**Full Year Impact:** Add'l Cost to DHS

**Bill Summary and Comments:** An Act relating to guardianship of a minor; Amending 30 O.S. 2011, Section 2-101. This bill requires additional levels of in-depth background checks from agency sources including DOC, DHS, and OSBI on persons being considered for guardianship of a minor. For each of the involved agencies, the turnaround times on each case finding may increase simply due to the overall increase in data entries.

It is anticipated that there could be around 2,750 additional cases to run per year.

At this rate, DOC & OSBI will be able to take on additional caseload entries with current FTE.

DHS has expressed they could need 1 additional FTE to handle the increased caseload entries.
