms for FY-2017. The plan paid \$575,000 and the members paid \$376,000. The current wording of the measure, per OMES, has an anticipated increased cost to the plan for “coverage with no member cost” of approximately of \$376,000 for FY-19.
