Research Analysis

SB 1535 modifies the definition of *residential roofing contractor work* in the Roofing Contractor Registration Act, to include buildings used for commercial purposes having materials applied to a sloped roof covering equal to the same roofing requirements as a residence.

Fiscal Analysis

The measure broadens the language for requirements of commercial roofers. The Construction Industries Board (CIB), a nonappropriated agency, anticipates a loss of revenue to the agency, which will be absorbed by existing agency resources. The agency is unable to provide an estimate for such loss.

The measure has no direct fiscal impact on state appropriations.
