

Oklahoma State Senate

Bill Summary and Fiscal Impact

Agency: OBNDD; OSBI; DPS - Hwy Patrol

Bill Number: SB 1304

Senate Author: Thompson

House Author: McDugle

FY '19 Impact: No Fiscal Impact; Cost Savings to Agencies

Full Year Impact: No Fiscal Impact; Cost Savings to Agencies

Bill Summary and Comments: SB 1304 moves to consolidate OBNDD and OSBI in the areas of data sharing, communications, regional offices, training, and tools with further instructions to research other areas of operations that could be consolidated to increase cost and time efficiencies. While OSBI and OBNDD are currently performing many of these consolidation tactics, consolidating regional offices could result in savings on annual building rent, building maintenance, office space, conference rooms, and other shared offices spaces. This joining of regional offices could also make it possible to consolidate certain office positions that could serve both OSBI and OBNDD equally. When taking in all these considerations, if the four offices specified in the bill were consolidated, potential savings could be around \$250,500 annually.
