**Fiscal Analysis**

SB 1400 is a generalized agency consolidation bill, without specifically identified or mandated savings. The measure consolidates the Oklahoma Lieutenant Governor's Office and the Oklahoma Department of Commerce. The basis for this fiscal impact statement is a previous agency consolidation- specifically the creation of the Office of Management and Enterprise Services (OMES), where the Legislature mandated a 15% savings be generated as a result of the consolidations.

If one makes a similar assumption, consolidating a larger agency into the smaller, then estimated savings generated could result for the Office of the Oklahoma Lieutenant Governor, (based on the FY-18 appropriation of \$370,258 at 15%) would be \$55,539. As there are several unknowns, this analysis is based wholly on estimates. The actual realized savings can, and will, vary considerably depending on how the agency decides to move forward with the consolidation directive.
